Elbert complied in spite of the woman's screams, and the men began to fire at each other in the front yard. Seldon was killed at the second shot, and his cousin was mortally wounded.

Carter's Little Liver Pills must not be confounded with common cathartic or purgative Pills as they are entirely unlike them in every respect. One trial will prove their superiority.

Among the incidents of the adventurous life of the late Ned Buntline (Edward Z. C. Judson) were the following: "At the age of eleven he ran away from home and went to sea as a cabin boy. He next shipped as an apprentice boy on board a man-of-war, and at thirteen President Van Buren sent him a commission as a midshipman for his gallant conduct in rescuing the crew of a boat which had been run down by a Fulton ferry boat in the East river, New York. He was assigned to the U. S. S. Levant, where the other middies refused to mess with him because he had served before the mast. The Levant was ordered to join the Gulf squadron, and while on her way Judson challenged thirteen of the midshipmen to fight. Seven duels resulted, fought in Florida, New Orleans and Havana. Judson wounded four of his antagonists, but came out unhurt himself. The outcome of this was his resignation from the service, June 8th, 1842. During the late war he did gallant service as chief of scouts. He carried with him to the grave thirteen wounds, seven of which he received in battle."

BENTON'S HAIR GROWER.

All who are BALD, all who are becoming BALD, all who do not want to be BALD, all who are troubled with DANDRUFF, or ITCHING of the scalp; should use Benton's Hair Grower. EIGHTY PER CENT of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of Hair on those who have been bald and glazed for years, we have fully substantiated the following facts:

We grow Hair in 80 cases out of 100, no matter how long bald.

Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a specific for falling hair, dandruff, and itching of the scalp.

The Hair Grower is a hair food, and its composition is almost exactly like the oil which supplies the hair with its vitality.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

Diphtheria.

Diphtheria is a terrible disease, and when it breaks out in a school, or in a family where there are several children, unless the very best precautions are observed it is likely to spread, for it is a disease that may be communicated from one person to another. It is contagious. Regarding the different measures employed to prevent the spread of this disease, we very greatly prefer the fumes of burning sulphur. We regard sulphur as the most effective disinfectant we can use for the purpose of preventing the spread of diphtheria in schools and in families where several children are exposed, and it has a salutary effect upon those already suffering from the disease. We have had the care of scores of diphtheria patients, and we can refer to quite a number of families of children where the disease was limited to one child, and we verily believe that the fumes of burning sulphur were instrumental in preventing the spread of the disease in these cases.

In all cases where diphtheria breaks out in a school, no children should be permitted to go to the school from houses where the disease exists. After school hours, in the evening, the school rooms should be thoroughly fumigated with sulphur. This should be done daily, but the house should be free from the sulphur fumes during school hours, for the coughing and sneezing that might result from the sulphur fumes would create great annoyance and confusion. Where diphtheria prevails in a family, the patient or patients, if there are two or three attacked at the same time, should be isolated, confined to one room, and all the children not affected should be kept in some remote part of the house, or removed from the house entirely if practicable. In either case, whether any of the children are removed from the house or not, every room, including the one occupied by the patient, should be fumigated with sulphur two or three times daily.

The most convenient method of fumigating is to drop a small pinch of sulphur upon a hot stove, if there is one in the room; if there be no stove in the room, a few coals on a shovel or other convenient utensil may be carried into the room, and the sulphur may be dropped on the coals. A little experience will soon enable any one to determine how much sulphur to burn in each room. It is not necessary to fill the room so full of these sulphur fumes as to suffocate us, and if we happen to burn a little too much sulphur in any given case, and the fumes become offensive, the doors and windows can be opened for a minute or two.

Other disinfectants may be employed, but these sulphur fumes will permeate every crevice in the house; they are breathed by us, our clothes are saturated with them, and, withal, we regard this as the most practical and effectual method of disinfection against the spread of diphtheria that can be adopted. And where diphtheria prevails in a neighborhood, and families fear its outbreak among their children, they should resort to sulphur fumigation daily, whether diphtheria has appeared in the house or not; this may prevent its outbreak in families that might otherwise suffer from it. At least this precaution does not cost much, and can do no harm. These sulphur fumes will do us no injury.—*American Med. Journal.*

Jeff Davis's Book.

Appleton, the publisher, thought the story of the war written by Jeff Davis would be a great hit, says the Cleveland *Leader*. It would probably be full of gossip and personal reminiscences, and coming from such a classical scholar as Davis ought to be well written. He wrote to Davis and asked him if he would write such a book, and Jeff Davis jumped at the chance. A short time after this a large box of manuscript was expressed to Appleton. It was the book from Beauvoir. On reading it the publishers found that it was utterly unfit for use. It read like a schoolboy's Fourth of July oration, adapted to the south, and was full of blatant eulogies and secession sentiments. It was heavy, argumentative, and unreadable. The publishers were in despair, and they finally sent a man to Davis's home, and told him to write the book for him. Jeff Davis dictated a large part of it, and after six months' work the man came back with the manuscript, which was published. It was a crude work, and Jeff Davis insisted on its being as it is. It fell flat upon the country and was a financial failure. Davis could not understand why this was so, and he thought perhaps it might be because the book was too dear. He thought it ought to be distributed more widely, and he wrote to the publishers not long ago and asked them if they would not get out a cheap edition in pamphlet form. They replied this was out of the question, that the book would not pay, and they could have nothing more to do with it.

This book of Davis's was called the "Rise and Fall of the Confederate Government." It comprised two volumes and had in all about fifteen hundred pages. There are some curious things about it, and one of the funniest to me is the note at the end of the second volume which states that "the publishers are responsible for the orthography of these volumes." In looking at the spelling I find it to be the same as that in common use and I apprehend that the remark is made by Davis on account of the feeling which existed in Richmond at the time of the war against using anything "Yankee." Noah Webster was a Yankee and the Richmond rebels denounced his dictionary on that account. The editor of the Richmond *Examiner* at this time declared that he would not permit the Yankees to make his English for him, and to prevent this he bought a copy of the Jackson-Walker dictionary and made his proof-readers

Is inseparably connected with Hood's Sarsaparilla, and is true of no other medicine. It is an unanswerable argument as to strength and economy, while thousands testify to its superior blood-purifying and strengthing qualities. A bottle of Hood's Sarsaparilla contains 100 doses and will last a month, while others will average to last not over a week. Hence, for economy, buy only Hood's Sarsaparilla.

The Free Baptist assembly commenced its sessions at Ocean park, Old Orchard, last Sunday.

It is understood that an independent convention of laboring men of the first Maine congressional district will be held either in Portland or Biddeford this week. They say they are indignant at their treatment by the democratic convention in Biddeford, and propose to nominate an independent candidate.

If there ever was a specific for any one complaint then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

Death of Wm. J. Copeland.

William J. Copeland of Great Falls, one of the best-known lawyers in New Hampshire, dropped dead at the dinner table Aug. 1st. He was born in Albion, Me., was educated at South Berwick academy, at West Lebanon, Me., and at Limerick, Me., academy. He studied law with Hon. Increase S. Kimball of Sanford, Me., and was admitted to the bar in 1862 at Presque Isle, Me. In 1868 he removed to Great Falls, and opened an office in Manchester in 1882.

Mr. Copeland, after he came to Great Falls, soon had a large practice. He tried many cases in Strafford, Carroll, Rockingham and Hillsborough counties, and in York county, Maine, as well as in the United States court. He was regarded as a most successful jury lawyer. His arguments to the jury were more forcible than ornate, and though at times possessing less symmetry than power, were noted for their successful results. He possessed a wonderfully retentive memory, and readily recalled any decision or legal principle which had ever come under his observation. Of late he has spent his winters in Florida, where he had made investments and owned real estate, and had been engaged in the trial of several important suits. He had an office in Great Falls, where he was in partnership with James A. Edgerly, Esq., and at the same time had an office in Manchester.

MARITIME NOTES.

The practice-ships Constellation and Jamestown, which dropped down to the lower harbor from the navy yard last Saturday morning, went to sea at noon on Monday, having been kept in port by fog and lack of wind. They are under orders to report at Hampton roads Aug. 15th.

Mr. Charles S. Drowne sailed for Annisquam, Mass., at three o'clock Monday afternoon, in the yacht Tryphosa, to take part in the race to-day.

The schooner yacht Una, with E. H. Harris of Boston, the owner, on board, and Harry H. Skinner of Boston and Francis Tufts of Somerville as his guests, and Capt. Frank L. Bird as sailing master, was reported at Bar Harbor, Mount Desert, July 30th, bound on a cruise in Penobscot bay. This is the schooner of that name, originally the sloop Una, which was towed to Boston last spring after having been laid up at this port for several years.

The steamer Mystic took to the Isles of Shoals on Sunday the largest company of passengers she has carried on any trip this season. The fog was thick enough to cut with a knife, but good landfalls were made at both ends of the trip.

On Sunday the river was full of row and sail boats, the banks on both sides above Portsmouth bridge, to about two miles above Eliot, being lined with boats and small picnicking parties, many of them from South Berwick, Dover, Durham and other points near the head waters.

There was a very high tide on Monday, some of the wharves being partially submerged.

Schooner Bloomer, of Gloucester, forty-eight tons register, Thibodeau master, engaged in trading between Gloucester and Nova Scotia, sprung a leak July 30th, and went down fifteen miles off Kennebunk. She was built at Essex, Mass., in 1851.

Capt. Nunan of the schooner Helen F. Tredick, of Cape Porpoise, Me., in a letter reports that after fishing several days off Cape Negro, N. S., and taking 12,000 lbs. of cod, he ran into Port La Tour, N. S., July 24th, to spend Sunday, and anchored, but was ordered to sea at once by the customs authorities, and was obliged to go.

Peter Strickland has just completed a new suit of sails for schooner Morning Star, of Kennebunk.

The fast steam yacht Yosemite, built by John Roach & Sons, and which was in this port at the time the North Atlantic squadron was here awaiting the arrival of the Greeley relief expedition, it is stated has been purchased by the Dominion of Canada, and will be fitted up like the Lansdowne, with six guns and a sufficient complement of men, to catch Yankee fishing vessels. The clipper schooners won't be able to run away from her, however much they may despise the Lansdowne when a good breeze is blowing. A goodly number of our solid citizens will remember the Yosemite, for the reason that after taking a trip to the Shoals on her in company with Secretary Chandler of the navy, Collector Howard, Postmaster Peirce and other official dignitaries, by invitation of Mr. Roach, and enjoying a choice collation with all the proper accessories, they found themselves left on board the steamer in the lower harbor wit out any means of transportation up to the city, which occasioned almost a panic among the excursionists lest they should be unable to attend divine service next day, it being then Saturday evening. The relief experienced when a good Samaritan, in the shape of the steamer James Sampson, finally came alongside in answer to a hail, will be well remembered by the abandoned party.

AROUND HOME.

The flume under the northerly end of the north mill, which formerly drove the wheel of Rugg's saw mill, is in very bad condition, the warter rushing through at a tremendous rate on the ebb tide.

A number of men-of-war's-men belonging to vessels of North Atlantic squadron returned to their ships at Portland by the Pullman train Sunday evening, after spending a short leave of absence in this city.

A portion of a linen tablecloth woven by Mrs. Boynton in 1720, when William Boynton, the first of the family in this country, settled in Massachusetts, was presented to Mr. C. E. Boynton of this city at the recent reunion of the Boynton family in Lowell, Mass. The work was well executed, and the cloth is well preserved. The coat of arms de Boynton is impressed upon the samples presented to the members of the family.

Mr. Philip B. Holmes and wife celebrated their golden wedding at their residence in Greenland on Saturday evening, the 31st ult.

Three hundred and fifty guests on Sunday sat down to the best dinner ever served at the Oceanic, Star island. There were 101 guests arrived at the Oceanic on Saturday, to remain through August—by far the largest number of permanent guests to arrive at the hotel in any one day during its entire history, from the start of Mr. Poor's first Oceanic down to the present time. There has never been so successful a season on Star island as the present one has proved so far, and has every prospect of continuing to the end.

Dr. F. L. Benedict, who has been on a vacation for the good of his health, returned on Saturday.

Hon. Ezra A. Stevens of Malden, Mass., formerly of this city, is mentioned as a prominent candidate for the Massachusetts state senatorship of the sixth Middlesex district.

We are in receipt of a large and very carefully executed engraving of the new Standard Oil Company building, No. 26 Broadway, New York, which is noteworthy as the finest business structure on the greatest commercial thoroughfare of this continent. The enormous granite pile, 200 feet deep, and almost two hundred feet in height from foundation stone to pinnacle, is entirely given up to the executive offices of the company, which is entitled to credit for having added so imposing and enduring an example to the great commercial monuments of the metropolis.

There were three cases before the supreme judicial court of Maine for York county at the late term, involving disputed boundaries and questions of trespass. The court appointed Mr. Timothy Dame of Eliot, civil engineer, to make the necessary surveys and plans.

The Ocean View house at Kittery Point, which a few years ago was burned, has been rebuilt, and although not yet quite finished, is able to take a few boarders. After the destruction of the hotel Mr. D. W. Frisbee, the landlord and proprietor, went to Dexter, Me., where he opened a first-class bakery establishment, with success; but being desirous of returning to his old pleasant quarters he retired from business. Upon his arrival back he went to work, and mostly with his own hands rebuilt the present house, where refreshments are now being served to callers.

Important Decision.

The supreme court, law term, has rendered a decision in the case State vs. White, an indictment against members of the Salvation Army for beating a drum in the streets of Somersworth. The statute forbids the act unless under the command of a military officer. The respondents say that they were doing this in obedience to the dictates of their consciences, and as an act of religious worship; but the court holds that this is no defence, and that no act of religious worship can be allowed to disturb the public peace or violate reasonable police regulations. If the Salvation Army wants to beat drums, it must go outside of the compact part of a village.

Survival of the Fittest.

For some time past the question of purity in baking powders has formed quite a feature of newspaper discussions, and eminent doctors of philosophy have given opinions as to the ingredients which compose many of the articles sold under that name. The investigations have narrowed down to the limit which awards the Royal Baking Powder the palm of purity, and several of the most distinguished scientists have testified to their conviction that no extraneous or deleterious matter enters into its composition. The Royal Baking Powder company have achieved a world-wide reputation for the success which has marked their preparation of cream of tartar for baking purposes. It is indisputably shown that they have eliminated all elements of tartrate of lime, alum or other impurities, and present to the public a healthful and chemically pure article. Such widely known chemists as Henry Morton, E. G. Love, H. A. Mott, Wm. McMurtrie and others have verified its superiority over other manufactures, and testified, through practical experience, to its excellence. It is well for families to observe the fact that it costs more to manufacture the Royal Baking Powder than any other, but it is, as shown by chemical analysis, the one "absolutely pure" baking powder made.

Smuggling Through the Mails.

Within the last few days the post-office department at Washington has received from New York sixty-five sacks of undeliverable second and third class mail matter recently recovered from the wreck of the ocean steamship Oregon, sunk off Fire island last March. An examination by the department officers of the water-soaked contents of the sacks has disclosed the astonishing fact that large numbers of the packages contain dutiable goods, such as laces, gloves, etc. Superintendent Bell of the foreign mails office states that these goods will be confiscated, and the guilty parties prosecuted in case their names and whereabouts can be ascertained. The department will hereafter require increased vigilance on the part of officers handling foreign mails.

Special Notice.

BOSTON, July 27, 1886.

Owing to the accident to the Steamship "Gate City," of the Savannah line, it becomes necessary for us to withdraw the Steamship "Merrimack" from our Eastern Line to fill her place for a few trips.

In consequence thereof, the Steamships "Carroll" and "Worcester" will sail every Saturday, alternately, at 12, noon, for Halifax, Port Hawkesbury, Pictou, N. S., and Charlottetown, P. E. I.

We regret exceedingly to be compelled to make this change at this time, as it is our intention to increase and improve the facilities of the Halifax Line.

NICKERSON'S & CROSBY, *Agents.*

Mr. Tilden's Sound Advice.

Mr. Tilden's letter to Senator Hawley urging Congress to appropriate all that is needed to put our coast-line in a good state of defence, ought to carry the $6,000,000 fortification bill through with a rush. There is no excuse for the niggardliness of the house on this question. To be sure it might plead that so long as Mr. Bayard is at the head of the state department there will clearly be no need of either offensive or defensive armaments. But that is not a sufficient excuse. Mr. Bayard is not a permanent calamity, but only a temporary misfortune.—*Boston Globe.*

USE

HALL'S Vegetable Sicilian HAIR RENEWER.

It is a medicinal preparation, and at the same time, an elegant and cleanly toilet article. It acts on upon the scalp in healthful. It nourishes the glands which support the hair, and causes thin, dry hair to become thick, soft, and vigorous. It restores the color of youth to locks which have become faded with age or disease; and relieves and cures itching, caused by humors of the scalp. Dr. George Gray, Nashua, N. H., writes: "It gives me pleasure to testify to the wonderful effects produced by Hall's Vegetable Sicilian Hair Renewer, as observed by me in very many cases. IT WILL CERTAINLY RESTORE THE HAIR TO ITS ORIGINAL COLOR. It cleanses the head of dandruff, and leaves the hair soft, glossy, and beautiful." F. T. Sandheln, 1010 Spruce st., Philadelphia, Pa., writes: "After unavailingly trying a number of preparations to prevent my hair from falling out, and, realizing that I was fast becoming bald, I tried, as a last resort, Hall's Hair Renewer. I have used only four bottles of the Renewer, and am perfectly satisfied that it is the best preparation in the market for checking the falling out of hair, invigorating the hair roots, and promoting a new growth."

Buckingham's Dye FOR THE WHISKERS

commends itself to all who have occasion to use a dye for the beard or mustache. It will change gray, faded, or sandy whiskers, to a beautiful brown or black, as desired. The colors produced are natural and lasting. It cannot be washed off, contains no destructive ingredients, is cheap, safe, convenient to use, and effectual.

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

ELECTION DAY.

To-day the voters of the city elect a city government for the ensuing municipal year. For the year just ending the government has been unanimously democratic; there has been no check upon whatever job the democratic leaders chose to "put up," and the result has not been absolutely satisfactory to the tax-payers. This state of affairs will probably be changed. Ward two will go republican, and there is a fighting chance in ward one, though the mighty democratic ring, which has so many axes to grind, will spare no means to carry the latter ward.

The republicans can elect their candidate for mayor if they chose. He is not a seeker after office, and in every way has an honorable record. He has no job to put through at the city's expense, and the interests of the city would be safe in his hands. With him in the mayor's chair there would be no playing ducks-and-drakes with the city farm or the Dover railroad stock. The best thing the citizens can do is elect him.

REPUBLICAN NOMINATIONS.

The republicans of ward four held a caucus Monday evening, and put the following ticket in nomination:

Aldermen, William H. Rollins, Richard I. Walden;

Councilmen, Joseph W. Coleman, William Jackson, Gilman B. Randall, John O'Connor;

Assessors, Joshua Stackpole, Joshua M. Vaughan;

Overseer of the poor, Charles W. Coleman.

Although it is well known that Richard I. Walden is one of the most uncompromising democrats in ward four, yet the republicans of that ward in their caucus Monday evening voted to support him for alderman, because it was known that he would never consent that the aged and infirm poor of our city should be carted to Brentwood, away from the scenes of their former prosperity. "Dick" has a good heart, and has no enemies.

WARD FOUR REPUBLICAN.

"SPIDER" OBIT.

Old "Spider," who was the sixth member of the Humbug Yachting & Fishing crew for many years, during the palmy days of that once vigorous and well regulated but now hopelessly disorganized association, passed along on Thursday evening last, after several years of gradual failure.

Spider was the property of Mr. Gardner J. Greenleaf, who was vice-commodore of the Humbug Association in the olden time; he started out in life as a black-and-tan dog, finally turning to a black-and-gray, mostly gray. As a member of the association, Spider was as noted for being always the first man in the boat on embarking, and the first out on landing, as the yeoman was for being always last both ways. On the mustering of the crew on their annual excursions down river, which occurred once a week from early in April to late in November, Spider was always eager for the start, and would pick out the Humbug from among any number of other boats, and take his own place in her, before any other of the crew was aboard. At length a change came o'er the spirit of his dream, and from being the most prompt member of the crew, he became the most dilatory—worse than the yeoman. On the way to the boat, instead of running ahead and getting into his accustomed place, he would dodge into every convenient doorway and yard in the endeavor to avoid going; and after landing down river it was never certain when Spider would be seen again, and it would take all hands an hour or so to hunt him up and make him get aboard.

The cause for this radical change was at length discovered; it was a little brass gun put on board by the commodore, which made a noise out of all proportion to its size when loaded muzzle-full by the yeoman, (who was also acting-gunner,) and fired by way of salute to Capt. Rashe Trefethen of the Mystic, or on any other occasion which furnished a pretext for making a noise. Old "Joe," the commodore's pure-blooded "yaller" dog, was as deaf as a post, and the loud bang of the saluting-gun did not even make him wink; but to Spider's sensitive nerves the whole business was an utter abomination.

Spider's misconduct as a member of the crew finally culminated in actual desertion, one day when the Humbug was exploring the shores of Great bay; the gun had not been fired that day, and there was no intention of firing it, there being no powder on board; but Spider was evidently apprehensive that it might set up a roar at any moment, powder or no powder, so he took to the woods, and the boat had to return without him, necessitating a wagon trip to the Bayside next day by his master to recover him. He was found sitting on a rock alongside which the Humbug had landed, gazing wistfully down the bay. That was Spider's last trip on the water, the cannon having as effectually changed his maritime habits as matrimony afterward did those of another member of the association.

But nothwithstanding his desertion, Spider's animosity was confined to the cannon; the members of the association were still regarded as friends, and he never failed to greet them with a wag of his tail whenever they were met, up to the last days of his life.

Spider was eminently respectable. If he did no great good in the world, he did no harm. Let us hope that hereafter no noisy cannon will ever molest or make him afraid.

THE COTTAGE HOSPITAL.

The directors of the Cottage Hospital acknowledge with many thanks $10 from Mr. James Parrott, and an umbrella stand from Miss Mary Parker.

The second ocean excursion in aid of the hospital fund will take place on August 10th, when the steamer Oceanic will take to the Shoals and back all holders of tickets for the round trip, which can be procured at Grace's drug store at seventy-five cents each; these tickets will be good for passage that day on any trip of the boat, either way; and a special trip in will be made in the evening, the steamer leaving the islands at about 9:30 o'clock. There will be music and dancing in liberal quantity at the Oceanic, Star island, through the day. As it is necessary to guarantee a certain number of passengers, intending participants in the excursion are requested to register their names at Grace's store at their earliest convenience. All reputable persons—citizens of Portsmouth, residents in neighboring towns, and summer visitors—are cordially invited to purchase tickets, enjoy a day's pleasure at trifling expense, and at the same time to aid a most worthy charity.

Hotel Pocahontas is full.

The hotel Wentworth, at Newcastle, is having the best season it has ever had.

The regular monthly test of the fire alarm took place Monday forenoon.

Four men, escorting two bears, one of them a "cinnamon" of enormous size, entered the city by way of Portsmouth bridge Monday morning, and were kindly directed the shortest way out of the city on the other side by the police.

A wooden awning has been put up along the entire front of the block on Pleasant street next the North church. To provide against too great an interception of the light, five big slabs of heavy glass are placed in the awning at points where they will do the most good.

As Alexander Ladd, Esq., was driving to this city from Kittery Point on Sunday evening, when near the 2d Methodist church at the Foreside a bolt broke, letting a whiffletree strike the heels of one of the horses. The animal started on a run, his fellow joining in, and they quickly cleared themselves from the carriage by breaking the pole, and raced up Government street, down the Post road to Harrison Remick's corner, and along the Foreside road to Bartlett's stable, near the navy yard bridge, where they stopped, not much the worse for the runaway. The carriage was not much damaged, and it is not reported that Mr. Ladd was injured.

Cucumbers were in the market here over a month ago, but up to the close of business last Saturday night none fit to eat had been procurable at less than five or six cents each. The papers some time ago published a statement that cucumber peelings scattered around the haunts of cockroaches would infallibly kill the pests; this has been found to be the case, but at the present price of the vegetable it would cost more to kill a cockroach that way than it costs the city to kill a horse by a defect in a bridge. If a farmer could only be assured of selling at such prices all the cucumbers he could raise on one acre of ground, he could laugh Jay Gould's income to scorn.

Hundreds of families in Portsmouth and vicinity attest the value of Preston's Elixir. It is certainly one of the most reliable and efficacious remedies for summer troubles ever known. Have you tried Preston's Jamaica Ginger?

INSURANCE CARD.

DENIAL!

I most emphatically deny the statement which appears in a card of the junior member of the late firm of MORSE & ILSLEY, in which he says he purchased of me, *all right to the Insurance Business of said firm.* At the date of dissolution the firm were not agents for any Fire Insurance Company, the old companies formerly represented by us having withdrawn from the state last September, and discharged us in common with all other agents in this state; since that time we have had no authority to act for said companies in any capacity whatever. Consequently there was no Fire Insurance business or agencies, to be bought or sold, by either member of said firm. When the agencies were taken up, our commissions as agents and all blanks and supplies which the companies considered of *value* were returned to them; the books having the copies of the old policies not being of any account to the companies who had the *authentic record* of every policy in their own offices, were left in our hands, and as Mr. Ilsley only had a clerical knowledge of most of the property insured and wished to retain these old policy registers, and I, who was well acquainted with the assured and property insured, sold to him these old books, and the agency business and good will of the New England Mutual Life Insurance Company. That is all I said, and he understood perfectly that I had retained and was to carry on the Fire, Life and Accident business, and was to have such share of the former business of the late firm as the good will of our old customers would grant to me, and that I had advertised to that effect before our trade was completed. The fact that I originally paid one-half of the purchase money of the old firm's business, and by fifteen years hard work would seem to entitle me to a favorable consideration, and I shall certainly use my best endeavors to provide good insurance to all old customers

follow its spelling. If you take up a copy of the Richmond *Examiner* during the war you will find such words as public rhetoric, etc., with the "k" at the end, and you will see that the "u" is retained not only in such words as labor and honor, but in terror, emperor, horror, and other words from which the "u" has long since disappeared in the English language. In this book Davis distorts facts and mixes up autobiography and history indiscriminately. He takes great pains to show that the doctrine of secession is still alive, but admits that the war showed the right to secede to be impracticable, and declares that secession can never more be attempted.

Indian Girls Not Wild.

We heard of a girl the other day who was "as wild as an Indian." But an Indian girl is not wild. No girl is more submissive to the rules of her race and tribe than an Indian girl who is not yet corrupted by the proximity of the white man. She never goes anywhere alone, and she never passes a man on the highway without turning away her head. If a man comes into her wigwam she conceals her face, and she does not stand within hearing distance of men who are talking. She lives up to her idea and her tribe's idea of what is proper and becoming. If she fails to do so she places herself beyond the protection of her tribe. There is no safe place in this world for the girl who knows no law but her own will.—*N. Y. Ledger.*

Mummy Cotton Seed.

Some time ago Sunset Cox forwarded to Senator Brown from Egypt a package of cotton seed that had been pulled from the hand of a mummy. The mummy belonged to the tribe of the Pharaohs and had been pronounced dead 4,000 years before Mr. Cox discovered the remains. Three of the seed were sent by Senator Brown to Dr. Connally of this city and were duly submitted to the test of sun and soil. They were planted in tubs filled with highly fertilized dirt, and were carefully watched and watered for a period of thirty days. In spite of this the seed failed to sprout, and they were finally dug up and examined. They were filled with dust, and it is supposed that the germ of life that once had existence in their frail shells had passed away utterly. But who can tell? Is it not fair to suppose that a cotton seed which had been intombed with a mummy for 4,000 years would require at least a thousand years to germinate? Let us be just, even to an Egyptian cotton seed.—*Atlanta Constitution.*

POISONED WATER.

The report of the State Board of Health shows a condition of things in the water supply that is absolutely appalling. One family alone has had three deaths, the origin of which can be traced to this source. The effect may not be immediate but is none the less sure. In the course of a few weeks or months, loss of appetite, headache, loss of sleep, dired feelings and the thousand and one symptoms that indicate the approach of disease are certain to be felt. The smaller towns have a water supply of more or less injurious character, while the farming community often draws its water from wells that are simply drainages from barns and outhouses.

When all these things are taken into consideration, the surprise is not that there is so much sickness, but that there is so much health. The evil is not avoided by drinking liquors, mineral waters or any other concoctions, for they too frequently are often more injurious than ordinary water. The only way to avoid the evil effects is by keeping the health unimpaired. All have observed that the evil effects of poisonous water are quickly manifest in some cases and much less in others. This is owing to the fact that one person is in good health while the other is not. A man, woman or child who is vigorous, and whose body is properly toned, is the one who can easiest avoid the evils above named. A gentle stimulant to the digestive organs and faculties, a strength imparting preparation, a nerve building compound is what the public require, is what the people will have. This is precisely what Hoptonic is, and the great favor with which it has been and is being received clearly shows its value. Being composed of peptonized beef, hops and malt, (the three best known invigorants and tonics,) it accumulates albumen in the body so completely as to most certainly counteract the first approaches of disease.

If the inhabitants of Michigan desire to preserve their health unimpaired in spite of the severe climate, bad water and other health enemies that surround them, they must use some standard stimulant that imparts vigor while adding strength. All heads of families and those who value their own happiness as well as that of their friends, should give this subject the most careful attention and investigation.—*Michigan Paper.*

Milestones on the Road to Health.

The recovery of digestion, and the resumption of activity by the liver, bowels and kidneys, are milestones which mark our progress on the road to health. They speedily become perceptible when Hostetter's Stomach Bitters is used by the invalid. Nothing so surely and expeditiously consumes the distance to the desired goal. As no bodily function can suffer interruption without imparing the general health of the system, so the system can never acquire perfect vigor, health's synonym, until that function be actively resumed. Take, for instance, digestion, a suspension of which is invariably rectified by the Bitters. If the organs upon which it devolves grow weak, billiousness, constipation, headache, poverty of the blood, and a hundred other symptoms supervene, which indicate unmistakably the baneful general influence of dyspepsia. The disappearance of all these symptoms, through the use of the Bitters, show with what thoroughness it removes their cause.

Editor S. E. Schewitsch, of the New York *Volks Zeitung*, has been arrested as one of the defendants in Paul Bauer's suit to recover $50,000 from the paper named because of recent publications in the paper declaring a boycott on Bauer's place of business at Coney Island.

Don't Do It,

Said my physician, who for six months had doctored me for dyspepsia without success, when I told him I was going to try Sulphur Bitters, they will only make you worse. A Valuable Remedy.

Brandreth's Pills have been used by millions of human beings. Their success is founded upon the theory of reason, and an attentive observation of symptoms of disease. Whatever makes bad digestion breeds disease, and whatever makes good digestion cures disease. Brandreth's Pills make good digestion, purify the blood, and remove all bad humors out of the body by the organs of the stomach and bowels. They act in harmony with vital action and work of nutrition; the strength increases, the skin and the eye become clear, and the symptoms of the malady are surely rendered milder by their use. They are harmless for all ages and conditions.

PARSONS'

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

NATURAL HISTORY.

What a Man With an Inquiring Mind Observed in an Hour's Drive.

Lack of opportunity is often given as an excuse for either common, ordinary laziness, sometimes indolence of body, and often torpor of mind. Men who had rather have their wives or families support them than reverse the order, complain that they can find nothing to do. They hunt work by sitting along the river banks in summer and lounging in saloons in winter.

About the best instance of lack of opportunity lately heard of is that of a tramp who applied for food at a house one August, saying that he would like to work at his trade, but "hadn't got no chance." When quizzed as to the nature of his trade, he replied: "Shovelin' snow."

There are numerous people who would like to follow up some study, often merely as a pastime, but who offer the same old excuse, no opportunity. "I would like very much to study botany, geology, mineralogy, or natural history, but there is no chance to carry it on in town." They further urge that the specimens so necessary for illustration are not to be had without going to the country, and that takes too much time. The trouble with most of these is that they are mentally too lazy to study the technical terms which lie at the very foundation of any of these branches, and which are required in description and elucidation.

With these thoughts in mind it was determined to notice what objects of natural history might be seen in an hour's drive one afternoon recently. The drive was taken on an entirely different mission, and the objects seen obtruded themselves, unsought upon the attention.

The first living thing appeared upon the desk as preparations were being made to start. It was nothing but a cockroach, but even a cockroach is good for a "starter." To begin with, it was strange that this little insect should be abroad in daylight, as it is exclusively a nocturnal insect, and easily frightened back to its hole upon the approach of light. It is a very curious thing how animals of certain kinds increase the limits of their original homes. Those which do so are always such as are cunning in evading their natural enemies. Cockroaches escape by virtue of their ability to run swiftly. They are sprinters, all of them, and can easily distance on foot nearly every insect of their size and weight.

They are said to have come here from Asia, their natural home. From thence, also, they spread over Europe. We have a species of cockroaches in our own country, but they are well-behaved, know their places, and stay in it. Ours live in the woods, under dead wood and leaves, and never come to our houses to be pests like the eastern ones. The name of the common cockroach indicates its origin. It is called *blatta orientalis*, or eastern bug.

The blatta is an assisted emigrant. They came to us in ships' cargoes, and are in some houses a terrible pest. They feed indiscriminately upon animal and vegetable matter, and will even destroy clothing, leather, wool, and cotton. Although they have an omnivorous appetite, there are some things which disagree with them, and, seeming to be no respector of food, their downfall lies in their appetite, as in many of their human neighbors. A mixture of red lead, corn meal, and molasses made into a batter and placed near their haunts will soon rid a house of them, as they eat greedily of the feast, which causes speedy death. Borax is especially obnoxious to the blatta, and it is said they will leave a place where it is sprinkled.

While speculating upon the great distance the cockroach was from home, a little insect ran swiftly across the desk. Its name, means "silver fish." It is the little silvery insect so often seen about the edges of carpet and in musty places. It has for a long time been considered harmless, but lately is accused of eating the bindings of books and labels or any other matter which contains paste, of which, like the cockroach, it is very fond.

In walking from the office to the stable, two more insects were seen dead upon the sidewalk—a dragon-fly and a beautiful beetle, known as the caterpillar hunter. Both are of great use to man, and it was with regret that their death was noted.

Everybody is familiar with the dragon fly, snake-feeder, devil's darning-needle, or whatever name it may be called. It has a large head ornamented by immense eyes, and armed with a powerful pair of jaws. Closely following are the two pairs of wings projecting stiffly at right angles with the body, dry, harsh, and rustling, but lace-like in their transparent beauty.

Then follows the long pointed body striped with green and ornamented at the extremity with two feather-like appendages.

They fly for hours over and about ponds, wheeling or sailing, or hovering nearly motionless in one spot. They are indeed beautiful.

Their food consists entirely of insects which they catch and devour. It is hard to compute the number of gnats, mosquitoes, and flies one single dragon fly can devour in one summer day. They are perfectly harmless to man, and entirely undeserving the relentless pursuit with towel or broom when one by chance enters the room in quest of mosquitoes or flies. One dragon fly will rid a room of mosquitoes in half an hour if left to his own device, and it will pay anyone not to kill a hapless wanderer which strays into his house, and whose greatest desire is not to frighten the timid inmates, but to escape to the woods, brooks, and ponds, there to kill and devour what is man's enemy and dragon's food.

The other insect found dead is not be-

Is inseparably connected with Hood's Sarsaparilla, and is true of no other medicine. It is an unanswerable argument as to strength and economy, while thousands testify to its superior blood-purifying and strengthing qualities. A bottle of Hood's Sarsaparilla contains 100 doses and will last a month, while others will average to last not over a week. Hence, for economy, buy only Hood's Sarsaparilla.

John Greney, in the employ of Hon. Stilson Hutchins on Governor's island, lake Winnipesaukie, died Aug. 2d, his death being caused by diving from a bath house into three feet of water, striking on his head and breaking his spine. He lived a number of hours in great agony. His hat was found imbedded in the sand. His home was in Washington, D. C., and he was nineteen years of age.

If there ever was a specific for any one complaint then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

A Hit Back.

Gen. Collins of Massachusetts introduced in the national house of representatives on the 2d inst. a bill relating to commercial intercourse with foreign countries, which he thinks will strike Canada in her weakest part. He said, when asked as to the purpose and scope of the measure:

The Canadians are playing their old game of bluff, to force us into a new treaty. We have no more use for a treaty than we have for the cholera. The last one was a cheat, and cost us seventeen million dollars at least. The law passed June 19th merely provides for retaliation in kind—denial of commercial privileges to vessels of a foreign nation equal to their denial of commercial privileges to ours. My bill provides that when any foreign nation discriminates against us at all we shall shut the door against her fully. Under this, if Canada continues her present course, by proclamation of the president we not only close our ports and waters against all Canadian vessels, but cut their railroads off at the border. If the Dominion, with an interest of $200,000,000 in the Canadian Pacific, Grand Trunk and Inter-Colonial railroad systems, can stand that, we can. The Canadian ports are frozen up in winter, and the merchandise is forced to seek the sea through the United States and by our courtesy. Our roads can do the carrying from the border to the ocean. As our courtesy is abused and our hospitality unreciprocated, let us look out for ourselves now first, and assert our rights fully. John Bull, Jr., has become intolerable.

AFFAIRS IN KITTERY.

KITTERY, ME., Aug 3d.

Mr. Owen E. Pettigrew of North Kittery has within the past three weeks lost several valuable sheep, which were attacked by dogs while in a pasture on the commons at North Kittery. The dogs belong at the Foreside, and have made two raids on Mr. Pettigrew's flock.

A resident on Pullet hill announces the hatching of forty-five chickens by three "settin' hens" this season.

Messrs. Daniel Lydston and Richard Burnham have just completed the repairs and improvements in and about Sergeant Gallagher's house on Badger's island, the work having all been done by them in a satisfactory manner. The walls and ceilings of the house have been handsomely kalsomined throughout by Mr. Lydston.

Miss Nellie F. Todd of North Kittery is visiting relatives in Newburyport, Mass.

Mrs. Wyman Junkins of Medford, Mass., is at Mr. Oliver Cutts' at the Point.

Mrs. Moses Downing of Portland is visiting her sister, Mrs. Robert S. Amee of North Kittery.

Dr. Buzzell, formerly of Kittery Point, is practicing in Kennebunk, Me.

Miss Florence Cutts is home from Minneapolis, visiting her grandfather, Mr. Oliver Cutts of Kittery Point.

Miss Emma H. Gerry is visiting her sister, Mrs. David Stimpson of Concord, N. H.

A lady in North Kittery recently set a hen on twelve eggs, in a roomy barn not far from the road, where she—the hen—could study seaside fashions as gay parties drove by, which in no way conflicted with her maternal duties; yet this incomprehensible hen, after remaining on the nest several days, refused to set longer, and the eggs were removed to a spot more remote from temptation, and another hen placed over them. But this second hen, reflecting no doubt that she was not the first choice, also quitted the eggs after several days' attention; and the lady becoming discouraged, gave the eggs to a neighbor on another road, who placed them under a third hen, which gave her whole attention to the business in hand. But one day this faithful hen left the nest for her morning meal, and by mistake was shut into a barn where she remained prisoner for half a day before being discovered and released. It was supposed that the eggs were now hopelessly "gone up," even if they had not been in that condition long before; but the hen with sublime faith returned to her task, and the result was that she hatched eleven sprightly chickens from the twelve eggs. It has always been considered disastrous to disturb eggs on which a hen has commenced to set; but as these be democratic times nothing surprises us. SUB ROSA.

MATTERS IN YORK.

YORK CORNER, ME., Aug. 2d.

As a result of reckless driving, a series of accidents (?) occurred near York village on Saturday evening. A splendid team with two young men from Dover passed one team, and collided with Mrs. Edward D. Young's team, which was coming up street. Mrs. Young was thrown out and considerably injured; she was subsequently conveyed home by Mr. Willis J. Moulton. Her carriage was smashed considerably, and at the same time the Dover horse cleared from his top buggy and immediately collided with Mr. Rufus A. Moody and Mr. J. D. Bragdon, who were on their return from the republican caucus. Their horse and carriage were both upset and they thrown violently out, but strange to say sustained no injury. Their carriage was badly smashed. The Dover carriage was a complete wreck, and the horse received a long gash over one eye, and badly injured his shoulder where he struck Moody's horse. One young man looked like he had been rolled in the dust from Dover to York, but says he is uninjured, except to mar his fortnight's vacation upon which he had just entered. Taking it all together it is truly wonderful that no bones were broken. The carriages will all need surgical aid, by reason of broken arms. The horse from Dover will probably die.

On Saturday evening, July 31st, Peter Shaw, Benj. F. Rogers, J. Frank Paul, A. H. Merrow, Geo. W. Currier, Charles H. Junkins, Lemuel Mitchell and John B. Fernald were chosen delegates to the republican county convention to be held at Alfred, Aug. 10th.

Mr. Joseph L. Grant, whose farm lies on the banks of York river, marketed a fine lot of green corn on Tuesday, July 27th. The corn was full and sweet, as we have good reason to know.

In reply to the interrogatory in last *Gazette*, "Where, O where is the civil service reform?" Plaisted says he had a *special permit* from the president to attend the convention, it being a case of necessity; and on the same permit thinks he shall go (as a *spectator only*) to the county convention at Alfred on Thursday, 5th, as he has some other business in that section of the county.

Ralph Wells, Esq., of New York city, preached in the Christian church yesterday forenoon. Subject, "The Bible, and How to Use It." Mr. Wells is a good speaker, and no doubt sowed good seed, —on various kinds of soil. Quite a large congregation listened to his remarks. P.

AROUND HOME.

Elvin Newton & Co., of Lunging island, Isles of Shoals, took over 100 barrels of bait last Sunday, and sold all but ten barrels of it to Georgesmen and halibut fishermen. A few large mackeral were taken with the bait.

One of the steamers belonging to the light-house department of the United States treasury is reported to be voyaging along the Maine coast, provided with photographic apparatus for making pictures of the light-houses for the use and information of the light-house board. If the picture she takes of the Whale's-back pile does not paralyze the board when they look at it, that is if the seaface view is taken, then they are deficient in taste, that's all. Many of the heavy stones of the circular pier on which the original tower stood have been torn away by the action of the sea, leaving a yawning gulf on its upper edge, and displaying a picture of dilapidation not at all creditable to the department. Another thing which will attract the attention of the board, if they have any common sense, is that the very lowest window in the present light-tower is on the sea face of the tower and only fifteen or twenty feet above high water level, where it is worse than useless, as it never has been and never can be used as a window, as anything less solid than the heavy double planking which has blocked the aperture ever since the tower was built would be smashed in by the seas during the first heavy southeasterly storm. The light-house board will be able to see that the old pier is a wreck, and that window space a gross blunder.

Constable Tarbox of Biddeford went to Old Orchard on Sunday last, and raided a faro gambling den. A thousand chips, together with tables and boxes were confiscated. William Deluce, the proprietor, who belongs in Portland, assaulted the officer and escaped.

The long-talked-of York county records will be published the coming fall, under the supervision of Wm. M. Sargent of Portland. The state of Maine has contributed an appropriation, and many liberal Maine men have given financial aid to the enterprise. The volume will be full of meat for the historical student.

The ropewalk in the Charlestown navy yard was reopened on the 2d inst., over fifty men going to work.

—"It's a terrible thing to owe money," said Smith. "To be compelled to dodge around this corner and that to avoid meeting a creditor on the street. It takes the manhood out of one and he soon loses all self-respect. I am glad to say that I no longer owe a dollar." "Then those old debts that have bothered you so long are all squared up, are they?" "Yes, thank heaven! The last one became outlawed yesterday."

—It struck Mr. Lewis that he could photograph the house where Mr. Gould was born and sell copies in Wall street. He journeyed back to town with his trunk full of the pictures. But they didn't sell. "We don't care a continental for Gould's birthplace," said a broker to Lewis, confidentially. "What this world wants is a peep at Gould's tombstone!"

Special Notice.

BOSTON, July 27, 1886.

Owing to the accident to the Steamship "Gate City," of the Savannah Line, it becomes necessary for us to withdraw the Steamship "Merrimack" from our Eastern Line to fill her place for a few trips.

In consequence thereof, the Steamships "Carroll" and "Worcester" will sail every Saturday, alternately, at 12, noon, for Halifax, Port Hawkesbury, Pictou, N. S., and Charlottetown, P. E. I.

We regret exceedingly to be compelled to make this change at this time, as it is our intention to increase and improve the facilities of the Halifax Line.

USE

HALL'S Vegetable Sicilian HAIR RENEWER.

It is a medicinal preparation, and, at the same time, a elegant and cleanly toilet article. It is used upon the scalp of beautiful. It nourishes the glands which support the hair, and causes thin, dry hair to become thick, soft, and luxurious. It restores the color of youth to locks which have become faded with age or disease. And relieves and cures Itching, caused by humors of the scalp. Dr. George Gray, Nashua, N. H., writes: "It gives me pleasure to testify to the wonderful effects produced by Hall's Vegetable Sicilian Hair Renewer, as observed by me in very many cases. IT WILL CERTAINLY RESTORE THE HAIR TO ITS ORIGINAL COLOR. It cleanses the head of dandruff, and leaves the hair soft, glossy, and beautiful." F. T. Sandhein, 1610 Spruce st., Philadelphia, Pa., writes: "After unavailingly trying a number of preparations to prevent my hair from falling out, and, realizing that I was fast becoming bald, I tried, as a last resort, Hall's Hair Renewer. I have used only four bottles of the Renewer, and am perfectly satisfied that it is the best preparation in the market for checking the falling out of hair, invigorating the hair roots, and promoting a new growth."

Buckingham's Dye FOR THE WHISKERS

commends itself to all who have occasion to use a dye for the beard or mustache. It will change gray, faded, or sandy whiskers, to a beautiful brown or black, as desired. The color produced are natural and lasting. It cannot be washed off, contains no destructive ingredients, is cheap, safe, convenient to use, and effectual.

CITY OFFICERS ELECT.

Mayor, Marcellus Eldredge.

Aldermen, John E. Locke, William E. Littlefield, John F. Magraw, ward one; John Conlon, George E. Hodgdon, William B. Billings, ward two; Charles A. Sinclair, ward three; Howell C. Russell, David Urch, ward four.

Common Councilmen, Michael Crowley, Frederick J. Haddock, Daniel Casey, Nathan W. Lear, Charlie M. Newton, Albion Littlefield, ward one; John L. Frisbee, William J. Fraser, John C. Stevens, John W. Young, John H. Grover, Michael J. Griffin, ward two; George W. Scott, Patrick Mahoney, ward three; William A. A. Cullen, George W. McCarthy, Charles E. Finder, Charles E. Grover, ward four.

Assessors of Taxes, Moses H. Goodrich, William Ward, Henry R. Stoddard, ward one; John H. Wells, Gideon H. Rundlett, George B. French, ward two; James Douglas, ward three; William P. Bennett, James Janvrin, ward four.

Overseers of the Poor, Charles F. Wells, ward one; Willie B. Newton, ward two; Eugene Flynn, ward three; John J. Laskey, ward four.

All the officers-elect are democrats, with the exception of William G. Billings, elected alderman from ward two over Thomas J. Sheehan.

TOLD YOU SO.

As we predicted on Monday would be the case, the tremendous democratic head wind which was to send the municipal ring's craft to the bottom stern foremost, blew itself out so that when election day arrived there wasn't enough of it to part a ropeyarn.

On Monday there was hurying to and fro of the democratic rulers,—Mr. Jones, Col. Sinclair, his honor the mayor, Capt. Marcy and others; and (incontinently relegating to innocuous desuetude President Cleveland's latest wonder in the shape of a civil service order,) the collector of internal revenue, postmaster and other federal officials flung themselves in the way of the impending irruption of democratic independence. The result of their labors was apparent when on Monday evening the *Times* contained a notice rescinding a previous call for a meeting of the Knights of Labor that evening; every one at once understood that the threatened side-show of the Knights in favor of Ald. Cook, their first master workman, for mayor, had been effectually sat upon, and that the rebellion was over.

Had the case been different, we should have been greatly surprised. As the Manchester *Union* says, the dissatisfied democrat growls until election day comes, and then votes the straight ticket.

The city farm must go.

Wonder if Alderman Billings will be lonesome?

The republicans made a substantial gain in the number of municipal officials elected, over last year. If they keep on at the same rate the city government will be unanimously republican in just forty years from now.

We tender to William S. Hazel, Esq., the gentlemanly and efficient clerk of ward four, to Capt. Hobbs of the night watch, and to City Clerk Goodrich and City Messenger Gardner our thanks for courteous assistance rendered us in making up the election returns.

As the clerk of ward four neglected to make the returns required by law, we are not able to give all the figures in that ward.

A moonlight excursion down the harbor, for the benefit of the Portsmouth Boys' club, will take place Friday evening next, weather permitting, the steamer Mystic leaving at 6:30 o'clock. Tickets 35cts., for sale by Frank W. Moses, and on the boat.

The Y. M. C. A. of Great Falls had their annual picnic on Tuesday at Pinkham's grove, Dover point. Among the attractions was a game of base ball between the Riverside club of this city and the Great Falls club, for a purse of $15. The game was awarded to the Riversides, 9 to 0, on a dispute in the 5th inning, when the Riversides had slightly the best of the game. The winners left $10 of the purse as a deposit for a game to be played on neutral grounds in Dover in three weeks, with the same club.

The annual picnic of the St. Mary's Benevolent Association of this city takes place this day at Pinkham's grove, Dover point. One of the principal attractions will be a match game of base ball between the Portsmouth and Dover clubs, for $25 a side.

A pool tournament has been organized at Appledore by the most expert players among the guests, a stated number of games being played each day. The competitor most feared is "Cedric Laighton, professor of billiards," as he appears on the posted list. Some very brilliant play is to be seen.

Dr. Elliott Coues, the noted theosophist and writer on ornithology, has been divorced from his wife on a suit brought by her. The decree declares that the doctor shall have the custody of his son, Elliott B. Coues, and Mrs. Coues the custody of Edith L. Coues and W. B. D. Coues; that Dr. Coues shall pay Mrs. Coues $50 per month alimony, and that Dr. Coues also pay Francis Miller, the counsel for Mrs. Coues, $100 counsel fee and the costs of the suit.

Rev. W. H. McGinley left town for Massachusetts on Monday, to be absent until the first Sunday in September.

Mr. Frank W. Hidden, champion dory puller of this region, on Sunday last made a trip to the Shoals and back in his new racing dory, under the following circumstanoss. A New York lady stopping at the Rockingham house received a telegram conveying intelligence which it was of the utmost importance should be known to parties boarding at Appledore; and the steamer Mystic having left for the islands, she engaged Mr. Hidden for $10 to take her out in his boat. On reaching Whale's-back the fog was found to be so dense that objects a few yards away were undiscernable; there was no compass in the boat, but Mr. Hidden was confident he could hit the islands, and the lady was willing to make the attempt, so taking the direction of the wind and sea as a guide he pulled on. After what seemed to the passenger an interminable pull, the carsman remarked "My time's up; I've pulled far enough, and we ought to be close to the island," at the same time hauling his oars across the boat; and at almost the same moment the lady exclaimed "There's the land!" pointing right ahead to what the fishermen call Blue-beach point, on Appledore island, Mr. Hidden having made as good a landfall as though the day had been perfectly clear. Two minutes later they stepped ashore; and after enjoying a hearty dinner at the Appledore house, and being furnished with a compass by the Laighton Brothers, Mr. Hidden again started, and arrived back all right in six hours after setting out on the trip, though tide and wind were both against him in going out, and the tide was adverse on the return. The trip was one which few boatmen would be tempted to attempt, and which fewer still could successfully accomplish.

The *Coal Trade Journal* of New York says: "Mr. J. Albert Walker of Portsmouth, N. H., has leased the Lehigh Valley coal pockets, Mystic wharf, Boston. These pockets are of recent construction, and are built with all modern improvements for the careful and economical handling of coal. With a man of Mr. Walker's push, experience and capital, such a move is bound to be successful."

Master Eugene Williams, son of Capt. Zach Williams of Kittery Point, had a fine yacht built for him the past winter, and is now almost constantly employed in taking out fishing and sailing parties.

Mrs. Frances M. Perkins and son of Roxbury, Mass., and Mrs. Charles Trask of Erie, Pa., are at the Appledore.

Mr. Augustus Fernald of Kittery has a cat which is a noted fisher and swimmer. She is in the habit of watching for Mr. Fernald on his daily return from the weirs, and will often swim out several hundred yards to meet him, and get her morning meal of a fresh herring. She will likewise dive from the end of the wharf to catch fish on her own hook, and rarely fails to attain her object. Our informant, who vouches in the strongest manner for the truth of this account, is a strict teetotaller.

Hundreds of families in Portsmouth and vicinity attest the value of Preston's Elixir. It is certainly one of the most reliable and efficacious remedies for summer troubles ever known. Have you tried Preston's Jamaica Ginger?

FIRE & LIFE INSURANCE.

NEW INSURANCE FIRM!

ILSLEY & MOORE,

No. 3 Pleasant St.,

NEXT TO THE POST OFFICE.

THE undersigned gives notice to all whom it may concern, that he has purchased from the senior member of the old firm of Morse & Ilsley, **all rights to the Fire Insurance Business** heretofore carried on by that firm, and is duly authorized by all the Companies represented by them to have and hold all their Records. WINGATE N. ILSLEY.

WE, the subscribers, having formed a Co-Partnership under the style of ILSLEY & MOORE, for the transaction of a *General Insurance Business*, respectfully solicit the patronage of our friends and the public generally. To every person who has ever transacted any Fire Insurance Business with the firm of Morse & Ilsley we would say the *Original and Only Authentic Record* of such business is in our possession, bought from the former senior member of the recently dissolved firm, the purchase money paid, and his receipt therefor in our hands. We have the written consent of every Company to this disposition of its Records, and we hope to retain the goodwill of all former patrons, and gain the confidence of new ones, by strict attention to their interests. W. N. ILSLEY, W. H. MOORE.

INSURANCE CARD.

DENIAL!

I most emphatically deny the statement which appears in a card of the junior member of the late firm of MORSE & ILSLEY, in which he says he purchased of me, *all right to the Insurance Business of said firm.* At the date of dissolution the firm were not agents for any Fire Insurance Company, the old companies formerly represented by us having withdrawn from the state last September, and discharged us in common with all other agents in this state; since that time we have had no authority to act for said companies in any capacity whatever. Consequently there was no Fire Insurance business or agencies, to be bought or sold, by either member of said firm. When the agencies were taken up, our commissions as agents and all blanks and supplies which the companies considered of *value* were returned to them; the books having the copies of the old policies not being of any account to the companies who had the *authentic record* of every policy in their own offices, were left in our hands, and as Mr. Ilsley only had a clerical knowledge of most of the property insured and wished to retain these old policy registers, and I, who was well acquainted with the assured and property insured, sold to him these old books, and the agency business and goodwill of the New England Mutual Life Insurance Company. That is all I sold, and he understood perfectly that I had retained and was to carry on the Fire, Life and Accident business, and was to have such share of the former business of the late firm as the good will of our old customers would grant to me, and that I had advertised to that effect before our trade was completed. The fact that I originally paid one-half of the purchase money of the old firm's business, and by fifteen years hard work would seem to entitle me to a favorable consideration, and I shall certainly use my best endeavors to provide good insurance to all old customers

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kicks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy and safe, is the quintessence of all that is preventive and curative in medicine.

It is sure to check sudden or severe complaint, prevent indigestion, destroy disease germs in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress. No cramp or pain has ever made a desperate appeal to it for relief or cure that has not met with instant response.

It is a delicious combination of Imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "gingers," pain cures and nauseating nostrums.

Unripe fruit, impure water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, Indigestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that beset the traveller or home-dweller this season, are nothing to those protected by SANFORD'S GINGER.

Avoid cheap and dangerous imitations said to be "the same," or "as good," or "cheaper" than

SANFORD'S GINGER.

hind this one in well doing. The caterpillar-hunter is a little larger than a June bug, flitter in the body, and with a most brilliant green gold back bordered with a stripe of iridescent pink or red.

This is a swift runner, living largely upon trees, over which it rapidly moves seeking larvæ and those little green worms which do so much damage to vegetation. It is probably no exaggeration to say that one beetle will kill a quart of slugs and worms in a season.

The limits of space forbid the relating of a journey but only commenced, but it is enough for illustration of the fact that one need not go far for specimens, and that lack of opportunity is not the real cause of failure to pursue a study of this kind.

During the hour's drive there were seen eight different species of animals, eleven kinds of birds, four of fishes, and enough insects with which to keep one cudgeling his brain to become acquainted, and some of which, if he knew too intimately, might cause him to cease cudgeling his brain and pay regard to his body.—*Fillsburg Dispatch.*

A Thoughtful Man.

The pioneer sat in the office of the Lick house, the Lick house observatory, and gazed thoughtfully upon the passing crowd. He was not a young man, and he looked as if his mind were dwelling upon the past and its cares and troubles. There was a sad expression on his face, very sad, and a white-haired old fellow went past the window slowly.

"There's old Jim Polter," said the pioneer slowly. "Dear me! I haven't seen him for years."

"Was he an old friend of yours?"

"You bet. Yes. He was always a serious and thoughtful kind of fellow, and many's the fishin' trip I've taken with him. We went away for a week once. Thoughtful! Wal, you should have seen how thoughtful Jim was. We started off to be gone a week, and Jim he says, I'll fix things all right,' and when we got out in the woods, sure enough Jim had looked after the grub. He had six gallons of the best whisky and ten pounds of bread. Thoughtful! You bet."—*San Francisco Chronicle.*

One of the most popular men in New York is Mr. Charles Delmonico. He is a man with a singularly charming manner, unpretentious and agreeable, and is popular enough to run for alderman-at-large, and gather in the votes of the entire city. As may readily be supposed Mr. Delmonico, with a fortune of nearly $2,000,000, a distinguished appearance, and all of the characteristics of a thorough man of the world, is a figure of some consequence in New York. His acquaintance is very large, but he will hardly ever go into the political arena. All of his family have carefully shunned that.

Portsmouth MARBLE WORKS!

JOHN S. TREAT

THE OLDEST IN NEW ENGLAND

COR. DEER AND VAUGHAN STS

NEAR B. & R. R. DEPOT.

Having on hand the largest and best selected stock of

MONUMENTS,

HEAD STONES,

TABLETS, &C.,

this side of Boston, I would respectfully call your attention to the same, believing that in most cases it is better for persons about purchasing to see what they are buying than to buy of irresponsible agents with nice looking Photographs of Monumental work. Having a thorough knowledge of the business gained in the principal cities of the Union and still giving my personal attention, all will be satisfied who will give me a call, as to quality of work and prices.

Particular attention given to fencing cemetery lots with marble or granite posts or curbs.

LOWELL JENNESS, Agent.

PATENTS.

R. H. EDDY,

No. 76 State St., opposite Kilby St., Boston.

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
late Commissioner of Patents.

BOSTON, October 19, 1886.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1849, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

NEW ENGLAND, 1886. eod1

UNDISPUTED MERIT.

The great success of the Royal Baking Powder, is due to the extreme care exercised by its manufacturers to make it entirely pure, uniform in quality, and of the highest leavening power. All the scientific knowledge, care and skill, attended by a number years' practical experience, are contributed toward this end, and no pharmaceutical preparation can be dispensed with a greater accuracy, precision and exactness. Every article used is absolutely pure. A number of chemists are employed to test the strength of each ingredient, so that its exact power and effect in combination with its congredients, is definitely known. Nothing is trusted to chance, and no person is employed in the preparation of the materials used or the manufacture of the powder, who is not an expert in his particular branch of the business. As a consequence, the Royal Baking Powder is of the highest grade of excellence, always pure, wholesome and uniform in quality. Each box is exactly like every other, and will retain its powers and produce the same and the highest leavening effect in any climate, at any time. The Government Chemists, after having analized all the principal brands in the market, in their reports placed the Royal Baking Powder at the head of the list for strength, purity and wholesomeness, and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivalled.

A FEW EARNEST WORDS.

Does any one who reads those lines feel tired or nervous? Have you despondent feelings? Is your appetite sometimes poor and again voracious? Do you notice brick-dust at the bottom or a scum on the top of the fluid you pass? Are these fluids scant at times and plentiful at others? Do you have headaches once in a while? If you have these feelings **DO YOU KNOW WHAT THEY MEAN?** Your Kidneys are Diseased!!! It may be only the beginning, as it not taken in time, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

MR. JOHN W. FURBUSH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

MR. ALEXANDER L. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathaniel Greene, was so near the grave he breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape awful suffering and possibly death itself. For Sale by all Druggists.

A Fool and His Money Soon Part.

How true some of those old sayings are. A friend of mine paid a travelling quack $50 to cure him of scrofula, from which he had suffered two years. He gave him a bottle of stuff which only aggravated the disease. When he went to consult him the second time, the quack had left for parts unknown. Upon learning the circumstances I recommended Sulphur Bitters. Five bottles cured him.—Editor *Journal and Courier.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtJan

Milestones on the Road to Health.

The recovery of digestion, and the resumption of activity by the liver, bowels and kidneys, are milestones which mark our progress on the road to health. They speedily become perceptible when Hostetter's Stomach Bitters is used by the invalid. Nothing so surely and expeditiously consumes the distance to the desired goal. As no bodily function can suffer interruption without imparing the general health of the system, so the system can never acquire perfect vigor, health's synonym, until that function be actively resumed. Take, for instance, digestion, a suspension of which is invariably rectified by the Bitters. If the organs upon which it devolves grow weak, billiousness, constipation, headache, poverty of the blood, and a hundred other symptoms supervene, which indicate unmistakably the baneful general influence of dyspepsia. The disappearance of all these symptoms, through the use of the Bitters, show with what thoroughness it removes their cause.

—It would be hard to believe that Texans are actually suffering for water if we did not know that it is for their cattle they want it.

Lake Superior

Covers 32,000 square miles, Lake Michigan 22,400, Lake Huron 21,000, Lake Erie 10,815, but the need of humanity for a medicinal stimulant for many ailments is more than covered in the G. O. Taylor Bourbon and Rye Whiskey, bottled by C. H. Graves & Sons, Boston, and sold by Grocers and Druggists as a blessing to suffering humanity.

For sale by the bottle or case by John Laighton.

—A lady sought to instruct her grandchild in relation to the provident care of heaven. "Who gives you your daily bread?" asked she. "Dod," replied the child, "but Uncle John puts the butter and sugar on."

The tonic and alterative properties of Ayer's Sarsaparilla are too well known to require the specious aid of any exaggerated or fictitious certificate. Witnesses of the marvelous cures effected by this preparation are to-day living in every city and hamlet of the land.

—A jeweller at Nazareth, Pa., has made a violin wholly with his pocket knife. It is described as beautiful and finely toned.

Many mothers are unable to nurse their children. In such cases the best substitute to be found is Mellin's Food, prepared after Liebig's formula, which has proved to correspond physiologically with mothers' milk.

—Fish? No, they never mention it at the Jersey coast hotels. They call it by the more elegant appellation of "sea food."

Carter's Little Liver Pills must not be confounded with common cathartic or purgative Pills as they are entirely unlike them in every respect. One trial will prove their superiority.

—A thief stole the wedding presents of a newly married couple at Washington a day or two ago.

Don't Do It,

Said my physician, who for six months had doctored me for dyspepsia without success, when I told him I was going to try Sulphur Bitters, they will only make you worse. I did try them, and now I am a well man and can eat anything. Sulphur Bitters are a great foe to doctors.—George Bastett, N. Y. C. & H. R. Railroad.

—The president of a New Hampshire singing society is appropriately named A. Singer.

A Valuable Remedy.

Brandreth's Pills have been used by millions of human beings. Their success is founded upon the theory of reason, and as attentive observation of symptoms of disease. Whatever makes bad digestion breeds disease, and whatever makes good digestion cures disease. Brandreth's Pills make good digestion, purify the blood, and remove all bad humors out of the body by the organs of the stomach and bowels. They act in harmony with vital action and work of nutrition; the strength increases, the skin and the eye become clear, and the symptoms of the malady are surely rendered milder by their use. They are harmless for all ages and conditions.

—The green apple is small, but it has a powerful grip.

"I was all run down, and Hood's Sarsaparilla proved just the medicine I needed," write hundreds of people. Take it now.

Aid has been distributed by the Knights of Labor to the locked out tanners at Salem, Mass.

Married in Spite of a Freshet.

The high water throughout North Carolina, recently, was the cause of a romantic marriage in Rockingham county. Mr. James Madison Stout and Miss Polly Mickle, one of the most beautiful young ladies in the county, started to get married. They were accompanied by a small wedding party. When they reached Jones creek they found that the water was so high that they could not cross. They were going to the parson's on the other side.

"I'll swim across," said Tony Bush, the groom's best man, "and bring the preacher to the other bank, and he can marry you from there."

He soon had Parson Hazlett on the opposite shore. He gave him Jim's license and told him to proceed.

"Join hands, my friends," shouted the parson, and from across the stream he made them man and wife.

PARSONS'

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

MILLIONS IN PICTURES.

Art Treasures in the Galleries of Rich New Yorkers.

"New York is becoming one of the greatest art centers in the world," said a dealer in fine pictures to a *Mail and Express* reporter recently. "Surely $10,000,000 and probably more are invested in the pictures which hang on the walls of private galleries in this city. The majority of these pictures are, however, the production of foreign artists, although there is quite a large number from the studios of American artists.

"During the past few years there has been a marked and rapid advance in the knowledge and appreciation of art in this country. This is in the main due to the frequency with which Americans make European tours and visit the foreign studios and galleries. Americans have thus been enabled to study the works of the old masters as well as the modern school. The result has been that they purchase more intelligently and discriminately. The pictures in eighteen private galleries in this city are actually worth $6,000,000."

"Can you tell me about some of the finest collections in the city?" asked the scribe.

"I can tell you of some of those on which over $100,000 have been expended. The gallery of the late Wm. H. Vanderbilt heads the list. The pictures which hang on the walls on the Fifth avenue mansion are estimated at $1,000,000. In all there are about 150 works.

"Mr. Cornelius Vanderbilt's gallery is worth $300,000. In the collection of Mrs. Marshall O. Roberts, which is worth $300,000, are works by Meissonier, Paul de la Roche, Stevens, Clay, Schreyer, Hans Van Marcke, Gerome, Detaille, C. L. Millet. Besides these are the historical pieces, 'Washington Crossing the Delaware,' by Leutze; Church's 'Under Niagara' and 'Sunset in the Tropics,' and several examples of Troyon, Meyer von Bremen, Florent Willems, Verboeckhoven, George H. Boughton—over two hundred works. Mrs. Alexander T. Stewart is the owner of Rosa Bonheur's celebrated 'Horse Fair,' valued at $50,000; Meissonier's grandest picture, the Battle at Friedland,' for which the artist was paid $60,000; Gerome's 'Death of the Gladiator' and 'Chariot Race,' a grand Knaus, a fine Erskine Nicol, several Troyons and Mackays, two fine Zamacoises, Church's 'Niagara,' the picture which first brought that artist prominently before the public; two large Bouguereaus, two large Milleis—in all about 200 pictures, valued at nearly half a million dollars. Mrs. Robert L. Stuart has about 150 pictures, a number of which are by American artists. They are valued at about $250,000. Mrs. Catherine L. Wolfe has a collection of 120 works, valued at $450,000.

"Judge Hilton owns a grand Detaille, and examples of Munkaczy, Boughton, Bridgeman, Dupre, Jacque, Ziem, Achenbach, Ed Richter, Gabriel Mus—about 150 paintings, valued at $200,000. "Mr. August Belmont's pictures are selected with great care. There are in all about 100 works, and they are worth over $350,000.

"Mr. Jay Gould has a very fine collection. About 120 paintings adorn his walls, and the lowest estimate to put on their worth is a quarter of a million dollars.

"In Mr. John Jacob Astor's gallery there are Gerome's 'The Death of Cæsar,' Charles L. Millet's 'The Roll Call,' a grand Vibert and examples of Selon, Madrazo, Hector Leroux, Preyer, Meyer von Bremen and others. The collection is worth $200,000.

"Mr. William Astor has examples of Troyon, Meissonier, Cabanel, Munkaczy, Selon, Van Marcke, Toulmouche, Schreyer, Dominguez, Hector, Leroux, Madrazo, Bouguereau—about a hundred pictures in all, worth $300,000. Other valuable collections are Mr. Jeremiah Millbank's, worth $150,000; Mr. Albert Spencer's, worth $250,000; Mr. Josiah M. Fiske's, worth $100,000; Mr. Hebor R. Bishop's worth $150,000; Mr. William Rockafeller's, worth $300,000, and Mr. Mills', valued at $200,000."

A Tenderfoot Playing Cowboy.

In the rotunda of the Inter Ocean hotel here, says a Cheyenne (Wyoming) correspondent of the New York *Mail and Express*, I met yesterday an old friend, whom I had last seen in a city of the east. He was, albeit, brown from exposure, looking weak and ill, and both of his hands were wrapped in bandages. Inquiry developed that he had spent the past year on a Colorado cow ranch, and that his injuries were the mementos of a reckless attempt to acquire the cowboy's art.

This spring the "outfit" to which he had attached himself gathered up its cow ponies from the various ranges on which they had passed the winter, and began feeding grain, preparatory to the coming cattle round-up. One morning the foreman ordered the boys to saddle up, and a ride over the home ranges was begun.

As the party passed a bunch of range cattle the foreman's keen eye fell upon a steer whose brands were strange to him. The order "Rope that Texas steer, boys," was hardly heard by the cowboys before lariats were whirling in the air, loose reins flying, and the wild chase began. The steer ran gallantly, but the corn-fed horses of the cowboys gained rapidly upon him. My friend was riding a noble pony, and soon took the lead in the chase. Riding at the heels of the flying steer, the encircling lariat whirled aloft. The cast was made, and the wide noose settled around the broad horns.

As the lariat tightened, my friend tried the cowboy practice of slipping a loop over the saddle-horn, thus effectually securing the animal at the other end of the rope. He slipped the noose,

PROF. CHS. LUDWIG VON SEEGER,

Professor of Medicine at the Royal University; Knight of the Royal Austrian Order of the Iron Crown; Knight Commander of the Royal Spanish Order of Isabella; Knight of the Royal Prussian Order of the Red Eagle; Chevalier of the Legion of Honor, &c., &c., says:

"LIEBIG CO'S COCA BEEF TONIC should not be confounded with the horde of trashy cure alls. It is in no sense of the word a patent remedy. I am thoroughly conversant with its mode of preparation and know it to be not only a legitimate pharmaceutical product, but also worthy of the high commendations it has received in all parts of the world. It contains essence of Beef, Coca, Quinine, Iron and Calisaya, which are dissolved in pure genuine Spanish Imperial Crown Sherry."

Invaluable to all who are Run Down, Nervous, Dyspeptic, Bilious, Malarious or afflicted with weak kidneys. Beware of Imitations.

LIEBIG CO'S Genuine Syrup of Sarsaparilla, is guaranteed as the best Sarsaparilla in the market.

N. Y. Depot 38 MURRAY STREET.

THIS PAPER is on file at the Newspaper Advertising Agency of Messrs. N. W. AYER & SON, our authorized agents.

100 Doses One Dollar

Is inseparably connected with Hood's Sarsaparilla, and is true of no other medicine. It is an unanswerable argument as to strength and economy, while thousands testify to its superior blood-purifying and strengthing qualities. A bottle of Hood's Sarsaparilla contains 100 doses and will last a month, while others will average to last not over a week. Hence, for economy, buy only Hood's Sarsaparilla.

A. H. Truell, of Grafton, shot himself in his father's barn on the 1st inst., and will probably die. A love affair is supposed to have caused the act. The young man has borne a good name.

If there ever was a specific for any one complaint then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

Death of Samuel J. Tilden.

Hon. Samuel J. Tilden died at Greystone, New York, Aug. 4th, aged seventy-two years and four months.

He was born in New Lebanon, New York, his father being a wealthy farmer and prominent democratic politician. He studied law, and achieved eminence in his profession; but it was as a political organizer that he was most widely famed, having probably never had a superior in that line. In 1844 he founded the New York *Daily News*, which for some years was the leading democratic organ of the country. In 1846 he was elected a member of the New York assembly; but in 1848 he followed his friend and political teacher, Van Buren, and supported him on the free soil ticket against Gen. Cass, the regular democratic nominee, and for many years afterward was in partial retirement politically. From 1857 to 1869 he was engaged in railroad operations, and amassed a large fortune. He was opposed to the war for the preservation of the union, asserting the right of the states to secede. In 1868 he was chairman of the democratic state committee of New York; it was at this time the famous Tweed circular was issued, with Mr. Tilden's name signed to it. After the exposure of the crimes of the Tweed ring Mr. Tilden rendered splendid service in bringing the scoundrels to justice. In 1874 he was elected governor of New York, and in 1876 came within one electoral vote of the presidency of the United States. Since that time he has not been nominated for office, though up to a very recent period his counsels probably had more influence on democratic policy than those of any other one man.

He was a tireless worker at whatever he undertook, and was a man of very remarkable ability. He was never married.

Perils of the Fisheries.

Terrible stories of suffering from exposure and hunger are told by eight Gloucester fishermen who strayed from their vessels during a heavy fog on the fishing banks, and were picked up by passing vessels or finally reached St. Pierre, Miquelon, and arrived at Halifax, N. S., Aug. 3d, from that place. Their names are Levi Jewett and Michael Tobin, of the schooner Lizzie J. Greenleaf, who were four days and nights in a dory without food or water, when they were picked up by a French fishing bark. Harvey Daly and Jerry Smith, of the schooner Frederick A. Gearing, were picked up by a French fisherman after four days and a half of intense suffering; and after leaving the French vessel they were again five days in a dory before reaching land. Lars Olson and Oliver Hansen of the schooner David A. Story reached St. Lawrence, N. F., after being three days in an open dory; they had to sell the dory to pay their fare to St. Pierre. Chris Colman and Charles Cronan were picked up by the bark Riberia three days after losing their schooner, the William H. Oakes, and were subsequently transferred to a Canadian schooner and landed at St. Pierre.

The Jackson Manufacturing company of Nashua are preparing a fine calendar in the Chinese language for the use of their customers in that country.

Michael Rivers of Candia, a Frenchman, celebrated the 100th anniversary of his birth on Sunday, Aug 1st. He served in the war of 1812.

Prominent citizens of Dover, Rochester, Farmington and Great Falls propose to bring water in exhaustless quantity and of the best quality to those towns from Merry Meeting pond in New Durham, by an immense aqueduct.

At Detroit on the 3d inst. about 500 bricklayers were out of work as a result of the lockout declared by the associated builders of the city. The contractors do not belong to the Builders' Exchange, and the men were working for about half of them. The lockout promises to last for an indefinite length of time. A large number of men employed in the building trades will be affected if the lockout lasts long.

In Maverick county, Texas, County Judge Hoffstetter, Sheriff Oglesby, Deputy Sheriff E. Diaz and Franco Mondragon have been arrested for being concerned in the illegal capture and delivery of Francisco Rasures to the police of Piedras Negras, Mexico, and held in $1,000 each for trial.

Pope Leo XIII has implied his recognition of the *Catholic Mirror* of Baltimore, as a representative Roman Catholic journal. He praises its zeal and devotion to the church, and sends his apostolic benediction to all attaches of the paper.

A lockout and strike of the bricklayers' hodcarriers at Cincinnati began Aug. 3d; between 700 and 800 bricklayers and laborers quit work, and if a compromise is not effected within a few days some 4,000 men in the various building trades will be out of work as a consequence of the trouble.

The reports of wholesale starvation of Indians and fishermen on the Labrador and northern Newfoundland coasts are said to be gross exaggerations.

Miss Alice E. Miekleham, granddaughter of Thomas Jefferson, was dismissed from a clerkship in the patent office July 31st. On learning of her ancestry the commissioner of patents reinstated her.

The schooner Ada Ann, Perry master, was seized at Louisburg, C. B., Aug. 2d, for having contraband goods on board, but the captain made sail and escaped.

The Rotterdam steamship company has reduced the price of passage to $18 from New York to Europe, and $12 from Europe to New York.

Miss Minnie Hauk is to sing for the empress of Germany, and to sail for America Aug. 14th.

Lizzie Kiernan, aged twenty-two years, was fatally shot at Schenectady, N.Y., on the evening of Aug. 2d, by John Kleum, who had been paying her attentions for several years. The murderer stole up behind her as she was walking on the street with another young man, and shot her in the back of the head.

Serious trouble is anticipated among the miners of the Columbus & Hocking Valley Coal Co.'s mines in Ohio, owing to the opposition of the miners to the introduction of coal-cutting machines.

At Lake Quinsigamond, Mass., Edward Hanlan, the oarsman, will try to beat the three-mile record on Thursday, Aug. 12th; failing to accomplish which he will try it on the 13th and 14th.

Two old horses that had done faithful service in the Charlestown navy yard for many years were on the 3d inst. sold. One brought $10, the other $15. They had been in the navy yard since they were six years old, and though their long and faithful service had earned them a pension, they were turned over to "tip-cart" owners to spend the few years left them in toil. On this the *Traveller* says: "If this be a specimen of democratic economy, it is not one that commends itself to people of humanity."

USE

HALL'S Vegetable Sicilian HAIR

RENEWER.

It is a most perfect preparation, and, at the same time, a elegant and cleanly toilet article. Its action upon the scalp is healthful. It nourishes the glands which support the hair, and causes thin, dry hair to become thick, soft, and vigorous. It restores the color of youth to locks which have become faded with age or disease; and relieves and cures itching, caused by humors of the scalp. Dr. George Gray, Nashua, N. H., writes: "It gives me pleasure to testify to the wonderful effects produced by Hall's Vegetable Sicilian Hair Renewer, as observed by me in very many cases. IT WILL CERTAINLY RESTORE THE HAIR TO ITS ORIGINAL COLOR. It cleanses the head of dandruff, and leaves the hair soft, glossy, and beautiful." F. T. Sandhein, 1010 Spruce st., Philadelphia, Pa., writes: "After unavailingly trying a number of preparations to prevent my hair from falling out, and, realizing that I was fast becoming bald, I tried, as a last resort, Hall's Hair Renewer. I have used only four bottles of the Renewer, and am perfectly satisfied that it is the best preparation in the market for checking the falling out of hair, invigorating the hair roots, and promoting a new growth."

Buckingham's Dye

FOR THE

WHISKERS

commends itself to all who have occasion to use a dye for the beard or mustache. It will change gray, faded, or sandy whiskers, to a beautiful brown or black, as desired. The colors produced are natural and lasting. It cannot be washed off, contains no destructive ingredients, is cheap, safe, convenient to use, and effectual.

THE WEATHER.

For New England to-day:—

Fair weather, slowly rising temperature, nearly stationary barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 52 degrees above zero.

Clear.

AROUND HOME.

Messrs. Thomas J. Whidden and Gideon Beck, formerly of this city, came down from Boston on Wednesday, 4th inst.? and went to the Soonls by the evening boat.

Willis L. Dodge, Esq., night editor of the Manchester *Union*, is rusticating in Eliot.

The picnic of the home missionary society of the Unitarian church was held at Gerrish's grove, Kittery Point, on Wednesday of this week, the picnickers being taken down in the forenoon by the steamer Mystic, and brought back at six o'clock in the afternoon by the same boat.

Mr. William Chandler, for years proprietor of the Custom House Exchange, from which he was burned out some months ago, has bought the stock and good will of A. C. Amazeen's place of business on Fleet street, where he will be pleased to greet his former patrons and the public generally.

A gang of horse thieves are now working southern New Hampshire. On the 3d inst. the city marshal was notified of three robberies of teams—one at Stratham, one at Pittsfield, and one at Strafford. The work is supposed to be done by one gang, who drive the teams into Canada.

Rev. Joseph May of Philadelphia will preach in the Unitarian church in this city on Sunday next.

Mr. Henry M. Carr of Milwaukee, Wis., has arrived in this city on a visit to his mother, Mrs. James M. Carr, accompanied by his wife and two sons.

The state picnic of the Catholic Total Abstinence & Benevolent Union of New Hampshire, which will take place at Pinkham's grove, Dover point, Aug. 19th, will be one of the greatest festivals of the kind ever held in the state. The eloquent total abstinence advocate, Rev. Mr. McKenn, of Hudson, Mass., will be present by invitation.

The steamer E. P. Shaw arrived at this port about three o'clock in the afternoon on the 4th inst., with a party of excursionists from Newburyport.

The pile of empty beer barrels in the yard of the Jones brewery is assuming the dimensions of the pyramid of Ghizeh.

The last regular meeting of the city councils of 1885-86 will be held this evening. Both boards will be in session.

Camp Henry L. Richards, S. O. V., was inspected on Tuesday evening of this week by Capt. Whitehouse and Lieut. Willey of the Great Falls camp.

The last obstruction (a hoisting engine) was removed from Deer street on the afternoon of the 4th inst., and that street is now clear.

The game of base ball at Pinkham's grove, Dover point, on the 4th inst., between the Portsmouth and Dover clubs for $25 a side, was won by the Dover club—score eighteen to eleven.

MARITIME NOTES.

The barque George W. Sweeney, ten schooners, including five big three-masters, and the steamer E. P. Shaw, from Newburyport, came in on the 4th inst. Among the schooners were the brickers J. Chester Wood and Clara B. Kennard, and the general freighter Golden Gate, from Boston, and the Gulnare from York.

The revenue cutter Dallas was in the lower harbor on the 3d inst., and it is reported was engaged for several hours in dragging the channel between Fort point and Whale's-back in the unavailing endeavor to find the steam launch lost some months ago by the fish commission steamer Fish Hawk.

Six steam yachts came into the lower harbor on the 3d and 4th insts. The Ibis, owned by Gen. Lawrence of Medford, Mass., has for several days been making a port in Little harbor.

The schooner George Taulane, Jr., from Norfolk with 777 tons coal; the Kate M. Hilton, from Norfolk with 828 tons; the George M. Sweeney, from Norfolk with 1,060 tons; the Laurence Haines, from Hoboken with 436 tons; the J. D. Stugis, from Hoboken with 367 tons, and the Martin L. Smith, from Baltimore with 536 tons, all to J. Albert Walker, arrived at this port on the 4th inst.

The schooner War Eagle is on the marine railway at Kittery, undergoing general repairs before going into the coasting trade.

The Forbes regatta off Annisquam, Mass., was sailed Aug. 3d. The prizes in the first class were the same as before, namely, a silver sloop valued at $300, and silver cups valued at $75 and $40 respectively; in the second class were cash prizes of $15, $10 and $5, the prizes first put up having been won at the previous race. There was plenty of wind, and topmasts, booms and bowsprits were snapped in fine style, only seven yachts sailing over the course, though about fifty entered for the races, the rest either withdrawing before the start, or being disabled during the race. The winners in the first class were the Atalanta, Lizzie Daley and Venus; the Banneret, which was second by both actual and corrected time, being ruled out under a protest. The Hestia, Lochiel and Lark took the prizes in the second class. The Tryphosa, of this port, was one of the yachts disabled during the race, her halliards parting.

POLICE COURT--BATCHELDER J.

WEDNESDAY, Aug. 4th.

Patrick Freeman, for drunkenness, was fined $5, costs $6.90; jail in default of payment.

Wm. R. Kirby was before the court on a charge of failing to support his minor children, of which he has four, three being under ten years of age. After considerable discussion it was agreed that Kirby should take and support three of the children, Mrs. Kirby taking the other; the complaint was placed on file, to be called up again should occasion require.

SOUTH ELIOT, ME., Aug. 2d.

Mr. Henry DeHolland of Boston has leased the Lyman Spinney house, and has about twenty boarders; his house is known as Hotel DeHolland.

Mr. Samuel Dixon has a large number of Light Brahma fowls, and is hatching chickens now so that next winter when eggs are high he will get a good price for them, as he gets an extra price for all he sells for hatching.

The Sunday school of the Methodist church are preparing for a picnic.

A young tonsorial artist employed in Portsmouth is at his home here on a short vacation; gossips says he is contemplating matrimony.

The lumber for the new Advent chapel has arrived at Dixon's wharf, and work on it will be commenced at once, after Elder Geo. Brown returns from Alton Bay, where he is at present engaged at work on some cottages.

Mr. Samuel Dixon has received one cargo of coal, 200 tons, and will have another of 255 tons soon. MOSS BACK.

Mrs. C. A. Copeland of Dexter, Me., formerly Mrs. C. A. Varney, has been arrested charged with the murder of her husband, James Copeland, at Pittsfield four weeks ago by administering laudanum.

A meeting of the Ocean Park Free Baptist Association was held in the temple of the association at Old Orchard on the 3d inst., and officers elected as follows: President, Rufus Deering of Portland; secretary, O. F. Moulton; treasurer, B. F. Haley of Newmarket, N. H.; directors, I. D. Steward and J. F. Wood of Dover, N. H., E. W. Porter of Lake Village, B. F. Haley of Newmarket, Rufus Deering of Portland, B. C. Jordan of Alfred, Me., H. K. Clark of Providence, R. I., and George W. Goodwin of Wells, Me.

The prohibitionists of York county held their county convention at Kennebunk on the 3d inst., and the following nominations were made: Senators, A. G. Smith of Buxton, Rev. James Ferguson of Lyman, C. N. Murphy of South Berwick; county commissioners, R. S. Watson of Limington, F. G. Smith of Lyman; register of deeds, A. H. Hill of Old Orchard; clerk of courts, F. C. Simmonds of Kennebunk; sheriff, Dr. John Burnham of Buxton; county attorney, Frank H. Dexter of Springvale; county treasurer, Rufus A. Smith of Dayton.

The United States man-of-war Yantic arrived at Port Hawksbury, Cape Breton, Aug. 3d, from Portland, Me., and after anchoring in the harbor and landing a boat, steamed out to the North bay. There were quite a number of American fishing schooners in port with full fares.

HAPPY CHILDREN

IN MUSICAL HOMES.

A sweet voice, and a good repertoire of songs are valuable aids where juvenile humanity *must* be entertained. How convenient and useful, then, are such collections as the following:

MERRY-MAKING MELODIES.

BY WADE WHIPPLE.

Price in Boards 80 cts., in Paper 65 cts.

By a child-lover, who, in his choice of subjects and his genial treatment of them, displays a happy talent for making home cheerful. "Chubby little Chatterbox," "Grandpa," "Three little Loafers," "Jollity Jack," "Teeter-Tauter," "Pink-a-Pink," are songs full of kindliest humor, and others of higher grade. Sheet Music size; Piano or Organ accompaniment; 20 Songs; 9 Pictures.

RHYMES AND TUNES.

BY MARGARET PEARMAIN OSGOOD.

Price $1.50 in Cloth; $1.00 in Boards.

A larger book than the other, and has, in many cases German and English words. A true *Home Book*, with such songs as "Snick Snack," "Toore-Iloo," for nonsense; "London Bridge," "Ferri Meri Dist," "Lavender's Blue," &c., for Mother Goose wisdom; "Sandman," "Sleep, Darling," and other nursery songs, romantic songs, Star, May, Flower, Morning, Bird and all other varieties of song that children love. Full Piano and Organ accompaniment.

FIRE & LIFE INSURANCE.

NEW INSURANCE FIRM!

ILSLEY & MOORE,

No. 3 Pleasant St.,

NEXT TO THE POST OFFICE.

THE undersigned gives notice to all whom it may concern, that he has purchased from the senior member of the old firm of Morse & Ilsley, **all rights to the Fire Insurance Business** heretofore carried on by that firm, and is duly authorized by all the Companies represented by them to have and hold all their Records. WINGATE N. ILSLEY.

WE, the subscribers, having formed a Co-Partnership under the style of ILSLEY & MOORE, for the transaction of a *General Insurance Business*, respectfully solicit the patronage of our friends and the public generally. To every person who has ever transacted any Fire Insurance Business with the firm of Morse & Ilsley we would say the *Original and Only Authentic Record* of such business is in our possession, bought from the former senior member of the recently dissolved firm, the purchase money paid, and his receipt therefor in our hands. We have the written consent of every Company to this disposition of its Records, and we hope to retain the goodwill of all former patrons, and gain the confidence of new ones, by strict attention to their interests. W. N. ILSLEY, W. H. MOORE.

INSURANCE CARD.

DENIAL!

I most emphatically deny the statement which appears in a card of the junior member of the late firm of MORSE & ILSLEY, in which he says he purchased of me, *all right to the Insurance Business of said firm.* At the date of dissolution the firm were not agents for any Fire Insurance Company, the old companies formerly represented by us having withdrawn from the state last September, and discharged us in common with all other agents in this state; since that time we have had no authority to act for said companies in any capacity whatever. Consequently there was no Fire Insurance business or agencies, to be bought or sold, by either member of said firm. When the agencies were taken up, our commissions as agents and all blanks and supplies which the companies considered of *value* were returned to them; the books having the copies of the old policies not being of any account to the companies who had the *authentic record* of every policy in their own offices, were left in our hands, and as Mr. Ilsley only had a clerical knowledge of most of the property insured and wished to retain these old policy registers, and I, who was well acquainted with the assured and property insured, sold to him these old books, and the agency business and good will of the New England Mutual Life Insurance Company. That is all I sold, and be understood perfectly that I had retained and was to carry on the Fire, Life and Accident business, and was to have such share of the former business of the late firm as the good will of our old customers would grant to me, and that I had advertised to that effect before our trade was completed. The fact that I originally paid one-half of the purchase money of the old firm's business, and by fifteen years hard work would seem to entitle me to a favorable consideration, and I shall certainly use my best endeavors to provide good insurance to all old customers

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be seedless.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy and safe, is the quintessence of all that is preventive and curative in Ginger.

It is sure to check summer complaint, prevent indigestion, destroy disease germs in all water drank, restore the clammy, nauseated feeling in a chill, and ward of malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

The Delicious Summer Medicine. tsd

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress! No cramp or pain has ever made a demand upon it for relief or cure that has not met with instant response.

It is a delicious combination of imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "gingers," pain cures and nauseating nostrums.

Unripe fruit, impure water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, Indigestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Want of Sleep, that beset the traveller or household at this season, are nothing to those protected by SANFORD'S GINGER.

Avoid cheap and dangerous imitations said to be "the same," or "as good," or "cheaper" than

but it was over his arm instead of the saddle-horn, and like a lightning's flash he shot from the saddle. Retaining his hold on the bridle reins they followed him over the horse's head, and their loop caught his other arm. His was now attached to a wild Texas steer and a frightened cow pony pulling in opposite directions. Torturing pains shot through him, and he felt that he was being dismembered.

His senses were mercifully leaving him when he heard the loud report of a pistol. The torturing strain relaxed, and he fell to the ground insensible. When he came to himself he was in bed at the ranch, swathed in bandages. He owed his escape from a horrible death to the ready presence of mind of two cowboys. They were hard on his traces when he roped the steer. Taking in the situation at a glance, one of them shot the "buf" in his tracks, while the other severed the entangling bridle reins at one stroke of his keen-edged bowie.

The President's Money.

The President of the United States always uses new money. He never gets any old notes, except in change when making purchases. His salary is paid him in monthly installments—$4,166.66 on the last day of each month—and the treasurer always makes it a point to send him notes of the latest issue. Mr. Cleveland, as his predecessors have done, keeps a private bank account with Riggs & Co., and makes a deposit the first of every month, reserving enough from his salary to pay current expenses and setting a good example by putting the rest aside for a rainy day. I am told that his account has shown a balance as large as $35,000, as he has an income aside from his official salary. While he has never been a money-getter and has earned in his profession all he has ever made, Mr. Cleveland has an economical disposition and no luxurious tastes like his immediate predecessor. Before he entered public life, when he was making from $10,000 to $15,000 a year by his practice and could have lived like a lord, his expenses, I am told, were never more than $2,500 a year, and he enjoyed life as much as most men do. His frugal habits were acquired in youth, for he was not born with a golden or even a silver spoon in his mouth, and he has found his pleasure in hard work.—*Washington Capital.*

The house in Dumfries in which Robert Burns died has been recently repaired in consequence of its dilapidated condition. For some reason or other the woodwork of the bedroom in which the poet breathed his last was removed. This has been secured by Mr. Elliot Stock, who proposes to bind in it the fac-similes of the first edition of "Burns' Poems" which he is about to publish, and of the surplus to make cabinets in which to issue the large-paper copies of the reprint.

POISONED WATER.

The report of the State Board of Health shows a condition of things in the water supply that is absolutely appalling. One family alone has had three deaths, the origin of which can be traced to this source. The effect may not be immediate but is none the less sure. In the course of a few weeks or months, loss of appetite, headache, loss of sleep, lifeless feelings and the thousand and one symptoms that indicate the approach of disease are certain to be felt. The smaller towns have a water supply of more or less injurious character, while the farming community often draws its water from wells that are simply drainages from barns and outhouses.

When all these things are taken into consideration, the surprise is not that there is so much sickness, but that there is so much health. The evil is not avoided by drinking liquors, mineral waters or any other concoctions, for they too frequently are often more injurious than ordinary water. The only way to avoid the evil effects is by keeping the health unimpaired. All have observed that the evil effects of poisonous water are quickly manifest in some cases and much less in others. This is owing to the fact that one person is in good health while the other is not. A man, woman or child who is vigorous, and whose body is properly toned, is the one who can easiest avoid the evils above named. A gentle stimulant to the digestive organs and faculties, a strength imparting preparation, a nerve building compound is what the public require. It is what the people will have. This is precisely what Hostetter's, and the great favor with which it has been and is being received clearly shows its value. Being composed of peptonized beef, hops and malt, (the three best known invigorants and tonics,) it accumulates albumen in the body so completely as to most certainly counteract the first approaches of disease.

If the inhabitants of Michigan desire to preserve their health unimpaired in spite of the severe climate, bad water and other health enemies that surround them, they must use some standard stimulant that imparts vigor while adding strength. All heads of families and those who value their own happiness as well as that of their friends, should give this subject the most careful attention and investigation.—*Michigan Paper.*

Clear the Way

For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health. That important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-griping, gently acting and agreeable cathartic, Hostetter's Stomach Bitters, which not only liberates impurities, but invigorates the lining of the intestinal canal, when weakened by constipation or the unwise use of violent purgatives. The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this beneficent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use, on account of its safety, wide scope and speedy action.

A Valuable Remedy.

Brandreth's Pills have been used by millions of human beings. Their success is founded upon the theory of reason, and an attentive observation of symptoms of disease. Whatever makes bad digestion breeds disease, and whatever makes good digestion cures disease. Brandreth's Pills make good digestion, purify the blood, and remove all bad humors out of the body by the organs of the stomach and bowels. They act in harmony with vital action and work of nutrition; the strength increases, the skin and the eye become clear, and the symptoms of the malady are surely rendered milder by their use. They are harmless for all ages and conditions.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

THE HISTORY OF ICE CREAM.

First Discovered in Northern Pennsylvania.

There is considerable difference between the ice cream of the present day and that which would have been eaten by the pilgrim fathers, had they had any, as the art of making the cooling and refreshing dish has made a surprising advancement since the early days of its manufacture. Ice-cream, so the history of it goes, is not an invention, but a discovery, like many of the best things which have fallen to the use of man; and, strange to say, it was discovered almost simultaneously with the discovery of this great continent, and stranger still it was made by an Indian woman of one of the tribes in northern Pennsylvania. The aborigines in that part of the state used the milk of the cow elk, and they kept their milk in jugs hewn out of stone. The milk frequently froze and was generally thrown away as useless; but one of the squaws took to eating it and found it good, and she took to freezing it regularly, until her red-skinned lord made a vigorous kick on the extravagance of her using up all the milk, but every time the buck went on a hunting trip she had her frozen milk, which was the real predecessor of ice-cream, and many of the squaws of her own tribe followed her example, until it became quite a custom. When sugar was brought among them the Indians took to sweetening their frozen milk. The white settlers took to the new dish, and the avidity with which it was consumed led to the regular establishment of it among the trade.

The primitive method of making ice-cream by the confectioner of the revolutionary days was vastly different from the way it is made now. First the sweetened milk was simply congealed and then broken up with a ladle. Then it was found that cream alone made a better dish, and also that an egg or two added to its richness and body, and that if the air was beaten into it the cream increased nearly twice in quantity. The trade fell entirely into the hands of the bakers and confectioners, and the first work at which the baker's apprentice was put in those days was beating up ice-cream with a wooden paddle. The ice-cream season had no pleasures for him, for he spent his days, and frequently his nights, agitating the frozen sweetness with his wooden paddle, while his companions with their girls, helped to eat the fruit of his labors.

As the demand for the delectable dish increased the old paddle method was found to be too slow, and machinery was devised by which the work could be done by steam, water and horse power, and now the beaters revolve within the closed can while revolving blades cut the frozen cream from the sides of the vessel.

The growth and development of the trade has brought so much machinery into use that upon it depends a vast number of people for a livelihood. Thousands are engaged in the making of the different appliances for its manufacture; thousands more are employed exclusively in the making of it, and thousands are indirectly supplied with work through it. Even doctors and lawyers owe many a fee to it—the doctors earning theirs in prescribing for colic brought on by over-indulgence in it, and the lawyers getting, if not earning, theirs by means of suits for breach of promise made over the love-inspiring and seductive dish. — *Philadelphia News.*

Not So Bad for the Farmer.

Grain growers and other tillers of the soil, who feel like complaining at the low prices of farm produce now prevailing should remember that agricultural interests are not alone in the matter of depreciation of prices. The fact is that during the past seventy years farm products have increased largely in price, while manufactured articles have decreased. An interesting comparison of prices for farm produce is shown in the following table, compiled for the *Milling World:*

	1816.	1886.
Wheat, per bushel	$ 44	$ 90
Oats, per bushel	15	41
Corn, per bushel	20	46
Barley, per bushel	23	80
Butter, per pound	13	22
Cheese, per pound	6	10
Eggs, per dozen	8	12
Cows, per head	15 00	50 00
Hay, per ton	5 00	17 00
Straw, per ton	4 00	15 50
Sheep, per head	75	2 00
Farm labor, per month	8 00	18 50

Certainly in "the good old times," so often regretfully referred to, farmers were not overpaid, and these figures show that farm labor has during seventy years increased over 100 per cent, and the selling prices of farm produce have increased from 100 to 400 per cent. On the other hand, the comparison of manufactured articles show large decreases, as may be seen in the appended figures:

	1816.	1886.
Steel, per pound	$ 17	$ 13
Nails, per pound	15	4
Broadcloth, per yard	16 00	4 00
Wool blankets, per pair	15 00	7 00
Cotton cloth, per yard	30	12
Calico, per yard	25	6
Salt, per bushel	$1 00 to 4 00	15 to 25

Here are enormous differences against the manufacturers and in favor of the farmer. It would appear that agriculture has really been favored at the expense of mechanical industry, and the grain growers and general farmers should cease to consider themselves the only class of victims of the present depressed business conditions.

A Prayer-Meeting.

I heard a very amusing story the other day in connection with the recent hurricane, says a writer in the Kansas City *Journal*. A gentleman quite well known in this city was hurrying along to reach his home when the storm burst upon the city in all its fury. He sought refuge in a house where there were a number of ladies congregated, all of whom were frantic with terror. After

Why is It

That the sale of Hood's Sarsaparilla continues at such a rapidly increasing rate? It is,—1st: Because of the positive curative value of Hood's Sarsaparilla itself. 2d: Because of the conclusive evidence of remarkable cures effected by it, unsurpassed and seldom equalled by any other medicine. Send to C. I. Hood & Co., Lowell, Mass., for book containing many statements of cures.

Rev. G. C. Haddock, a Methodist minister, of Sioux City, Iowa, who has been a leader in the prosecution of saloon cases there, was shot dead on the night of Aug. 3d. There is no clue to his murderers, but the crime was doubtless the result of his war on the saloons.

If there ever was a specific for any one complaint then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

New Hampshire Finances.

Solon A. Carter, state treasurer, has exhibited an abstract of the transactions of his department during the fiscal year ending May 31st, 1886, the detailed report to the legislature not being due until next year. From this it appears that the state debt on the first of June was $2,998,541.97, a reduction of $25,206.43 during the last year. As there is no session of the legislature this year it is thought that a further reduction of $160,000 can be made before the next statement. The revenues of the state are derived from the following sources:

Sad Accident in Portland.

A party of fifteen persons, in two sailboats, went on an excursion in Portland harbor Wednesday, the 4th inst., all being related to each other. In one boat were eight, namely: Wellington Masters, aged seventy-one years; his wife, Jane Masters, aged sixty-nine; and Jane Masters, aged nine, Emma Cleveland, aged twelve, Henry Cleveland, aged seven, Maud Whitten, aged twelve, Benjamin Whitten, aged seven, and James Whitten, aged sixteen, all the young people being grand-children of Wellington Masters and wife. About the middle of the forenoon this boat was capsized by a flaw, and all the occupants drowned except James Whitten. The bodies of the two old people, and of Jennie Masters and Emma Cleveland, were picked up floating on the water. In the other boat, and witnesses of the disaster, were John R. Cleveland and James Whitten, and their wives, parents of several of the drowned children.

LIQUOR DEALERS' ORGANIZATION.

An organized movement has been made by the liquor dealers throughout the state of Massachusetts to protect their interests, and now the several branches are holding meetings to send delegates to a general convention. The convention's aim will be to protect those who do a legitimate business in license cities and towns, and in aiding the law to stamp out illegal selling. No immoral or disreputable person is to be allowed to become a member. Men and women, drummers, clerks and bartenders over eighteen years of age are eligible to membership in this "Massachusetts Protective Liquor-dealers' Association." The treasurer is required to give a bond of $100,000, and each member of the executive committee gives bond for $10,000. The circular says: "We make no party lines, and the liquor dealers are requested not to become candidates in politics, and yet election districts will be provided for, and a close watch kept upon the views of candidates for office, from the governor down."

The schooner yacht Miranda arrived at the Atlantic yacht club's basin at Bay Ridge, L. I., Aug. 3d, thirty-eight days out Cowes, Isle of Wight. She had on board Ex-Commodore George B. H. Hill of the New York yacht club, and Mr. J. Langdon Ward. She had light winds, mostly from the west, during the entire voyage. The Miranda has a record as the fastest of the English racing schooners. She has repeatedly beaten the Irex, Genesta, Galatea and other crack cutters. She is eighty-six feet in length on low water line, and 18 9-10 feet beam. Her rated tonnage is 121 tons. She was designed by John Harvey, an English yacht architect, now of New York, who built the cutters Wenonah and Bedouin, the latter of which gave the four big sloops a tight race in New York harbor a month or more ago. The Miranda was bought by Mr. Hill at Southampton, Eng., of Mr. G. C. Lampson. Mr. Hill will put her on the ways immediately, and hopes to be able to enter in the Goelet cup races at Newport. He has applied to Congress for permission to fly the American flag, and means to make a test question whether the present shipping laws apply as well to a foreign-built pleasure craft as to a merchant vessel.

An earthquake is reported as having taken place about three o'clock in the morning on the 4th inst., at Bethlehem. It was also felt at Fabyan's. There were two loud reports, and shocks which made houses rock and everything rattle. Some land slides are reported.

The trouble at John P. Squires' pork packing establishment in Cambridge, Mass., assumed the proportions of a riot on the 4th inst., a number of non-strikers being assaulted and some of them badly hurt, by mobs of several hundred men, women and children. The police used their clubs freely, and several of the rioters were arrested.

Prejudice.

Prejudice is a good thing if based upon experience, study, or investigation, but prejudice without conviction is unwise. It discourages a desire for information, and blinds people to obvious facts. Prejudice is ever a trig to the wheels of progress. It frowns upon new enterprises, and scoffs at all new discoveries. All systems of religon or of education, all moral reforms, as well as many individuals, suffer more or less from prejudice.

We call to mind at this moment a class of business men that has suffered especially from blind prejudice. We refer to the so-called medicine men. With few exceptions these men are earnest, sincere, and highly respectable. The pride they feel in their business and the energy and skill with which they pursue it, is not equalled by any other class. Some of the patent medicine firms rank among the oldest in the country. For example, the business of I. S. Johnson & Co., of Boston, was established in 1810, and has continued successfully to the present time. They are the manufacturers of Johnson's Anodyne Liniment, Parsons' Pills, etc. Could any one pretend that a business which has stood a test of more than three-quarters of a century is not legitimate, or that its products do not fill a great public want. Frauds and false pretenders are ever with us, but they do not continue long in business.

Old Dr. Johnson and his successors have given their lives to the business which they have established. They have explored every avenue of medical knowledge, and spent ten of thousands of dollars in their efforts to provide reliable and really valuable remedies. The reputation of their articles is of more value to them than all the money they ever got or ever will get out of them. If this firm had done no more than to give to the world such a priceless remedy as Parsons' Pill, they would still deserve the gratitude of mankind. If individuals and families could be brought to realize the marvelous power of Parsons' Pills in the prevention and cure of disease, an almost incredible amount of suffering and expense might be prevented. Many families maintain their health the year around by the use of these pills alone, and it is by no means a rare thing for persons suffering from what are supposed to be incurable diseases, to be restored to sound health by the use of Parsons' Pills.

Let not your prejudice stand between you and this priceless remedy. The information contained in the wrapper around each box of Parsons' Pills, is worth ten times the cost of the pills.

The Newburyport *Herald* was burned, watered and smoked out of its office on the night of the 4th inst. The forms and a portion of the type were saved. A composing room was set up in the adjoining building, the forms were printed on the *Germ* press, and the paper came out on time next morning.

At present there are no signs of an immediate settlement of the labor troubles at Brockton, Mass., the strikers insisting that Bailey, the non-union man, shall be discharged and not given work in any capacity, and the manufacturers replying that "As to Mr. Reynolds, he does not in any way enter into this case, for, as it stands to-day, it is simply a question of right or wrong, a question of being a free man in a free land, and that justice be awarded to an honest non-union workman."

Frank Johnson, at Northwood Narrows, has been appointed railway postal clerk on the route from Pittsfield to Hooksett, vice R. E. Dessy transferred to the route from Portland to Worcester.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S

Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

Sold by all Druggists.

Price $1; Six bottles, $5.

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

[Lines composed by Dr. E. W. Twombly of Newington, on Henry Bean's milk route.]

Henry Bean keeps forty cows;
He feeds them on the best of meal and hay,
And carries the milk to town
Every day.

Through storms of rain and drifting snow,
He never fails to go;
If he does not go himself it is all the same—
The milk is carried by Charley Dame.

His horses are fine and gay,
They come to town every day;
And the best of milk that ever was seen
Is sold by Henry Bean.

He understands his business well;
All the milk he brings to town he does sell;
And when there is a dollar to be made,
He is always ready for trade.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, August 5th, Mayor Eldredge in the chair:

Present the full board.

Records of the late meeting were read and approved.

Harry J. Freeman was granted leave to encumber Bridge street for building purposes.

Wm. A. Plaisted was granted a sidewalk on Islington street.

Wm. Stringer was granted leave to erect a barber pole on Islington street.

Willis G. Myers was granted leave to open a drain.

Communication from A. J. Penhallow in regard to furnishing a bathing place was accepted and filed.

A. K. Brown was ordered to be paid $400, for sprinkling streets.

The mayor was empowered to settle Christopher Smart's claim for damage to horse occasioned by a defect in the south millbridge.

Bills to the amount of about $500 were ordered paid.

On claims of John S. Pray and others, for damages caused by the construction of the new sewer, it was decided that the contractor and not the city is responsible.

It was voted that the new Portsmouth Shoe Co. be exempt from taxation for ten years.

Daniel E. Leavitt resigned as a member of the board of instruction; accepted, and Wm. W. Cotton elected to fill the vacancy.

The board met the common council in convention, and canvassed the votes for mayor, aldermen and councilmen, cast at the late election. The convention then rose, and the council adjourned.

On resuming, the thanks of the board were voted to his honor Mayor Eldredge, to City Clerk Goodrich and City Messenger Gardner for their efficient and courteous services during the past year; and each gentleman named responded appropriately.

The revision of the city ordinances by the city solicitor was accepted, and the board adjourned sine die.

Probably no one knew better than the conductor of the *Chronicle* that the great "head wind," "kicking," "bolt," etc. in the democratic party, talked about in the *Chronicle* and *Penny Post*, never had an existence except in the columns of those papers, and that the only motive in setting them forth so big was to kindle into flame any spark of dissatisfaction that might exist, in hope thereby to help the republican ticket.—*Times.*

Our neighbor does not deceive a single democrat in the city—not even himself—by such bosh as that. If all was so lovely in the democratic ranks, how did it come about that the three democratic aldermen of 1885-86 were made yearlings of in the caucus of ward two? Where did the 203 votes thrown in the democratic mayoralty caucus against Mr. Eldredge's renomination, although he had only served one year, come from? It has been the established custom of both parties to give satisfactory officials an uncontested renomination. If there was no "kick" in the democratic party, why was it considered necessary by all the democratic magnates that they should be on hand in the mayoralty caucus and work like beavers, to secure a renomination which under ordinary circumstances would not have been opposed by a single vote?

THE LANE FAMILY.

HAMPTON, Aug. 5th.

The descendants of William and Dea. Joshua Lane having formed an association for the purpose of erecting a monument to the memory of their said ancestors, and raised more than three-fifths of the money to accomplish the object, will hold a second meeting at the town hall in Hampton, Sept. 1st 1886, to perfect plans to complete the objects of the association. Hon. L. W. Lane of Augusta, Me., Bro. J. W. Lane of North Hadley, Bro. J. P. Lane of Norton, Mass., and others, will contribute to the interest of the occasion by historic reminiscences. It is hoped that in addition to the completion of the monument a sufficient fund will be provided to care for the same and lot for many years. Family connections in the vicinity propose a basket picnic for the entertainment of those coming from a distance. J. G. L., *Sec.*

THE COTTAGE HOSPITAL.

The directors of the Cottage Hospital acknowledge with many thanks the gift of $5 from Mr. Oscar Laighton, which with the sum gained by the excursion to the Shoals, made a round hundred dollars.

The second excursion to the Shoals for the benefit of the hospital will take place next Tuesday, tickets being seventy-five cents for the round trip, good to go and return on any boat to and from the islands during the day, and the Oceanic making a special run in by the light of the moon about 9:30 in the evening. All the islands will be at the service of the excursionists. Intending participants are requested to leave their names at Grace's drug store as soon as convenient.

AROUND HOME.

Moonlight excursion on steamer Mystic this evening; see advertisement.

The flag at Liberty bridge was at half-mast on the 5th inst., on account of the death of Hon. Samuel J. Tilden.

After the adjournment of the city councils on Thursday evening last, Mayor Eldredge invited the members of the city government and the reporters to accept his hospitality at the Rockingham house. In extending the invitation to the *Chronicle* reporter, his honor paid a high compliment to the correctness of the reports made by him, and to their fairness, there never having been any misrepresentation of business done, or unfair garbling of statements made in the board.

B. P. Shillaber, Esq., is resting and we hope recuperating at Mr. Louis F. deRochemont's place in Newington. Advancing years, and his old enemy, rheumatism, are keeping him a pretty close prisoner; but any old or young friends who may call upon the genial Ben will find as hearty and cheerful a welcome as ever. When one who has contributed so much to the innocent amusement of the world as has Mrs. Partington, and who is still as socially inclined and as jovial a companion as of old, is penned up and made uncomfortable by that wearing and torturing complaint, it appears as though there must be a screw loose somewhere in the management of things.

Mr. A. Q. Miller, of Niles' Advertising Agency, Boston, with a number of friends, was at the Rockingham on Wednesday night of this week, for a short trip in the yacht Ida, from this port. Bon voyage.

The fishing schooner Agnes E. Downs, Levi Downs master, arrived in on Thursday evening. Capt. Downs reports that in the vicinity of Boon island, and for a considerable distance east and west of that locality, mackerel were plenty, but they were schooling only close in shore and near the ledges, where from the broken formation of the bottom there was a much better chance to run a seine than to make a good haul. A large number of fishing vessels were watching them, but were not doing much in the way of fishing.

The three o'clock P. M. train from this city for Boston, on the 5th inst., was drawn by the new engine Gen. Lander, a big, splendid looking machine weighing about forty-eight tons.

Checks in payment of awards by the Alabama claims court were presented at banks in this city on the 5th inst.

Remark is made as to the very quiet style in which the democrats rejoiced over their victory of the 3d inst. Never before was there such a tremendous and continued outburst of silence after a democratic triumph as prevailed on Tuesday night of this week. Not a cheer nor a howl was heard throughout the night.

A list containing the names of members of the legislature of last year who voted against the ten hour law is now being circulated throughout the state by friends of the Knights of Labor. The object, no doubt, is to kill off all chances of those men being sent back again.

Hundreds of families in Portsmouth and vicinity attest the value of Preston's Elixir. It is certainly one of the most reliable and efficacious remedies for summer troubles ever known. Have you tried Preston's Jamaica Ginger?

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be seized.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy relief, and prompt cure of all that is preventive and curative in medicine.

It is sure to check summer complaint, prevent indigestion, destroy flatulence, quiet pains in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

The Delicious Summer Medicine. 1si

GLADSTONE--PARNELL AND THE GREAT IRISH STRUGGLE

By the *eminent author*, HON. T. P. O'CONNOR, *M. P. for Liverpool*, and R. M. MCWADE, Esq. Endorsed by HON. C. S. PARNELL. *A thrilling history of Irish oppression and the mighty struggle at Home Rule that is rocking the British Empire to its centre*; also Biographies of the leaders. *An entirely new work from high authority, at all-absorbing interest, richly* illustrated, and in **immense demand.** ☞ Apply quickly to HUBBARD BROS., Pubs., 10 Federal St., Boston, Mass.

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress. No cramp or pain has ever made a demand upon it for relief or cure that has not met with instant response.

It is a delicious combination of Imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "gingers," pain cures and nauseating nostrums.

Unripe fruit, impure water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, Indigestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that be set the traveller or household at this season, are nothing to those protected by SANFORD'S GINGER.

Avoid cheap and dangerous imitations sold to be "the same," or "as good," or "cheaper" than

SANFORD'S GINGER.

[Concluded from 1st page]

a little the storm increased in fury, the house rocked and swayed before the furious winds, several windows were blown in, and it looked as though the whole building would be destroyed. The women rushed around wringing their hands, crying and bemoaning their fate, when suddenly one rushed up to the gentleman and frantically besought him to offer up prayer. In a moment he was surrounded by the other women, who clung to him and begged him to pray. He was not by any means collected himself, and besides was not up at all in prayers, but there was no escape for him, so he prepared to comply with their request.

He knelt down, but owing to the excited condition of his mind and the fact that he had not prayed for a long time he found himself utterly unequal to the occasion. He couldn't think of anything. He was dumb. Soon he became desperate, and without a thought as to its appropriateness he pronounced the following brief exhortation, which he remembered to have formed a part of the grace his father used to say many years ago: "O Lord, make us thankful for that which we are about to receive." Just then three of four windows blew in, a couple of chimneys blew over, and prayer-meeting broke up in confusion.

The following is a curious Creole remedy for sore throat: In swelling of the glands of the throat the swollen gland should be well rubbed with tallow, and the tallow smeared on thoroughly, and breathing close to the skin, without actually touching it, the blade of a knife heated in the flame of a lamp or candle. Some say the point of the heated blade only should approach the skin, and that the point only should be moved so as to describe a cross immediately over the gland. The latter is a purely superstitious idea.

Mr. Winans, the American Crossus, who is leading a baronial life in Scotland, has been much abused by the English press because of his alleged selfishness and cruel treatment of the crofters of the neighborhood. One of his neighbors, however, writes to the *Country Gentleman* to correct some of the current stories. He says: "Certainly no one on this earth cares less for public opinion than Mr. Winans. When the day arrives that this great man leaves the poor crofters of Strathfarrur and many other glens, it will be indeed a sad time for them. A kinder man never came among them. They received 7,000 rabbits from him, besides any amount of venison, this winter alone. He never sells any game or venison."

Of the twenty original families in the Dunkard colony, Norton county, Kas., only five remain. They are rolling up wealth. The colony now covers a territory of eight square miles. Each farmer has on an average 100 acres under cultivation. Some have 200 acres. A windmill may be seen on nearly every farm.

HAPPY CHILDREN
IN MUSICAL HOMES.

A sweet voice, and a good repertoire of songs are valuable aids where juvenile humanity *must* be entertained. How convenient and useful, then, are such collections as the following:

MERRY-MAKING MELODIES.

BY WADE WHIPPLE.

Price in Boards 80 cts., in Paper 65 cts.

By a child-lover, who, in his choice of subjects and his genial treatment of them, displays a happy talent for making those cheerful. "Chubby Little Chatterbox," "Grandpa," "Three little Loafers," "Jolly Jack," "Tooter-Tauter," "Pink-a-pank," are songs full of kindliest humor, and others of higher grade. Sheet Music size; Piano or Organ accompaniment; 20 Songs; 9 Pictures.

RHYMES AND TUNES.

BY MARGARET PEARMAIN OSGOOD.

Price $1.50 in Cloth; $1.00 in Boards.

A larger book than the other, and has, in many cases German and English words. A true *Home Book*, with such songs as "Snick Snack," "Tooree-lilloo," for nonsense; "London Bridge," "Peri Meri Dixi," "Lavender's Blue," &c., for Mother Goose wisdom; "Sandman," "Sleep, Darling," and other nursery songs, romantic songs, Star, May, Flower, Morning, Bird and all other varieties of song that children love. Full Piano and Organ accompaniment.

OLIVER DITSON & CO., BOSTON.

POISONED WATER.

The report of the State Board of Health shows a condition of things in the water supply that is absolutely appalling. One family alone has had three deaths, the origin of which can be traced to this source. The effect may not be immediate but is none the less sure. In the course of few weeks or months, loss of appetite, headache, loss of sleep, tired feelings and the blues and one symptoms that indicate the approach of disease are certain to be felt. The smaller towns have a water supply of more or less injurious character, while the farming community often draws its water from wells that are simply drainages from barns and outhouses.

When all these things are taken into consideration, the surprise is not that there is so much sickness, but that there is so much health. The evil is not avoided by drinking liquors, mineral waters or any other concoctions, for they too frequently are often more injurious than ordinary water. The only way to avoid the evil effects is by keeping the health unimpaired. All have observed that the evil effects of poisonous water are quickly manifest in some cases and much less in others. This is owing to the fact that one person is in good health while the other is not. A man, woman or child who is vigorous, and whose body is properly toned, is the one who can easiest avoid the evils above named. A gentle stimulant to the digestive organs and faculties, a strength imparting preparation, a nerve building compound is what the public require, is what the people will have. This is precisely what Hoptonic is, and the great favor with which it has been and is being received clearly shows its value. Being composed of peptonized beef, hops and malt, (the three best known invigorants and tonics,) it accumulates albumen in the body so completely as to most certainly counteract the first approaches of disease.

If the inhabitants of Michigan desire to preserve their health unimpaired in spite of the severe climate, bad water and other health secreting that surround them, they must use some standard stimulant that imparts vigor while adding strength. All heads of families and those who value their own happiness as well as that of their friends, should give this subject the most careful attention and investigation.—*Michigan Paper.*

Clear the Way

For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health. That important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-griping, gently acting and agreeable cathartic, Hostetter's Stomach Bitters, which not only liberates impurities, but invigorates the lining of the intestinal canal, when weakened by constipation or the unwise use of violent purgatives. The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this beneficent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use, on account of its safety, wide scope and speedy action.

A Connecticut constable started for Haddam a few days ago, having a prisoner in the buggy with him. While going, the couple partook of whiskey several times, and when they got to the jail each insisted the other was bringing him to jail. They were so drunk that the jailer was unable to tell which was the officer, and they were both locked up until they were sober enough to permit an identification.

Lake Superior

Covers 32,000 square miles, Lake Michigan 22,400, Lake Huron 21,000, Lake Erie 10,815, but the need of humanity for a medicinal stimulant for many ailments is more than covered in the G. O. Taylor Bourbon and Rye Whiskey, bottled by C. H. Graves & Sons, Boston, and sold by Grocers and Druggists as a blessing to suffering humanity.

For sale by the bottle or case by John Laighton.

The rapid decline in the price of silver has caused great alarm in the mining districts in Montana. About 30,000 people are dependent upon the mining enterprises. The Glendale works, employing 1,000 hands, will close on the 15th. The Alice Moulton, Lexington and many others find they cannot run at the present depression.

The tonic and alterative properties of Ayer's Sarsaparilla are too well known to require the specious aid of any exaggerated or fictitious certificate. Witnesses of the marvelous cures effected by this preparation are to-day living in every city and hamlet of the land.

Sunday, 25th ult., while Joseph Cilley and family of Northwood were at church, some person or persons broke into the house and took away quite a sum of money and some silver ware, besides badly damaging some of the doors of the house.

Many mothers are unable to nurse their children. In such cases the best substitute to be found is Mellin's Food, prepared after Liebig's formula, which has proved to correspond physiologically with mothers' milk.

Oliver McGuigan of Dover had a goat, which was tethered near the Cocheco Co.'s railroad track. On a recent morning the goat, with belligerent intent and menace, got on the track in front of one of the company's coal carts as it was running along the track, and gave it a gallant thump, which however resulted disastrously for the goat.

Carter's Little Liver Pills must not be confounded with common cathartic or purgative Pills as they are entirely unlike them in every respect. One trial will prove their superiority.

Senator Frye and wife have left Washington for home, Mrs. Frye not being well.

Don't Do It,

Said my physician, who for six months had doctored me for dyspepsia without success, when I told him I was going to try Sulphur Bitters, they will only make you worse. I did try them, and now I am a well man and can eat anything. Sulphur Bitters are a great foe to doctors.—George Bastett, N. Y. C. & H. R. Railroad.

From 800 to 1,000 bushels will be the yield of market blueberries from Northwood the present season.

A Valuable Remedy.

Brandreth's Pills have been used by millions of human beings. Their success is founded upon the theory of reason, and an attentive observation of symptoms of disease. Whatever makes bad digestion breeds disease, and whatever makes good digestion cures disease. Brandreth's Pills make good digestion, purify the blood, and remove all bad humors out of the body by the organs of the stomach and bowels. They act in harmony with vital action and work of nutrition; the strength increases, the skin and the eye become clear, and the symptoms of the malady are surely rendered milder by their use. They are harmless for all ages and conditions.

Judge Stovall, of McDuffie, Ga., was a delegate to the whig national convention of 1840, and still wears his "Harrison and Tyler" campaign badge.

"That tired feeling" from which you suffer so much, particualy in the morning, is entirely thrown off by Hood's Sarsaparilla.

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

A DAKOTA LIAR.

He Tells a Few Stories About the Ambitious Territory.

In the east thousands of people plant and sow "in the moon" to insure rapid growth, but in Dakota it is dangerous to plant in the prolific phase of the moon, so they are careful to plant at such a time that the moon will exert its influence in holding the crop back. I have known several disasters to result from neglect of this precaution. One day last January I got lost out in the country, and while I was toiling through the tall, new grass I saw a man with nothing on but his suspenders tearing along like mad. He stopped just long enough to tell me what was up, and off he went again for the Iowa side of the Sioux river, which he cleared at a bound, and fell on all fours into a snowdrift four feet deep. He said he and his wife had looked up the moon business, and had planted their garden the evening before, but happened to get hold of last year's almanac, and missed it about four days. The result was that when he woke up that morning the beets that he planted forty feet from the house had crushed in his cellar walls, and a squash vine had taken the door off its hinges and was just mopping the floor with all there was left of his hired man, whom it had snatched out of bed in the attic. He didn't know where his wife was, but he saw some shreds of a nightgown and several agate buttons in the front yard as he fled. He said there were peavines after him, with pods on 'em large enough for phantom boats; and one could see by the way he was dressed that if he was a liar at all he was not a regular Dakota thoroughbred sample. If I really thought I would ever become an average Dakota liar I would want to die. This territory must be divided sometime before the day of judgment, for how could the Almighty ever audit its accounts with only one set of clerical angels at work at a time?

About two weeks ago I saw a farmer out behind a straw-stack gathering into a heap a lot of old bones and pieces of hides, and sprinkling salt on them. Yesterday I saw this same man selling a fine pair of steers to a butcher up town. They were so fat and had filled up so fast that he had pieced out their hides with an old buffalo robe. This granger was a Sunday-school superintendent before he came to Dakota, but he swore that these were the same cattle I had seen him kicking together behind the straw-stack. He said all that they had eaten was some wild grass that had sprung up in his door-yard, where the women folks had thrown out a few tubs of warm soapsuds on wash days. He said that he had learned that the best way to winter stock in Dakota was to knock them all to pieces in the fall and set them up again as wanted, otherwise, unless we got a blizzard every week, they were liable to get too fat and round on the native grass.

Last fall I stopped at a house to borrow a match to light my pipe with. The man told me to go right out in the garden and pick all I wanted. I did not know what he meant at first, but he went out with me, and—I'm almost afraid you'll think I'm a liar for telling it—there was about half an acre growing the finest parlor matches I ever saw. They were as thick as hairs on a blind mole. He said he had a poor crop the year before because the seed was too good for such soil. This year he had mixed his seed matches with about one-fourth toothpicks and got a splendid yield.

I went out after breakfast and saw the man blowing up hubbard squashes with gunpowder. They were too large to be moved, and the farmer wanted the ground. I noticed that one of his wife's legs was about eight inches longer than the other, and the man explained it thus: He said when they first came to Dakota they lived in a "dugout," with nothing but the ground for a floor, from which they had to mow the grass once a day to find the baby. He said his wife had a habit of sitting with one leg over the other knee, and the leg that remained in contact with the soil got such a start that the other could never catch up.—*Dakota Cor. Modern Miller.*

The Last of the Buffalo.

Many of the exchanges have recently published articles concerning the domesticating of the buffalo, or crossing it with our cattle and using them for beef. Indeed, we are not certain but articles of the kind have found their way into the columns of clippings in the *Stock-growers' Journal*, but we suppose no practical man ever thought seriously about such a scheme. In the first place, there is no source from which to draw our supply of buffalo from which to breed, and in the next place it is not known that the breeds will mix. The day of the buffalo is gone. His bones bleach on the plains from the Rio Grande to the Saskatchawan, and after allowing and indulging in the indiscriminate slaughter until the species is so nearly extinct, it is too late to try to make use of him. Where once countless millions of the noblest wild animals that ever trod the earth roamed at will, furnishing food for Indians and ravenous beasts, now not one single large herd can be found. Like the Indian, the buffalo will not flourish when domesticated. The boundless plains were his home, but the pale face with insatiate greed and improved firearms invaded the realms of the buffalo and wantonly swept from existence the magnificent animal. We can not now recall him. He and the frontier are no more. Like the trapper, the flat-boatman and scout, he has been swept from earth by advancing civilization, and the dogie of the pale face browses where once he was wont to roam and the flesh of the white man's cow is issued from the agency to the noble red man in lieu of the buffalo hump which the red man a few years

Why is it

That the sale of Hood's Sarsaparilla continues at such a rapidly increasing rate? It is,—1st: Because of the positive curative value of Hood's Sarsaparilla itself. 2d: Because of the conclusive evidence of remarkable cures effected by it, unsurpassed and seldom equalled by any other medicine. Send to C. I. Hood & Co., Lowell, Mass., for book containing many statements of cures.

One of Keene Bros.' suspended cutters at the Skowhegan, Me., factory was employed outside the building. The Knights of Labor objected, and he was discharged. He retaliated by having two of their number arrested for conspiracy.

If there ever was a specific for any one complaint then Carter's Little Liver Pills are a specific for Sick Headache, and every woman should know this. They are not only a positive cure, but a sure preventive if taken when the approach is felt. Carter's Little Liver Pills act directly on the liver and bile, and in this way remove the cause of disease without first making you sick by a weakening purge. If you try them you will not be disappointed.

NEW YORK LETTER.

[FROM OUR REGULAR CORRESPONDENT.]

Gail Hamilton in "Words"—Cleveland's Vetoes a Natural Sequence, and Peck's Wrong Peckage—The New Yorker's Favorite Boast Against the Pacific—Bellin M. Squire, a Commissioner of the "Spirits"—A New Departure by a Distinguished Baptist Humbug.

NEW YORK, Aug. 5th.

Gail Hamilton says, "But few authors, compilers, or critics know how either to read or write!" This would be discouraging, if true, and would deter little and kind people from writing for even so good-natured a public as your own. How swiftly does she undo such a statement, however, by writing with an unusual care and force her "Words" in the July *North American*. None more surely than she believe that it will be rightfully read and appreciated, whether agreed to or not. No reading of the fair lady will be just to her, if it fails to disclose the debris of men and doctrines lying along her path. After "words" there will be gathered whatever may be left, such as Gladstone, Huxley, Harrison, Chamberlain, Everett, Sumner, Loyalism and Free Trade. Conclusively, if one reads her, and *likes* her, he knows how to read.

It is a matter of some surprise that republican newspapers should criticise Mr. Cleveland's persistent vetoes of the pension bills. There is but one possible comment; his action is thoroughly reasonable, and to be expected. Let us concede to him, at least, an *occasional* consistency. His brother, Major Louis Cleveland, was the mustering officer of the 19th Army Corps, and said to me, during the rebellion,—"Grover Cleveland is the meanest copperhead in New York state." At some time in their lives, everybody has wished for a limit to caricature, and most of just and decent of people wish it always. But it never passed the limit so grossly as when the democratic pictorial of this city, a few weeks since, posed our president, in an admiral's uniform, *at the masthead*. If the resurrection of the body was a concluded fact, the tomb of David Glascoe Farragut would have flung wide open its door, that the publisher of that paper might have been slain where he stood. In any other garb, friend *Puck*, than that of a soldier or sailor of the rebellion—on *this* side, at least.

The staple theory, and much of the talk of the average New Yorker is of his own liberality and munificence, against the niggardliness of the rest of the world, and in an especial degree of New England; and yet, and in a general manner, there is no other city that breeds and buries so many of that peculiar class—the *poor rich*. You may run over the long list of the living and dead rich, and fail to find in what respect our city, in its history, its beneficences, or in its possible future, has been bettered by the lives of most of them. If Astor and Lenox did build libraries, they so hampered them by regulations as to make them practically useless to the people. If A. T. Stewart did design, and bring near to completion, one of the most tender of charities, its conclusion was wickedly defeated by a poor rich, who came after him. One can forgive the father, Cornelius Vanderbilt, for not giving, remembering how munificently the son, William H., has bestowed. George I. Seney gave of his millions, like a lord, even to his own impoverishment. Peter Cooper gave from the time he had it to give, and has erected for himself an imperishable monument in the Cooper Union. No man has ever, in this money-spinning city, so worthily won the hearts of the common people. If, as Mr. Beecher believes should have happened speech had been given to animals, what loud hosannas would go up from the poor and burdened horses of this country to Henry Bergh, who gives his life and fortune to a work, that needs no encomium. And right here we stop, and could commence an enumeration, covering your whole paper, of thousands of men of enormous riches in this city, who can any should feel to give to objects needful and deserving of every man's money; but who instead have lived, and will probably die, innocent of blessing and other living creature than their own.

The present status of Rollin M. Squire, commissioner of public works, of this city, will not seem remarkable to those who know his antecedents. He visited Portsmouth some twenty years since, upon a mission, creditable if honest, but damnable if otherwise. When a man claims to bring to his neighbor the presence of a dead parent or wife, or message therefrom, he either demonstrates what the world has not yet authoritatively received, or else he is the most contemptible trickster upon the globe. An old Spiritualist says that nine-tenths of the so-called mediums are importers. Most of men think of so the other tenth. I witnessed some of the alleged phenomena of which he was the instrument, only to be amused at the pliant deftness of the human frame, and the intense indulgence and gullibility of his audiences. His present crime, if it is that, will take on a too frequent condition of recent and similar transactions—difficult of technical proof, but most easy of belief. I would be very slow to give offence to any one of the many conscientious Spiritualists. A belief in Spiritualism, or in Christianity, or in Hindooism, is an outcome of the taste and desire for comfort of the believer. There is a class, not to be despised—and they *have* been—who, with Herbert Spencer, believe it "unsearchable;" and who ask, with Matthew Arnold, for "verification." A sound philosophy is that which keeps its eyes and ears wide open, looking out and on, but, above all, is patient. Life is too full of healthful occupation to be angry. Violence to a prevailing religion is not wisdom. The church is moving fast enough.

Rev. Hugh Pentecost, a favorite among Baptist dominies, shocked a large audience last Sunday morning, in saying to it—"You do not believe that which was preached to your fathers, nor will your children believe that which is preached to you." "Science is digging under Creed, with perceptible results." "It is nobler to *deny* a God than to *believe* in one who finds his amusement and glory in consigning to an endless torture a Channing and Ballou, a Ware, Chapin, Bellows and King." These are very trite propositions, and often urged; but not by a distinguished Baptist to a Congregationalist audience. G.

Ruby Lovering, who lived in Vanceboro, Me., but who has for two years past been living a life of shame in various cities, was found insensible in her room in Dover on the 4th inst., as the result of taking laudanum. She recovered, and started for the depot to go to Portland. In the depot she took another dose, and fell insensible to the floor. She has since died.

The weavers in the Salmon Falls cotton mills struck Aug. 5th. The reason assigned for the strike is that the company declined to allow weavers pay for any cut of cloth containing bad places or defects. The strike was ordered by the Knights of Labor.

Mrs. Abigail Remick, of West Milton, will be 105 years old if she lives until Dec. 21st. She lives with her son, Timothy Remick, aged eighty-four. Her friends will give her a grand jubilee. Her hearing is very good, her eyesight fair, and she tells interesting stories of the stirring scenes in 1812, when she accompanied her husband to the defence of Fort Constitution, Portsmouth harbor.

—Professor Felix Adler says that continued heat produces crime. It is not so positive about crime, but it certainly causes a tidal wave of falsehoods. Men will unblushingly lie about the thermometer during a heated term.

Three Peculiarities

Hood's Sarsaparilla, the great blood purifier and regulating medicine, is characterized by three peculiarities, namely:

1st: The combination of the various remedial agents used.

2d: The proportion in which the roots, herbs, barks, etc., are mixed.

3d: The process by which the active medicinal properties are secured.

The result is a medicine of unusual strength and curative power, which effects cures heretofore unequalled. These peculiarities belong exclusively to Hood's Sarsaparilla, and are

Unknown to Others

Hood's Sarsaparilla is prepared with the greatest skill and care, by pharmacists of education and long experience. Hence it is a medicine worthy of entire confidence. without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

"NEWCASTLE."

The *Times* says there is still doubt as to whether the primitive spelling of the name of the island town was "New Castle," as the *Penny Post* spells it and insists that everybody else should properly do, or "Newcastle," as we are determined to spell it whether or no. It says:

We find in the last issue of the Maine Historical & Genealogical Recorder some intentions of marriage, copied from early records, in which the name of Newcastle appears. Here is one of them: "1743, July 24, John Clary, Newcastel, Province of New Hampshire, and Jane Mehanney."

RAPID TRANSIT.

Portsmouth is blessed with telegraphic facilities which few cities of its size enjoy. A gentleman in Boston telegraphed a friend in this city on Wednesday of this week to meet him at the station on the arrival of the train due at 6:45 P. M. Forty-five minutes after the arrival of the gentleman in this city, the message was delivered at its address; as that was nearly a stone's throw from the telegraph office, some one had hurried evidently.

FIRE.

Shortly after eight o'clock Friday morning an alarm of fire was pulled in from box forty-six, corner of Hanover and Pearl streets, caused by the discovery of fire in a closet near a chimney, in the second story of the house on Brewster street occupied by William Stover. The department responded promptly, and as the house is close to the Brewster street reservoir and the pond was full of water at the time, there was little danger of any extended conflagration. The extinguishers had the fire about out before the steamers were ready, though one stream of water was put on. The damage to the building and the clothes in the closet amounted to about $50.

AROUND HOME.

The following are the items of most local interest in the river and harbor bill as it finally became a law: For the improvement of Portsmouth harbor, $15,000; harbor of refuge at Little harbor, $10,000; Chcheco river, $10,000; York harbor, Me., $15,000.

The new schooner Clara B. Kennard, Freeman master, it is said proves to be a very fast sailer, and beat the schooner D. K. Ham seven hours on her last trip from Boston, although the latter vessel is noted for her sailing qualities, and Capt. Garland is an experienced seamen.

Mr. Joseph Sheridan of this city, while at the picnic of the St. Mary's Benevolent society at Dover point on the 4th inst., was quite badly hurt by being struck in the face while looking at the base ball game between the Portsmouth and Dover clubs, by a bat which slipped from the hands of one of the Dover players named Kelly. His nose was broken, and he was brought home in a partly conscious condition, but is now recovering.

The contest over the will of the late William Emery of this city has been settled amicably. The N. H. S. P. C. A. will receive $1,000.

A book entitled "Gladstone and the Irish Struggle" is being circulated in this city. It contains biographies of Gladstone, Parnell and others by Hon. T. P. O'Connor, M. P., and A. McWade, Esq.; introduction by Hon. Charles Stuart Parnell; illustrated. As a matter of history it is well worth reading.

Mr. Frank A. Wendell and family, of Salem, Mass., formerly of this city, are visiting their friends here.

The electric light poles arrived on Friday, and will all be in position very shortly. They are handsome sticks of hard pine, squared at the base, and octagonal above ground, tapering gracefully to the top. They will be ornamental rather than otherwise to the thoroughfares where they will be placed, when compared with the gnarled, twisted and crooked sticks used by the telegraph and telephone lines.

Notwithstanding the apparent solidity of the ledge on Deer street through which the sewer trench was blasted, the tunneling operations seem to have effected a considerable change there. In one room of Hon. John S. Treat's marble shop, which is founded on the rock, the floor is bulged upward in the centre at least four inches; and in the house of Mrs. Allen Treat, on the opposite side of the street, there is not a door that can be opened easily, or that once open can be easily closed.

The report of the state registrar for 1884 has just been issued. A table in it gives the number of divorces decreed in each county from 1870 to 1884, inclusive of both years. From this it appears that the total number of divorces for the fifteen years was 3769, the largest number in any one year being 339, in 1880. The total number of divorces in Rockingham county for the fifteen years was 227, the smallest number in any one year being nineteen, in 1870, and the largest number forty-four, in 1880. In 1883 but twenty-one divorces were decreed in the county; and twenty-eight in 1884.

The old sign of Mr. Wm. Chandler, which passed through the fire on Pleasant street when the Custom House Exchange was burned and drowned out, is now doing duty over the entrance of his new place of business, on Fleet street. The old sign is a sufficient guarantee that the articles inside are of the same quality as at the old stand.

It is the eighty-seventh birthday of Mrs. W. H. Y. Hackett, and though she had not been down stairs for some months, she was able to-day to join all of her living children and grand-children at dinner. A remarkable fact in her history is that she was born and has always lived on the spot where her present home is. We present our hearty congratulations, and would recall to the memory of our Portsmouth readers, the long and eminent career of her husband, the late Hon. W. H. Y. Hackett.—*Penny Post, Aug. 5th.*

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy and safe, is the quintessence of all that is preventive and curative in ginger.

It is sure to check summer complaint, prevent indigestion, destroy disease germs in all water drank, restore the circulation when chilled by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

The Delicious Summer Medicine. 1d

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress. No cramp or pain has ever made a demand upon it for relief or cure that has not met with instant response.

It is a delicious combination of Imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "gingers," pain cures and nauseating nostrums.

Unripe fruit, impure water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, Indigestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that beset the traveller or household at this season, are nothing to those protected by SANFORD'S GINGER.

Avoid cheap and dangerous imitations sold to be "the same," or "as good," or "cheaper" than

SANFORD'S GINGER.

ago might go out and get for himself. The well-greased tent-cloth, the soldier's old pants and discarded boots, now shield the dirty hide of the Indian from blasts which formerly had the buffalo robe to content with.

There are a few scattering herds of buffalo now on the plains, but there is not known to be a single large herd in existence, and when even a dozen animals are heard of, more than twice that number of soldiers, hunters, adventurers and Indians are at once on their trail, and they are slaughtered as wantonly as a few years ago.

The buffalo is gone, and whoso expects to see buffalo meat quoted in the market is not wise; and he who wears a buffalo coat henceforth will pay many shekels for the same.—*Northwestern (Miles City, M. T.) Stock Growers' Journal.*

Anecdotes of Mrs. Stowe.

Miss Catherine E. Beecher, in the last years of her life, was pleased to dwell on the renown of her more gifted sister, Mrs. Harriet Beecher Stowe. She related the following anecdotes of her: Mrs. Stowe had agreed to give a lecture in Jacksonville, Fla., for some charity. The morning of the day it was to be delivered she was working in her garden several miles from that city when suddenly remembering her engagement she hailed a farmer driving to town with a load of vegetables, and went on her way in a calico dress and hands soiled with her occupation. Once in the city, she asked permission at a hotel to make her toilet before going to the lecture-room. She was informed that there was but one vacant room, and that was for Mrs. Stowe. Her assertions that she was the person in question had to be verified before she obtained her request. When Mrs. Stowe was in England Queen Victoria sent her word that on a certain day she would be pleased to see the author of "Uncle Tom's Cabin." Mrs. Stowe replied that she had an engagement for that day. The queen would see her, and sent a lady-in-waiting—a personal friend of Mrs. Stowe—to make the necessary arrangements for an observation. There was to be a pageant of some kind that day, in which the queen would take part, passing the hotel where Mrs. Stowe was residing, and the royal messenger had agreed to place her hand on the author's left shoulder to distinguish her from those with her on the balcony as the procession passed. So Queen Victoria and the distinguished American gazed at each other for a few moments in silent recognition, but Mrs. Stowe was not pleased that she was outwitted.—*Cor. New York Tribune.*

POISONED WATER.

The report of the State Board of Health shows a condition of things in the water supply that is absolutely appalling. One family alone has had three deaths, the origin of which can be traced to this source. The effect may not be immediate but is none the less sure. In the course of a few weeks or months, loss of appetite, headache, loss of sleep, dred feelings and the thousand and one symptoms that indicate the approach of disease are certain to be felt. The smaller towns have a water supply of more or less injurious character, while the farming community often draws its water from wells that are simply drainages from barns and outhouses.

When all these things are taken into consideration, the surprise is not that there is so much sickness, but that there is so much health. The evil is not avoided by drinking liquors, mineral waters or any other concoctions, for they too frequently are often more injurious than ordinary water. The only way to avoid the evil effects is by keeping the health unimpaired. All have observed that the evil effects of poisonous water are quickly manifest in some cases and much less in others. This is owing to the fact that one person is in good health while the other is not. A man, woman or child who is vigorous, and whose body is properly toned, is the one who can easiest avoid the evils above named. A gentle stimulant to the digestive organs and faculties, a strength imparting preparation, a nerve building compound is what the public require, is what the people will have. There is only one such Hop Bitters. The great favor with which it has been and is being received clearly shows its value. Being composed of pepsinized beef, hops and malt, (the three best known invigorants and tonics,) it accumulates albumen in the body so completely as to most certainly counteract the first approaches of disease.

If the inhabitants of Michigan desire to preserve their health unimpaired in spite of the severe climate, bad water and other health enemies that surround them, they must use some standard stimulant that imparts vigor while adding strength. All heads of families and those who value their own happiness as well as that of their friends, should give this subject the most careful attention and investigation.—*Michigan Paper.*

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. These *Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Sick Headache? Why let your nerves get out of order? Why let your digestive organs get out of order? Why let your blood become impure? Why let your system become a prey to Malaria? Why let your Liver become torpid? Why let your Kidneys become deranged? Why let your Bowels become costive? Why let your Skin become covered with Pimples? Why let your Blood become impure? Why let your Nerves become unstrung? Why let your Appetite become impaired? Why let your Sleep become disturbed? Why let your Spirits become depressed? Why let your Strength become prostrated? Why let your Health become impaired? Why let your Life become a burden? Why let your Life become a burden? Why let your Life become a burden? Why? Why? Why? Because you do not use SULPHUR BITTERS, the great Blood Purifier, which is a sure cure for all these evils. It is composed of the purest and most valuable medicinal properties which are known to the medical profession, combined with the purest and most valuable tonic, which is known to the world, viz., SULPHUR, IRON, QUININE, and the juices of HERBS, ROOTS and BERRIES, all combined with the purest and most valuable stimulant, viz., PURE RYE WHISKEY, which is used only for its medicinal properties, and not as a beverage. In such proportions as to produce the most wonderful results. Such is the testimony of those who have used SULPHUR BITTERS. Why suffer with Sick Headache, when SULPHUR BITTERS will cure you? Why suffer with Dyspepsia, when SULPHUR BITTERS will cure you? Why suffer with Kidney Complaint, when SULPHUR BITTERS will cure you? Why suffer with Nervous Prostration, when SULPHUR BITTERS will cure you? Why suffer with Impure Blood, when SULPHUR BITTERS will cure you? Why suffer with Malaria, when SULPHUR BITTERS will cure you? Why suffer with Constipation, when SULPHUR BITTERS will cure you? Why suffer with Liver Complaint, when SULPHUR BITTERS will cure you? Why suffer with Pimples, when SULPHUR BITTERS will cure you? Why suffer with Boils, when SULPHUR BITTERS will cure you? Why suffer with Blotches, when SULPHUR BITTERS will cure you? Why suffer with Sick Headache, when SULPHUR BITTERS will cure you? Why suffer with Dyspepsia, when SULPHUR BITTERS will cure you? Why suffer with Kidney Complaint, when SULPHUR BITTERS will cure you? Why suffer with Nervous Prostration, when SULPHUR BITTERS will cure you? Why suffer with Impure Blood, when SULPHUR BITTERS will cure you? Why suffer with Malaria, when SULPHUR BITTERS will cure you? Why suffer with Constipation, when SULPHUR BITTERS will cure you? Why suffer with Liver Complaint, when SULPHUR BITTERS will cure you? Why suffer with Pimples, when SULPHUR BITTERS will cure you? Why suffer with Boils, when SULPHUR BITTERS will cure you? Why suffer with Blotches, when SULPHUR BITTERS will cure you? Why? Because SULPHUR BITTERS is the great Blood Purifier, and will do all that is claimed for it.

Clear the Way

For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health. That important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-griping, gently acting and agreeable cathartic, Hostetter's Stomach Bitters, which not only liberates impurities, but invigorates the lining of the intestinal canal, when weakened by constipation or the unwise use of violent purgatives. The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this beneficent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use, on account of its safety, wide scope and speedy action.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

FLOUR AS AN EXPLOSIVE.

What Might Happen If Millers Were Only Anarchists.

"If the millers were Anarchists," said a Minnesota man, "they could blow up every flour mill in Minneapolis without using dynamite. God only knows the power millers have in their hands if they were devils enough to use it. A flour mill in operation is almost as dangerous as a powder magazine, and has to be watched as closely. Every coal miner is afraid of fire-damp, and every miller knows his mill is likely to be blown up with a terrible explosion at any moment. To most people this would sound like an exaggeration, but I tell you it is a solemn fact.

Your mills in Barclay street a few years ago? What leveled a whole block of stone mills in Minneapolis not long since, so that it looked as though a cyclone had struck the city? Nothing in the world but flour—one of the deadliest and most powerful explosives known.

"If you stand in a flour mill, near the stones, and look across the room toward the sunlight, you will see that the air is loaded with fine grain dust. If you had microscopic eyes you would see yourself surrounded with small atoms of grain of all kinds. These atoms form an explosive substance more powerful than any known to Nihilists, and their presence, though inevitable, is what makes a flour-mill as dangerous as a powder pit. Suppose you take a dry ear of corn and set it on fire. It will burn slowly. Shell the ear and fire the kernels and it burns much more rapidly. Grind the corn and it will burn like paper. Reduce it to powder—to dust—and, if ignited, it goes off like a flash. That is the state in which flour is dangerous, when it is finer than flour. If a mill becomes overcharged with this dust, and is ignited, away goes the mill.

"Several years ago the large Washington mills in Minneapolis caught fire. They were going at the time. Those who knew the danger gave the alarm and got out as lively as they could."

"Did the mills blow up?"

"I should say they did. The walls were made of stone, six feet thick, and when the explosion came they tumbled out like straw-board. The sheet-iron roof was blown up high from one of the Washington mills that the wind carried it two miles. Men watching the fire at a distance were blown through windows, knocked down, hurled through the air, and several were killed. Sometimes the lighting of a pipe in a grain-house will demolish the building. In a Scotland mill a man once lit a cigar. In a second the room seemed filled with fire, and there was a terrible roar. When the smoke cleared away the four walls of the mill lay flat on the ground and the roof lay several hundred feet away. With the exception of a bad scare and a singeing not a person was hurt. The dust burned, creating a great heat."

Professor of Medicine at the Royal University; Knight of the Royal Austrian Order of the Iron Crown; Knight Commander of the Royal Spanish Order of Isabella; Knight of the Royal Prussian Order of the Red Eagle; Chevalier of the Legion of Honor, &c., &c., says:

"LIEBIG CO'S COCA BEEF TONIC should not be confounded with the horde of trashy cure alls. It is in no sense of the word a patent remedy. I am thoroughly conversant with its mode of preparation and know it to be not only a legitimate pharmaceutical product, but also worthy of the high commendations it has received in all parts of the world. It contains essence of Beef, Coca, Quinine, Iron and Callisaya, which are dissolved in pure genuine Spanish Imperial Crown Sherry."

Invaluable to all who are Run Down, Nervous, Dyspeptic, Bilious, Malarious or afflicted with weak kidneys. Beware of Imitations.

Used by Her Royal Highness the Princess of Wales and the nobility. For the Skin, Complexion, Eruptions, Chapping, Roughness. $1.00. Of druggists.

LIEBIG CO'S Genuine Syrup of Sarsaparilla, is guaranteed as the best Sarsaparilla in the market.

N. Y. Depot 38 MURRAY STREET.

Why is it

That the sale of Hood's Sarsaparilla continues at such a rapidly increasing rate? It is,—1st: Because of the positive curative value of Hood's Sarsaparilla itself. 2d: Because of the conclusive evidence of remarkable cures effected by it, unsurpassed and seldom equalled by any other medicine. Send to C. I. Hood & Co., Lowell, Mass., for book containing many statements of cures.

The steel wire manufacturers of Pittsburg, Pa., and vicinity, have decided that if trade does not improve within a few days the mills will be shut down, throwing out about 1,000 men.

Good Bread

From wheat, baked, takes 3 1-2 hours to digest. Roast beef takes three hours, while boiled cabbage tak s 4 1-2 hours. The best aid and help to a perfect digestion and good health is the G. O. The Puritan Beaten.

The race for the Goelet cup, which is looked upon in a measure as the first of the trial races for the selection of a yacht to defend the America's cup in the contest with the challenging British cutter Galatea, was sailed off Newport, R. I., on Saturday, over a triangular course of forty-five miles, around the Sow and Pigs, Hen and Chickens, and Brenton's reef lightships. Most of the crack schoolers, cutters and sloops were entered for the race, but the principal interest was centered in the four big sloops, namely, the Puritan, of Boston, last year's champion; the Mayflower, designed and built by the designer and builders of the Puritan; the Priscilla, of New York, the Puritan's only rival last year for the honor of defending the cup; and the Atlantic, the New York sloop derisively said to have been built on "the rule o' thumb." The famous cutter Bedouin, built on the British pattern, the cutter Stranger and the new schooner Sachem, and the famous old boat America, also took part in the race.

There was a good sailing breeze all through the race, and the Mayflower was the only sloop which carried a club topsail throughout, she standing up to her work magnificently, although at the first trials this season she was decidedly tender. The two Boston sloops beat everything else; in fact, after the first half hour the interest of the race was on the question as to whether the Puritan or the Mayflower would win. But the new boat beat the old miracle at her own game, windward work, gaining on her eight and a half minutes in the twenty-two mile beat from the start to the Sow and Pigs lightship. Crocker, who sailed the Puritan in all her races last year, sailed her in this race, and stubbornly contested to the last, but the Mayflower proved too much for her other Boston antagonist. The following table shows the result of the race, and it will be observed that the four big sloops all beat the famous cutters Bedouin, Gracie, Stranger and Clara, by corrected time as well as in actual sailing time:

Ex-Gov. Tilden's Funeral.

The funeral services of Hon. Samuel J. Tilden took place at his residence, Greystone, at Yonkers, N. Y., on Saturday. The ceremonies were impressive in their simplicity, and were attended by President Cleveland, Samuel J. Randall, Charles A. Dana, Abram S. Hewitt, members of the cabinet and many other noted men. The remains were conveyed by train to New Lebanon, N. Y., for interment.

Wholesale Seizure.

J. D. Bonness, special Canadian customs officer, on the 5th inst. at Deer Isle, N. S., seized twenty-two fishing boats valued at $200 to $400 each, for smuggling. The boats were released by the owners depositing a penalty in each case amounting to the boat's value. The owners are charged with smuggling the boats themselves. When the fish treaty was abrogated, Deer Island fishermen brought the boats to Eastport, Me., entered and paid duties on them, thus making them American boats, although built and owned in Canada. The Canadian government will not permit American boats to be taken to Canada and owned there without paying duty, so the boats became forfeited the same as other smuggled goods. This will prevent New Brunswick boatmen from bringing sardines to Eastport without paying duties on this side.

Speaker Carlisle, of the national house, has so won the good will of the republican congressmen by his judicial fairness as a presiding officer, that they were not content at the close of the late session with giving him an empty vote of thanks, but "chipped in" $800 and sent to his home in Kentucky a table service of solid silver.

The closing hours of the late session of Congress were not disgraced by the drunken scenes usual on such occasions. This commendable improvement was due to the good sense and firmness of Speaker Carlisle, who ordered the keeper of the house restaurant to sell only lemonade and such like beverages, and gave him to understand that the order was to be obeyed. The country owes the Speaker a vote of thanks for that action.

An extradition treaty has been concluded with Japan, which includes the following offences for which extradition may be asked: Murder, counterfeiting, forgery, embezzlement, larceny, burglary, entering public buildings with intent to commit felony, perjury, rape, arson, piracy, manslaughter on board ship, malicious destruction of, or attempts to destroy, railways, vessels or buildings, when the act endangers human life, and fraud by a bank trustee or a director of a bank or trust company.

A despatch of the 6th inst. from New York says: "The trial of the new cruiser Atlanta was successful. The examining board sent a favorable report to Washington. The vessel is now anchored off Whitestone, L. I." This was expected. The necessity for breaking down John Roach and destroying his business, which it was so important for Sec. Whitney to effect at the time the Dolphin was completed, no longer exists, the Dolphin trickery having compassed all that was required.

It is refreshing to be able to record one instance in which workmen are not striking, or employers locking out. A year ago Treasurer Sperry, of the Sperry Manufacturing company, of Ansonia, Conn., notified his employes that anything over a six per cent dividend made by the company would be divided among them. Now the men are surprised by receiving amounts varying from $20 to $75 each, the company having declared an eight per cent dividend, two per cent of which is distributed as stated.

The "Baby Pathfinder," issued by the New England Railway Publishing company, of Boston, is the very flourishing offspring of the "A B C Pathfinder Railway Guide," which has been for a long time a standard guide for the New England lines. The Baby is intended as a pocket guide, not to replace the parent Pathfinder, but rather for those travelers who do not care about the names of officers, shipping directions, freight lines, or any such information, but want a time table pure and simple. This they get in the Baby, whose 100 pages, 4 3-4 by 3 in. in size, furnish them with a pretty complete Guide to all the railroads north of Long Island sound and east of the Hudson river. Add to this that the Baby is well printed and is sold for five cents, and it is quite superfluous to say that no traveler in New England can afford to go without it.—*Railroad Gazette.*

—A little four year old girl was put to bed in the third story of her home, and left, as usual, in the dark. A terrific thunder storm came up, and her mother, thinking the child would be frightened at the lightning, went to her. On entering the child called out with delight, "Mamma! the wind blew the sun up just now; did you see it?"

One Dollar. Hood's Sarsaparilla is the only medicine of which this can be truly said; and it is an unanswerable argument as to the strength and positive economy of this great medicine. Hood's Sarsaparilla is made of roots, herbs, barks, etc., long and favorably known for their power in purifying the blood; and in combination, proportion, and process, Hood's Sarsaparilla is *peculiar to itself.*

"*For economy* and comfort we use Hood's Sarsaparilla." MRS. C. BRAEWSTER, Buffalo.

"Hood's Sarsaparilla takes *less time and quantity* to show its effect than any other preparation I ever heard of. I would not be without it in the house." MRS. C. A. M. HUBBARD, North Chili, N. Y. 100 *Doses*

Hood's Sarsaparilla cures scrofula, salt rheum, all humors, boils, pimples, general debility, dyspepsia, biliousness, sick headache, catarrh, rheumatism, kidney and liver complaints, and all affections caused by impure blood or low condition of the system. Try it.

"I was severely afflicted with scrofula, and for over a year had two running sores on my neck. I took five bottles of Hood's Sarsaparilla, and consider myself entirely cured." C. E. LOVEJOY, Lowell, Mass.

"Hood's Sarsaparilla did me an immense amount of good. My whole system has been built up and strengthened, my digestion improved, and my head relieved of the bad feeling. I consider it the best medicine I have ever used, and should not know how to do without it." MARY L. PEELE, Salem, Mass.

George Harmon, brakeman on a freight train on the Portland & Ogdensburg railroad, was killed Aug. 4th between Fryeburg and Center Conway. He was last seen alive when the train left Fryeburg. His body was picked up by the section men an hour later, and he is supposed to have been thrown from the top while going around a curve. He was thirty-eighty years old, married, and leaves a widow and three children. He resided in Portland.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S

Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

REPUBLICAN CAUCUS.

A caucus of the republican member-elect of the city councils was held on Saturday evening. At the suggestion of Ex-Councilman Billings, Alderman-elect Billings of ward two took the chair. The proceedings were harmonious, and showed that the minority in the new city government had determined to make no factious opposition against the election of the candidates nominated by the democratic caucus, but would act as a unit in the proper discharge of the duties of the trying position. In view of the respectable number of the majority in excess of the minority, the latter decided to make no nomination of a candidate for the office of city clerk in the organization of the new city government, and as to the candidates for other city offices, the minority will act without the binding influence of a caucus nomination, either voting for any candidate that may at the time be suggested, or where good men are balloted for, giving the healthful influence of the minority in their support. If the minority party is properly represented on all the committees, the duty will be an arduous one!

GIVE US PLENTY OF LIGHT.

The *Times* says: "The committee on street lights drove about the city Thursday, and located the places for the twenty-five electric lights to be operated by the Electric company. The committee have settled upon admirable locations for the same, and will do away with 103 of the 106 gas lights now in use in the city." It is impossible to distribute twenty-five lights, no matter how powerful, so as to do away with a hundred or more of the street gas lights, without leaving many localities, none too well lighted now, in total darkness. Putting up the electric lights may be a good thing; undue haste in abolishing the gas lights will not be.

POLICE COURT--BATCHELDER J.

SATURDAY, Aug. 7th.

Robert Blizzard was brought into court, charged with drunkenness. He said he had been at work on a farm in Berwick, Me., and if he had been drunk here it was a misfortune. In answer to an enquiry by the court if he felt sure his name was Blizzard, he said he had no moral doubt of it; and as the police said he once before gave the same name when pulled in for drunkenness, it was assumed that that was his regular drunken name, and good enough for him to be sent to Brentwood under, to work out $9.90, fine and costs.

Michael Collins, another drunk, was assessed the same amount, and not having at hand the sum required was sent to the same place.

MARITIME NOTES.

The excursion down river on the steamer Mystic, Friday evening, for the benefit of the Portsmouth Boys' club, was not a large party, only twenty-two persons availing themselves of the opportunity for a moonlight trip.

On Friday evening the steam yacht Marion, of Salem, with King Upton, the owner, and his family, on board, arrived at the Wentworth, and afterward steamed up to Broughton's wharf, from whence the party went to the Rockingham. They were last from New London, and bound to Bar Harbor.

The schooner Sharon, of Cape Neddick, is on the ways at Kittery, undergoing repairs.

The steam yacht Ibis, of Boston, was at anchor in Jerry's cove all day Saturday.

An unusually large "puffing pig" was disporting himself just inside Odiorne's point on Saturday, despite the hooting of Leander White's horn, the tooting of the Oceanic's whistle, the clanging of schooners' bells, and the fog generally. He was "having the fun all to himself."

The United States tug Leyden, Lieut. F. H. Delano commanding, arrived at this station on Friday afternoon from Brooklyn, N. Y., via Newport and Boston, and took up her old berth at the navy yard wharf after an absence of several months.

The schooners G. W. Raitt, Lillie, Hattie Lewis and J. Chester Wood went down the river on Saturday, bound for Boston with bricks, but all brought up in the lower harbor on account of the fog.

The steamer Mystic took a large party to the Shoals on Sunday, among them being Hon. Charles Levi Woodbury of Boston, who stopped at Appledore. Hon. C. E. Rymes of Somerville, Mass., is at the Oceanic, a guest where he was formerly for several years manager; he best likes being guest. The steamer came in about four o'clock; the excursionists for the day regretted having to so soon leave the islands, but Capt. Trefethen was obliged to make connection with the afternoon train for Boston. Going out the boat encountered considerable swell, which caused some annoying sensations to the lady passengers; on the return the sea was smooth as glass. Mr. Lemuel B. Caswell, of Smuttynose island, served a nice chowder for his guests. The islands present a lively appearance now, the number of boarders being very large.

The steamer Pinafore came in from the Shoals on Sunday forenoon, to land a passenger and get supplies, returning after a short stay.

The houses of Mr. George Bilbruck, on Creek road, and Mr. John Newick, on Creek street, were entered by unknown persons between three and four o'clock Sunday morning, but at both places they were frightened away with no booty. Entrance was effected by turning with nippers the keys which were left in the door locks.

Mr. Editor: You had no sooner announced that Deer street was free from obstructions than the Gas Co. commenced to dig up the street to lay their pipes. Probably the next will be the Aqueduct Co. DESPAIRING ABUTTORS

Boatswain Isaac T. Choate, of this city, was last week placed on the retired list of the United States navy, by reason of limitation of age.

In Boston on Saturday, 7th inst., Boston & Maine railroad stock brought 206; Portland, Saco & Portsmouth, 131 1-4; Eastern, 87 1-2; Eastern railroad 6s of 1906, 127 3-4; New Hampshire state 6s of 1897, 125; Cocheco Manufacturing Co., 552 1-2; Great Falls Manfg. Co., 72 3-4; York Manfg. Co., 920.

The sea face of the Dow farm, Rye, presented an animated picture on Sunday, there being about twenty tents pitched there. At the Seal rocks, at the eastern end of Wallis' sands, Messrs. Harry J. Freeman and John M. Bennett had five tents pitched for the accommodation of themselves and families; a party from Exeter arrived at three o'clock Sunday morning, and pitched two tents nearly opposite the restaurant conducted by Edward Russell of this city; George Marcy and a party of friends from Portsmouth had a two-tent camp close by; and another camp was occupied by Mr. John H. Cheever's son, and others. Besides these, there were a number of other parties occupying tents on what is now (since Pocahontas point has had a fine hotel built upon it) the best camping-out ground in this region.

Mr. Michael Cunningham was down from Boston on Friday of last week, passed the deeds of Cunningham block, corner of Water and Jefferson streets, with a satisfactory warranty, to "John O'Brien, cash or trade," received Mr. O'Brien's check for $3,000 in payment for the same, and went back to Boston with the money in his pocket, leaving the block the unincumbered property of the widely known square-dealing peddler and junk merchant.

Peter Strickland went to Beverly, Mass., Saturday, to measure the schooner Jonathan Cone for a new foresail and spanker, which will be made in his loft.

Mr. Edward A. Ferguson, foreman of the Boston & Maine railroad machine shop in this city, has graded the space between the machine shop and the roundhouse, and ornamented it with some very prettily designed and tastefully arranged flower beds. The management of the Boston & Maine has awarded him a gratuity of $10 for having the neatest and best kept yard on the Eastern division of the road. There are now two forges at work in the machine shop, and a large part of the work on rails is done here.

Contractor Shanahan's men on Saturday commenced work at connecting the drains from the Jones and Eldredge breweries with the new sewer; this, and the clearing out of mud and rubbish from the entire length of the sewer, is all that remains to complete the job, connections with the city sewers which formerly emptied into the pond having already been made. The entire work will be finished this week.

Surgeon General Francis M. Gunnell, U. S. N., arrived at the navy yard Saturday forenoon on official business, and received the regulation salute.

Young gentlemen who propose calling on their best girl on Thursday evening will have to get shaved on Wednesday, as the barbers of the city will all go on a picnic to Wallis' sands on Thursday, if the weather is suitable.

The Concord railroad company have appealed from the order of the aldermen to establish gates at the Creek crossing, and have duly filed and had served their petition. It is all folly to attempt to have gates established there, as it has been conclusively demonstrated (by the costly but futile attempt to cause the erection and maintenance of gates at the Green street crossing) that the railroads can beat the city on that matter easily, with their eyes shut.

The republicans of Kittery held their caucus on Friday evening, the 6th inst., and elected the following-named gentlemen as delegates to the first district congressional convention at Alfred on the 10th: M. F. Wentworth, Elroy F. Cottle, Geo. W. Muchmore, I. H. Lambert, Moses A. Safford, Jesse E. Frisbee, Geo. H. Hayes, D. C. Norton, Erwin I. Wilson, Fred S. Dame. This delegation will go solid for the re-nomination of Hon. Thomas B. Reed as member of Congress from the first Maine district.

The new establishment of Mr. Wm. Chandler, on Fleet street, seems to be attracting a large share of the patrons of the former Custom House Exchange, and a good number of new ones.

Hundreds of families in Portsmouth and vicinity attest the value of Preston's Elixir. It is certainly one of the most reliable and efficacious remedies for summer troubles ever known. Have you tried Preston's Jamaica Ginger?

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kicks it will die in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy and safe, is the staple household remedy of all that is preventive and curative in medicine.

It is sure to check summer complaint, prevent indigestion, destroy disease germs in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress! No other household remedy has ever made a demand upon it for relief or cure that has not met with instant response.

It is a delicious combination of the imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "gingers," pain cures and nauseating nostrums.

Unripe fruit, impure water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, Indigestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that beset the traveler or household at this season, are nothing to those protected by SANFORD'S GINGER.

Avoid cheap and dangerous imitations sold to be "the same," or "as good," or "cheaper" than

SANFORD'S GINGER.

closures and mounting earthworks or parapets; also the making of any questions upon any points concerning the state defenses.

Jenkins Junior quarreled with Jenkins Senior in a crowded dining-room in Frankfort, Ky., and the father threw a glass at his son's head, whereupon the son promptly drew his pistol and fired at his sire. No further harm was done, but the old man seemed to be rather proud of his boy. "He did right," said he to a friend. "He's a Jenkins, you know—spirited, high strung. That's the way he was raised. If a man threw a glass at my head, I suppose I'd have to kill him. Yes, the boy did right."

A dollar a month will keep a Bengal man alive. Here is certainly the spot on earth where contentment, sufficiency, paradise should be. A distinguished Brahmin recently quoted from official reports the statement that 80,000,000 of the Hindus are always in a state of semi-starvation; that most of the diseases are the result of hunger; that 3,000,000 or 4,000,000 die every eleventh year of acute famine. Over a large portion of China famine is chronic. Only a few years ago 7,000,000 starved to death in one visitation.

An inhabitant of Stockholm has invented a fire-proof garment, which will permit the wearer to stand calmly in the midst of a raging fire for an hour without suffering any inconvenience—so it is alleged. It consists of two parts, or envelopes. The first, next to the body, is of a rubber material. The second is of mole-skin. The two parts are connected by a curious head-piece, which also protects the face and admits the necessary air. The space between the envelopes is filled with fresh water, which is also admitted at the head-piece, and prevents burning.

Interview with Gov. Andrew G. Curtin: I was disappointed in Martin Irons. He made a miserable appearance on the witness-stand, bore himself badly, was the reverse of frank, and crossed himself an innumerable number of times. He is evidently a fellow of no particular brains, and it is a mystery how he holds his position with the order. The contrast between him and such a man as Powderly is marked in the extreme. Powderly is: gentleman of brains and culture, and a reasoner and thinker in every sense of the word. He is not to be mentioned in connection with such a man as Martin Irons.

The whalebone whales differ from others in their absence of teeth. At an early stage of their development they are present, but disappear and are replaced in the male by the baleen or whalebone of commerce. This whalebone—that in the right whale often weighs from 1,000 to 1,500 pounds—is a strainer or trap by which the animal obtains its food, which consists of minute pelagic animals, jelly fishes, etc. The whale opens its mouth as it moves along, and when it is filled closes it, the water finding its way out between the plates of whale that serve as a complete trap or sieve.

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite sometimes poor and again voracious? Do you notice brick-dust in the bottom or a scum on the top of the fluids you pass? Are these fluids scant at times and plentiful at others? Do you have headaches sometimes while? If you have these feeling, **DO YOU KNOW WHAT THEY MEAN!** Your Kidneys are Diseased. It may be only the beginning of it but if not taken in time, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

Mr. JOHN W. FERRISH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

Mrs. ALEXANDER L. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathaniel Greene, was so near the grave from Kidney Disease in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly regret if you suffer long and possibly death itself. For Sale by all Dealers.

Commissioners.

We the undersigned Banks and Bankers will pay all Prizes drawn in The Louisiana State Lotteries which may be presented at our counters.

J. H. OGLESBY,
Pres. Louisiana National Bank.
J. W. KILBRETH,
Pres. State National Bank.
A. BALDWIN,
Pres. New Orleans National Bank.

Incorporated in 1868 for 25 years by the Legislature for Educational and Charity purposes—with a capital of $1,000,000—to which a reserve fund of over $500,000 has since accrued.

By an overwhelming popular vote its franchise was made a part of the present State Constitution adopted December 2d, A. D., 1879.

The only Lottery ever voted on and endorsed by the people of any State.

It never scales or postpones.

Its Grand Single Number Drawings take place monthly, and the Extraordinary Drawings regularly every three months instead of Semi-Annually as heretofore beginning April, 1886.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker House, Boston.

It was rumored in New York last week that charges were to be preferred against Mayor Grace, with the view to his removal by the governor, but they could not be traced to any reliable source.

For removing dandruff, Ayer's Hair Vigor has no equal. It restores faded and gray hair to its original color, stimulates the growth of the hair, and gives it a beautiful, glossy, and silken appearance.

Henry E. Perkins, of Vermont, and S. C. Andrews, of Maine, have been appointed special examiners in the pension office.

The simplest and best regulator of the disordered liver in the world are Carter's Little Liver Pills. They give prompt relief in sick headache, dizziness, nausea, etc.; prevent and cure constipation and piles; remove sallowness and pimples from the complexion, and are mild and gentle in their operation on the bowels. Carter's Little Liver Pills are small and as easy to take as sugar. One pill a dose. Price 25 cents.

The house and barn of Walter Davis in North Berwick were burned Thursday afternoon, 5th inst. Loss $1,800; small insurance. A cinder from a passing freight train caused the fire.

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents, all druggists.

There was a fire among the cotton on the Cunard line steamer Pavonia, at Liverpool, from Boston. Three bales were burned.

The powerful curative properties of a Hop Plaster are irresistible when applied to backache, swollen joints, and muscles, sciatica, pleurisy, sharp pains, or any sort of soreness. The best and strongest porous plaster made. A trial will demonstrate it. Sold everywhere. 25c.

Non-union bakers in Boston are to be fought with a Knights of Labor label.

James Pyle's Pearline is an article of too great value to housekeepers to be untried by any. No similar article has come into general use in so short a time, simply because it always speaks for itself on trial. Sold by all grocers, but see that counterfeits are not urged upon you.

The Kennebec log drive has passed below Skowhegan Falls, Me.

Many mothers are unable to nurse their children. In such cases the best substitute to be found is Mellin's Food, prepared after Liebig's formula, which has proved to correspond physiologically with mothers' milk.

Mr. Samuel H. Colcoath, brother of the late Vice President Wilson, died on Wednesday of last week at Washington. He was born in Farmington, N. H., Aug. 10th, 1819, and went to Natick, Mass., in his youth, where he engaged in the shoe business until 1861. Then he removed to Washington, and there served as assistant doorkeeper of the senate and watchman at the treasury department until about two years ago, when he was taken sick. He has been ill ever since. The funeral took place in Washington on Friday. For the last few months he had been mainly supported by the charity of the Massachusetts delegation. He suffered from cancer of the mouth.

"That tired feeling" from which you suffer so much, partically in the morning, is entirely thrown off by Hood's Sarsaparilla.

Collector of Internal Revenue Redman, of Portland, reappointed all the old republican deputies last week. The office, it is understood, is to be removed to Bangor from Portland.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites,
For Wasting Diseases of Children,

Where the digestive powers are feeble and the ordinary food does not seem to nourish the child, this acts both as food and medicine, giving strength and flesh at once, and is almost as palatable as milk. Take no other.

Capt. Joseph B. Clark was in Rochester yesterday, looking after his chances for the republican nomination for Congress. He was closeted with Charles B. Gaffney for an hour and on leaving the house took "Gaff's" hat by mistake for his own. J. B. C. counts this a good omen.—*Dover Democrat.*

PILES! PILES! PILES!

Sure cure for blind, bleeding, and itching Piles. One box has cured the worst cases of ten years' standing. No one need suffer ten minutes after using this wonderful Kirk's German Pile Ointment. It absorbs tumors, allays the itching at once, acts as a poultice, gives instant relief. Kirk's German Pile Ointment is prepared only for Piles and itching of the private parts, and nothing else. BENTON'S NERVE and BRAIN TONIC.

If you are so nervous that minutes seem like hours, or days seem like weeks and years, let no a moment pass before you try this great vitalizer as its effects in all such cases are prompt and reliable. If the "Doctors" give you DOVER'S POWDER and MORPHINE to make you have a quiet sleep, you will find this better than all the doctors. If you become restless and nervous so you cant not sleep, Opium and its kindred allies are the worst things you can possibly take. A few doses of BENTON'S NERVE AND BRAIN TONIC is sure to relieve you, and in no instance has it ever failed to give rest.

Sold by all Druggists, and sent by express on receipt of price, $1.00.

HAPPY CHILDREN IN MUSICAL HOMES.

A sweet voice, and a good repertoire of songs are valuable aids where juvenile humanity must be entertained. How convenient and useful, then, are such collections as the following:

MERRY-MAKING MELODIES.

BY WADE WHIPPLE.

Price in Boards 50 cts., in Paper 65 cts.

By a child-lover, who, in his choice of subjects and his genial treatment of them, displays a happy talent for making home cheerful. "Chubby little Characters," "Grandpa," "Three little Loafers," "Jolly Jack," "Teeter-Tauter," "Pink-a-tank," are songs full of kindliest humor, and others of higher grade. Sheet Music size; Piano or Organ accompaniment; 20 Songs; 9 Pictures.

RHYMES AND TUNES.

BY MARGARET PEARMAIN OSGOOD.

Price $1.50 in Cloth; $1.00 in Boards.

A larger book than the other, and has, in many cases German and English words. A true *Home Book*, with such songs as "Snick Snack," "Tooralloo," for nonsense; "London Bridge," "Ferri Mori Did," "Lavender's Blue," &c., for Mother Goose wisdom; "Sandman," "Sleep, Darling," and other nursery songs, romantic songs, Star, May, Flower, Morning, Bird and all other varieties of song that children love. Clear the Way

For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health. That important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-griping, gently acting and agreeable cathartic, Hostetter's Stomach Bitters, which not only liberates impurities, but invigorates the lining of the intestinal canal, when weakened by constipation or the unwise use of violent purgatives. The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this beneficent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use, on account of its safety, wide scope and speedy action.

Three months ago Captain Wallace W. Hall married Miss Annie Cox of Chicago. Early last Saturday morning he was shot and instantly killed in his home on Wabash avenue, Chicago. The fatal bullet was fired by his wife, who claims that it was accidental and occurred during a struggle for possession of the pistol between herself and husband. Mrs. Hall is now in custody. Captain Hall until recently stood very high as an officer in the secret service of the United States. His marriage was not a happy one, and he became dissipated. This resulted in his resignation being called for, after which he drank more than ever.

Ayer's Ague Cure never fails to cure fever and ague, and all malarial disorders. Warranted.

—Little Charlie—"Papa, will you buy me a drum?" Fond father—"Ah, but, my boy, you will disturb me very much if I do." Charlie—"Oh, no, papa, I won't drum except when you're asleep."

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood. No other preparation so well meets this want. It increases the appetite and rejuvenates the whole system. Its record, for forty years, is one of constant triumph over disease.

—"What do you grow on this land?" the visitor asked the farmer who leaned over a fence inspecting a particularly barren piece of ground. "Grow lazy," was the satisfactory reply.

Handsome Versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

—The assessors' lot is not a happy one, maybe, but it generally get taxed less than other lots do.

Women with pale colorless faces, who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

—Benjamin Cummings, the inventor of the circular saw, lies buried in a Michigan graveyard. If all the fingers which his invention has lopped off could be collected together, he would have a monument that would overtop the Washington column.

Smart Weed and Belladonna combined with the other ingredients used in the best porous plasters make Carter's S. W. & B. Backache Plasters the best in the market. Price 25 cents.

—English elector.—"Well, mate, who did you vote for?" "Oh, I didn't vote for anybody! I couldn't. I had a vote sent me, but my bloomin' kids got 'old of it and tore it up."

Do not rot or injure your clothes by using washing powders or compounds, but use Beach's Washing Soap. Will not injure the finest fabrics.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 23 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

OUR GRAIN TRADE.

The Operations of the New York Produce Exchange in Grain and other Products of our Soil.

What shall we eat, what shall we drink, and wherewithal shall we be lighted? are the three questions with whose pleasant solution the New York Produce Exchange charges itself. Seated at the point on the Atlantic coast where all lines of travel and traffic converge, whither cereals from the boundless prairies and pastoral products from the Pacific coast are forwarded by western merchants and packers to New York dealers and commission firms for distribution among the manufacturing millions of Europe and the several commonwealths of the American continent and archipelagoes, it presents as varied aspects as its busy traffic * * *

Merchants either purchase in the west, or send from their own packing-houses in that region, or receive consignments, on which they make advances often equal to three-fourths the market value of the provisions here offered for sale. In the first and third cases, bills of lading accompanied by sight drafts are mailed to purchasers or consignees while the goods are on the way. Before the arrival of the latter, parties in interest not unfrequently attempt to guard against loss from fluctuation of prices by selling short in the Chicago market—a process perfectly intelligible to the "hedger" on the turf. In New York, consignments or purchases of provisions pass into the custody of licensed and responsible paid inspectors and warehousemen, of whom there are seven; and by whom the condition, quality, standard, and weight of the different lots are duly certified, or declared to be insufficient to fulfil the requirements of the contract. Each warehouse receipt must be for 250 barrels, containing an average of 200 pounds per barrel, unless otherwise stipulated. All sales contemplate merchantable meats. If 10 per cent of a lot of dry salted meat, or 20 per cent of other meats, be defective, they are excluded from this category. Packer's name and location, number of pieces, and weight, together with the inspector's brand, must be marked on each package. Sales, in agreed lots of any size, if for export or domestic consumption, are made upon the Exchange floor, and deliveries from warehouse or from the dock, as the goods arrive. Speculative sales are in lots of 250 barrels, or their multiples. Less business than formerly is now done in options, but the jobbing trade retains its old proportions. Official but not private sales are recorded.

The western system of grading grain, recently adopted here, enables the western buyer who has accumulated as much wheat in his warehouses as he wishes to carry, and who knows daily and almost hourly the market prices in New York, to telegraph to any broker, and through him to sell for future delivery the amount and grade of wheat he may have on hand. He then ships it so that it may arrive in time to fulfil his contract. Certainty and precision are thus given to his business movements. He is relieved from the compulsory speculation attendant upon consignments of whose sale, price, and delivery he is perforce ignorant. The present terminal facilities for handling grain are so complete that they have restored to New York, probably for all time, the control of the grain trade on the Atlantic seaboard. True, option dealing and some objectionable practices have come in with the new system, but it is only in harmony with the universal fact that every solid good is abused by unwise and greedy men.

The grain trade proceeds under the supervision of a committee of five—an inspector-in-chief, a registrar, and a committee of three on the delivery of warehoused grain. The Committee on Grain, of which at the time of this writing Mr. C. R. Hickox is chairman, annually establishes the several grades, supervises the inspector-in-chief and his assistants, and fixes the fees which (below $20,000) constitute the Grain Inspection Fund, out of which salaries, audited expenses, and claims for damages are paid. Of the grades of grain established in 1884, ten were of white, amber, and red winter wheat, eight of spring, and one of State wheat. More or less of brightness, soundness, dryness, plumpness, and cleanness determines the grade. The word "Steamer" prefixed to "grade" denotes slight softness or dampness. Corn has eleven grades, oats eight, rye three, barley sixteen, peas three. Heatedor un merchantable grain is not graded at all. Standard samples of all grades of grain are kept at the Produce Exchange. The duties of the chief inspector and his deputies are to inspect, grade, and ascertain the weights of all parcels going into store as graded grain (at the owner's risk), and for which transferable warehouse receipts are given; also to inspect and ascertain the weights of all deliveries from warehouse or from railroad depot. A daily copy of his record is furnished to the registrar, and returns in duplicate to warehousemen and railroad companies of all receipts and deliveries of graded grain.

Business begins in the "Pit" at 10:30 a. m. Buyers and sellers are indiscriminately blended in the compact, throbbing, surging mass. All offers and bids are on a unit basis of 8,000 bushels. Winter wheat is the only grain in mind. "I'll give 4½ (94½ cents per bushel) for May wheat," is the bid of a nervous, active broker, emphasized by uplifted hand and moving fingers. "I'll sell at 5," is the quick rejoinder of a neighbor. "I'll give ⅛." "I'll sell you at ¼." ⅛ is the only obstacle to a bargain. Long and furiously, or short and sharply, the conflict rages around that ⅛. The tug of war on the part of the seller is to pull the buyer up ⅛, and on the part of the buyer to pull the seller down ⅛. The contest is quite as

N. Y. Depot 38 MURRAY STREET.

Why is it

That the sale of Hood's Sarsaparilla continues at such a rapidly increasing rate? It is,—1st: Because of the positive curative value of Hood's Sarsaparilla itself. 2d: Because of the conclusive evidence of remarkable cures effected by it, unsurpassed and seldom equalled by any other medicine. Send to C. I. Hood & Co., Lowell, Mass., for book containing many statements of cures.

Queer "Law and Order" Meeting.

A public meeting was called at Peabody, Mass., Saturday night, to express the disapproval of the citizens of the riotous act of Saturday by the striking tanners. The mob captured the meeting, and voted down the resolutions denouncing mobs and violence. In response to a question if they favored a mob, the meeting yelled "yes." The meeting was broken up in disorder. Later a meeting of the law-abiding citizens was held at the selectmen's room, and arrangements made to meet any trouble that might rise Monday. A signal was arranged to be sounded on the fire alarm for aid from Salem, Gloucester and Lynn. The Knights of Labor claim to be opposed to violence, but many of the rioters are said to be members of the order.

Naval Intelligence.

The Vandalia, Capt. H. L. Howison commanding, and the Juniata, Comdr. George T. Davis commanding, at New York, were on the 6th inst. ordered to sail for Valparaiso, Chili, and there await orders from the commanding officer of the Pacific squadron. The Alliance, Comdr. Charles M. Gregor commanding, of late attached to the North Atlantic squadron, was ordered to the eastern shore of Africa, by way of the Mediterranean and the Suez canal, and will be under orders of the commander of the South Atlantic squadron. The Brooklyn, Capt. E. O. Matthews commanding, at New York for a year past, was ordered to the Asiatic station by the same route.

Passed Assistant Paymaster M. C. McDonald is ordered to duty as assistant to Pay Director W. W. Williams at the navy pay office in San Francisco.

Commander F. G. Higginson has reported his return home, having been detached from the command of the Monocacy, Asiatic station, on the 5th of April last, and has been placed on waiting orders.

Comdr. John C. Watson is ordered from the New York navy yard to the command of the Iroquois, Pacific station, Sept. 1st.

Comdr. Yates Stirling is detached from command of the Iroquois on the reporting of his relief, and ordered home.

Pay Director A. H. Gilman is placed on the retired list of the navy from August 9th.

The orders sending the Vandalia to the South Pacific station have at last been published, and it is needless to say that general disappointment results to the officers of this vessel, who formerly had good reason to expect that they were to be sent to the European station.—*Army and Navy Register.*

No Shelter Allowed.

Consul General Phelan is highly indignant over an outrage perpetrated on the Gloucester mackerel seiner Rattler, Capt. Cunningham, in Shelburne harbor, Nova Scotia. He has received the following official account:

SHELBURNE, Aug. 5th.

To U. S. Consul General Phelan:

The Gloucester schooner Rattler, Capt. Cunningham, with 450 barrels of mackerel from North bay, came into Shelburne harbor on the evening of Aug. 3d. The captain of the cruiser Terror sent a boat's crew, with Officer Bennet on board. When Cunningham told Bennett that he came in for shelter Cunningham, was ordered to report at Shelburne and two of the cutter's crew were left on board. Shortly after Bennett's return to the Terror a signal was given from the Rattler for assistance from the Terror, when Bennett returned and found the Rattler's crew weighing anchor and hoisting sails. Bennett ordered Cunningham to drop anchor or there would be trouble. Anchor was dropped and Bennett accompanied Cunningham yesterday morning to report to Customs Officer Atwood, from whom I obtained this information, when Cunningham immediately made sail.

N. W. WHITE, Consular Agent.

Consul Phelan says that "this is the most flagrant and unpardonable outrage yet perpetrated on an American vessel in a friendly port. The Rattler was loaded down to the gunwales with mackerel. A heavy storm was raging. The vessel ran into the mouth of Shelburne harbor for shelter until the worst of the storm was over. She was at least ten miles from the custom house, and evidently had no intention of remaining after the fury of the storm had abated. Hardly had she dropped anchor," says Mr. Phelan, "before she is boarded by officious officers from a Canadian cruiser lying in port, and told to report to the customs. Without further ado she is treated as a pirate, and an armed guard is left on board of her. When Capt. Cunningham found himself treated in such an insulting manner in the port of a professed friendly nation is it any wonder that he preferred to risk the dangers of the storm to such treatment in a Canadian port, and immediately decided to proceed on his voyage! What then! The armed guard not only refuse to leave, but intimidate the American crew by promiscuously firing their revolvers, and obtaining the aid of additional armed men from the Terror, who take possession of the American vessel, forcibly detain her in port and compel the captain to go all the way to Shelburne to report. To my mind it is the most serious proceeding that has yet occurred during the whole trouble, and if not repudiated by the Canadian government is likely to engender a very bitter feeling."

A Wretched Thief.

State Officer Dyson of Massachusetts has received a letter from President McNeil, who embezzled a large amount from the Lancaster bank not long ago, in which he expresses himself as an unhappy man, sick and sorry. McNeil is now in Canada, and can be found if wanted. It is said that he has changed considerably in appearance, having lost flesh, and is seedy in his attire. He looks as miserable as he feels, and says he would give a good deal to be home again. But he has nothing to give, for it is understood that he is nearly penniless. The detectives recovered most of the money he stole.

The official correspondence in the Cutting case, submitted to Congress by Secretary Bayard, entirely dissipates the idea that Mexico has refused to respectfully consider or comply with our demand for the prisoner's release. The dispatch of the Mexican minister of foreign affairs is temperate and courteous in the extreme. He explains that the case is pending before a state tribunal, which is not subject to federal authority, but says that President Diaz will use all his influence on the side of fairness and justice. There is nothing in the correspondence to prove that Cutting was to be tried for an offence committed within the United States. From the beginning of the controversy Mr. Bayard has put this country in a false position.

This sentence had reference to the electoral dispute of 1876-7, and to the cipher dispatches, the Cronin electoral college of Oregon, etc., at that time. The *Star* is taken to task severely by its democratic contemporaries for this indiscreet admission. No republican journal has gone much farther than the *Star* in this direction since Mr. Tilden's death.

THE WEATHER.

For New England to-day:—

Fair weather, south-westerly winds, stationary temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 62 degrees above zero.

Clear.

POLICE COURT--BATCHELDER J.

MONDAY, Aug. 9th.

Albert P. Card, for drunkenness, was fined $3, costs $6.90; paid.

James Hart, for drunkenness, was fined $3, costs $6.90; jail in default of payment.

William Kirby, charged with an assault on Horace Whalley, was let off on probation.

THE ELECTRIC LIGHTS.

The location of the street electric lights will be as follows: At the corners of Daniel and Chapel streets, Daniel and Market, Congress and Chestnut, Islington and Middle, Islington and Pearl, Islington and Union, Islington and Cornwall, State and Cabot, State and Summer, State and Fleet, State and Penhallow, State and Water, Pleasant and Washington, Pleasant and Court, Austin and Middle, Miller avenue and Middle street, Union and Middle streets, Hanover and Bridge, Vaughan and Deer, Market and Bow, and Market and Deer; lights will also be placed at Liberty bridge, Haymarket square, North Mill bridge, and opposite the Baptist chapel on State street.

"A STRONG ADDITION."

The present aldermen and councilmen held their last meeting on the 6th inst. Aldermen Cook and Coffin will each retire after two years' service on the board, and Aldermen Griffin, Hatch and Williams after one year on the board. Aldermen Littlefield and Locke are returned for the third time, Aldermen Russell and Magraw for the second time. Aldermen-elect Urch, from ward four, Hodgdon and Conlon make a strong addition to the board.—*Portsmouth correspondent of Manchester Union.*

Samuel in becoming solid with the new board, should not lose sight of the fact that Col. Charles A. Sinclair will rank Major Urch and Capt. Hodgdon, and become after to-day, the boss of the city government. This little circumstance the *de jure* solicitor will do well to make note of, even if Judge Page should continue to be the *de facto* solicitor and legal adviser of the board of mayor and aldermen. Samuel should at once admit the fact, that Col. Sinclair is really the "strong addition" to the board. We are at loss to see how this self-evident proposition escaped the observation of the *Union* correspondent.

EXCURSION TO THE SHOALS.

The managers of the steamboat excursion to-day have made such an arrangement that no one can make a mistake in regard to the price of excursion tickets, which are fixed at seventy-five cents, good for a passage to the Shoals and return *on any trip* the boat makes during the day or evening. This pleasant sea voyage can be enjoyed at very small expense when compared with the cost of a ride to Rye beach in a livery carriage. A trip to Appledore and Oceanic islands, a day of pleasure among the wave-washed cliffs, an hour's sail on the moon-lit ocean, and the happy reflection that one is helping support the Cottage Hospital, all for three-quarters of a dollar! Duty and inclination must certainly point to the Shoals to-day.

MARITIME NOTES.

Eight men from this city in a large two-masted whale-boat were sailing just outside the surf at Wallis' sands, Sunday afternoon, when the wind left them, and they dropped killick; but the surf soon became heavier and broke farther and farther out, finally half filling the boat, on which the men attempted to beach her. As they neared the beach one of the party as he rose from his seat was tossed gracefully over the side by the lift of the sea, but soon scrambled in again. On taking the beach the boat of course swung broadside on, and the surf slammed her around lively, she rolling heavily off shore with each retiring wave. The crew waded ashore, and as soon as practicable the gear was taken out, and all hands bent on to the painter to haul her up out of the way of the seas. A good start was made, when suddenly the painter parted, and for a minute or so the air was full of sea boots, as all hands stood on their heads in the sand. Then another rope was led out, and more help arriving the remains of the boat was dragged above high water mark, and the shipwrecked crew sailed for home on foot.

The steam yacht Uncas, of New York, was at Broughton's wharf on Monday.

Hon. Frank Jones left town Monday morning in company with Gen. S. C. Lawrence of Medford, Mass., and party, on board the steam yacht Ibis, for a trip along the eastern coast.

At three o'clock last Friday morning the schooner Fairdealer, Captain Brown, of Orleans, Me., from Castine with sixty thousand bricks, attempted to enter the harbor at Biddeford Pool, and in the darkness struck on the point of Negro island and went over. Thinking no damage was done, the anchor was let go. The vessel, however, began at once to fill, and in a short time went to the bottom, the crew of three men having previously left her for shore. The schooner now lies in about seven fathoms of water, with her keel evidently broken, and will be a total wreck. The Fairdealer is an old vessel, and uninsured. The cargo, however, was fully insured.

YORK COUNTY DEMOCRATIC CONVENTION.

The democratic convention of York county, Me., met at Alfred on the 5th inst., with 194 delegates present out of a full delegation of 196, every town and district being fully represented except Old Orchard. The officers of the convention were as follows: President, Tristram Goldthwait, Jr., of Biddeford; secretaries, John Hanscom of Biddeford and Seth P. Parcher of South Berwick. Nominations were made as follows: For senators, Charles W. Junkins of York, John S. P. Jones of Lebanon, Harry A. Weymouth of Saco; county commissioners, Irving W. Pike of Cornish, James W. Meserve of Buxton; sheriff, Charles O. Emery of Sanford; register of deeds, Thomas J. Goodwin of South Berwick; clerk of courts, Benj. F. Chadbourne of Biddeford; county treasurer, Horace Parker of Eliot.

Among the most prominent and influential members of the party present were Hon. William A. Cromwell, Thomas Goodwin and Seth P. Parcher of South Berwick; Ephraim C. Spinney, Esq., and Capt. Josiah A. Stover, of Kittery; Hon. Edward C. Moody, of York, and Enoch Cousens, of Kennebunkport.

A county committee was elected as follows: Lamont A. Stevens, Wells; James W. Meserve, Buxton; Samuel M. Came, Alfred; Frederick Yates, Biddeford; H. S. Merrifield, North Berwick; Solon Frisbee, Kittery; George N. Milliken, Cornish; Charles L. Wentworth, Newfield; Seth P. Parcher, South Berwick; C. C. Perkins, Kennebunk; James M. Gerrish, Lebanon; S. S. Mitchell, Saco; Loring S. Edgecomb, Limington.

The new city government will organize this forenoon. We shall print Mayor Eldredge's address in full to-morrow morning.

The occupants of the Children's Home will picnic at Kittery Point to-day, going down and returning on the steamer Mystic by invitation of Capt. Trefethen. The Mystic Veterans will provide the dinner.

Mr. M. Killoren of Dover and wife, *nee* Mahoney of this city, are spending a few days in Portsmouth this week.

About three o'clock Monday afternoon a carryall belonging to R. H. Beacham & Son, standing on Railroad avenue, on the Deer street side of the tracks, was backed into by a Wentworth house coach, which frightened the horse attached to the carryall, and a boy who had hold of the bridle being unable to hold the animal, he ran down the avenue toward Elm street, colliding with Dennett's hack and Jeff. Rowe's coupe, and bringing up against the three o'clock train, which was standing on the track. The horse was pulled from under a car, not much the worse for wear; but the carryall will have to go into the dry dock.

Mr. Thomas O. Mavin of Tufts college, son of Ex-Mayor Marvin of this city, preached in the Universalist church on Sunday forenoon last, to the largest congregation which has gathered there for some time. The occasion must have had some elements of embarrassment for Mr. Marvin, it being the first discourse delivered by him here, and he of course being aware that scores of his former acquaintances were present, and no doubt listening with critcal ears. But if he was embarrassed he succeeded admirably in concealing it, and preached a good sermon. Mr. L. H. Fisher of Tufts college, who was several weeks ago invited to assume the pastorate of this church, has accepted.

Ralph Lowe of York harbor, a student at Kent's Hill theological school, is canvassing Hampton, N. H. for subscriptions to a book entitled "Our Home."

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will do the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER Will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convinced, speedy and safe, is the acknowledged of all that is preventive and curative in medicine.

It is sure to check summer complaint, prevent Indigestion, destroy Cholera Morbus, if all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

The Delicious Summer Medicine. 1st

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress! The cramp or pain has ever made a demand upon it for relief or cure that has not met with instant response.

It is a delicious combination of Imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "ginger," pain cures and nauseating nostrums.

Unrivaled for Unpleasant Water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious Diseases, Cholera Morbus, Cramps, Pains, in Digestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that be not the traveler or household in this season, are nothing to those protected by SANFORD'S GINGER.

Avoid cheap and dangerous imitations said to be "the same," or "as good," or "cheaper" than

SANFORD'S GINGER.

exciting as angnt in the intercollegiate game. But seldom is the battle drawn. Victory, hesitant in the vocal hurricane, decides for one of two parties. Bids and offers are usually regulated by telegrams from Chicago. The difference in prices between the two marts should be the cost of transmission from the latter to New York. Manipulation, or, in other words, gambling, at either point, defies all criteria of value. A "corner" in Chicago may raise wheat there above the normal price at New York; or a broken corner in New York may depress wheat below the healthful standard at Chicago. * * *

The facility with which sales and purchases for future delivery are made has enormously augmented the volume of trade. Foreign merchants avail themselves of it to provide for the prospective needs of different markets. It gives to the farmer a ready home market for his products at their full value, and affords to traders the opportunity of selling at a reasonable profit and at a moment's notice, and to deliver at option within specified times, as may be agreed. The exports of grain and grain products from the United States in the fiscal year 1885 were valued at $160,370,821. Seventy-five per cent. of the whole was probably sold ten or twenty times over before it was finally shipped. Sales and purchases, charter of ships, bills of exchange for payment, sale of latter—all contemplated "future" delivery. Similar remarks are true of oil, tobacco, cotton, and other commercial staples. The system is a devise of necessity, the judicious adaptation of prospective supply to probable demand, the work of foreseeing prudence. It may be, and is, abused by gambling speculators, or prostituted to assist aggressive corner conspirators, and in all such instances, is shamefully demoralizing. — *Richard Wheatly, in Harper's Magazine for July.*

The Dollar.

I've lived sixty years in the frisky old world,
An' seen a heap of changin' an' turnin',
An' fifty of them, by the sweat of my brow,
My bread an' my butter been earnin';
An' I've learned many things, in the way of hard facts,
(I never was any great scholar),
An' here's one for you. Whatever you do,
Young man—an', young woman, I'm warnin' you too—
Keep on the right side of the dollar.

No matter how much you may want this or that,
If you can't spare the money to buy it,
Don't run into debt, or you'll quickly regret
That you ever were tempted to try it.
Though your clothes may be white at the seams, an' you find
Rough edges on cuffs an' on collar,
Just wait to get new till the same you can do,
Young man—an', young woman, I'm warnin' you too—
An' keep on the right side of the dollar.

Oh, the strifes an' the troubles that would be like weeds,
Cut down in their pestilent growth,
An' the blessin's, like beautiful flow'rs, that folks
In their stead would be constantly sowin'!
Oh, the homes and the lives that wouldn't be busts,
If all this plain precept would foller
That I say down to you! Whatever you do,
Young man—an', young woman, I'm warnin' you too—
Keep on the right side of the dollar.

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Has you appetite deserted you? Is your appetite sometimes poor and again voracious? Do you notice brick-dust at the bottom or a scum on the top of the urine? Do your kidneys ache? Do you have headaches once in a while? If you have any of these ailments, **DO YOU KNOW WHAT THEY MEAN!** Your Kidneys are Diseased! It may be only the beginning, but if not taken in time, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

Mr. JOHN W. FURBUSH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

Mrs. ALEXANDER L. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathaniel Greene, was so near the grave her breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape much suffering and possibly death itself. For Sale by all Dealers.

AS A MEDICINE it is quick and effectual; curing the worst and most aggravated cases of Dyspepsia, Kidney Complaints, and all other derangements of the Stomach and Bowels.

It will instantly revive the most melancholy and drooping spirits, and restore the weak, feeble, nervous, and sickly to health, strength, and vigor.

Nightly Dissipation.—Persons who, from dissipating, can not stand any night, feel the evil effects of the poisonous liquors in violent headaches, Sickness at Stomach, Weakness, Giddiness, etc., will find that one dose will remove all such feelings.

PATENTS.

R. H. EDDY,

No. 76 State St., opposite Kilby St., Boston.

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trust worthy or more capable of securing to them an early and favorable consideration at the Patent office."
EDMUND BURKE,
late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DEAFER.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker House, Boston.

The Mexican court at Paso del Norte has sentenced Editor Cutting to one year's imprisonment and $600 fine.

For removing dandruff, Ayer's Hair Vigor has no equal. It restores faded and gray hair to its original color, stimulates the growth of the hair, and gives it a beautiful, glossy, and silken appearance.

Two non-union tanners were brutally assaulted by strikers in Peabody, Mass., on Monday, in their shops. The governor has been appealed to for state officers, ane militia if necessary.

The simplest and best regulator of the disordered liver in the world are Carter's Little Liver Pills. They give prompt relief in sick headache, dizziness, nausea, etc.; prevent and cure constipation and piles; remove sallowness and pimples from the complexion, and are mild and gentle in their operation on the bowels. Carter's Little Liver Pills are small and as easy to take as sugar. One pill a dose. Price 25 cents.

In the libel case of the *Courier* Publishing company of New Haven, Conn., against B. F. Glidden, for distributing boycott circulars, tried in the city court, Judge Deming delivered his decision, finding the accused $50 and costs, from which an appeal was taken.

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents, all druggists.

The Chicago *News* prints the views of a large number of the retail merchants of the city upon the effect of the eight-hour movement and the strikes growing out of the same, upon the distributive business of the city. It is found that in all lines of business and in all the divisions of the city the year opened with bright promises, and that the situation improved up to the eight-hour agitation began, when trade sloughed off and became dull.

The June number of the "Political Science Quarterly" opens with a defence of Andrew Jackson, by Prof. Morse, of Amherst college. W. A. Dunning gives a scholarly resume of the constitutional questions which arose during the civil war. Hon. W. L. Scruggs pleads for certain reforms in our law of citizenship. Dr. Seligman gives an interesting account of the Christian socialists of England. H. H. Neill defends the recent decision of the supreme court in the legal tender question, against Bancroft's criticism. The last two articles deal with foreign questions—Prof. Burgess on the victory of the Norwegian parliament over the king, and Dr. Bowen on recent history of Egypt. This number has the imprint of the Oxford University Press, London, and Ginn & Co., 743 Broadway, New York.

James Fyle's Pearline is an article of too great value to housekeepers to be untried by any. No similar article has come into general use in so short a time, simply because it always speaks for itself on trial. Sold by all grocers, but see that counterfeits are not urged upon you.

—A member in a silver speech slapped at the national banks, and in a loud voice exclaimed: "What is the difference between my note and a national bank note?" "You can buy something with the bank note," chipped in an opponent, before the Texan could answer his own question.

Many mothers are unable to nurse their children. In such cases the best substitute to be found is Mellin's Food, prepared after Liebig's formula, which has proved to correspond physiologically with mothers' milk.

—A humorous St. Louis man fired a pistol over his shoulder at his home the other night, fell to the floor and feigned insensibility. His wife ran shrieking for help, and found him laughing heartily over his "joke" upon her return. A couple of officers who had responded to the cries of the frightened wife took the wag to a station house, where he spent the night, and next morning he was fined $10 for "disturbing the peace."

"That tired feeling" from which you suffer so much, particularly in the morning, is entirely thrown off by Hood's Sarsaparilla.

—The new baby had proved itself the possessor of extraordinary vocal powers, and had exercised them much to Johnny's annoyance. One day he said to his mother: "Ma, little brother came from heaven, didn't he?" "Yes, dear." Johnny was silent for some time, and then he went on: "Say, ma." "What is it, Johnny?" "I don't blame the angels for bouncing him, do you?"

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites, *For Wasting Diseases of Children,* Where the digestive powers are feeble and the ordinary food does not seem to nourish the child, this acts both as food and medicine, giving strength and flesh at once, and is almost as palatable as milk. Take no other.

—A hint to the police when the anarchists are around: "Now is the time to get up clubs."

—A new "*elite* directory of New York" has been published. A more appropriate name would be "The Snobs' Own Book."

Clear the Way

For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health. That important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-griping, gently acting and agreeable cathartic, Hostetter's Stomach Bitters, which not only liberates impurities, but invigorates the lining of the intestinal canal, when weakened by constipation or the unwise use of violent purgatives. The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this beneficent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use, on account of its safety, wide scope and speedy action.

The murdered man at Wallingford, Conn., has not been identified.

Ayer's Agne Cure never fails to cure fever and ague, and all malarial disorders. Warranted.

Henry Irving and Ellen Terry arrived at New York on the steamer Fulda, Monday.

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood. No other preparation so well meets this want. It increases the appetite and rejuvenates the whole system. Its record, for forty years, is one of constant triumph over disease.

Contrary to general expectation all parts of the Salmon Falls cotton mills, the weavers' department excepted, started up Monday morning. The striking weavers appeared desirous of returning to their positions, and Agent Brown went to Boston to consult with Treasurer Stockton and the directors of the company. The Salmon Falls saloons were shut up on Saturday, to continue closed until the strike should be over.

Handsome Versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

Sheldon & Company's elevator at Eggleston, Minn., was burned Saturday night. The burning debris fell upon the railway track, and a freight train was thrown from the track and seventeen cars loaded with merchandise, machinery and ties were burned. Of nine tramps who were in a box car, four were burned to death, three seriously injured, and two escaped unhurt.

Women with pale colorless faces, who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

It is said that incompatibility of temper between Secretary Lamar and Pension Commissioner Black is likely to lead to the latter being given the Austrian mission.

Smart Weed and Belladonna combined with the other ingredients used in the best porous plasters make Carter's S. W. & B. Backache Plasters the best in the market. Price 25 cents.

At a picnic of the employees of Swift Company's packing house at Cedar Lake, Ind., Aug. 8th, a party of five went out in a rowboat. When in the middle of the lake some of the party began rocking the boat. The sport went farther than was intended; the boat was capsized and Miss Julia Sullivan and a young man were drowned before assistance could reach them. The other three escaped.

Do not rot or injure your clothes by using washing powders or compounds, but use Beach's Washing Soap. Will not injure the finest fabrics.

BEACH SOAP CO., Dover, N. H.

The following named prisoners, convicted of violating the election laws last October, were sentenced at Cincinnati on Saturday: John Miner and Pat Kelly, $100 fine and ten days in jail, each; Dave O'Brien, one year in the penitentiary; Joseph Ryan, six months in the workhouse; John Brummagen, one year in the penitentiary; William Kilcoyne, two years in the penitentiary; John P. Evans, two years in the penitentiary. These men are paying heavily for the part they took in helping along the cause of democratic reform.

An Unrivalled Record.

Allcock's Porous Plasters have, in the last twenty-five years, proved themselves the best safest, and most effectual remedy for spinal complaints, incipient consumption, diarrhœa, pleurisy, tumors, asthma, bronchitis, gout, sciatica, lumbago, epilepsy, debility, rheumatism, loss of vigor, dropsy, paralysis, loss of voice, hysteria, nervousness, indigestion, palpitation.

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 32 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

Not an Easy Problem.

I sometimes think in my desperation, it were better that our jaws should forget their cunning, and the spider weave its web over them than to eat (and especially to give to our children whose growth calls for nourishing food) that prepared by the ordinary cook! If it is poor hospitality to set before the occasional guest that which he can neither eat or digest; if it is not neighborly to enrich the purse of our neighbor's doctor, what can we say for ourselves when we are thus unkind to our own flesh and blood, over whose welfare we are the special guardians? We well know that the problem is not an easy one, that prejudice and custom and the multiplication of social and intellectual aims have each added a knot to the tangle. We are never safe from adulterations in our foods. The venders may conspire to ruin our dinners after we have done our best, and "eternal vigilance is the price of a good dinner and a trustworthy appetite;" but is it not also true that we are unwilling to divide our best care between the kitchen, and what we are pleased to call the gratification of our finer tastes? Are we as assiduous in acquiring a practical knowledge of the physiological and anatomical construction of our children, and of the chemistry which would assist us in applying the very nutriment needed, as we are in the study of literature and the fine arts? I read, not long ago, that a mother really sent the following note to the teacher who was trying to initiate her daughter into the mysteries of Hygiene and Physiology:

Dear Miss M.:—I don't want my daughter to learn about her insides. It isn't right, and I don't like it!

If we mothers, who desire the best possible attainments for our loved ones, would but take the trouble to trace the analogy between food, and the moral and physical growth; if we would labor to discover the chemical properties of food, as well as to consider the preparation thereof; if we would observe carefully the condition of teeth, muscle, flesh, and nerves, and then, as the wise physician chooses from his many medicines, select from the large variety God has provided for our use, those foods which the condition of our young growers craves, what robust specimens of girlhood and boyhood might reward our pains!—*May Riley Smith, in Good Housekeeping.*

A Black Squirrel's Sad Ending.

The intensity of animal affection has been pathetically illustrated in this city, writes a Savannah, Ga., correspondent. Three years ago Mr. Jacob Gardener, of Bull street, sold a lady a large black squirrel which had an attractive considerable attention while at the store on account of its unusual size and the beauty of its coat. The animal became the favorite pet of its purchaser, and was often given the freedom of the house, and extended other liberties not often enjoyed by its kind when in captivity. Occasionally the character left the premises, but never failed to return when night approached. It was the object of almost constant petting and caressing and nearly always slept snugly up in the arms of its mistress. A few days ago the owner left the city for a few days, leaving the squirrel at home. The little animal soon missed her and ran from room to room all over the house and grounds in search of her, giving unmistakable evidence of grief. All efforts at consolation on the part of other inmates of the house were unavailing, and the squirrel refused either to be comforted or to partake of its usual food, from time to time giving vent to little cries indicative of grief.

After nearly a week had elapsed and it became evident that the little sorrower's death was a matter of only a few days, the owner was notified and returned home. Her arrival was greeted with evidence of wild joy by the squirrel, which pranced about the house and jumped into her arms with all the signs of ecstatic happiness that its weakened condition would permit. It made every effort to partake of the tempting food placed before it, but it was unable to swallow and on the following day, with its eyes turned most piteously into those of its mistress, it gasped out its life while lying in her arms. Bonny's heart had been broken too long to be healed even by the glad balm found in its mistress' return.

Geography in the Time of Mercator.

Geography was in his time a mixture of facts and fancies, much of what was taught in it having no better authority than old-time traditions and the fabulous stories of travelers who addressed themselves more to exciting wonder than to telling the truth. Maps were in a worse condition than the descriptive accounts, and gave the most erroneous possible views of the relative situation of the various parts of the earth. It was Mercator's work, to adapt an expression of Malte-Brun's to demonstrate the extreme imperfection of the systems of the ancients and provoke their abolition. "Modern Geography, this distinguished authority on the subject adds, dates from his time. He seems to have had a strong natural taste for the study of this science, to which he himself testified when he said, in the preface of his "Chronology": "I consecrate myself wholly to that study, so beautiful, so useful, and at the same time so difficult. Nothing in the world is so pleasant to me. In fact, compared with it, other occupations, no matter how necessary they may be, are irksome to me." In his opinion, a knowledge of geography was indispensable to successful government and lucrative commerce. "Without maps, giving visible representations of the whole of an empire and its different countries," he said, "merchants would not be able to reach the richest and most important

AFFAIRS IN KITTERY.

KITTERY, ME., Aug. 10th.

Mr. Isaac N. Hurd, formerly clerk with Mr. James O. Trefethen, postmaster and apothecary at the Foreside, and later with Mr. Horace B. Parker, postmaster at Kittery Depot, has obtained a position with Truman T. Reid, apothecary on Washington street, Boston, and left town on Monday morning to assume the duties of the place.

The third quarterly session of York District Lodge, I. O. G. T., will be held with Phillipsburg Lodge, No. 206, of Hollis Center, on Wednesday, Aug. 18th. Delegates from this vicinity should go via Conway division to Rochester, then over the Portland & Rochester to Hollis Center. It will be a picnic session.

At the republican county convention held in Alfred to-day, the following nominations for county officers were made: For senators, Sylvester Bartlett of Eliot, William W. Mason of Limerick, Frank H. Harmon of Biddeford; sheriff, Samuel C. Hamilton of Biddeford; county attorney, Horace H. Burbank of Saco; treasurer, Charles H. Prescott of Biddeford; clerk of courts, James E. Hewey; register of deeds, Justin M. Leavitt; commissioners, J. C. Pease of Cornish, Simon Andrews of Biddeford. The convention was one of the largest and most enthusiastic ever held in the county, and nearly all the votes were made by acclamation; the full Kittery delegation were present.

Rev. S. B. Bowdish died at Fort Robinson, Neb., July 24th, of erysipelas caused by blood poison from a wound on his right hand. He was for several years pastor of the 2d Christian church at Kittery village, and was much beloved by all who knew him. His age was fifty-three years and eleven months.

MATTERS IN YORK.

YORK CORNER, Aug. 10th.

Score one for the Corner! Messrs. C. H. Junkins & Co. have succeeded in establishing a telephone office at the corner, for a fixed fact, and we opine it will not, and *cannot*, be squelched by the same power that squelched a former one that was placed here.

The young man who hired a team at Pittsfield, N. H., traded the horse at Salmon Falls, then came to York Corner and exchanged buggies with our neighbor C. H. Junkins, receiving twenty-five dollars "to boot," has been arrested, and is liable to suffer in "durance vile"—unless the paternal ancestor, perchance, may pay the damages.

On Monday, the 9th inst., Mr. Will Keen left his horses attached to a mowing machine, for a moment, when they started and ran down a steep hill near S. P. Young's house, thence on to a pile of rocks, and down the road toward the village. They were stopped by Mrs. Edward Baston, who with a true woman's pluck, caught them by the reins, and brought them to a stand still.

A letter was mailed at York Corner post office on Monday directed to "Old Lemmon, Maine." It was intended for "Olamon, Maine." P.

HAMPTON JOTTINGS.

HAMPTON, Aug. 8th.

Sunday, the 8th, Rev. W. W. Fay exchanged with Rev. Solomon P. Fay of Dorchester, Mass., who preached an able discourse from John 1:19; he always draws a full house, and is too well known to need further comment. He preached here four years, thirty-five years ago, and those who knew him then enjoyed a sermon yesterday long to be remembered.

Two sisters have rooms at Mr. Samuel Batchelder's, Hampton beach, and are noted as the largest seen this season; they are natives of West Newbury, and report says one weighs 300 lbs., and the other 275. One has served as cook twenty-three years in one of the oldest and richest families in Newburyport.

The boarding houses are full. Curtis DeLancey has fifty boarders; some of them leave this morning for the mountains. The handsomest ladies are seen at the Union house. At the North beach the houses are better filled than at Boar's Head.

The Ladies' Missionary Society held their meeting on the 4th near the trout pond and mineral spring owned by Gen. Gilman Marston; it is quite a pleasant retreat, and often visited by the boarders in this vicinity; at one time it was reported the General would erect a hotel on the grounds, but we think he has changed his mind.

MARITIME NOTES.

A despatch of the 9th inst. from Biddeford, Me., says: "Last evening Fish Warden Whittier of Old Orchard observed three mackerel schooners fishing within the three mile limit. He put off in a dory, accompanied by Frank Phillips, and seized two of the vessels and sent them back to Portland. The captured vessels were the Dreadnaught and James M. Dyer, both of Portland. The other schooner, hailing from Provincetown, escaped the penalty for fishing within three miles of the shore, which is $500 and forfeiture of the cargo, one-third of which goes to the officer. Each schooner had taken about fifty barrels. The fishermen intend making this a test case."

The schooner Kate E. Gifford arrived from Georgetown, D. C., on the 10th inst., with coal to E. F. Sise & Co.

There were at anchor in the lower harbor on Tuesday evening two large three-masted schooners, deep laden; one foreign two-master, with cedar posts piled up ten feet above her deck; one three-master, light, and outward bound; the schooner Agnes Manning, of Perth Amboy, a huge four-master, looking like a section of forest gone adrift; and a number of smaller crafts.

Some surprise having been expressed at the seizure of American fishing vessels for fishing on the Maine coast, it is explained that the seining of mackerel in bays within a three-mile limit is in violation of a Maine law passed in 1885, to be found in Chapter 261 of the statutes of Maine. The question to be decided is whether the state of Maine, or the United States, has jurisdiction over the waters within the prescribed limits. We bet on the United States every time.

Capt. Trefethen, of the steamer Mystic, took out the young people from the children's home, and their friends to the number of about forty, yesterday forenoon, given them a sail as far as Whaleback, returning to Portsmouth shortly after eleven o'clock, where he took in his passengers and proceeded to Kittery. The party picnicked in Traip's grove, the collation being furnished by the Mystic Veteran club. There were in the party twenty children from the home, and five other little ones; also, the matron of the home—Miss Ayers, and invited guests.

A temperance mass meeting will be held at East Epping, commencing Aug. 17th and continuing four days. The first day will be under the supervision of the Rockingham County Association; the second, of the Good Templars; the third, of the Women's Christian Union; and the fourth, of the State Prohibition Club.

Mrs. Edith Hussey, of Biddeford, Me., is visiting with friends in this city.

The steamer James Sampson on Tuesday morning brought up from Hotel Pocahontas, Kittery Point and Newcastle a party of about forty persons, to go to the Shoals on the Oceanic, on the Cottage Hospital picnic.

The steamer E. P. Shaw arrived at Appledore shortly after noon on Tuesday, with about two hundred excursionists from Newburyport, who landed on the island, and most of whom dined at the hotel.

The Dover *Democrat* says "Edwin Rogers, New England agent of the Gamewell fire alarm company, with Gilbert White, foreman, and a crew of electricians arrived in town Monday forenoon to commence operations on the erection of the new fire alarm, which the city recently voted to adopt. It will take six weeks to do the work. Three hundred poles will be used and there will be twenty-five boxes, one repeater, one indicator, two bell strikers and one gong." From this it appears that Dover is to have a good deal more of the alarm than Portsmouth has.

Rev. Alfred Gooding and Charles E. Batchelder, Esq., were on Monday evening elected members of the board of instruction.

Philip B. Holmes and wife, Mrs. Sarah White (Hart) Holmes, of Greenland, on Saturday, the 7th inst., celebrated their golden wedding. Among those present were their two surviving children, namely, Ernest Holmes of Greenland, and Mrs. B. F. Green of Chicago, Mrs. Green being accompanied by her husband and family. (Mr. Green and wife celebrated their own silver wedding a short time ago.) The exercises included the reading, by Miss Lillian Green, of a poem written by Miss Clara A. Lynn of this city; and of a poem written by Jos. Holmes, Miss Izette Holmes being the reader. Remarks were made by Rev. Edward Robie, D. D., and Rev. O. S. Baketel.

No. 23 Fleet street, the sanctum of Mr. Wm. Chandler, if it is the little shop around the corner, seems to be well patronized. The boys know where to go.

Miss Edith Wendell, leading soprano at one of the first churches in Brooklyn, N. Y., and who is now passing a brief vacation at her home in this city, has received a flattering offer from P. S. Gilmore, the widely known musician, to become the soloist at his popular summer concerts, to appear in conjunction with his crack orchestra of sixty picked musicians. Miss Wendell has this exceedingly complimentary offer under consideration, which if accepted will not, we understand, interfere with her Sunday engagements. The host of friends at home and abroad of the talented young lady heartily extend their congratulations on the success which is constantly following her in the musical profession she has so wisely chosen, a recognition fully merited by her abilities as a vocalist.—*Penny Post.*

At the August term of the probate court for York county, held at Alfred last week, the following was among the business transacted: Wills allowed, of Andrew P. Wentworth, late of Kittery; Mary E. Freeman, Oliver Freeman, late of York; Eben Cook, late of Eliot. Accounts allowed in estates of William Gibbs, late of Kittery; Abbie S. Sargent, late of North Berwick; Nathaniel Littlefield, late of Wells. License to sell personal property was granted in the estate of Ellen E. Fernald, late of Kittery. Guardians were appointed for Alice M. Briggs et al. of of Eliot, George S. Grant et al. of York, and William A. Ricker of Sanford. Inventories were presented in the estates of Ellen E. Fernald, late of Kittery, Enos Hatch, late of Wells, Elijah Thing, late of Parsonsfield.

Timothy Dame, Joseph Kennard, Albert Lord and John Emery were the delegates from Eliot to the York county republican convention at Alfred on the 10th inst.

Charles A. Merrill, the leading druggist of Exeter, died in that town on Monday at the age of sixty-four years. Mr. Merrill has been for many years known as a business man in Exeter. Several years since he built Merrill's block in which is located the post-office, on Water street, Exeter, and where he did the leading apothecary business of that part of the county. He was the son of Abner Merrill, the widely known wool merchant. He was at the time of his death president of the Granite State bank, an institution of which two of his brothers, of whom he had several, had each been previously president. Mr. Merrill was widely known to persons whose business brought them to Exeter. He was a man who attended closely to his calling, and avoided all positions of honor. To his immediate friends he was endeared by many agreeable traits of character, and to the public he was always honorable and well meaning. He was unmarried.

The court will consist of Commanders H. B. Robeson and Nicoll Ludlow, and Captain McLane Tilton, U. S. M. C., as members, and Lieutenant J. J. Hunker as judge advocate.

A Great Victory

A Terrible Case of Scrofula Cured by

Hood's Sarsaparilla

"In the winter of 1879 I was attacked with Scrofula in one of the most aggravating forms. At one time I had no less than thirteen large abscesses over and around my neck and throat, continually exuding an offensive mass of bloody matter disgusting to behold, and almost intolerable to endure. It is impossible to fully describe my sufferings, as the case was complicated with Chronic Catarrh. After three years of misery, having been treated by three physicians, I was worse than ever. Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken twelve bottles, within the last twelve months, the scrofulous eruptions have entirely ceased, and the abscesses have all disappeared, except the unsightly scars, which are daily becoming 'smaller by degrees, and beautifully less.' I do not know what it may have done for others, but I do know that in my case, Hood's Sarsaparilla has proved an effective specific indeed. As an evidence of my gratitude I send these facts unsolicited, and I am ready to verify the authenticity of this cure, by personal correspondence with any one who doubts it." CHARLES A. ROBBINS, East Wilson, N. Y.

This statement is confirmed by W. J. Huntley, druggist, of Lockport, N. Y., who calls the cure *a great victory* for Hood's Sarsaparilla. Send for book giving statements of many cures.

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

THE NEW CITY GOVERNMENT.

The inauguration of the new city government elected on the 3d inst. took place on Tuesday, the 10th, at ten o'clock A.M., in the common council chamber in the city building.

IN CONVENTION.

The two branches, Mayor and Aldermen and Councilmen met in convention, when the Mayor was sworn in by the city clerk, and the convention arose.

IN MAYOR AND ALDERMEN.

A communication was received from the secretary of the Barbers Association of the city, extending to the city fathers an invitation to participate with them in their annual picnic at Wallis' Sands. The invitation was accepted.

The application of Chas. H. Mendum for permission to open Ladd street for the repair of a drain, was granted under the usual restrictions.

IN COMMON COUNCIL.

Messrs. John C. Stevens and Daniel Casey were appointed tellers to receive and count the votes for president and clerk of the council.

FOR PRESIDENT.

Whole number of votes cast	17
Necessary for a choice	9
Michael Crowley had	11
Wm. A. A. Cullen	6

And Michael Crowley was declared elected, and on motion of Mr. Cullen the election of Mr. Crowley was made unanimous.

FOR CLERK.

Whole number of votes cast	17

And Mr. Charles E. Senter received the unanimous vote of the meeting.

IN CONVENTION.

The two boards met in convention for the purpose of electing a city clerk. Alderman Billings and Councilman Young were appointed tellers. The vote was as follows:

Whole number votes cast		24
Necessary for a choice		13
B. Stowe Laskey had	1	
George W. Guppy	2	
Mercer Goodrich	21	

And Mr. Goodrich was declared elected, and sworn in.

Mayor Eldredge at this point delivered his inaugural address, as follows:

THE INAUGURAL ADDRESS.

Gentlemen of the City Councils:

It was against my better judgment that I yielded to the solicitation of my friends to allow the use of my name a second time as a candidate for the office of Mayor of our city, and though flattered by the large majority by which my fellow citizens have shown their confidence in me, I enter upon my official duties to-day with many misgivings.

Few of you can know, without having experienced them, the troubles and petty annoyances that harrass and beset the mayor of a city like ours, where, though he has, in fact, very little power, yet each citizen seems to look to him as able to do everything and anything which that particular citizen may desire, even though one citizen seeks to have that done which another citizen vehemiently opposes. The mayor must satisfy both parties. He is blamed if the streets and public buildings are not kept in the best condition possible, which you all know cannot be done without a liberal expenditure of the public money, and he is blamed if the taxes are high enough to cover these expenses; especially is he blamed by the greater number of the tax payers if they cannot work out their taxes upon the streets, or sell something to the city by which to pay them.

Now it is only through your aid and friendly cooperation that the mayor can carry out any plan or inaugurate any measures for the welfare of the city and the tax payers. I, therefore, bespeak in the outset your kind consideration and careful examination of all recommendations which I may here or hereafter, during my term of office, make; and if they do not commend themselves to your good judgment, I shall feel sure that my own judgment has been at fault in making them. But should such recommendations seem to you proper and for the best interests of those whom we represent, I trust we shall all gladly do our utmost to carry them into effect.

The financial condition of the city is probably the most important subject in which the people are interested. It has been publicly stated that during the past year large sums have been expended in various public improvements, and upon roads and streets, in widening, repairing, grading and improving them, and that, because the tax rate is no larger than before, the city must be owing bills to a large amount which must be provided for hereafter. If any such impression exists I wish here to correct it, and to say that all known claims against the city have been paid as they became due, and that no extraordinary indebtedness has been incurred, save the bonds issued on account of the new sewer; and the true explanation of the situation may be found in the fact that the taxes collected have been honestly expended and not wasted.

The city has no floating indebtedness, and, exclusive of the bonds issued in aid of the Portsmouth and Dover Railroad, for which the city holds stock in that road of greater value than the amount of the bonds, the bonded debt, including the new sewer bonds amounts to $139,500, of which $2000, falls due on the first day of April next.

On the last day of July at the close of the month's business, the city had in its treasury the sum of $62,787.60; since that date bills have been paid and approved for payment to the amount of $16,158.99, leaving not balance on hand $46,628.61, less perhaps some small payments of interest coupons which may have been made since August 1, by the banks in Boston where such coupons are payable.

Out of the balance on hand there must be paid the county tax of $15,442,34, and about $6,500 to the contractor upon the new sewer when his job is completed. There will then remain in the treasury a balance, in round numbers, of $24,500, and there are taxes to be collected amounting to $20,000 and upwards.

I am not aware of anything which can cause any unusual drain upon the treasury during the remainder of the fiscal year ending December 31, next, and unless some unforseen disaster happens, I trust it will not be necessary for the city to hire money during the year with which to pay its current bills as it was compelled to do in years past.

The Collectors and Treasurers for the years 1874 and 1883-4 are still indebted to the city and give no indication that they are making any effort to settle their indebtedness. I therefore recommend that the matter be placed in the hands of the city solicitor without further delay.

The new sewer by which the North Mill Pond evil is to be remedied is nearly completed. It is the result of many years of agitation and consideration by the citizens and by successive city governments, and considering the many difficulties attending the whole matter, it has been completed with as much expedition and at little expense as could be expected. The sum of $22,366 which I found in the treasury as the proceeds of the sale of a part of the city farm, had been made available for this sewer, and in addition to that amount the sum of $18,824.40 has been raised by the issue of sewer bonds of the par value of $18,000, and $305.79 received for interest and other incidentals, making a total of $41,496.19 applicable to the sewer. Of this sum $27,855.11 has been already paid out for the sewer and work done at the North Pond occasioned by a wash out at the bridge, and if the contractor completes his job according to the contract—and I have no doubt he will do so—there will be due him about $6,500, leaving a balance of about $7000 which will be more than sufficient to pay incidental expenses and bills incurred on this account. I believe that no one will regret the building of this sewer, and in comparison with the benefit and blessing it will be to the city, the expense will seem paltry and insignificant.

The roads, streets, and sidewalks are in as good condition as they ever were before, and improvements of a valuable and lasting nature have been made in them during the past year. On Newcastle street we have a new sea wall, which has long been needed, has been built and the street widened. I think no one who visits the place will regret the outlay. Mechanic street has been extended, and Sagamore road greatly improved by being widened and straightened. Such improvements cannot be made without considerable expense, but I trust that as fast as the needs of our city and a proper regard for the spirit of progress may require, these improvements will be continued. Our streets are constantly needing repairs, and a watchful supervision of them on your part is necessary. Good roads and streets not only add to the comfort of every citizen, but they attract to this vicinity visitors and permanent residents, who add to our material prosperity. The bridge at Christian Shore, near the mill, needs rebuilding, and it has seemed to me that it would not be good judgement to replace it with another wooden bridge. Iron bridges are now to be obtained of approved construction at moderate expense. They have in most places superseded the old wooden structures. They are less expensive in the end, and their superiority is apparent to all. I would therefore recommend that an iron bridge be placed over the outlet of the north pond at Christian Shore; and whenever other wooden bridges, of any considerable size, need rebuilding, I trust those who succeed us will deem it wise to adopt iron instead of wood in their construction.

The fire department has proved itself prompt and efficient, and though there have been during the past year very few alarms of fire, they have been given and responded to in a very satisfactory manner. Yet, on further considering the question as to a reduction of the force, hinted at in my last inaugural address, I am satisfied that its efficiency would not be lessened by a reduction in the number of its members, and that an annual saving of a considerable amount can be made in this manner. Other cities have found a less number of men than we have sufficient for a company. Persons acquainted with the subject assure me that my ideas of the matter are correct, and I recommend that you take immediate action looking to a reduction of the force. Some improvements and additions have been made for the benefit of the department during the year, and one, which was especially needed, was the laying of a water pipe leading from the Aqueduct Company's main on State street to the fountain on Market Square, for the purpose of insuring a sufficiency of water for the reservoir there. A new nose wagon and one thousand feet of hose have been purchased, all of which were very much needed. The efficiency of the fire alarm has been increased by the addition of a steam alarm whistle located at the Portsmouth Brewing Company's brewery and three new boxes, one of which has been already put up at the corner of Bow and Daniel streets. The remaining two have been located one at the corner of Deer and Vaughan streets, and the other in the newly settled part of the city near the residence of B. F. Webster, Esq., but they are not yet in operation.

During the past year no complaint against any member of the police force has been lodged with me, and I think its condition compares favorably with that of the police force of any city of the size of ours. The value of a police force is not to be reckoned by the great number of arrests made, but rather by the general good order maintained and the safety insured to the property and persons of the citizens by its presence. I need not call your attention to the fact that in selecting persons to fill positions upon the force, men should be appointed for their fitness only, and this fitness is of a peculiar nature. It is difficult to find the right men for such positions, and when once found they should be retained if possible, and not removed to make way for others not so well qualified but perhaps possessing more influential backing for the place. In appointing supernumeraries, it has seemed to me that more care should be exercised than at first thought seems necessary. In case of a vacancy in the regular force, it would be of great advantage to the city if the vacancy could be filled by some one who is fitted for the place and has had experience in the duties required of him. Now if you appoint as supernumeraries only such persons as are capable of filling positions upon the regular force and are willing to accept positions there, the material for properly filling a vacancy will be always at hand.

Under the authority given by the legislature the board of instruction have chosen a superintendent of schools. Without such an official the responsibility for the proper management of the schools was divided, and rested in fact upon nobody. Now this general supervision rests upon the superintendent alone, and he will be held responsible for them. His whole time will be devoted to them, and if he possesses the qualifications requisite for the discharge of his duties, I see no reason why the expectations of those favoring the employment of such an official will not be fully realized. I am not at this time aware that you will be called upon for any action in regard to the schools out of the usual course.

During my official year just closed I recommended to the city councils the sale of the almshouse and buildings, and the whole or a part of the city farm. But some of your predecessors did not approve of the plan, and consequently the necessary authority was not given. I then believed, and further consideration has only served to strengthen that belief, that my recommendation was for the best interest of the city. I am not aware that any town in this county now continues to maintain a town farm or almshouse. Such institutions in towns and cities are relics of the past, long since discarded by most of them as useless and unnecessary burdens and sources of expense.

All paupers who have not gained a settlement by law in a town or city, since the year 1870, are county charges and to be supported by the county. The towns in this county have not been slow to recognize this fact, and inasmuch as our city pays nearly one-third of the county tax, it of course pays that proportion of the expense of supporting these paupers in and from other towns, while it pays for the whole support of those whom it keeps in its almshouse here, the greater part of whom should be supported by the county.

But supposing the city is liable for the support of the present inmates of the almshouse, (twelve in number, a few of whom contribute one dollar a week towards their support,) I think the expense of maintaining the almshouse is far more than the reasonable cost of supporting these inmates should be, even if they were boarded at high rates. A slight inspection of the city accounts will convince you of this fact, especially if you take into consideration the annual interest upon the value of the farm, buildings, and personal property there.

The almshouse is entirely unsuited for the needs of the city now. Some of the buildings there are merely useless, and all of them are too large, and are old, dilapidated and in need of repairs. The expense of such repairs will be large, and it will be necessary to repair these very large and old-style buildings, when smaller and more modern ones would be very much better for the purpose required, and could be repaired, if necessary, at very much less expense.

The farm and buildings are valued in the inventory of the city property at $42,000, in addition to the personal property there. Now if they would sell for a reasonable amount, as I think they would, and if a city almshouse must still be maintained, a suitable place could be obtained for caring for the city poor for $10,000, which could be carried on and kept up at much less expense than the present institution, and the balance realized from the sale would remain to be applied towards the city debt; or if you invest this sum, the income would be sufficient to pay the expenses of the new place above its receipts. But as I have above indicated, I do not think our city is so exceptionally situated from other cities and towns that you will find it necessary to still maintain a city almshouse.

It should be also borne in mind that should the property be sold, the taxable estate in the city would be increased by the amount of the taxable valuation placed upon this property. The care of the poor is not only a legal but a moral duty, which in my judgment is second to none that is laid upon us, and the expense of their support should be, and is, cheerfully borne. Indeed, I know of no object that more deeply excites the sympathies and calls forth a more ready response from a generous public than a measure tending to alleviate the sufferings or minister to the comforts of those who by sickness or misfortune have become unable to obtain the necessaries of this life; and I am sure that no one of us would do anything which might in the least add to the sorrows or lessen the enjoyments of such persons. And when these subjects of our bounty can be better cared for, and all their wants, both mental and physical, better satisfied and at less expense, it would seem to be our plain duty to take the requisite steps to bring about this desirable result, and give no heed to the attacks of those, who, without any knowledge in regard to the matter under consideration, are ever ready, for partisan and personal reasons, to impugn the motives and assail the honor of those who, under the responsibility of their official oaths, are striving to do their duty.

I have only touched upon some of the reasons—and there are many more that are doubtless apparent to you—which induce me to recommend that you take measures to place this city on an equality with the other cities and towns in the state, in supporting and caring for the poor.

There are many other subjects connected with the city affairs regarding which I see no occasion at the present time to make any remarks or recommendations. But whenever during the year to come I shall deem it necessary I will call your attention from time to time to such matters as appear to require action on your part. And I assure you that I shall at all times be glad to receive suggestions and advice from you all, individually and as a board, whenever I may seem to have omitted anything for the good of the city. And I shall be ever ready to co-operate with you, as I believe you will with me, in doing everything possible to make our city, what it ever has been, a place to which many delight to come, and from which all are unwilling to depart.

And now, gentlemen, I desire to express my gratification that the party which has managed the affairs of the city for the past two years is again placed in charge of them by our election to the positions we to-day occupy. This is a sufficient answer to any unfavorable criticism upon the manner in which the city government has been administered during those two years, and it is also a sufficient assurance that if we honestly seek to find out what our duty is and then fearlessly perform it, we shall earn the respect and gratitude of our fellow citizens, which they will be ever ready to show by their approving votes.

The meeting adjourned until Thursday evening.

"THE WICKED FLEE," ETC.

Monday night shortly after eleven o'clock, Mrs. Battin, who resides in Commercial alley, heard the report of a pistol, and looking out of a window saw a man hastily emerge out of a second story back window of French's dry goods store, skip along on the extension, and dropping to the ground, run in the direction of Penhallow street. Soon afterward two of the night watch appeared on the scene, to whom Mrs. Battin told what she had seen. An investigation by the police showed that the burglar had gained an entrance to Mr. French's store by piling dry goods boxes against the extension, and forcing open the window before referred to. The thief could not get down stairs, and as he was only in the carpet room of the establishment, he could carry off nothing. The pistol shot, which doubtless frightened off the thief, was not intended to kill nor even to scare the fellow, but was fired by some person unknown on Daniel street at a dog.

Mr. Charles H. Downs, who has been in Tavares, Fla., several months, in charge of the carpenter work of the extensive business block erected there by Hon. Frank Jones, arrived home on Monday.

There was a very large party out by the steamer Oceanic, Tuesday forenoon, on the Cottage Hospital excursion, besides a good number of guests for the Appledore and Oceanic hotels; the total number on the boat must have been nearly 400, but the throng made no perceptible difference in the speed or the steadiness of the staunch and able boat. The day seemed made to order, sea and sky and breeze being alike propitious. Over a hundred passengers came in on the afternoon trip, which was made in just an hour from wharf to wharf. Another large party went out at six o'clock, all returning by moonlight, the Oceanic making a special trip in at 9:30 o'clock.

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress. No cramp or pain has ever made a demand upon it for relief or cure that has not met with instant response.

It is a delicious combination of Imported Ginger, Choice Aromatics and French Brandy, totally unlike and vastly superior to all other "gingers," pain cures and nauseating nostrums.

Unrivaled for purity, bouquet, potability, delicacy, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, In ligestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that be set the traveler or household at this season, are nothing to those protected by SANFORD'S GINGER.

Avoid cheap and dangerous imitations said to be "the same," or "as good," or "cheaper" than

SANFORD'S GINGER.

lands, to trade there, and bring all the earth into fraternity with Europe; and, without them, princes could only cope with difficulty and by means of intermediaries, often of doubtful fidelity, arrive at safe and stable decisions respecting the government of their dominions." Thus, availing himself of the instructions he had received from Gemma le Frison, and having served no other apprenticeship in the art, he began, about 1537, to design on paper, and then to engrave on copper, and illuminate the chorography of various countries. "The skillful instrument-maker became also in a short time an accomplished map-engraver; and no maps of his time were comparable in workmanship with his."

Gum for Luck.

You have perhaps known a man who has nothing else to do but collate insignificant details and retail them to you as he sits beside you in the street car or on the railway train. I know one of these pestiferous little cusses from whom I cannot fly. The last time I saw him was on a suburban train. He invaded my seat, and without any sort of excuse for it began by asking me if I chewed gum. If there is any one thing which my infancy never knew, and which manhood would not permit, it was chewing gum. I was glad to say to this wretch that in this respect my life was as spotless as the ermine which was supposed to hang about our judiciary.

"Well," he said, "the chewing gum habit is quite a curious study. Now, you take this train, for example. Look about you and you will discover that nearly every man and woman in this car is chewing gum. They chew it on the train, and as soon as they leave the car the gum is taken out and carefully put away until they take the next train, and then out comes the gum. They wouldn't be caught dead with chewing gum in their mouths when they are at their places of business. But the minute they strike a train out comes the gum. Some of the ladies are quite fastidious in the habit. You take an Evanston lady, for example. Never saw one in my life who didn't chew gum on a train. The better class carry little gum reticules at their belts, and when they leave the train for the street the little roll of gum is put carefully into the bag, and is kept there until the wearer takes the next train. Sometimes a lady will forget her bag when she is in a hurry, and then she thinks she has no luck. I met one the other day and she said to me that she had had nothing but bad luck all day—hadn't struck a bargain. When I asked her why she replied, 'Oh, I knew it would turn out so after I got on the train. I left my gum-bag at home.'"

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite sometimes poor and again voracious? Do you notice brick-dust at the bottom or a scum on the top of the fluid you pass? Are these fluids scanty at times and plentiful at others? Do you have headaches once in a while? If you have these feeling, **DO YOU KNOW WHAT THEY MEAN!** Your Kidneys are Diseased!!! It may be only the beginning, but if not taken in time, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

Mr. JOHN W. FURBISH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

Mrs. ALEXANDER L. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathaniel Greene, was so near the grave her breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape awful suffering and possibly death itself. For Sale by all Dealers.

A Shoe Box Mystery.

A shocking mystery was discovered in Wallingford, Ct., by Edward Terrell, while berrying in a swamp in that town last Sunday. Terrell's attention was attracted by the peculiar actions of his dog, which would run into the bushes and then come out again barking furiously. He went to the spot and discovered a shoe box about four feet long. A peculiar smell came from the box, and, thinking that something was wrong, he summoned assistance and pried off the box cover. What at first appeared like the remains of an animal was revealed, but on close inspection it proved to be the body of a man minus head, legs and arms. Medical Examiner McGaughey thought the man was young and weighed about 175 pounds. The body was not badly decomposed, and death must have occurred probably within forty-eight hours. There were no marks on the body, and nothing could be found on the box to indicate where it came from. There was thought to be no question but that a foul murder had been committed, but who the victim was could not be surmised, as no one had been reported missing. The spot where the body was found was three miles from a house, and sixteen rods from a cross road.

The 194th Grand Monthly Distribution of The Louisiana State Lottery Company took place on Tuesday (always Tuesday) July 13th, 1886, under the usual supervision of Gens. G. T. Beauregard of La., and Jubal A. Early of Va. Well, the same old story is told again; some $265,500 went flying about like thistle down. It was thusly: Ticket No. 81,375 (costing $5) drew the First Capital Prize of $75,000. It was sold in fifths at $1 each—one to Mrs. Mary E. Holmes, No. 288 Princeton St., E. Boston, Mass.; one to A. H. Jones, Anniston, Miss.; one to Wm. Cleon, a worthy farmer at Monroeville, Allen Co., Ind.; one collected thro' Wells, Fargo & Co., San Francisco, Cal., for a resident there; another to a party at Columbus, O., who is opposed to any discovery being made. No. 77,227 won the Second Grand Prize of $25,000, also sold in fifths at $1 each—one to Jno. H. Bones, No. 549 West 45th St., New York City, a party identified with the Amusement World as Treasurer of the Grand Opera House in 23d St.; one to Henry Saas, No. 29 Western Ave., Toledo, O., paid through Adams Express; one to Carl Tideman, bookkeeper with the Meyer Bros. Drug Company, Kansas City, Mo.; one to Vito Dilorenzo, a young Italian fruit vendor at cor. Washington and Laurel Sts., New Orleans, etc. No. 19,268 drew the Third Capital Prize of $10,000, sold in fifths—one to Eug. Lafon, Denison, Texas, thro' First National Bank there; one to John A. Stewart, Detroit, Mich., through Detroit Savings Bank; the rest to parties in Boston.—in Springfield, Mass., and Clear Lake, Wis. On September 14th, 1886, will be a Quarterly Grand Extraordinary Drawing, when $252,500 will be distributed, of which M. A. Dauphin, New Orleans, La., will give all information.

The Criminality of Boycotting.

One of the severest and most effective blows yet aimed at boycotters and boycotting is that furnished by an injunction issued against boycotters by Judge Bond of the United States Court at Baltimore, in which he goes much further and takes even more radical ground than did Judge Sanford recently at New Haven in charging the jury which convicted the boycotters in that city. He not only recognizes the criminality of a conspiracy to break down a lawful business, but he also declares that any effort by advice or request to influence other persons against a business that is assailed, is contrary to law, and criminal. This may seem at first to be an extreme position and one that is hardly tenable, but the more carefully the position of Judge Bond is examined the more clearly will it appear sound. If it is criminal at all to conspire for the purpose of destroying the legitimate business of a party that may have incurred the displeasure of the conspirators, and the courts before which this question has been brought have held without exception that it is, it must be admitted that the very essence of the crime consists in the attempt to influence the action of other persons. An individual may buy where and of whom he pleases. It is only when he conspires with others to influence still others in their action, that he is guilty of a criminal interference with the business of the person against whom this influence is directed. It is just this which constitutes the essence of boycotting, and if boycotting constitutes a criminal offence, the position taken by Judge Bond is unassailable.—*Boston Traveller.*

Handsome Versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

PARSONS'

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

The world's 94 geographical societies contain 49,600 members.

In nine years oaken piles at Mieres, Spain, have taken on the appearance of stone-coal.

The flatness of Denmark is something remarkable, a recent geographical discussion having shown that the loftiest mountain of the country is only 535 feet high.

Two human vertebræ found at Sarasota Bay are regarded by Prof. Heilprin as conclusively proving the existence of pre-historic man in Florida at a very remote period.

The largest crystal of alum ever produced, weighing over eight tons, has been sent to the Edinburgh International Exhibition from the Manchester and Goole Alum Works.

An Italian physician recommends the daily administration of about seventy-five grains of borax as a preventive of cholera, his observations having shown that workers in borax factories in cholera districts always escape the disease.

A spring balance for measuring terrestrial gravity was exhibited at a late meeting of the Royal Society of Edinburgh by Sir W. Thomson. The apparatus is so sensitive that it will indicate a variation of a forty-thousandth part in the force of gravity.

Surveys made during the past two years have shown that the river Rhone has cut for itself a channel in the bottom of Lake Geneva, through which it flows, between parallel banks, like an ordinary stream on the earth's surface. The Rhine makes a similar passage through Lake Constance.

About midway between St. Petersburg and Moscow, Prince Putiatin has made the important archæological discovery of an image of the constellation of Ursa Major engraved on a grindstone of the Stone Age. A similar discovery had already been made near Weimar in Germany.

An instructive display at the newly-opened colonial exhibition in London is that of the rice of India, which includes ten thousand different varieties, all belonging to a single species. All colors are represented, from black to pale yellow and white. Two species of wild rice are known, only one of which closely resembles the cultivated varieties.

An important experiment has just been successfully made in transporting fresh fruit over the long route from south Australia to England. The fruit —various kinds of apples, pears and grapes—was packed in sawdust and placed in a cold chamber kept at a uniform temperature of forty degrees. It arrived in London in excellent condition.

An ingenious astronomical theory is that of Mr. Monck, of Dublin, who suggests that as shooting stars are known to be dark bodies rendered luminous for a short time by rushing through our atmosphere, new stars are dark or faintly luminous bodies which acquire a short-lived brilliancy by rushing through some of the gaseous masses—visible, perhaps, as nebulæ—which exist in space.

A recent photograph of the Pleiades shows 1421 stars, while a carefully drawn chart, prepared with about the same instrumental power, gives only about 625. Many small objects seen in the photograph do not appear in direct eye-observations. The importance of the accurate photographic method of star-mapping is indicated by the fact that the hand-drawn chart gives ten stars which have no existence.

A new method of lighting, called the pneumatic system, has been described by a Frenchman, M. Bender. He employs the fatty residues obtained from the rectification of crude mineral oils, through which he passes a current of air. The air takes up a definite quantity of this hydro-carbon, and the flame produced is very brilliant, giving off no smoke. Cheapness and immunity from explosions are advantages claimed.

The Passage of the Forts.

Captain Beverley Kennon, who commanded the confederate gun-boat Governor Moore, and helped in fighting Farragut below New Orleans, has a paper in the *Century*, from which we quote as follows: "The evening previous to the battle I reported to General Duncan, the commander of the two forts, my observations on the enemy's movements as seen by myself from the mast-head. Yet to my knowledge no picket boat was sent down by us, or any means adopted to watch the enemy and guard against surprise. The result was they were abreast the forts before some of our vessels fired a shot. In a few moments this space was filled with smoke from the guns and exploded shells, intensifying the darkness of the night. A slackening of the fire on both sides was necessary, since neither could distinguish friend from foe. In some places no object was distinguishable until directly upon it, when it was soon lost to view, yet the U. S. squadron steamed ahead, blindfolded, as it were, through the darkness and confusion, soon to find themselves in places of absolute safety and with comparatively few casualties.

At about 3:30 a. m. (April 24, 1862) an unusual noise down the river attracted my attention. As we expected to be attacked at any moment, I descended the ladder to near the water, where I distinctly heard the paddles of a steamer (the Mississippi). I saw nothing on reaching the deck, but instantly fired the after gun, the one forward being fired by the sentry there; at the same moment the water batteries of Fort Jackson and Fort St. Philip let drive, followed in an instant by a general discharge from all the available

The Reform Democracy.

Rollin M. Squire and Maurice B. Flynn were arrested in New York on the 10th inst., charged with misdemeanor in entering into a compact by which Squire was to conduct the business of the department of public works in the interest of Flynn, in return for Flynn's procurement of the votes of four "county democracy" aldermen for Squire's confirmation as commissioner. The principal evidence is a letter of resignation written by Squire before his appointment, and placed in Flynn's hands to be used in case Squire did not run his department sufficiently in Flynn's interest to suit Flynn.

The indictment charges Rollin M. Squire and Maurice B. Flynn, jointly, with misdemeanor. The grand jury accuses Squire and Flynn "of the crime of conspiracy, counted as follows," and then goes on to give specifications. The following is a synopsis of the specifications: On Dec. 26th, 1884, the mayor (Edson) was called upon to nominate a commissioner of public works, the term of the then commissioner having expired. The consent of the board of aldermen was necessary to appointment. Squire was an applicant for the office. Squire, Flynn and Hubert O. Thompson unlawfully and wickedly conspired to gain the appointment of Squire, in consideration of Squire's offer to give Flynn gratuity and reward. This gratuity and reward consisted in a promise to allow Flynn to direct the transaction of business in said department, this confederation being made against the peace of the people of the state of New York, and the state dignity. Flynn accepted his part of the agreement, and agreed to aid and assist toward procuring the appointment of Squire, to the manifest perversion and obstruction of the due administration of the laws, and did so do.

The accused were held in $10,000 each, and both gave bail.

Squire confesses writing the letter of resignation, but says it was dictated by the late Hubert O. Thompson, who at the time was commissioner of public works, and then near the close of his corrupt administration of that office.

A New Life-Saving Carriage.

Peaked Hill Bars life-saving station, near Provincetown, Mass., has been furnished with a new four-wheel life-saving apparatus carriage, which resembles an artillery gun carriage. The brass mortar for shooting lines over wrecks is securely mounted on a rear truck. Provisions are made on other points of the carriage for shot lines, cables, breeches buoy and all other implements. The carriage weighs 1,640 pounds, and horses will be used to assist the station crew and enable them to go to the assistance of adjoining stations during shipwrecks. This is the only four-wheel carriage in use on the Massachusetts coast for the purpose.

The New California Senator.

From the Fairfield, Me., *Journal*. It appears that Mr. Williams was born in 1830, received a common school and academic education, taught school, and in early manhood went to Fairfield, where, after acting as a clerk in a store for a time, he went into trade on his own account. He married a Fairfield woman, Miss Jane Dunbar, daughter of Lewis Dunbar. In the '50s he went to California, where he engaged at first in mining and afterward dealt in miners' supplies. Once, while conveying a cargo through the wilderness, he was attacked by Indians and lost his goods. Soon after this adventure he became a commercial traveller, and finally acquired an interest in the firm of Livingston & Leach of San Francisco, of which he is at present the leading member. His second wife is also from Fairfield, a sister of the first Mrs. Williams.

Secretary Bayard expresses himself as very much in earnest regarding the Cutting case. Pity he has to use up all his earnestness in that direction, so as to leave none for the protection of the fishermen.

The president has appointed Daniel Magone, a well known lawyer in New York, collector of the port to succeed Thompson's man Hedden, resigned. Magone is a politician who will be in favor of civil service reform, but opposed to its enforcement in the custom house. The machine will be worked for all it is worth to oppose Hill and endorse Cleveland in the great contest in the democratic party in New York which is to decide the case of Hill vs. Cleveland.

The question of a war with Mexico is only a question of time. Ever since the last Mexican war, the lower classes of Mexico, which are the most ignorant and perfidious in the world, have retained a most inveterate hatred to the United States, and they are fully impressed with the idea that they can pluck all the feathers out of the tail of the American eagle; and they are just now fully confirmed in the opinion in consequence of the imbecility of the present administration. The same causes which led to the independence of Texas, and to consequent war, are still at work there. The great state of Texas is able, and would, if allowed, furnish all the men necessary for the pacification of that turbulent neighbor. Bad woe betide the Mexicans, if the Texans ever get in there. V.

On Monday, Aug. 9th, as the American schooners Shiloh and Julia Ellen, were proceeding up the harbor of Liverpool, Nova Scotia, they were ordered by Captain Quigley of the cruiser Terror to come to. The order not being complied with, a gun was fired across their bows, and the vessels immediately came to anchor. Captain Quigley kept guard on board both vessels until they sailed, not allowing any communication with the shore. The Julia Ellen was from North bay with a cargo of mackerel, bound home. Another chance for Bayard to shriek to the fishermen, "You see you must have a commission; in fact, you desire a commission, only you don't know it yet."

The employes of the Somersworth Spool & Bobbin factory at Dover, about forty in number, struck on the 10th inst. for fortnightly payments and fifty-nine hours of labor per week, instead of monthly payments and sixty hours of labor.

Pascale Valcaro was examined before United States Commissioner Hallett in Boston on the 10th inst., on a charge of passing counterfeit money, and he was held in $2000 for trial in the United States district court.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

PORTSMOUTH & DOVER RAILROAD.

The annual meeting of the stockholders of the Portsmouth & Dover railroad was held in the common council chamber in the city building on the 11th inst., and Frank Jones, Daniel Marcy, J. Albert Walker, Marcellus Eldredge, Charles H. Sawyer, Frank A. Christie and Richard M. Ross, were chosen directors for the ensuing year. George L. Treadwell was re-elected treasurer, and Calvin Page clerk.

INFORMATION WANTED.

Early in the season a young railroad man living in the outskirts of the city by some means came in possession of three prettily painted tubs to place in his garden. Having filled two with choice flowers, he concluded to have an æsthetic chef d' œuvre for the third, and asked his neighbor, a nautical farmer, for sunflower seed. The N. F. was sorry,—he had stowed all his below ground, but he could do better; there were some fine plants a foot high that had come aboard his garden without the intervention of a shipping master, and the Y. R. R. man was welcome to transplant one to the cabin on the quarter deck of his premises. Between the two of them they bowsed it up and stepped it as a mast in the centre of the red galliot. All summer the Y. R. R. man has tenderly nurtured it and watched for the yellow headlight to show its signal, but though it has not died, (indeed it's a thrifty plant,) it has made no sign. Recently he has discovered that it is an *artichoke!* Now, the too confiding Y. R. R. man wants to know from some Agricultural farmer (with a big A) "What time the durned things are ripe, how d'ye pick 'em, and what are they good for when they're picked?" Furthermore he says: "If that blessed N. F. tries to play any more such roots on him he'll blow such a blast as will wake all the sleepers in the vicinity, and if the culprit doesn't frog it for home he'll rail at him first, throttle him next and then punch him for a lay-over ticket."

Mr. Editor: Can you tell me what is the chief point to be secured in locating the new electric light poles? If it is desirable to light the greatest space possible with each one, then at least three of them are as badly placed as possible. For instance, the one intended to light Haymarket square, instead of being on the square, or at least on that side of Middle street where it would shine all three ways, is placed around the curve on Court street, and directly *under two trees;* the one on State street, which might have been in the clear space nearly opposite the Baptist chapel, is put a little further up, *under a tree;* and the Market square post which at first was on the Goodrich corner, which is clear, is now placed opposite, *under a tree;* and perhaps others are located as poorly. It would seem as if the main object was to get them under trees, where the light would be obstructed as much as possible; or must the trees be removed to accommodate the lights, when there is so much room? A DWELLER ON A SIDE STREET.

PUBLIC BATHS.

The establishment of public bathing places along the water front is a measure which has long been agitated by some of our people. From the nature of things, much more is thought and said about such a matter at this season of the year than at any other, because we feel more forcibly the need and usefulness of them now than at any other time. There are several arguments in favor of the establishment of proper bath houses, while we can see no very good reason why they should not be built and maintained. There are many boys about the city who will go in swimming in the river, some of them not being over modest or particular as to the locality, and who care very little as to how many persons may be about to see them and complain of their nakedness and proximity to dwelling houses and the streets of the city. Although such exposed baths are prohibited by the city ordinances, the police find it next to impossible to entirely put a stop to it. If public bath houses were erected in convenient localities, this practice, we think, would in a great measure be discontinued. Also if bath houses were erected the great danger which attends swimming at improper and unfit places where the tide is uncertain, would be obviated and the liability of accidents removed. The establishment of public baths to be used by both sexes, would also result in a more general acquirement of the art of swimming, which accidents on the water reported almost daily show would be of great benefit to all classes. For a person once learned to swim would never forget the art, and under most circumstances would be able to save his or her own life, and perhaps assist in saving that of others. The matter is one worthy of careful consideration by the city fathers, and if some action should be taken the measures adopted would be generally appreciated. There are many other good reasons why they might well be maintained, which are apparent to all who have any interest in the matter. The cities and towns of modern times are much behind the ages in this matter, for in ancient Greece and Rome public baths were very common, and swimming places indispensible. The introduction of hot and cold water into modern houses has partially done away with the necessity of bathing places for sanitary purposes, but these are luxuries which the masses do not have, and probably never will.—*Times.*

The low fare from this city to Old Orchard, Me., on the 11th inst., was taken advantage of by many persons, a train of ten passenger coaches, with nearly 600 excursionists on board, leaving the Boston & Maine station shortly after 7:30 o'clock A. M. Every seat in the cars was occupied, and many persons had to stand in the aisles.

The schooner Lizzie Guptill, Capt. R. F. Smith, arrived at the Concord railroad wharf on the 11th inst. with 800 casks of lime from Rockland, having been absent from the wharf about a week. Capt. Smith reports seeing some small schools of mackerel off Cape Porpoise on his passage up.

Messrs. Arthur G. Brewster and Albert I. Drake have rented a house on Preble's island, and occupy it every night during the hot weather, greatly to the increase of their comfort.

At a meeting of the board of instruction this week Rev. Alfred Gooding was chosen a member of the high school committee for three years, and Charles E. Batchelder, Esq., for one year. Miss Mary F. Garrett, teacher of the second division of the Jones school, was appointed teacher of the first division, vice Miss Harriet L. Hill, resigned.

For real comfort, this warm weather, J. C. Carr has the fine Dongola and fine soft kid boots and shoes for ladies and gentlemen.

Capt. Cheney, of the gondola Hard Chance, has contracted with E. F. Sise & Co. to freight 1,200 tons of coal from this city to Newmarket, and took his first load on board Wednesday.

A barge will leave from the Parade at twelve o'clock sharp to-day, for Wallis' sands, in time for the grand dinner of the barbers' picnic.

Hon. Martin A. Haynes of Lake Village, member of Congress from this district, was in town Wednesday.

The Biddeford *Journal* asks a conundrum as follows: "Now that the United States school ships have left the Kittery navy yard its stillness is unbroken save by the stable boys in their search around the yard after the officers' cows. Why is this thus?"

There were about fifty boarders at the Pepperell house, Kittery Point, last week, which is very nearly the full capacity of the house. The reputation of this resort has increased every year since its inception by Landlord Safford, who commenced on a small scale, with a partner who afterward retired, and is now engaged in business near by. Mrs. Safford is an excellent housekeeper, and knows how to make everything about the house agreeable to the guests. The polite clerk, Mr. Fred Grace, has been engaged there several years. The views in the vicinity are very pleasing, and there is generally a fine breeze blowing during the summer months. Everything about the house, outbuildings and grounds is scrupulously clean and neat, and the drainage is perfect. The children who may be at the house have a fine and spacious play room devoted to them alone, where they can enjoy themselves without annoying their elders.

At the York county republican convention, held at Alfred on the 10th inst., the following named gentlemen were chosen to serve the ensuing two years as a county committee: George H. Muzzey, South Berwick; Alexander Maxwell, Wells; A. L. Prescott, North Berwick; A. M. Welch, Kennebunkport; John Wentworth, Kittery; W. T. Emmons, Saco; C. H. Prescott, Biddeford; Leroy F. Pike, Cornish; Geo. E. Mitchell, Newfield; Chas. H. Adams, Limerick; James E. Hewey, Alfred; F. A. Hobson, Limington; Hosea Willard, Sanford; Frank J. Leavitt, Buxton.

Saturday night, 7th inst., at Buxton Center, a large stable belonging to the Buxton & Hollis savings bank was burned. It contained about ten tons of hay, a nice carriage, mowing machine and other agricultural implements. The fire is thought to have been of incendiary origin.

The schooner Moses B. Linscott, Captain Gillian, of Harpswell, Me., carried into Portland a few days since a fare of twenty-seven sword fish, the result of a week's cruise. They were captured in the Bay of Fundy, and weighed when dressed about 6,000 pounds. The entire load was disposed of to the firm of Wyer Brothers, at 6 1-2 cents a pound.

Capt. Frank D. Langsford and John Daley, of Lanceville, Mass., went out in Ipswich bay on the 9th inst. looking for swordfish. When one was sighted a harpoon was thrown into the fish, but after sinking he came to the surface and drove his sword through the dory and into the abdomen of Langsford, penetrating about five inches. The injured man was immediately taken ashore, and Dr. Saunders summoned. He pronounced him in a dangerous condition, and thought he could not live through the day.

The New York yacht club fleet made a run from New Bedford to Vineyard Haven on the 10th inst. The Mayflower made the run in two hours and nineteen minutes, beating the Puritan three minutes and thirty-five seconds, the Priscilla seven minutes and forty-two seconds, and the Atlantic eleven minutes and fifty-eight seconds. Of the schooners, the Sachem beat the Montauk eight seconds, the Fortuna eight minutes and six seconds, the America ten minutes and twenty seconds, and the Wanderer eighteen minutes and forty-four seconds.

HARMLESS WITH SANFORD'S GINGER.

The cold cred brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, conveniences, speedy and safe, is the quintessence of all that is preventive and curative in medicine.

It is sure to check summer complaint, prevent indigestion, destroy disease germs in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of whoever cramp or pain has ever made a demand upon it for relief or sum that has not met with instant response.

It is a delicious combination of the finest Imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "ginger," pain curses and nauseating nostrums.

Unripe fruit, impure water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, in Bowels, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, must be met the traveller or household at this season, are nothing to those protected by SANFORD'S GINGER.

guns in the forts, and both batteries of the advancing fleet, mounting two hundred and forty-two guns, and Commander Porter's squadron of seven vessels mounting seventy-two guns, which attacked Fort Jackson's flank below the obstructions. There was also a splendid practice from nineteen federal mortars, which fired their 13-inch shells at intervals (between the vessels) of ten seconds.

"The bursting of every description of shells quickly following their discharge, increased a hundred-fold the terrific noise and fearfully grand and magnificent pyrotechnic display which centered in a space of about twelve hundred yards in width. The ball had not more than fairly opened before the enemy's ships were between the forts, and the Uncle Sam of my earlier days had the key to the valley of the Mississippi again in his breeches-pocket, for which he had to thank his gallant navy and the stupidity, tardiness, ignorance, and neglect of the authorities in Richmond."

Finger-Bowls.

At a luncheon party the other day (says the New York *World*) the question was under discussion as to the propriety of using finger-bowls at the table. A number of society women were present who had traveled abroad a good deal, and by them it was pronounced in very bad taste to place these toilet articles before a guest, except when fruit has been partaken of. Then, and only then, should the washing of the hands at the table be permitted, as at all other times it is not only in bad form but positively vulgar. Abroad finger-bowls have been almost wholly discarded, and in this country are used in the best-regulated households only, as before said, when necessity requires them. They should stand on the side-table ready for use, and after the meal be set before each of the guests as have taken fruit, together with a delicate napkin, for cleaning the hands, as it is impossible to eat fruit without getting the fingers sticky; but an adult is supposed to be able to partake of the remainder of his or her dinner without soiling the hands.

The first change in the President's habits noticed since the wedding at the White House is that he knocks off work at 4 o'clock now instead of 5 as formerly, and goes to drive an hour earlier. It is also observed that the companion of his daily drive is not the faithful Lamont any longer, but a lady who invariably carries a red parasol. The Soldiers' Home is not visited so often as formerly either, but the heads of the seal-browns are usually turned in the other direction and take the Tennallytown road instead of the Fourteenth street turnpike.—*Washington Letter.*

Wages in the mines in the Black Hills range from $2.50 to $5 a day, and are regulated by the amount and character of work performed.

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite sometimes poor and again voracious? Do you notice brick-dust at the bottom or a scum on the top of the fluids you pass? Are these fluids scant at times and plentiful at others? Do you have headaches once in a while? If you have these feelings, **DO YOU KNOW WHAT THEY MEAN?** Your Kidneys are Diseased!!! It may be only the beginning, yet if not taken in hand, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

Mr. JOHN W. FURBUSH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

Mrs. ALEXANDER L. NICHOLAS, of Phenix, R. I., and a descendant of General Nathaniel Greene, was so near the grave her breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in his side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape awful suffering and possibly death itself. For Sale by all Dealers.

Care of Animals in Summer.

The American Humane Association presents the following suggestions relative to the care of animals during the heated term:

Provide water—fresh, pure water. Think, reader, how you are refreshed by a drink of cool water on a hot day. The lower animals are equally in need of the means of quenching thirst.

The active dog requires drink frequently during the hot day, as does also the cat; and a dish of fresh water should stand where they can have access to it. Undoubtedly many a dog is driven to madness through lack of water; and the testimony is that hydrophobia is almost unknown in those localities where dogs can drink when they wish.

Every city, village and country town should be liberally supplied with drinking fountains for animals, and they should be so constructed that even the smallest dogs can drink from them. No gift to a people confers a greater pleasure than a fountain, and that person who turns aside a stream from the field and gives a watering trough to the roadside, or provides a fountain at which man and beast can drink pure water, is truly a public benefactor.

Give the horse frequent opportunity to quench thirst at times when not too much over-heated, and before eating. To drink freely immediately after eating prevents a favorable digestion of food.

Provide shade. How instinctively we seek the shadows when the sun is pouring its hot rays on the dry and parching earth. If the pasture is not provided with shade trees, in a convenient locality set four, six or eight supports, across which place straw or grass, and thus, in a brief time and with little labor make a shade in which animals can rest from the heat of the sun, to the great comfort of themselves and benefit to their owners.

Remove the harness from the horses in the hot day whenever you desire to give them a full, free rest, and once during the day, preferably at night, a thorough currying and grooming will not only give rest, but will do about as much toward improving the animal's condition as will the oats.

Examine the harness on your working team, and you will discover that blinds, check-reins and crupers are simply torturing contrivances, serving no useful purpose. Take them all off for the convenience of yourselves and the comfort of the horses. Keep the stable well ventilated and free from the strong ammonia, which is injurious to the eyes. Assist the animals to protect themselves against flies, feed regularly, hitch in the shade, and remember that the care which will give comfort to the lower animals will prove to them doubly profitable to their owners, aside from the humane bearing of the subject.

The simplest and best regulator of the disordered liver in the world are Carter's Little Liver Pills. They give prompt relief in sick headache, dizziness, nausea, etc.; prevent and cure constipation and piles; remove sallowness and pimples from the complexion, and are mild and gentle in their operation on the bowels. Carter's Little Liver Pills are small and as easy to take as sugar. One pill a dose. Price 25 cents.

The Catholic church at Franklin Falls was dedicated Sunday, the 8th inst., Bishop Bradley of Manchester being in attendance.

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents, all druggists.

The first salmon caught in the Pemigewasset river for a number of years was taken at Campton, Aug. 4th. Its weight was two pounds.

The powerful curative properties of a Hop Plaster are irresistible when applied to backache, swollen joints, and muscles, sciatica, pleurisy, sharp pains, or any sort of soreness. The best and strongest porous plaster made. A trial will demonstrate it. Sold everywhere. 25c.

The New Hampshire Life Insurance company has been organized at Manchester under a charter from the legislature, with a capital stock of $100,000.

James Pyle's Pearline is an article of too great value to housekeepers to be untried by any. No similar article has come into general use in so short a time, simply because it always speaks for itself on trial. Sold by all grocers, but see that counterfeits are not urged upon you.

It is estimated at the post office department that the deficiency for the last fiscal year will be about $7,000,000.

Many mothers are unable to nurse their children. In such cases the best substitute to be found is Mellin's Food, prepared after Liebig's formula, which has proved to correspond physiologically with mothers' milk.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites.

For Wasting Diseases of Children,

Where the digestive powers are feeble and the ordinary food does not seem to nourish the child, this acts both as food and medicine, giving strength and flesh at once, and is almost as palatable as milk. Take no other.

HALE'S HONEY is the best Cough Cure, 25, 50c., $1. **GLENN'S SULPHUR SOAP** heals and beautifies, 25c. **GERMAN CORN REMOVER** kills Corns & Bunions, 25c. **HILL'S HAIR & WHISKER DYE**—Black & Brown, 50c. **PIKE'S TOOTHACHE DROPS** cure in 1 Minute, 25c. **DEAN'S RHEUMATIC PILLS** are a sure cure, 50c.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Clear the Way

For the escape from the system of its waste and debris, which, if retained, would vitiate the bodily fluids and overthrow health. That important channel of exit, the bowels, may be kept permanently free from obstructions by using the non-griping, gently acting and agreeable cathartic, Hostetter's Stomach Bitters, which not only liberates impurities, but invigorates the lining of the intestinal canal, when weakened by constipation or the unwise use of violent purgatives. The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this beneficent tonic and corrective, and every organ, fiber, muscle and nerve experiences a share of its invigorating influence. Unobjectionable in flavor, a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively, it is the remedy best adapted to household use, on account of its safety, wide scope and speedy action.

Mrs. Sarah J. Robinson of West Somerville, Mass., a widow aged about fifty years, and Thomas R. Smith, a man fifty-eight years old, married and with a family, have been arrested on a charge of poisoning Mrs. Robinson's son, William J. Robinson. It is believed that they have caused the deaths of at least five other persons in Mrs. Robinson's family within four years past, the object being to get the insurance on their lives.

An Orange procession in Londonderry, Ireland, on the 12th inst., was attacked by a mob.

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood. No other preparation so well meets this want. It increases the appetite and rejuvenates the whole system. Its record, for forty years, is one of constant triumph over disease.

John Aldrich, about twenty-eight years old, married, fell from a train at Warren Summit on the 11th inst. Three cars passed over him, inflicting injuries from which he died.

Handsome Versus Homely.

Who is that fine looking lady that we just passed, Clara? Why, that is Mrs. Snow. Well, there, what a change; when I saw her last, her skin was so sallow and muddy looking, it's no wonder I didn't know her. What has produced that lovely complexion? I heard that she took Sulphur Bitters, the great blood purifier, and now would not be without them.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

What a Brave Girl Did.

The *Press*, of Cleveland, permits a little facetious diversion in its State news column, which is conducted by a young Norwalk newspaper man named Foster. It is appropriate that he is unmarried and unengaged. Last Tuesday he published a paragraph to this effect:

"A Marion girl started her graduating essay as follows: 'I am fairly wearied out with the incessant prating of the lords of creation on the duties and sphere of woman.'"

The paragraph closed with the somewhat dangerous assertion that the editor would bet a new spring hat that the author of that discourse on woman's sphere could not bake a loaf of bread. Saturday Mr. Foster received from Marion a large box. It contained sundry light loaves of bread and cake, marvelously toothsome. An accompanying affidavit bore the solemn oath of the sweet girl graduate (who possessed the pretty name of Mac Williams) that she had, unaided, baked the wheat bread marked "Exhibit 'A,'" the two specimens of corn bread "Exhibit 'B.'" and the chocolate cake "Exhibit 'C.'" The notary's seal of office was affixed to the affidavit, and it was settled beyond a doubt in Mr. Foster's mind that his rash wager had been accepted. He therefore went out and lavished his week's salary on a new spring hat. Of course, he had never seen Miss Williams, and could not tell what kind of a hat would be becoming. At a venture he selected a blonde hat, fifteen bands, with an expensive girth, to fit a high forehead. The affair has cast a gloom over his humor that bodes ill for the effervescent state column of his paper.

A Wedding Fee.

The story of the Vermonter who proposed to add half a dollar to the amount which the "law allowed" the parson for marrying him has brought to the historian a brand-new story of another wedding-fee transaction in Vermont. It is from a glen village away back from the Connecticut in the hills, where money is scarce and the ways are primitive, and the people frequently prefer to pay for their purchases in kind. One day a young couple came to the parson at the village to be married. They hadn't a cent of money, and it had been arranged that the bridegroom should bring a specified quantity of beeswax with which to pay the minister. The parson was thrifty—they have to be thrifty up that way—and took good care before he performed the ceremony to weigh out the beeswax and see whether there was enough to pay his fee. There wasn't.

"Why haven't you brought all the beeswax you agreed to?" asked the minister.

"All I had, parson."

"And you haven't got any more?"

"Not another ounce."

"Have you got any money at all?"

"Not a mite, parson."

There was a period of uncomfortable silence, during which the young farmer began to grow very much alarmed. He was afraid the parson wouldn't marry him unless he produced his uttermost ounce of beeswax, and the prospect struck terror to his soul. The parson was inclined to let him "stew."

"Look a' here, parson!" said the countryman, finally, "I tell ye what ye do; you take the beeswax and marry us as far as it goes!"—*Boston Herald.*

No Fun in It.

"No," said a prominent citizen of an important Dakota town, "I don't believe we care about having a member of the legislature from our section next time—you can elect him from some other part of the district."

"What's the reason of that?" asked a friend.

"Well, you see, the first one we sent up there didn't know anything about poker and he kept drawing on us to get money to carry on the game. We sent him about $5,000—rather expensive, you see."

"Yes."

"The next time we thought we would be sharp and elect the best poker-player in the section. Everything went all right till about the middle of the session when a few of us went up to the capital to see about a little matter, and I'll be blamed if he didn't rope us into a game with the speaker of the house, president of the council, and one or two others and cleaned us out of about all we had. I donated $2,000 myself. No, we're willing the remainder of the district should have a share of the honors.—*Estelline Bell.*

Stories of Judge Davis.

Though in the possession of ample means—his wealth was rated in the millions—David Davis continued to observe the frugal manners of his early days, even after being appointed a justice of the Supreme Court and elected senator. Punctually at 1 o'clock every day he made his way to the stand kept for many years by a woman called "Dyspepsia Mary," and there ate his lunch, which consisted of two apples, a ginger cookie, and a glass of milk, costing him 15 cents in all. This bill of fare was never changed. In other ways he was equally economical. I doubt if his expenses before his marriage amounted to more than $2,500 a year. He lived in an old-fashioned hotel, where a modest apartment was always kept in readiness for him. This he used as sleeping-room, sitting-room, and office combined. It was here that he spent most of his time when not occupied in the discharge of his official duties. He was at all times accessible to callers. Though fond of company, he was rarely seen in "society." The empty chatter of drawing-rooms had no attractions for him. With a few congenial spirits, however, he knew

But Consider the Difference.

Says the ultra democratic New York *Sun:*

In the whole history of river and harbor legislation, the efforts of the log-rollers never but once achieved a job surpassing that of the present year in the aggregate of the appropriations, nor in the shameless character of many of the items. That was four years ago; and when the bill went to Mr. Arthur he took a stub pen and wrote across the face of it, in bold black letters: "*Veto*; I forbid." And that is just what Mr. Grover Cleveland has not done.

But the *Sun* should remember that Mr. Arthur was elected simply as a republican politician and honest man, while Mr. Cleveland was elected as an exemplar of true democratic reform.

AROUND HOME.

Lester B. Elwood, Esq., of Minneapolis, Minn., arrived in our city on a short visit, is the guest of Samuel Adams, Esq. Mr. Elwood and his host on Wednesday of this week took a trip to the Appledore on the steamer Oceanic—the western gentleman's first trip on the ocean, he never having seen salt water until his arrival at Boston, though not at all unfamiliar with lake and river navigation. The new experience was entirely satisfactory to Mr. Elwood, who pronounced the Atlantic an unquestionably big thing, and Appledore island a pattern place of rest for the weary. Fresh cod chowder he regards as food for the gods.

General Superintendent Sumner I. Kimball, of the United States life-saving service; Capt. John M. Richardson of Portland, superintendent of the first life-saving district, which includes the coasts of Maine and New Hampshire; and Capt. James H. Merryman, United States revenue marine, general inspector of life-saving stations, arrived in this city on Thursday, to inspect the station and appliances at Rye beach, and fix upon the site for the new station near the mouth of this harbor, for the establishing of which Congress some time ago appropriated $6,000.

The four-masted schooner Agnes Manning, which arrived in the lower harbor on Tuesday of this week, it is said brought in 1392 tons of coal—the largest cargo that ever arrived here in a sailing vessel.

Post 49, G. A. R., of Newburyport, arrived in this city Thursday forenoon by train, and took steamer for the Shoals, dining at the Oceanic, and afterward enjoying a ramble over the island until the steamer was ready to start on her regular afternoon trip in, when they embarked for home. The veterans numbered about a hundred, and their visit to the island was evidently one of unmixed pleasure.

The city councils on Thursday evening elected three lamplighters. As the twenty-five electric lights are to do away with 103 of the 106 street gas lights, the lamplighters will have just one light apiece to look after.

Pay Director A. H. Gilman, U. S. N., who went on the retired list Monday, August 9th, was stationed at the Portsmouth navy yard in 1866—67, and was ordered thence to the Washington navy yard as inspector of provisions and clothing.

Mr. Frank W. Grogan, formerly employed as a draughtsman at the navy yard opposite this city, but transferred to the Washington navy yard several years ago, has this week removed his family to Washington.

The Old Orchard *Summer Rambler* of the 12th inst. says: "Among yesterday's excursionists were two rowdies, one from Portsmouth and the other from Boston. The Portsmouth gentleman (?) had evidently looked on the wine when it was red until its sparkling contents caused him to feel somewhat pugilistical. So much so that Chief of Police Whittier felt called on to 'run him in.' Although somewhat inclined to resist at first, Mr. Whittier finally took him into custody. At this juncture his Boston friend interfered and brutally assaulted the officer, who succeeded, however, in lodging the brace of rascals in the lobby. They will be arraigned at Saco to-day before Judge Emmons. Mr. Whittier was considerably scratched, and one of his hands was severely hurt."

Rev. George A. Cleveland, of North Berwick, has received a call to the pastorate of the First Baptist church in Melrose, Mass. He is a native of Nova Scotia and a graduate of Newton theological seminary, and has been settled over his present parish in Maine for several years. He is strongly commended as a vigorous thinker and earnest pulpit orator, and zealous in pastoral work.

Mr. Ezra A. Stevens, Jr., of Malden, Mass., on returning from the beach where he has with his family been stopping, was surprised to find that the house had been broken into and overhauled, and clothing, jewelry and other articles stolen. Winfield S. Bumpus and Michael J. Haley were arrested for the crime, confessed, and most of the stolen property was recovered.

The New York yacht squadron ran from Vineyard Haven to Newport on the 11th inst. in a fog, and there disbanded. The Mayflower arrived first, and the Sachem again led the schooners. The Puritan and Priscilla switched off in the fog, and did not finish the run.

John McCarty of Boston swallowed his false teeth on the 10th inst., and on the 11th an incision was made in his stomach at the Massachusetts general hospital, the teeth removed and the opening sewed up. It is thought he will recover.

It was reported on the 11th inst. that the headless body found in a shoebox near Wallingford, Conn., was supposed to be that of Albert J. Cooley of Yalesville, who drew $1500 of pension money in New Haven five weeks ago, and cannot now be found.

Bernard Grady, a dissipated young man of good family, fatally shot himself in Druid Hill park, Baltimore, Aug. 10th.

The schooner Electra, at Gloucester Aug. 11th from Georges, just returned, reports the loss of four men. On August 3d, when off Sable island, a frightful squall came on while nearly half the crew were out in the dories; two of them managed to get aboard, but four were lost, and, it is feared, will never be picked up. One of the crew says it was the wickedest squall he was ever in during sixteen years of fishing life. The Electra also reports speaking the schooner Matthew Kearney, with her flag at half-mast for the loss of two men who were in the same squall. The fishermen say there will be other reports of disaster and loss of life from this same squall. Schooner Gardner W. Tarr arrived at Gloucester on the 11th minus six of her crew; all of them have been picked up, and all got home but one, who stayed in the British provinces to get married.

Mr. Bartlett is a good business man and sound financier, and will make a valuable and reliable senator, for of his election there is not a shadow of doubt.

The tomb of Sir William Pepperell at Kittery Point has been kept in good repair of late years by Lahdlord Safford of the Pepperell house. But numerous initials have been inscribed on the tablet, some in years gone by and some of very modern date, and scarcely any in artistic style. There are signs also of pieces being knocked off the hard marble edges by relic hunters, who ought to know better in these modern times than to be copying after Vandals of the barbaric ages.

AYER'S SUGAR CATHARTIC COATED PILLS

CURE

Headache, Nausea, Dizziness, and Drowsiness. They stimulate the Stomach, Liver, and Bowels, to healthy action, assist digestion, and increase the appetite. They combine cathartic, diuretic, and tonic properties of the greatest value, are a purely vegetable compound, and may be taken with perfect safety, either by children or adults. E. L. Thomas, Framingham, Mass., writes: "For a number of years I was subject to violent Headaches, arising from a disordered condition of the stomach and bowels. About a year ago I commenced the use of Ayer's Pills, and have not had a headache since." W. P. Samuels, Garnsby P. O., York Co., Ont., writes: "I have used Ayer's Pills for the past thirty years, and can safely say that I have never found their equal as a cathartic medicine. I am never without them in my house." C. D. Moore, Elgin, Ill., writes: "Indigestion, Headache, and Loss of Appetite, had so weakened and debilitated my system, that I was obliged to give up work. After being under the doctor's care for two weeks, without getting any relief, I began taking Ayer's Pills. My appetite and strength returned, and I was soon enabled to resume my work, in perfect health."

Marshall, at Pleasant point; Fred Thomas, at the Concord railroad wharf; John Newick, Joseph Davis and John Baker, at the Creek breweries; Herbert Cate, at the custom house; Mark Scott, at the Portsmouth brewery; Robert Anderson, at the navy landing.

Police officers, constables and night watchmen: Richard D. Smart, Edward Watkins, Thomas Leary, George Adams, Robert A. Stott, James Kehoe. (Mr. Stott had five votes, to four for James Quinn.)

Election of supernumerary watchmen was laid over.

The joint standing committees were announced by the mayor.

List of city officials was ordered to be printed.

Request of Punch & Judy show for permission to exhibit on the Parade, was referred to the mayor.

Vacancies in the special committee on north millpond were filled by the appointment of Aldermen Hodgdon, Russell and Sinclair.

Request of Samuel S. Fletcher for relay of sidewalk was referred to committee, with power.

The Common Council gave notice that they were ready to meet the board in convention, to elect city officers.

BOARD OF ALDERMEN.

In board of aldermen, resumed:

Applications of Michael Cunningham and Mrs. Mary Conners for abatement of taxes, were referred to committee on claims.

Adjourned for two weeks.

THE BARBERS' PICNIC.

With a single exception, all the barber shops in the city were closed on Thursday, while the tonsorial artistes and their invited guests—among the latter being He Sing, the Chinese laundryman of Market street, who goes in for a good time allee same 'Melican man—enjoyed a day out, with a picnic, chowder and accessories at Wallis' sands, Rye beach. The main party started from the Parade shortly after eight o'clock A. M. in a barge, all hands, including He Sing (mighty bad grammar that) wearing striped caps, of which a sufficient supply was provided to furnish one to every person who put in an appearance with any other kind of head-dress. A supplementary trip was made by the barge at noon, to take down such of the invited guests as could not make it convenient to go by the first one.

There were about twenty-five barbers in the party, as assembled at the picnic grounds, and a much larger number of guests; and the picnic was one of the most successful and best conducted affairs of the kind held at the beach for years. An excellent chowder was prepared by Mr. J. B. White, assisted by Mr. Peter Williams, and there was an abundance for all comers. During the day a series of sports was arranged, the list of events being as follows:

Tug of war, D. J. Holland and Wm. C. Randall; won by Randall, best two in three.

Fat men's race, Fred Randall and Seth Haley; easily won by Randall.

Hundred yards dash, Oscar Johnson and D. J. Holland; won by Johnson in nine and one-quarter seconds.

Hundred yards dash, between a well known reporter and He Sing, or Yee Sing, the laundryman. This was an exciting and hilarious race. The reporter at first shot ahead, but looking at his competitor instead of at the track, he tumbled down, and Yee Sing tumbled over him. Yee Sing was first on his feet, and won the race; time, ten seconds.

Fifty yards dash, Randall cousins; won by Fred Randall, time not taken.

A base ball match between a nine of the barbers and a nine of painters (employes of E. D. Coffin) was stopped when partly played out, by the only mishap which occurred to mar the pleasures of the day, Mr. Daniel Nason, a barber of Kittery, being struck by a bat which slipped from the striker's hands, and badly cut on the nose and over one eye.

One of the incidents of the occasion was the photographing of the barbers in a group, by Mr. L. V. Newell.

At intervals during the day excellent music was supplied, by Mr. Martin Hoyt, violin, and Mr. John E. Roberts, banjo.

Mr. Edgar Russell, as usual on such occasions, freely gave the use of his house and grounds to the party, and in every way in his power helped make the day one of pleasure.

At the close of the day a vote of thanks was passed to H. Fisher Eldredge, Esq., for generous courtesies; and the treasurer, Mr. John E. Roberts, reporting that of the fund contributed for the occasion there would remain an unexpended balance of $15, it was voted to donate the same to the Cottage Hospital, and the treasurer and Mr. Wm. C. Randall, chairman of the committee of arrangements, were instructed to thus dispose of it.

The barbers returned to the city about eight o'clock in the evening, more then pleased with the success of their first annual picnic.

POLICE COURT--BATCHELDER J.

George H. Wildes, for drunkenness, was fined $5, costs $6.90. Jail in default of payment.

THE ELECTRIC LIGHT LOCATIONS.

Mr. Editor: I note that a correspondent enquires as to the reason of the apparently careless location of the electric light poles. It seems obvious. The poles are placed where the less amount of light can shine, in order that a new job can be easily secured for more poles! The pole near the academy is an illustration. The experimental pole was placed where no light could shine up Middle street, because it was shaded by the academy building. If the pole had stood near the baker's shop, it would have sent light up Middle street. As it was placed, this street was dark and unlighted. The mistake is followed by a new pole in the same objectionable spot, when a little practical observation would have shown whoever decides where the poles go down (or up) the best place for the most service. From the manner in which these poles are being erected, it would seem that nobody in particular is looking after this work. But perhaps the designation of these lights is one of the "troubles and petty annoyances" which the city pays its chief magistrate to look after, while the aldermen do not allow him but very little power in the office. If the lights are to illume the city, the poles should be placed where the lights would do the most good. At present the locations of many are poorly selected.

SECUNDUS.

Editor of Chronicle: I see that a correspondent complains that many of the electric-light poles are being located *under* the shade trees of the city. If the complainer will only take a look on State street, near Penballow, he will find a pole sticking up *into* the trees, where it will do little more than light up the birds' nests.

X.X.

Daniel street has been improved by the erection of a new dwelling house by Mr. Downs, and the remodelling of the Methodist chapel into two convenient houses by Mr. G. B. French. The street would be still further improved if the house of Mr. Thomas Murphy could be removed back to a line with the buildings on either of its sides. This improvement was discussed many years ago, but the city authorities could not agree with the owners upon the sum of damages. The house could be removed, it would seem, at a reasonable cost, the short distance required to give a straight line on the north side of the street. This is an improvement which commends itself, and we hope to see it one day accomplished.

We understand that Dr. Frank E. Langdon will not accept the office of school committee-man. We regret that the board of instruction will not be able to avail itself of the services of so competent a member as Doctor Langdon would have proved had he consented to serve thereon.

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, concentrated, speedy and safe in its quintessence of all that is preventive and curative in medicine.

It is sure to check summer complaint, prevent fermentation, destroy disease germs in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" sometimes urged by mercenary druggists on those who call for

Sanford's Ginger,

The Delicious Summer Medicine. 1sd

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress! No cramp or pain has ever made a demand upon it for relief or cure that has not met with instant response.

It is a delicious combination of Imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "gingers." pain cures and nauseating nostrums.

Certain fruit, impure water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, in Bowels, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that beset the traveller or household at this season, are nothing to those protected by SANFORD'S GINGER.

how to exchange the small-talk of the hour and play the agreeable host.

By one of the judge's friends I am told a story which has not appeared in print yet, I believe. It is I think, characteristic of him, and shows that he was not entirely deficient in humor. A confidence man, no doubt thinking that the bulky form of the justice would make him an easy prey to his wiles, stepped up to him in the Metropolitan bank one day, while Mr. Davis was depositing a large amount of money in bills. It was an attempt at the old trick of dropping a bill, drawing the victim's attention to it, in the hope of diverting his watchfulness from the bigger pile of notes about to be deposited by him, and make away with them at the opportune moment. The scamp dropped his $5 note on the floor, nudged the justice in the side with his elbow, and whispered: "You've dropped something." "All right," quietly remarked Mr. Davis, who knew a thing or two about the gentry to which his officious friend belonged; "I'll take care of it." With that he planted his ponderous foot and whole weight on the note, while he handed in his deposit. That done, he leisurely asked the confidence man to pick the note up for him. The latter could not but grant the request. It was with a twinkle of his eye that it disappeared in Judge Davis' pocket, to find its way on the following day into the treasury of some charitable institution. —*Washington Correspondent New York Tribune.*

The drowning season has arrived, and almost every day come reports of those who have been sacrificed either by their own carelessness or that of others. Now, drowning as a regular thing is not necessary. It is the most unnecessary and unprofitable form of personal entertainment. There is no fun in it and no money, and yet fools rush in and court death by too much water as persistently as if it were the greatest fun in the world. Men without the slightest experience in the management of boats set out upon the water in some leaky cockle shell, and when any of the numerous perils of wind and wave threaten they have no power to avert the danger. Stupid management upsets the boat and the doomed men go pounders into eternity. Deep water is not to be trifled with, a fact which it seems very difficult for the ordinary run of landlubbers to comprehend.

Peter S. McNally of Boston is but 21 years old, yet he has saved 40 persons from drowning, and has received the medal of the Massachusetts Humane Society. He learned to swim when 5 years old, and began his career as a life-saver two years later. Once he was called upon to rescue the same man two days in succession.

The greatest length of Lake Michigan is 300 miles; its greatest breadth, 108 miles; mean depth, 600 feet; elevation, 506 feet; area, 23,000 square miles.

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite sometimes poor and again voracious? Do you notice brick-dust at the bottom or a scum on the top of the fluids you pass? Are these fluids scant at times and plentiful at others? Do you have headaches once in a while? If you have these feelings **DO YOU KNOW WHAT THEY MEAN!** Your Kidneys are Diseased!!! It may be only the beginning, but if not taken in time, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

Mr. JOHN W. FURBUSH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

Mrs. ALEXANDER L. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathaniel Greene, was so near the grave her breath only came in gasps, but she was rescued to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape a awful suffering and possibly death itself. For Sale by all Druggists.

I Was Disgusted

With the learned doctors after swallowing their costly medicine again for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker House, Boston.

The United States war ship Galena passed through the Strait of Canso on the 11th inst., looking for the American mackerel fleet. She obtained information and supplies, and proceeded.

For removing dandruff, Ayer's Hair Vigor has no equal. It restores faded and gray hair to its original color, stimulates the growth of the hair, and gives it a beautiful, glossy, and silken appearance.

The superintendent of the Somersworth Machine Co. refused to confer with the strikers at the company's bobbin mill at Dover, and informed a committee that the hands would be paid off and the mill closed.

The simplest and best regulator of the disordered liver in the world are Carter's Little Liver Pills. They give prompt relief in sick headache, dizziness, nausea, etc.; prevent and cure constipation and piles; remove sallowness and pimples from the complexion, and are mild and gentle in their operation on the bowels. Carter's Little Liver Pills are small and as easy to take as sugar. One pill a dose. Price 25 cents.

The most severe hail storm that has visited Colebrook for many years occurred on Wednesday afternoon, the 11th inst., accompanied by wind and rain. Hail fell in large quantities, making the ground white, and considerable damage was done to crops. The storm was about thirty minutes in duration.

Those unhappy persons who suffer from nervousness and dyspepsia should use Carter's Little Nerve Pills, which are made expressly for sleepless, nervous, dyspeptic sufferers. Price 25 cents, all druggists.

Seven thousand soldiers and constables occupied the disturbed districts of Belfast, Ireland, all day long on the 9th inst. During the morning hours there was some trouble, several shots being fired in different parts of the city; but toward evening the city became quiet, and there was no indication of a renewal of rioting. It is believed that the worst is over.

The powerful curative properties of a Hop Plaster are irresistible when applied to backache, swollen joints, and muscles, sciatica, pleurisy, sharp pains, or any sort of soreness. The best and strongest porous plaster made. A trial will demonstrate it. Sold everywhere. 25c.

The four-masted centre-board schooner Benjamin F. Poole, 1155 tons register, and of 1800 tons coal capacity, was launched at Bath, Me., Aug. 11th.

James Pyle's Pearline is an article of too great value to housekeepers to be untried by any. No similar article has come into general use in so short a time, simply because it always speaks for itself on trial. Sold by all grocers, but see that counterfeits are not urged upon you.

Elijah Knight, one of the best known jewellers in the state, died in Concord on the 11th inst., aged about seventy-three years. He had been a resident of Concord twenty-eight years, and prior to going there had been engaged in business in Newmarket and Pittsfield. Mr. Knight leaves a widow and one daughter.

"For economy and comfort, we use Hood's Sarsaparilla," writes an intelligent Buffalo, N. Y., lady. 100 Doses One Dollar.

Citizens of Newport, R. I., have subscribed over $1,000 for a cup to be sailed for by the New York yacht club, and the proposal to sail has been accepted by the commodore of the club.

Many mothers are unable to nurse their children. In such cases the best substitute to be found is Mellin's Food, prepared after Liebig's formula, which has proved to correspond physiologically with mothers' milk.

Hattie P. Stevens, a school teacher of Lawrence, Mass., drowned herself in a pond on account of disappointment in love.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites.

For Wasting Diseases of Children,

Where the digestive powers are feeble and the ordinary food does not seem to nourish the child, this acts both as food and medicine, giving strength and flesh at once, and is almost as palatable as milk. Take no other.

PILES! PILES! PILES!

Sure cure for blind, bleeding, and itching Piles. One box has cured the worst cases of ten years' standing. No one need suffer ten minutes after using this wonderful Kirk's German Pile Ointment. It absorbs tumors, allays the itching at once, acts as a poultice, gives instant relief. Kirk's German Pile Ointment is prepared only for Piles and itching of the private parts, and nothing else. Every box is warranted by our Agent.

Sold by Druggists; sent by mail on receipt of price, 50c and $1.00 per box.

BENTON'S NERVE and BRAIN TONIC.

If you are so nervous that minutes seem like hours, or days seem like weeks and years, let no a moment pass before you try this great vitalizer, as its effects in all such cases are prompt and reliable. If the "Doctors" give you DOVER'S POWDER and MORPHINE to make you have a quiet sleep, you will find this better than all the doctors. If you become restless and nervous so you cant not sleep, Opium and its kindred allies are the worst things you can possibly take. A few doses of BENTON'S NERVE AND BRAIN TONIC is sure to relieve you, and in no instance has it ever failed to cure.

Sold by all Druggists, and sent by express on receipt of price, $1.00.

REGRET.

I saw her strolling by the sea,
A sweet, a shy and winsome miss,
And as she slyly glanced at me,
I threw her stealthily a kiss.

She looked around, the winsome miss,
No prying eyes were there to see;
Responding to my wafted kiss
She waved her handkerchief to me.

We're married. She's no more a miss,
And oft I ask myself in grief,
Why did I throw that fatal kiss?
Why did she wave her handkerchief?

A sea serpent eight feet long was seen at Pigeon Cove, Mass., Aug. 13th, a quarter of a mile from shore, by G. B. Putnam, master of the Franklin school, Boston, Samuel Bullock, master of the Bunker Hill school, Prof. Stephen Emery, and thirty or forty other persons. There was a calm, smooth sea and a bright sun, and the big snake, which moved quite slowly and was in sight for twenty minutes, was scanned through powerful marine glasses.

"For economy and comfort, we use Hood's Sarsaparilla," writes an intelligent Buffalo, N. Y., lady. 100 Doses One Dollar.

The president has appointed William H. Webster to be chief examiner of the civil service commission, to succeed Mr. Lyman, recently promoted to be a member of the civil service commission. Mr. Webster is a republican, and is now chief of a division in the pension office. He has been president of the departmental examining board of the civil service commission since its organization.

Many mothers are unable to nurse their children. In such cases the best substitute to be found is Mellin's Food, prepared after Liebig's formula, which has proved to correspond physiologically with mothers' milk.

Nathaniel Shute of Exeter, for many years a chaise maker and a prominent and greatly respected citizen, died lately at the age of seventy-nine years. The deceased was well known as a meteorologist and antiquarian writer.

Better than Vacation.

This is pre-eminently the vacation month, when thousands seek rest and recreation. But to those who suffer the depressing effects of summer debility, the disagreeable symptoms of scrofula, the tortures of biliousness, dyspepsia or sick headache, there is more pain than pleasure in leaving home. To such we say, give Hood's Sarsaparilla a trial. It will purify your blood, tone up and strengthen your body, expel every trace of scrofula, correct biliousness, and positively cure dyspepsia or sick headache. Take it before you go, and you will enjoy your vacation a thousand fold.

The annual "Venetian carnival" on the Kennebunk river at Kennebunkport come off on Tuesday night of last week, and the *Eastern Star* says of it: "Several bands were in attendance, and with the hotels and private houses illuminated, and the long line of boats decorated and illumined with colored lights it was acknowledged to be a perfect success. A large number from this village were among the large crowd who witnessed this beautiful spectacle."

Dyspepsia in its worst forms will yield to the use of Carter's Little Nerve Pills aided by Carter's Little Liver Pills. They not only relieve present distress but strengthen the stomach and digestive apparatus.

Miss Nettie Stillings, a graduate of the Portsmouth high school, and who for the past year has been teaching school in Denver, Colorado, is spending the summer at the Beachem farm in Newington. Miss Stillings will return to Colorado in September.

Headache, costiveness and piles, are easily and thoroughly cured by a judicious use of Ayer's Pills.

Commodore Daniel L. Braine, president of the naval board of inspection and survey, has been promoted to be acting rear admiral, dating from Aug. 12th. He will sail from New York Sept. 11th, for Rio Janeiro, to take command of the South Atlantic squadron.

There are many forms of nervous debility in men which yield to the use of Carter's Iron Pills. Those who are troubled with nervous weakness, night sweats, etc., should try them.

E. R. McIntire, hardware merchant of South Berwick, and long one of the most prominent citizens of York county, died Aug. 11th at an advanced age.

—"You had better look out," said Mrs. Muldoon, as she saw her husband drinking too freely, "or you'll fill a drunkard's grave before you die."

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

PHOTOGRAPHING ACTORS.

The Peculiarities of Stage People Before the Camera.

"John McCullough, genial John, was one of the best of men to be photographed; he was always obliging. He was the beau ideal of gentlemanly manhood. We were taking him in a large number of costumes one Sunday—oh, yes, that's the only day we can get for these people—and had come to Spartacus. We had chosen the position, and it was one where he held his arm high above his head. After John had placed it there he said, 'How this reminds me of the time I went with Forrest to have the same thing done, and in this same position, and the tears came into his eyes. I tell you, John loved his master, Forrest, as few are loved. Charles R. Thorne, Jr.'s. pictures always had an immense sale, particularly at the time of the great run of the 'Banker's Daughter.' He was a quiet and modest man, but considered sitting for a photo a great bore. He went upon the principle that he was a public servant and owed that much to it. Lester Wallack was a charming subject. We took him as Dazzle in 'London Assurance,' and he kept us in the best of humor with his wit and brilliant conversation. John Gilbert, on the other hand, was as sedate and stately as he always is. He regarded it as an unpleasant duty, a sort of rehearsal. 'Sam'l of Posen' Curtis was a peculiar one. He is a great talker and is always wanting to tell you what he paid for everything he has on. One of the pleasantest and most jovial actors that I ever met was Sig. Rossi, the Italian. He played a great trick on our waiting maid, a darky, by suddenly and unexpectedly appearing in costume before her and acting a bit for her sole benefit. She was so scared that she thought the great Rossi was crazy.

"Edwin Booth is one of the most difficult subjects; he abominates such things and refuses to sit under any circumstances. When he did sit for us he was unmanageable and wanted his own way, which more than once resulted in a poor picture. Mr. Boucicault always assists an artist by his good humor, and his wit is not kept for the stage alone. He always gets a good picture. Sig. Salvini is also wonderfully amiable under such circumstances. He came in and we took him in street costume once, and to our thanks he said, 'not at all; if I had more time you should have me in all my costumes.' William Warren is another man of men; he is the soul of good humor, and never fails of getting a good picture. Handsome George Rignold of Henry VIII. fame was an erratic fellow; he said he had rather go through a whole performance than sit for a picture; but his native vanity—you remember he was a good-looking fellow—always brought him round, and we took some fine photographs of him. Another of the same style was Harry Montague—whose death, it was said, threw thirty-two New York women into mourning. His pictures and Rignold's had a great sale, particularly among the fair sex. Mr. Irving is the only actor who ever ignored our request for a sitting, but Miss Terry came and gave us a sitting as Beatrice and proved a charming subject. Nat Goodwin is always too busy; John T. Raymond is the liveliest of the lively, and when giving us a sitting as Col. Mulberry Sellers, kept up a running fire of pleasantries."

—*Boston Times.*

The Darned Stocking.

There are other more interesting aspects under which we may consider stocking-darning. It has been chosen as the type of minor domestic duties. If a lady, especially a married lady, takes an active interest in public affairs—if she speaks on a platform or agitates for votes—certain circles in societies begin to talk darkly about "neglected stockings." We must all of us, at one time or another, when woman's rights were discussed, have heard some impassioned orator hold up for scorn and ridicule "the woman who cannot boil a potato or darn a stocking." If a woman, again, has a reputation for learning, slander again asserts that her stockings are in holes. This is especially the case when she has the temerity to study any of the dead languages. No woman will do that if she wishes to be thought a notable housekeeper. She may learn French, she may study music, or singing, or painting for years. But oh, see let her begin Latin or Greek (one hardly dare mention Hebrew) and her competence to darn stockings is held in doubt. "Look to her stocking heels" is a Yorkshire proverb often quoted in this connection.—*Cassell's Family Magazine.*

A Case of Bribery.

The different methods by which a man may be bribed are legion. I heard of a case that occurred in one of the South American States, the story of which will, in this connection, bear repetition. It goes without saying that bribery among the Latin race in America has been reduced to a science. My informant had lived many years on the southern half of this continent and was, I imagine, a good judge of the science. At one time there were two mining companies, a Scotch and an American, struggling for the possession of a valuable gold mine, situated in a South American Republic. It had come down to a contest between Scotch shrewdness and Yankee wit. The stake was enormously large. Through all the courts up to the final tribunal the case had been fought with the persistence and ingenuity which characterize such contests. The final arbiter was a brother-in-law of the President of the Republic. His influence with the administration was naturally supposed to be invincible, and by the law he was the final judge. The Yankee saw his adversary fraternizo

Republican State Convention.

The call for the republican state convention of New Hampshire has just been issued by Hon. J. H. Gallinger, chairman of the state committee. He says that in the election of delegates all citizens who believe in the fundamental principles of the republican party are invited to participate. These principles include a free ballot and a fair count in all sections, south as well as north; honest money as opposed to irredeemable paper currency and unlimited silver coin; the prohibition of the liquor traffic as opposed to either high or low license; the fulfillment in letter and spirit of every pledge made to the soldiers of the Union armies; full recognition of the rights and needs of American workmen, including the arbitration of all differences between the employer and the employed; the protection offered by the tariff system; a faithful administration of all existing laws, and an honest and economical management of the affairs of both the state and national governments. He thinks that an aggressive campaign with good candidates and a sound platform will result in a great triumph over the free trade and free rum democracy. A meeting of the committee and delegates will be held at Phœnix hall, Concord, Monday, Sept. 13th, for consultation, and to nominate an organization for the convention.

MARITIME NOTES.

The steamer Pottsville, from Philadelphia with 1,662 tons of coal, the schooner Index, from Elizabethport with 426 tons, and the schooner Hyue, from Hoboken with 288 tons, arrived on Saturday, all to J. Albert Walker.

Steam yacht Annie S., of Boston, arrived at this port Sunday afternoon, and took a berth at Philbrick's wharf.

The steamer Mystic, Capt. Trefethen, made her usual trip to the Shoals on Sunday, with a very large party of excursionists, and mails and supplies for the Appledore and Oceanic hotels.

The steam yacht Ladoga, of Newport, R. I., arrived at this port on Sunday, and tied up for a few hours at Commercial wharf, where the peculiarities of her model attracted considerable attention from nautical men. She is ninety-seven feet long and thirteen feet beam, and draws only five feet of water; she is finely finished, and is said to be not only very fast but a good sea boat. Her next port of designation was said to be Marblehead.

AROUND HOME.

Messrs. Gardner J. Greenleaf of this city, chairman, and A. J. Hoyt of Exeter, secretary of the greenback-labor committee, have issued a call for a convention of that party to be held in Manchester on the 15th of September, "for the nomination of a state and congressional ticket, to be supported at the November election, and to take such other action as may properly come before it."

We are pleased to announce the arrival in our city on Saturday last, of Mr. Joseph Wish and family, of Portland, Me., who are stopping at the residence of Mr. E. P. Carman. Mr. Wish is a printer by trade, being employed up to the present time, on the Portland *Argus*. Although his friends in this city are few, (this being his first visit here,) we do not at all doubt that when he returns to his labors he will leave many friends who will regret his departure.

It is stated that Wm. Penn Tuttle, a prominent citizen of Dover, will sue Hon. Thos. E. O. Marvin, president of the New Hampshire Society for the Prevention of Cruelty to Animals, for $250, the value of a horse killed by Mr. Marvin's order on the ground that the animal had the glanders. Tuttle had the horse's body examined next day by a veterinary surgeon from Portland, who it is alleged certifies that the animal suffered from inflammation, the result of a cold.

Residents on Deer street, near Vaughan, thought they must have lost their reckoning altogether, and got somewhere else, when on Friday morning they went into the street and could not see in either direction a single obstruction, nor a gang of men digging up the street anywhere. Saturday morning, however, they felt at home again, the gas company having commenced to dig after a seventy-foot section of pipe.

Mr. Horace Smith of Boston, a native of this city, a veteran of Co. K, 2d N. H. Reg't Vols., and about twenty years ago a member of the *Chronicle* force, has been spending a week's vacation in visiting his old friends here. He has been in charge of the imposing stones at Alfred Mudge & Son's extensive job printing office in Boston for twenty years or more.

Mr. Wm. T. Rand of Boston, son of Mr. Alexander Rand of this city, has gone to North Conway with his wife for a two weeks' vacation.

A saloon proprietor in this city recently went into insolvency, and the assignee and court officials discovered to their dismay that the assets were not sufficient to pay their fees and expenses. The court should make a rule that saloon keepers who cannot make a better showing than that should not come into the insolvent court.

"The Scientific American." Among the beautiful and interesting contents of the August number of the "Building Edition of the Scientific American," are two plates in colors, giving the perspective elevations of two different dwelling houses, each of moderate cost. The coloring is excellent, and the structures stand out with an air of reality, almost as if the buildings themselves were before the eye. Those who contemplate the erection of a home should by all means avail themselves of the many plans and suggestions given in this admirable publication. The present number contains several valuable designs for residences, with plans. Among the many beautiful engravings is an elevation of Trinity church, Boston, Mass., a noble structure, erected by the distinguished architect Mr. H. H. Richardson; a view of the new Royal Holloway college for women, lately finished at a cost of four millions of dollars, and opened by the queen; a plan for the ornamental arrangement of lawns for contiguous dwellings; engravings of the new government works on the Ohio river; illustrations of the construction of portable buildings; how to make a pantograph; designs in fretwork; new design for ornamental railings; a large sheet of details; together with many other fine engravings, and a variety of useful reading matter. We are indebted to H. B. Bagnell & Son for this interesting periodical. Price only fifteen cents. Everybody should buy it.

Three Peculiarities

Hood's Sarsaparilla, the great blood purifier and regulating medicine, is characterized by three peculiarities, namely:

1st: The combination of the various remedial agents used.

2d: The proportion in which the roots, herbs, barks, etc., are mixed.

3d: The process by which the active medicinal properties are secured.

The result is a medicine of unusual strength and curative power, which effects cures heretofore unequalled. These peculiarities belong exclusively to Hood's Sarsaparilla, and are

Unknown to Others

Hood's Sarsaparilla is prepared with the greatest skill and care, by pharmacists of education and long experience. Hence it is a medicine worthy of entire confidence. If you suffer from scrofula, salt rheum, or any disease of the blood, dyspepsia, biliousness, sick headache, or kidney and liver complaints, catarrh or rheumatism, do not fail to try

AYER'S SUGAR CATHARTIC COATED PILLS

CURE

Headache, Nausea, Dizziness, and Drowsiness. They stimulate the Stomach, Liver, and Bowels, to healthy action, assist digestion, and increase the appetite. They combine cathartic, diuretic, and tonic properties of the greatest value, are a purely vegetable compound, and may be taken with perfect safety, either by children or adults. E. L. Thomas, Framingham, Mass., writes: "For a number of years I was subject to violent Headaches, arising from a disordered condition of the stomach and bowels. About a year ago I commenced the use of Ayer's Pills, and have not had a headache since." W. P. Hannah, Gormley P. O., York Co., Ont., writes: "I have used Ayer's Pills for the last thirty years, and can safely say that I have never found their equal as a cathartic medicine. I am never without them in my house." C. D. Moore, Elgin, Ill., writes: "Indigestion, Headache, and Loss of Appetite, had so weakened and debilitated my system, that I was obliged to give up work. After being under the doctor's care for two weeks, without getting any relief, I began taking Ayer's Pills. My appetite and strength returned, and I was soon enabled to resume my work, in perfect health."

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

JOHN LAIGHTON,

NO. 1 MARKET SQUARE.

Kansas City Investment Co.

An Examiner from our Western Office makes a personal examination of every piece of Real Estate on which our Loans are based. His Report accompanies the Loan. We thus know that all statements made in the applications are correct. Loans taken in this way are perfectly secure. We offer these Loans ranging from $200 to $10,000 with every assurance that they are as safe as anything in the market.

For fuller information enquire at our Eastern Office, over 1st National Bank, Portsmouth.

SINGULAR CIRCUMSTANCE.

Mr. B. F. Richards of Newburport, a young man who for a short time has been at work in Mr. John T. Larrabee's harness shop in this city, about ten days ago while holding in his mouth a number of harness needles had one of them slip back into his throat, and was unable to avoid swallowing it. The implement is about two and one-half inches long, and blunt pointed. Aside from a very reasonable apprehension of serious consequences, Mr. Richards was not greatly inconvenienced until the middle of last week, when the previously slight and intermittent pains in his bowels became constant and acute, and there were unmistakable indications that the blunt piece of steel was making its way out through his intestines toward his left side. Saturday afternoon the pain seemed to concentrate at a point just above the hip, and on examination a small, hard lump was disclosed, which was acutely painful when pressed. The lump being opened the point of the needle was seen, and a pair of stout nippers and a steady hand soon removed it, greatly to Mr. Richards' bodily and mental relief. Had the needle been sharp pointed it would probably have effected its passage through the viscera more quickly and with much less pain to the sufferer, but Mr. Richards has had all the experience he wants in that line, and will exercise the greatest of care in the future against swallowing either blunt or sharp ones.

DIDN'T GET ANY.

The close season for lobsters is now on," having commenced on the 15th, and a young man of our acquaintance is sad as a hornet because it did not commence two days earlier. He was crossing the north millbridge about eleven o'clock Friday evening when he was hailed by one of three young men who were about landing from a boat, to "Come around; we're just going to boil some lobsters." Our friend would abandon quail on toast at any time, to get a freshly-caught lobster, hot from the boiling kettle; so he needed no second invitation, but went around to where the others were boiling their evening's catch, and stopped there chatting with them until about one o'clock A. M., when having finished the boiling the three young fellows divided up the fare and started for home, without offering the fourth man so much as a claw! The only reason he could not kick himself all the way home was because he could not get at just the right distance to make the kicks satisfactorily effective; and when he got home he peeled his lobster-baited appetite with a cup of salt fish and a cold potato.

UNITED STATES COMMISSIONER'S COURT.

SATURDAY, Aug. 14th; *Hackett Com.*

The case of George S. Leavitt, charged with embezzling certain money order books belonging to the post-office at Exeter while he was postmaster, was further heard on Saturday, (case continued from Tuesday of last week.) The respondent claimed to have a receipt for all the books, but the present postmaster having occasion to examine the old books stated that those in question were not turned over to him by his predecessor. The respondent offered neither the receipt alleged to have been given by Mr. Hunnewell on assuming the office, nor any evidence, and was ordered to recognize with sureties for his appearance at the October term of the Circuit court. Bail was at once furnished. Frink, United States attorney, for the United States; Hon. Thomas Leavitt for the defendant.

ACCIDENTS.

Mr. Stark Spinney, while assisting in erecting electric light poles last week, received an ugly jam of the big toe of one foot, and will be lame for some time in consequence. The poles as fast as put up have been painted white.

Mr. Joseph Dickerson, second mate of the steamer Pottsville, which arrived at this port Saturday, was badly hurt on Friday evening by falling a distance of ten feet, and striking on the coamings of the main hatch. The upper part of his body was badly bruised, the drum of his left ear was broken, destroying the sense of hearing on that side, and other injury to the head was feared.

A two-seated carriage belonging to Albert Drake of Foss' beach, Rye, in which were four summer visitors, was being slowly driven around the corner of Pleasant and State streets in this city about 5:30 o'clock Saturday afternoon, when one hind wheel suddenly gave out, every spoke flying out of the hub, letting the carriage fall on its side and breaking the hind axle. The gentleman in the front seat immediately began the rescue of one of the ladies, who with the other occupant of the rear seat came out of the wreck uninjured. One of the shafts was broken and the harness suffered some, but the horse was secured by a bystander before he had a chance to run away. The vehicle, which showed a "structural weakness" that would have appalled Secretary Whitney, bore the plate of Lancaster, of Merrimac. The ladies sought refuge in the *Journal* counting room, while the gentlemen gathered up the appurtenances of the team and had the horse cared for. The party were driven to their destination in a fresh carriage, obtained at a livery stable.

NAVY YARD ITEMS.

By a department order of Aug. 11th, First Lieut. M. C. Goodrell, U. S. M. C., was detached from the marine barracks at Annapolis, Md., on the 17th, and ordered to report Sept. 11th for duty at the marine barracks at the Portsmouth navy yard.

The *Army and Navy Register* of the 14th inst. said: "Tennessee, flagship, Rear Admeral S. B. Luce, Captain R. Boyd, arrived at Portsmouth, N. H., Aug. 8th, for slight repairs, made necessary by the recent accidental explosion of a practice torpedo under her bow." Nobody here had seen the Tennessee up to Saturday night, so far as we had heard.

The practice ship Constellation, with cadets from Annapolis on board, arrived at Fortress Monroe, Va., from this naval station, Aug. 13th. On the 3d inst., at sea, Cadet Schley of Indiana fell from aloft and was killed.

A SEA SIDE SINE QUA NON.

Summer sea side visitors are fickle in their tastes. "Some love to roam." They leave home to find elsewhere a contrast from domestic attractions, and to enjoy a life of change in the summer months. Tired of one place they seek pastures new, which are quickly changed to attractive settlements, to be in turn discarded for a more remote wild or undeveloped region. Newport with its prohibitory law freshly enforced, Rye with its conservative public policy, have given way to Mount Desert. This spot, where a few Bostonians not long since thought to have the island all to themselves, has come to be the fashionable and much frequented Atlantic resort, and fabulous sums of money are expended in that region of fog, east-wind and magnificent distances. Old resorts will have to become more attractive. Rye, like the ancient maiden, needs when nature's attractions fail to win admirers, to seek the aid of artificial adornments. One of the often mentioned projects which would make Rye beach attractive, would be a broad boulevard extending from Odiorne's point to Boar's Head, affording a sea view skirting the beaches, and giving the opportunity for a magnificent drive! True, the drives between Boar's Head and Portsmouth are pleasant, but they are simply over country roads, attractive to be sure, to lovers of nature, but they do not possess the features which a drive of the kind suggested would combine. Here on a fine summer day would be seen the elegant equipages from the Wentworth matching the stylish turn-outs from Little Boar's Head and the Farragut, while barges and wagonets would permit every one to obtain at once a view of the sea and of fashion on its drives. Some public project of this kind should be early inaugurated in this region; otherwise Rye will become a quiet resting place for those of advanced years, while the element of youth and beauty which controls, shapes and unmakes the tone of places of this kind, in horror exclaims, "Oh my, how stupid," and hurry away to enjoy the foggy frivolities of Mount Desert, or pushes still further east toward the land of hopeful anticipation if not of realistic enjoyment.

The Deer street intercepting sewer is finished, all the connections with minor sewers and drains having been completed last week.

Sagamore steam fire engine, No. 1, which has been undergoing extensive repairs at the Portsmouth Machine Shop, was satisfactorily tested on Saturday, and taken to her engine house.

The drouth, to-day, is harder upon vegetation and wells in this vicinity than at any time before this season.

Rev. Mr. Gooding on Sunday announced from the pulpit of the Unitarian church that hereafter both the hymns will be sung by the congregation as well as the choir, instead of only the last hymn of the service, as for several Sundays previous.

The congregation at St. John's church, Sunday forenoon, were favored by Miss Edith Wendell with an exquisitely-rendered solo during the offertory. We believe the execution of this rising young artiste is even more brilliant than when she left this city a few months ago to join the choir of a prominent church in Brooklyn, while her magnificent voice has lost nothing of its sweetness and power.

Hundreds of families in Portsmouth and vicinity attest the value of Preston's Elixir. It is certainly one of the most reliable and efficacious remedies for summer troubles ever known. Have you tried Preston's Jamaica Ginger?

EASTERN RAILROAD IN NEW HAMPSHIRE.

CLERK'S OFFICE,
PORTSMOUTH, Aug. 12th, 1886.

THE following described Certificates of Shares in the Eastern Railroad in New Hampshire having been lost, to wit: Certificate No. 1434, dated Sept. 18, 1851, for five shares, and No. 1906, dated Aug. 21, 1855, for seven shares, belonging to the estate of Otis P. Lord, late of Salem, deceased, not finding among his papers and supposed to have been lost, loaned or destroyed in some manner to the Executor of said Lord's will unknown. Also Certificate No. 3995, dated July 3, 1864, for ten shares in said Corporation, which last named was issued to and was owned by E. Q. Sylvester, and was stolen on the 14th day of June, A. D. 1882, at Hanover, Mass., when his safe was robbed. Benjamin Kimball, Executor of the will of said Otis P. Lord, and said E. Q. Sylvester having severally applied to the Treasurer to have a Certificate issued in lieu of each of those lost or destroyed as before named, this is to give public notice of said loss as required by the By-Laws of the Corporation, and all persons are hereby called upon to show cause why a new Certificate should not be issued in lieu of each of those lost, the owners of said Stock being ready to comply with the requirements of the By-Laws in such case made and provided.

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hooots near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy and safe, is the quintessence of all that is powerful and curative in medicine.

It is sure to check summer complaints, prevent indigestion, destroy disease germs in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

The Delicious Summer Medicine. tu

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress. No cramp or pain was ever made a moment upon it for relief or cure that has not met with instant response.

It is a delicious combination of Imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "ginger." pain cures and nauseating nostrums.

Unique fruit, improve water, healthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, Indigestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that beset the traveler or household at this season, are robbed to those protected by SANFORD'S GINGER.

...ed the charge with apparent unconcern. Bribery in South America, though a common vice, must not be found out.

The day was set for the hearing of the case, and the adherents of the Scotch and American companies flocked to the court room. The former wore a look of suppressed triumph, and the President of the Concern, such is the habit of the country, entered the court room smoking a cigarette. The Judge, who knew him well descended from the rostrum and requested a cigarette.

"You will find one in my outside coatpocket," he said, and the Judge obligingly helped himself to one, likewise a Bank of England note for £1,000, which he concealed in his hand and resumed his place on the bench. Judgment was given in favor of the Scotchman, but the Yankee was playing a deep game. The next day was Sunday, and when the congregation emerged from the cathedral, a printed document, recounting the facts with place, manner and all the details was placed in the hands of every person. The story was given with so much directness that the denial was impossible, but Spanish aloofness seemed equal to the task of explaining an affair as damning as this seemed to be.

"Oh, yes!" said the faithful official, "I took the money; there is no doubt about that, but it was all understood. For some time I have been soliciting contributions to our chapel. The money was given me for that and no other purpose. I shall turn it over to the Archbishop and take his receipt for it."

He did so, but it did not avail; the decree of the President removed him from the Judgeship—the American had seen the President. When the Judge found out he had lost both his position and the money, his rage knew no bounds. He even went so far as to sue the Archbishop for a commission for collecting the money, but was defeated. His decision in the mining suit was overthrown. He was disgraced, the Scotchman baffled and the American triumphant.

Perhaps the moral of this story is that bribery is a bad business; perhaps it is that you must take care to bribe the right one. It depends on how you look at it.

A newspaper in Maine quotes some reports of "deestrick school" committeemen, which read like those of half a century ago. One such is: "Miss Abrams did not allow the children to make any noise, and made but little herself, moving her pupils around as old Des Drinkwater did his oxen—by the snap of her finger." Another school "made fair progress, some scholars getting ahead of their own accord and others being dragged along. Strap oil properly applied might have helped the matter." "Birch oil" is the lubricant which "made things run smooth" at another school.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent office."

EDMUND BURKE,
late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, is your due, and advise others to employ you.

Yours truly, GEORGE DRAPER.

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite poor and your digestion worse? Do you notice brick-dust at the bottom or a scum on the top of the fluids you pass? Are these fluids scant and high colored or plentiful at others? Do you have headaches once in a while? If you have these feeling, **DO YOU KNOW WHAT THEY MEAN!** Your Kidneys are Diseased!!! It may be only the beginning, but if not taken in hand, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THESE.**

Mr. JOHN W. FURSUSH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

Mrs. ALEXANDER C. NICHOLAS, of Phenix, R. I., and a descendant of General Nathanel Greene, was so near the grave her breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape awful suffering and possibly death itself. For Sale by all Dealers.

Oil on the Waters.

A letter has been received at the hydrographic office in Washington from Captain Trant, of the steamship Venetian, which vessel recently picked up the disabled steamship Werra in midocean, and towed her into port. He says that on the evening of August 3d a strong west-northwest gale prevailed, and heavy seas were constantly breaking over the bow of the Werra, endangering the towlines and threatening the loss of the tow. Captain Trant caused an oil bag to be hung from each side of the Venetian and towed some distance astern, with the instant result of smoothing the sea about the disabled ship. The captain and officers of the Werra gathered on the forecastle, and tried to make out what the Venetian was doing to accomplish such gratifying results. The next morning signals were exchanged on the subject, the Werra reporting that after the oil bags were hung out the vessel made much better weather, not a drop of water broke on board, and the ship was in all respects more comfortable.

PARSONS'

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

Old Jones is Dead.

I sat in my window, high overhead,
And heard them say, below in the street;
"I suppose you know that old Jones is dead?"
Then the speakers passed, and I heard their feet
Heedlessly walking their onward way,
"Dead!" What more could there be to say?

But I sat and pondered what it might mean
This to be dead while the world went by;
Did Jones see farther than we have seen?
Was he one with the stars in the watching sky?
Or, down there under the growing grass,
Did he hear the feet of the daylight pass?

Were day-time and night-time as one to him now,
And grieving and hoping a tale that is told?
A kiss on his lips, or a hand on his brow,
Could he feel them under the churchyard mold,
As he surely had felt them his whole life long,
Though they passed with his youth-time, hot and strong?

They called him "Old Jones" when at last he died;
"Old Jones" he had been for many a year;
Yet his faithful memory time defied,
And dwelt in the days so distant and dear
When first he had found that love was sweet,
And racked not the speed of its hurrying feet?

Does he brood, in the long night under the sod
On the joys and sorrows he used to know;
Or far in some wonderful world of God,
Where the shining seraphs stand row on row,
Does he wake like a child at the daylight's gleam,
And know that the past was a night's short dream?

Is he dead, and a cold down there below;
Or dead and wiser than any alive;
Which? Ah! who of us all may know,
Or who can say how the dead folk thrive?
But the Summer morning is cool and sweet,
And I hear the live folk laugh in the street.

—Louise Chandler Moulton to Congregationalist.

AN IRISH ELOPEMENT.

"Arden Hill, my dear old chappie, of all others I was most anxious to see you to-day."

The speaker was rather a good-looking young fellow, who wore the cap and gown of a student of Trinity college, Dublin, and as he spoke he laid his hand familiarly on the shoulder of a friend standing at a book-stall by the college wall, and absorbed in the pages of a volume picked up haphazardly.

"Well, Dillon, what is it?"

"If think you will do me a service, which, while it will not entail a great deal of trouble on you, may help to secure my future happiness."

"Of course it goes without saying that I will. But what makes Maurice Dillon look as solemn as an undertaker at his wife's funeral?"

"This is not the place to tell you, Hill. Come across to the 'Star and Garter,' and over a chop and a glass of bitter beer you can hear the story."

Seated in a quiet corner of that snug old hostelry Mr. Dillon commenced:

"You are a Kings county man, Hill—Tullamore, I believe."

His companion nodded an affirmative, and Dillon went on:

"A dirty little hole of a town, built in a bog, isn't it? In fact, I may take it you are a bog-trotter."

"You may take it that I am a genuine bog-trotter, but, Dillon, if you please, you will cast no aspersions on my native town."

"Oh! I mean no offense, I assure you," Dillon explained, with a laugh. "But I was thinking of the saying that Charles Lever has left on record. He says that among Irish towns Tullamore is only remarkable for the surperlative ugliness of its female natives. There, now, don't get your back up. I'm willing not to believe a word of it. But tell me, am I safe in assuming that you know the country within a radius of a dozen miles of Tullamore?"

"Every inch of it; but what is this leading up to?"

"Will you have patience—two weeks ago, when you and Watkins and I saw Irving as Hamlet in the Theatre Royal, there was a lady in the dress-circle, whom Arthur Watkins had promised to see home, in company with her pa; but he found our discussion on the relative merits of Irving and Barry Sullivan so very interesting that the lady was forgotten."

"Indeed; but, anyway, Watkins is the last man in the university to allow a woman's eyes to distract his thoughts from sober studies; and now let me ask you again, what is all this leading up to? For a Trinity college man you have, I must say, a particularly lucid style in telling a story."

"Arthur Watkins' father and the father of this young lady are very anxious to make a match between them, and the young people, with proverbial perversity, are adverse to entering into any such arrangement. Watkins would regard a wife simply as a nuisance and a bore."

"And the lady?"

"The lady, I believe—or, rather, I sincerely hope, loves another."

"A very friendly aspiration, upon my soul, Dillon."

"You will scarcely blame me when I say that Lucy and I are——"

"Oh! So the cat is out of the bag, is it, Master Maurice? And with your keen appreciation of honor do you think this is a matter to boast of? You have wronged a friend who——"

"I haven't done anything of the sort, Hill, and I wish you wouldn't think it. Lucy and I knew each other—well, were fond of each other—there now—before Watkins loomed up as an unwilling rival. The friends of Watkins, you know, are wealthy, while I—but 'tis the old story. Lucy's father desires to secure a rich husband for his only child."

Hill crossed his arms on the table and looking in his friend's face said quietly: "And don't you know he's right, Maurice Dillon? Since my childhood days I do not think that any single individual ever slandered me by saying that I possessed even a moderate share of common sense, but I say to marry a girl where that marriage must necessarily entail the life of a pauper is something that only a scamp or a fool would do, and for friendship's sake I'm disposed to class you in the latter category."

"I'm not in a mood to hear a sermon from you now, Hill. Tell me, do you know a place near Tullamore called Raheenbeg?"

"About as well as I know College Green," was Hill's reply.

"Well, Raheenbeg is Lucy's home, and Watkins has an invitation to visit there this week. He is going, reluctlantly he tell me, and if he does it is easy to anticipate the result. No man, not even Arthur Watkins, can resist the charms of Lucy Damer, and should she be coerced into accepting him as a suitor, it would simply drive me to the devil."

Dillon rose from his chair, and paced the room a minute or two in silence. Then he said abruptly:

"I am going down there to-night, Hill, and I want you to come with me."

"It's two years since I have been at home, and honestly I don't care to go in that direction just now; but, anyway, how could I serve you?"

"Lucy is going to elope with me. Now, don't look so horrified, man. Her father, Parson Damer, apprehends something of the kind, and as a consequence she is as jealously guarded as a political suspect in Kilmainham. I shall tell you our plans on the way down. A grain leaves Kingsbridge at 3:30. We shall reach Geashell at 6, and if all goes well—and much depends on you—we shall catch the 7:30 up-train at the same station."

"Are you sure you are acting squarely by this young girl, Dillon? She loves you, or believes she loves you, which amounts to the same thing, I suppose. She is willing to leave home and father for your sake, and what will you give her in return? Why, you will scarcely have a shilling of your own to commence housekeeping with, and her father is reported as poor as a church-mouse."

"Don't fling any more of your infernal homilies at my head. I must have Lucy if we begged together. She is willing to take the risks, and Hill, you have promised to stand by me."

It was a cold, wet night when Dillon and his friend reached the little station where their journey by rail terminated. As they emerged from the gate they found a solitary car on the roadside and Hill at once recognized the driver.

"Hello! Mickey Leddy; a wet night, isn't it?"

"Arrash! Mr. Hill, is id yerself that's in id? Yis, glory be t' God! Id's a wet night, surely, an' I suppose ye'll have a sate home wid me."

"No, I'm not going home, Mickey, but if you're disengaged you might drive this gentleman and me over to Raheenbeg."

"Faix, an' sure I will. Jump up on the other side and I'll have ye there in a jiffy."

"How fortunate to find this car here, Hill," said Dillon, as they started down the road.

"Yes, my friend, it is wonderful what opportunities are afforded a man when he is bent on going to the devil headlong. You will drop me at the churchyard wall, Mickey. Don't you know it?"

"Do I know id, is id, Measha, sure ye haven't forgot the day we wor at the coorsin' match, whin Joe Cololle's greyound Mabel took two turns out ov the hare in Odlum's forty-acre field that's up against id. An' be the same token we had a glass of spirits aich in Nancy Kelly's sheebeen at the Meetenaus on the way home that Joe said was the best that he ever tasted, an' ye know he ought to be a judge."

Five minutes' walk from the place of rendezvous brought Hill to the residence of the Rev. Mr. Damer. A female servant admitted him to the hall, and in response to the question, was Mr. Damer at home, that gentleman made his appearance from a room in the rear of the house.

"I regret, sir," said Hill, with great gravity, "to be the bearer of unpleasant tidings. Mr. Watkins—you know Arthur Watkins, of Trinity—has met with an accident of serious nature within half a mile of your house." Before the clergyman could utter a word Hill went on with nervous rapidity, "I met him by accident at Partarlington station, and as I was driving over to Killeigh I induced him to accept a seat as far as your residence, and I fear poor Arthur is seriously hurt. Then as the vehicle is badly smashed, I came on here to seek assistance."

"This is, indeed, lamentable news; but come inside, sir, while I give directions to have my own car got ready. Barbara, you will go to Miss Damer's room and tell her I wish to speak to her."

Barbara lingered a moment at the door when her master left the room, to eye the visitor inquisitively.

He drew a note from the inner pocket of his coat, and approaching her, said: "Barbara, my dear, will you give this note to your mistress, and tell her that Mr. Dillon is waiting for her in the shadow of the churchyard wall?"

"O, may the Lord save us! Maybe it's what he wants to run away with her."

"Faith, maybe it is, my dear; but don't let that frighten you. Who knows but one of these days some likely young fellow will be running away with yourself? But had you not better give that letter to your mistress at once, and tell her, as her father will drive in an opposite direction to where her lover waits her, she will have the chance of meeting him at last."

A few minutes later Mr. Damer and his daughter entered the room. Miss Damer was scarcely pretty, and Hill was wondering at his friend's blindness until she raised her eyes to his—

Eyes too expressive to be blue,
Too lovely to be gray.

And which certainly gave a singular charm to her face.

"I have told my daughter, sir, and since we cannot start for a quarter of an hour or so, you will take some refreshments."

"Couldn't hear of it, sir," Hill said hurriedly, "I must return to my poor friend at once, and I am sure you will make all haste possible." Before the clergyman could reply Mr. Hill was out of the room, and as he descended the steps he muttered with a sigh of relief: "Heaven be thanked for this lucky escape from an ugly predicament."

At 10:30 that night Maurice Dillon, with Lucy clinging to his arm, entered the parlor of a cottage in a Dublin suburb. A gray-haird lady was reading by the fire, whom Dillon addressed as follows: "Aunt Mary, this is Lucy Damer, whom you know I have long loved. Since the powers that be were against us, we've taken the law into our own hands, and I ran away with her to-night."

Aunt Mary looked at the trembling girl for a moment, and said with calm severity: "In my younger days, Miss Damer, an Irish girl had a reputation for modesty for which her countrymen were very proud. And you, sir, an Irish gentleman, have dared to compromise the honor of this young lady by your criminal recklessness."

"I've only followed the example of an ancestor of ours, who is your own particular hero, Aunt Mary. That Capt. Maurice Dillon, who fought with Lord Clare at Fontenoy, ran away with as pure and true a girl as ever bore the name of wife."

"I'm not going to split logical straws with you, sir. You will return to your college immediately, and 'twill be a miracle if they don't expel you yet. Come over to the fire, Miss Damer, you are positively shivering with the cold, and you will give me your papa's ad-

Mayor Grace has set expert accountants to work to find out how much money Maurice B. Flynn has made out of the city. "It is estimated that he made $1,000,000 out of the department of public works while the late Hubert O. Thompson was commissioner. He has made another million since Squire came into power. He has so far drawn about $600,000 profits out of the new aqueduct, and will make $2,000,000 more unless his contracts are forfeited when he is convicted. He is head over ears in the electrical subway steal, and will easily make $1,000,000 out of that if he continues the work."

Pension Clerks' Vetoes.

A Washington correspondent says: "Since the adjournment of Congress some interesting facts have been developed touching the manner in which many of the veto messages which accompanied the return to Congress of pension bills disapproved by the President were prepared. It appears as soon as bills were introduced in Congress in behalf of claimants whose cases were rejected by the pension office, all the papers filed in the pension office were immediately turned over to a board composed of three clerks in the office, none of whom were soldiers. This board went over the papers, sitting in the room of the chief clerk for this purpose, and after making condensed briefs actually prepared the veto messages, many of which were sent by the president to Congress. In a number of cases it is reported that the vetoes were thus prepared prior to the passage of the bills. Thus there was kept on hand at the pension office ready-made vetoes to fit cases on the merits of which Congress had not acted, and when the legislative relief was received at the White House the required veto would be promptly supplied by the Pension Office Board of Review. This will, perhaps, explain the levity contained in many of the president's vetoes of the claims of deserving soldiers."

The absurd story that emanated from Washington one day last week to the effect that the presidential vetoes of private pension bills were written by pension clerks in advance of the passage of the bill was such a disgusting lie that it wouldn't float.—*Union.*

Of course. No one who reflected upon the subject would suppose that a pension clerk of any considerable experience would have compounded such crude and illegical stuff as the veto messages. It is just as well to give Mr. Cleveland the credit of his composition, though Mr. Belman of Indiana, a very competent judge by the way, says that this kind of economy is the most expensive luxury the democracy have as yet indulged in. Holman, however, delights to see every one except himself a public spendthrift. He is the only genuine reformer, while Mr. Randall is a feeble imitation.

Look Out.

Professor Foster, the meteorologist of Burlington, Iowa, on the 10th inst. announced that "one of the greatest storm periods of 1886 will begin August 16th and continue till the 27th, during which the great drought will be completely broken by heavy rains, hail and tornadoes and heavy gales. There will be a tropical hurricane on the southeast Atlantic coast between the 16th and 20th. These storms will be general, and Iowa, Illinois, the New England states, eastern Canada and Labrador will be in the danger path."

Pan-Electric Scores One.

A Washington despatch of Aug. 14th says: "The telephone flurry to-day, which caused Bell stock to drop nearly twenty points, was occasioned by the leaking out of a matter which occurred three months ago or more. This was the reinstatement in the patent office in its old place on the docket, of the caveat of Professor Gray, which action restores its priority over the Bell. The principal stockholders of the Pan-Electric company held a meeting here to-day at the office of Casey Young. It was secret, and all the parties are exceedingly close mouthed in regard to the proceedings. It was chiefly on this business that ex-Senator McDonald came to Washington."

This week the president and every member of his cabinet except Secretary Bayard, more than half the heads of bureaus, and very many of the other officials, will have left Washington for needed rest. In a republican administration this would be the cause of liberal criticism on the part of our democratic friends. As it is, only the office-seekers of that party are heard to growl at the absenteeism, which certainly in many respects is justifiable.

C. B. Howry, who was appointed United States district attorney for Mississippi by President Cleveland, shot and killed N. W. Sullivan recently. Sullivan was a highly esteemed man in Oxford county. He leaves a wife and six young children. He was a republican and a strong business man, and had accumulated quite a property. Howry was appointed from Mr. Secretary Lamar's town. The selection does not appear to have been a judicious one. Howry killed Sullivan because he dared to oppose the re-election of Judge Morgan, who obtained Howry's appointment. As killing a republican in Mississippi while in the act of exercising his rights as a citizen is not regarded by the democratic code as murder, Howry of course will not be disturbed in the enjoyment of his office, and the mugwumps can continue to chant commendations upon the purifying process of the president in his civil service reform!

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite sometimes poor and again voracious? Do you notice brick-dust at the bottom or a scum on the top of the fluids you pass? Are those fluids scant at times and plentiful at others? Do you have headaches once in a while? If you have these feeling, **DO YOU KNOW WHAT THEY MEAN?** Your Kidneys are Diseased!!! It may be only the beginning, but if not taken in time, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

Mr. JOHN W. FURNISH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

Mrs. ALEXANDER L. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathanael Greene, was so near the grave her breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not. However, Delay. Observe the first symptoms and act promptly. You will certainly escape awful suffering and possibly death itself. For Sale by all Dealers.

CURE

Headache, Nausea, Dizziness, and Drowsiness. They stimulate the Stomach, Liver, and Bowels, to healthy action, assist digestion, and increase the appetite. They combine cathartic, diuretic, and tonic properties of the greatest value, are a purely vegetable compound, and may be taken with perfect safety, either by children or adults. E. L. Thomas, Framingham, Mass., writes: "For a number of years I was subject to violent Headaches, arising from a disordered condition of the stomach and bowels. About a year ago I commenced the use of Ayer's Pills, and have not had a headache since." W. P. Hannah, Gormley P. O., York Co., Ont., writes: "I have used Ayer's Pills for the last thirty years, and can safely say that I have never found their equal as a cathartic medicine. I am never without them in my house." C. D. Moore, Elgin, Ill., writes: "Indigestion, Headache, and Loss of Appetite, had so weakened and debilitated my system, that I was obliged to give up work. After being under the doctor's care for two weeks, without getting any relief, I began taking Ayer's Pills. My appetite and strength returned, and I was soon enabled to resume my work, in perfect health."

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

CHANGE OF PROPRIETORSHIP.

The announcement is hereby made that the undersigned has this day disposed of the PORTSMOUTH DAILY CHRONICLE and the NEW HAMPSHIRE GAZETTE to MR. Daniel J. Vaughan, who will hereafter have full control and management of the same.

In retiring from a position which he has held for the past sixteen years, the subscriber would take this occasion to express to his patrons and friends his thanks for the many favors which they have extended to him, and also to express his earnest wishes for the continued success of the CHRONICLE and GAZETTE under the new management.

W. FREEMAN.

PORTSMOUTH, Aug. 16th, 1886.

POLICE COURT--BATCHELDER J.

MONDAY, Aug. 16th.

William Sullivan was before the court Saturday afternoon, on three charges of selling liquor, and one of keeping liquor for sale; he was bound over to three o'clock Monday afternoon, and lodged in jail in default of sureties, remaining there until late Sunday afternoon, when he was bailed out. On Monday afternoon he was again brought into court, and *nol. pros.* entered in each case.

BASE BALL.

A very interesting game of base ball was played at Marshall's field, York, Me., on Thursday, the 12th inst., between the York Beach and York Harbor nines. On account of darkness the game was called in the ninth inning, leaving it a draw. The features were the batting of Burleigh of the Beach nine, and the one-hand catch of Winthrop of the Harbor nine. The score by innings:

	1	2	3	4	5	6	7	8	9	
York Beach	3	2	2	3	3	1	0	0	—	14
York Harbor	1	4	0	5	2	0	1	1	—	14

The Puritan base ball club of Boston won a game from the York Harbor nine on Saturday, the 14th, by a score of thirteen to ten. Snow, pitcher, did good work for the Harbor nine for two innings, but after that was batted freely; while Gaston, for the Puritans, pitched an excellent game after the first inning. Both Miller and Nichols did good work behind the bat. Mr. Hill of the Donnell house, York beach, acted as umpire very satisfactorily. The score:

	1	2	3	4	5	6	7	8	9	
Puritans	0	0	0	1	4	0	0	6	2	—13
York Harbors	6	0	1	1	0	1	1	0	0	—10

The Portsmouth base ball club will play their second game with the Dovers at the C. T. A. picnic, at Pinkham's grove, Dover point, on Monday next. A cash prize of $15 is offered by the society.

PRIZE FIGHT IN ELIOT.

A despatch of Saturday from Dover announced the arrival in that city of a large number of "sporting men," alias roughs, from Boston and Lawrence, Mass., Biddeford and Portland, Me., and other places, to witness a proposed bare-knuckle prize fight between "Denny" Healey of Lawrence and "Jimmy" Gallagher of Boston, for a purse of $250 and a division of the "gate money." City Marshal Fogerty of Dover took extra measures to see that the ruffianly affair did not occur within his jurisdiction, and word was given out in the evening that it would take place in Berwick, Me., across the river from Great Falls, Sunday morning at sunrise. This was done to deceive the York county sheriff and deputies, who were on the lookout for the fighters. It is said that the gang of ruffians also voted that should the sheriff and police officers surprise the party nobody should run, and that all should resist any attempt at arrest.

The fight took place at five o'clock Sunday morning in Eliot near the end of the Dover bridge, in an enclosure twenty-five by fifteen feet. "Ted" Timony, formerly of Biddeford, was referee; John Scanlan of Dover was second for Healy, and Jim Kelly of Lawrence for Gallagher. Five rounds, of three minutes each, were fought, at the end of which Healy was unable to continue, and the stakes and $104 of gate money were handed over to Gallagher.

MARITIME NOTES.

Two British vessels arrived in the lower harbor on Saturday—the barkentine Magnolia, Forrest master, from Caplin river, Bay Chaleur, with 9,000 ties to the Boston & Maine railroad, and the schooner Elizabeth Ann, Decost master, also from Bay Cheleur with 4,000 ties to the same.

The four-masted schooner Agnes Manning on Monday commenced discharging, at the new extension of the Concord railroad wharf, the largest cargo of coal ever brought in here by a sailing vessel, 1892 tons. This is a new vessel, built at Bath, Me., and hailing from Perth Amboy; is 175 feet long on the keel, thirty-eight feet beam, and seventeen feet four inches depth of hold; and draws seventeen feet of water forward and aft, when loaded. Her centreboard, 26 1-2 feet long and seventeen feet deep, is hoisted by steam, which can also be used for getting the anchors and hoisting the sails. Her standing rigging is all iron, and instead of being set up with dead-eyes and rope lanyards is set up with nuts and a long wrench, the necessary "give" being secured by a thick "bumpkin" of rubber to each shroud and stay. But the most remarkable thing about her is the size of her crew, she carrying but nine men all told.

AROUND HOME.

Mr. John S. Broderick of Boston, accompanied by his wife, is spending a brief vacation at the home of his parents in this city.

The reports of the receiver of the Portland & Ogdensburg railroad for the first and second quarters of the current year were filed in the office of the clerk of the United States Circuit court in this city on Saturday. The receipts for April, May and June were $167,537.34; payments, including interest on bonds, etc., $162,-899.77; balance, $4,657.77.

The clothing manufacture heretofore conducted by Mr. Staples in the Association building on State street, where the first floor was occupied by girls at work on men's and boys' clothing, has been given up at this place, and is now carried on at Eliot, where the work can be obtained cheaper by being distributed about the town than if done in a city establishment. The prices of city made goods, which are more uniform in their production than those of country make, are higher than those made "at home," but the average female bread-winner wanted a higher rate of pay than was afforded by Mr. Staples' employers. The overall manufacturing in the third story of the building seems to be in a flourishing condition.

Miss Rose Milmine of New York was on Saturday last presented by O. L. Frisbee, on behalf of the Oceanic, with a very fine pearl and gold opera glass, suitably inscribed, for having caught the largest fish ever taken by any guest at the Isles of Shoals—a halibut weighing 111 1-2 pounds.

Three of the floors of the new malt house at Jones' brewery have been relaid with a new floor of 11-2 inches of concrete. The work was done by Mr. Charles Locke, and is a first class job in every respect.

The water is lower in the aqueduct logs than at any previous time since a year ago last spring.

Mr. J. Albert Walker of this city has been elected a member of the New York Wholesale Coal Exchange.

Mr. Charles Davis, son of Lewis G. Davis, Esq., of this city, and a graduate of Bowdoin college, class of '86, has been elected instructor in natural science at the high school of Hyde Park, Ill., a position for which there were thirteen applicants. Hyde Park is a suburb of Chicago.

The Dover cricket club will play the Portsmouth club on the grounds of the latter near Frenchman's lane, on Saturday, Aug. 28th, game to commence at two o'clock P. M.

The passenger train due in this city about three o'clock Monday afternoon was some two hours late, the delay being caused by a derailed freight train at Ipswich.

The Boston papers of Monday evening report that Mr. Samuel D. Lane of North Hampton was in Cambridge, Mass., that day, and made a statement to the chief of police giving strong color to the suspicion that Mr. Sleeper, who owned a house in which Mrs. Robinson, the alleged wholesale poisoner, resided in Cambridge some time ago, and who died quite suddenly under suspicious circumstances, was another of her victims. Mr. Sleeper was a native of Rye, near the North Hampton line, and he and Mr. Lane were boy playmates and lifelong friends.

The Oceanic hotel, at Star Island, is full. A whale-boat race takes place there to-day.

Circulars containing the recent order of the president to holders of office under the federal government, that they must not engage in political warfare,—no, not they,—were received recently by several office-holders in this state, perhaps since the Boston *Record* called the attention of the president to the way his orders were disregarded during the municipal election in this city. The order does not prohibit an incumbent of an office from being an offensive or defensive partisan in a newspaper warfare, and consequently we infer that our respected cotemporary who so ably fends off the blows from three opposition newspapers in our city, will continue to do business at the old stand the same as ever. We should regret to see it otherwise.

John Tobscott, alias John Terrio, of Great Falls, hired a team of Zamanda Garland at Pittsfield, and did not return it. He traded the horse with Frank Bradley, who lives in the edge of Dover, for a much inferior animal, receiving $25 to boot, and disposed of the buggy and harness at York Corner, Me. He was arrested in this city one day last week, and taken to Pittsfield to answer. Tobscott was employed at Martin, French & Co.'s shoe shop in Dover last June, and after working half a day he skipped the town, taking with him a coat and vest valued at $30, the property of his room mate, John Frasier, having pawned his own.

The eighty-foot sea serpent which has been making a show of himself at Pigeon Cove and other places on Cape Ann, does well to keep clear of the Isles of Shoals; were he to appear at the latter place some of the young lady guests would catch him and put him on exhibition on the wharf.

George Bragdon, who died in Lowell, Mass., Aug. 15th, was born in York, Me., in the year 1800, and went to Lowell about sixty years ago, where he was employed for many years as overseer in the bleachery department of the Merrimack mills. From this position he retired some years ago, and since that time has been actively connected with the Appleton bank, American Bolt company and other industries, as a director. Mr. Bragdon served in both branches of the city government, and represented Lowell in the Massachusetts legislature of 1845. He was a member of the Masonic fraternity, and also of the Old Residents' Association. He was unmarried.

TO MEMBERS OF THE COMMITTEE.

PORTSMOUTH, N. H., Aug. 14th.

There will be a meeting of the Finance Committee, Soldiers' and Sailors' Monument, at the city rooms on Wednesday evening, August 18th, at 7:30 o'clock. You are urgently requested to attend and report full progress to date.

HARMLESS WITH SANFORD'S GINGER.

The cold cred brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy and safe, is the quintessence of all that is preventive and curative in medicine.

It is sure to check disorder, prevent fever, arrest indigestion, destroy disease germs in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

Sanford's Ginger,

The Delicious Summer Medicine. tsi

GLADSTONE--PARNELL AND THE GREAT IRISH STRUGGLE

By the *eminent author*, HON. T. P. O'CONNOR, *M. P. for Liverpo l*, and R. M. MCWADE, Esq., Endorsed by HON. C. S. PARNELL. *A thrilling* history of *Irish oppression* and the *mighty struggle for Home Rule that is reaching the British Empire to its centre*; also Biographies of the leaders. *An entirely new work from high authority, of all-absorbing* interest, *richly illustrated*, and in **immense demand.** Apply quickly to HUBBARD BROS., Pubs., 16 Federal St., Boston, Mass.

A Friend in Need.

With what alacrity SANFORD'S GINGER responds to the cry of distress. No cramp or pain has ever made a demand upon it for relief or cure that has not met with instant response.

It is a delicious combination of the Imported Ginger, Choice Aromatics, and French Brandy, totally unlike and vastly superior to all other "gingers," pain cures and nauseating nostrums.

Unripe fruit, impure water, unhealthy climate, unwholesome food, Malaria, Epidemic and Contagious diseases, Cholera Morbus, Cramps, Pains, In ligestion, Colds, Chills, Simple Fevers, Exhaustion, Nervousness and Loss of Sleep, that beset the traveler or household at this season, are nothing to those protected by SANFORD'S GINGER.

Avoid cheap and dangerous imitations sold to be "the same," or "as good," as there is none.

dress. I shall telegraph to him in the morning."

"Oh! Miss Dillon, please."

"Yes, Aunt Mary is right, as she always is. I shall go into town, of course, and don't cry, Lucy. Aunt Mary will be very kind to you, for didn't I tell you on our way up that she's a thousand bricks?"

"Young man, how often have I told you not to use slang in my presence?"

And by way of answer he threw his arms around her neck and gave her a resounding kiss; but it was almost timidly he took Lucy's hand in his to say good night, although he looked yearningly into the eyes that long ago had made him captive. Perhaps Aunt Mary saw that yearning glance and the look of love that answered it. I only know that as her nephew left the room she said in gentle tones: "Miss Damer, that careless boy always leaves the hall door open. Will you kindly close it after him?"

Which of my fair readers has not already arrived at the conclusion that Maurice and Lucy were married? He is now a physician of respectable practice in a country town, and in Lucy's home and his there is a little toddler who has learned to love the gentle, gray-haired lady who often visits that happy home, and who, he would tell you, is his own Aunt Mary.

A. Bordeaux journal describes the dinner usually provided for workmen in that city. A large plate of vegetable soup costs 2 cents; a large piece of bread 2 cents; a large plate of red haricot beans costs 2 cents; half a plate of roast veal (the quantity being ample for an ordinary man) costs 4 cents; a plate of rice 1 cent, and half a bottle of vin ordinaire costs 4 cents; so it will be seen a fair dinner was provided, with half a bottle of wine included, for 15 cents. What can be made a successful business in France, where almost every article of diet is taxed, can surely be made to pay here, where food and meat are cheaper.

One of the strangest communities in the world lives on the Island of Redonda, which is one of the British West Indies, between Nevis and Montserrat. It is volcanic and barren, and contains no vegetation, but has extensive mines of phosphate of alumina and iron. About fifty men work in these mines they being the only persons on the Island with the exception of the foreman's wife. Their provisions have to be brought from Nevis and Montserrat in small boats. The men live in small, wooden huts built for the purpose. The climate of Redonda is beautiful and healthful, and the workmen enjoy perfect health. The harbor is excellent and well protected, the highest point on the island being 1,000 feet above the level of the sea.

The greatest length of Lake Michigan is 300 miles; its greatest breadth, 108 miles; mean depth, 600 feet; elevation, 506 feet; area, 25,000 square miles.

The International Yacht Race.

Ex-Commodore Smith, chairman of the America's cup committee, announces that the trial races for the selection of yacht to sail against the Galatea in the contest for the America's cup will take place as follows:

Saturday, August 21st, at ten o'clock A. M., over the New York Yacht Club inside course.

Monday, August 23d, at 10:30 A. M., twenty miles to windward, (or leeward,) outside.

Wednesday, August 25th, at 10:30 A. M., on triangular course outside.

The may possibly be other races, should the committee deem it necessary. The race will be open to all sloop yachts exceeding eighty feet on the water line. Entries will be received by the committee up to Friday, August 20th, at three o'clock P. M. Special instructions will be given on the morning preceding each race.

The international races with the Galatea will be three in number, as follows:

September 7th, over the New York Yacht Club course.

September 9th, twenty miles to windward, (or leeward,) outside.

September 11th, over the triangular course, outside.

Concord reported a wholesale elopement on Thursday of last week, the wife of Hiram T. Dickerman running away from her husband and a daughter eight years old, in company with George W. Blake, a freight conductor on the Concord railroad, who left a wife behind; and the wife of Alpheus M. Dickerman running away from her husband and three girls, aged ten, six and four years respectively, in company with George L. Maxam, a livery stable keeper, who left a wife and young son. The deserted husbands are respectable men, Hiram being a painter in the Northern railroad shops, and his brother Alpheus engineer in Holt Brothers' extensive manufactory. Maxam and Blake raised all the money they could before starting. A later report announced the return to her husband of Mrs. H. T. Dickerman, on Sunday.

BENTON'S HAIR GROWER.

All who are BALD, all who are becoming BALD, all who do not want to be BALD, all who are troubled with DANDRUFF, or ITCHING of the scalp; should use Benton's Hair Grower. EIGHTY PER CENT of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of Hair on those who have been bald and glazed for years, we have fully substantiated the following facts:

We grow Hair in 80 cases out of 100, no matter how long bald.

Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a specific for falling hair, dandruff, and itching of the scalp.

The Hair Grower is a hair food, and its composition is almost exactly like the oil which supplies the hair with its vitality.

DOUBLE AND TRIPLE STRENGTH.

When the skin is very tough and hard, and the follicle is apparently effectually closed, the single strength will sometimes fail to reach the papilla; in such cases the double or triple strength should be used in connection with the single, using them alternately.

Price, Single strength $1.00; Double strength $2.00; Triple strength $3.00. If your druggists have not got it we will send it prepaid on receipt of price. BENTON HAIR GROWER CO., Cleveland, O.

SCHLOTTERBECK'S

CORN, WART AND BUNION SOLVENT

A CURE IS GUARANTEED.

A Healthy Body and a Clear Head.

If indigestion, constipation and biliousness torment the body, the head cannot be clear. These disorders react upon the brain most hurtfully, and produce a cloudiness in the organ of thought not experienced by a healthy man. Happily these brain-oppressing maladies may be entirely dispelled by that peerless alterative, Hostetter's Stomach Bitters, which cheers, refreshes and invigorates the brain and nerves, while it regulates the organs of digestion, assimilation and bilious secretion. It expels the morbid humors which poison the system through the bowels and the urinary passages, and exerts a powerful invigorating influence as well. Its cathartic action is never irritating, violent or painful, but even, natural and progressive. As an appetizer and sleep promoter, the Bitters is unrivalled; it mitigates the infirmities of age, relives the ailments peculiar to the gentler sex, arrests premature decay, and builds up an enfeebled physique.

An attempt was made early Sunday morning to assassinate J. F. Tufts, assistant attorney general for Atchison county, Kansas. Tufts was recently appointed to office for the express purpose of prosecuting saloon keepers under the prohibitory law. Sunday a keg containing twenty-five pounds of powder mixed with nails was exploded on the porch beneath his bedroom. The house was badly shattered, but no one was hurt.

Constipation, the curse of our sedentary life, dyspepsia, our national disease, and rheumatism, which comes from acid stomach and from the sudden changes in our climate, are quickly cured by taking one or two Brandreth's Pills every night for a month. Persons are now living, enjoying most vigorous health, who have taken one of these Pills a night for over thirty years. Chronic diseases are cured by taking from one to four of Brandreth's Pills every night for a month. They purge away all old diseased body. This you replace with new and healthy flesh prepared by an invigorated digestion from simple, healthful food.

The Dominion live stock inspector has notified the department of agriculture at Ottawa that 370 blooded cattle from Scotland are quarantined at Quebec, afflicted with pleuro pneumonia. Orders will be given for the slaughter of the entire herd. They will be cremated. The herd is valued at $300,000.

Never out of place: Hop Plasters for sudden pains, weaknesses and strains. Always sure. 25c.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker House, Boston.

A spring from which flows petroleum of fine quality has been discovered at Terrand, in France. This is the first petroleum discovery that has been made in France.

Young, old, and middle aged, all experience the wonderfully beneficial effects of Ayer's Sarsaparilla. Young children, suffering from sore eyes, sore ears, scald head, or with any scrofulous taint, become healthy and strong by the use of this medicine. Six bottles, $5.

Hanlan rowed three miles in nineteen minutes and twenty-three seconds at Worcester, Mass., last week, beating the record. It is announced that Hanlan and Courtney have made a match to row on the 28th inst., for $3000.

There are many forms of nervous debility in men which yield to the use of Carter's Iron Pills. Those who are troubled with nervous weakness, night sweats, etc., should try them.

George Hickson was nearly hanged to death at Chester, Vt., by two drunken friends, one of whom was trying to explain to the other the Irish method of hanging.

Relief from sick headache, drowsiness, nausea, dizziness, pain in the side, &c., guaranteed to those using Carter's Little Liver Pills. These complaints are nearly always caused by torpid liver and constipated bowels. Restore these organs to their proper functions and the trouble ceases. Carter's Little Liver Pills will do this every time. One pill is a dose. Forty in a vial. Price 25 cents.

Miss Nellie Barry was drowned in Congamond lake, New Haven, Conn., Aug. 14th, by the capsizing of a row boat.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites.

For Wasting Diseases of Children,

Where the digestive powers are feeble and the ordinary food does not seem to nourish the child, this acts both as food and medicine, giving strength and flesh at once, and is almost as palatable as milk. Take no other.

Assistant Postmaster A. W. Armistead committed suicide at Danville, Pa., on Sunday. Accounts all right. He was a prominent Odd Fellow.

At Albany, N. Y., Saturday night, Michael Creed murdered his wife.

PARSONS'

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

Spoken in Anger.

"Twas but a little word in anger spoken,
While proud eyes flashed through bitter, burning tears;
But, oh, I felt that fatal word had broken
The chord of love that bound our hearts for years.
Thy tortured face, that long, wild look of sorrow,
Like some pale ghost, must haunt me while I live;
And yet how bright, how full of joy the morrow,
Had I but breathed one simple word—"Forgive!"

I did not hear thy tender voice appealing,
Nor marked thy anguish when I cried "Depart!"
Too blind to see thy pitying glance, revealing
The generous promptings of thy noble heart.
How could I know that faithful heart was yearning,
Though crushed and wounded to its inmost core,
To take me back, like weary bird returning
In fear and trembling, when the storm is o'er.

"Remember, love, that it may be forever;
To see my face no more by night or day.
Be calm, rash heart, think well before we sever.
Recall the angry word and bid me stay."
Dead silence fell; the song-birds hushed their singing,
"Enough," I proudly cried, "I choose my fate."
While ever through my maddened brain kept ringing
The death-knell of my love—too late, too late!

"Forgive, forgive! I wailed, the wild tears streaming,
As 'mid the moaning trees, I stood alone;
"Love, let thy kisses wake me from my dreaming."
Thy pleading voice, thy tortured face, was gone.
That angry word, I may recall it never;
For o'er thy narrow grave, rank weeds have grown.
"Remember, love, that it may be forever."
Ah, words prophetic! love, had I but known!

My locks are gray, my eyes are dim with weeping.
The face once loved by thee, no longer fair;
Beneath the daisies thou art calmly sleeping;
There a lone woman often kneels in prayer.
Ah, sweetheart mine, thou art so lowly lying,
Thou canst not hear the tearful voice above,
That with the night-wind ever more is sighing;
"I spoke in anger! Oh, forgive me, love!"

AUNT SARAH'S PLOT.

"'A merry peal of bells from the church tower greeted them as they entered the carriage and drove off, followed by hearty cheers and a shower of rice from the assembled villagers, as they started on their journey through life together,'" read Silvia Gray, closing her book with a petulent snap as she quoted the concluding sentence. "How namby-pamby and ridiculous it sounds! They all seem to end the same way. If ever I get married I should prefer a change of some sort to the conventional way. I think I should like to elope."

"To—what?" said Jack Leonard, who had been leaning against the trunk of the nearest tree, waiting for some visible sign or token of Silvia's notice.

"To elope!" repeated Silvia with a little frown; "like Lady Geralda Fitz Gerald in this book. Not the heroine, you know. Oh, dear no! she's quite too intensely proper, but one of her friends."

"What did she elope for?" asked honest Jack. "Why didn't she get married like other girls, with the regular lot of bridesmaids, and wedding presents, and all that sort of thing?"

"Jack, what a goose you are," said Silvia, serenely scornful.

"Yes, I know I'm a goose," admitted Jack; "but—"

"There you stand," said Silvia, arching her pretty, scornful brows, "a great, overgrown masher, puffing away just like a modern villain on the stage—,"

"I won't smoke if you don't like it, Silvia," said Jack, guiltily throwing away his cigarette.

"Like it! What difference does it make whether I like it or not?" flashed out Silvia. "Smoke if you please—it's only a part of your character—and go on asking ridiculous questions. Do!"

"I was going to say, Silvia," pursued Jack, mildly accepting her shower of peppery words as a matter of course, "that if you preferred eloping to the regular thing, I'd elope with you any time."

"You!" cried Silvia, bursting into a merry peal of mocking laughter.

"Yes, I," said Jack. "Why not? I'm sure I love you, Silvia, just as much as the hero loved Lady What's-her-name Fitz-what-do-you-call-her in the story. And if you'd only marry me, Silvia, I shouldn't care if it were an elopement or a regular church affair with carriages and cards."

"Jack, leave off talking nonsense, and go along," said Silvia, peremptorily.

"Dear Silvia, won't you say that you will marry me?" he humbly pleaded.

"No!" cried the little beauty, stamping her foot. "I won't marry you, and I've told you a thousand times before. And if you ever dare to ask me the question again, I'll—I'll never speak to you as long as I live."

So Silvia went away, her pretty head erect in the air, her hazel eyes sparkling with displeasure. And Jack looked after her like a big, loving, wretched Newfoundland dog of a man as he was.

"She's such a little darling," he mused sadly. "And I'd give the world for one of her sweet looks; but somehow I don't seem to suit her, let me say or do what I will."

And Jack went home to his maiden aunt, a jolly old lady with a fortune to leave, who was a great reader, and hugely interested in love affairs of every kind and description, and told all his troubles to this affectionate old confidante.

"She's an angel, Aunt Sarah!" he declared.

"Pooh! pooh!" said Aunt Sarah. "No more an angel than I am. I've seen her. A pretty, sunburned little thing, with a pair of sparkling eyes, and something of a lisp. So you like her, do you?"

I *love* her ma'am!" declared Jack fervently.

"And you'd like to marry her?"

"I shall be wretched for ever if I cannot win her," he protested.

"Very well," said Aunt Sarah. "I

The pain and misery suffered by those who are afflicted with dyspepsia are indescribable. The distress of the body is equalled or surpassed by the confusion and tortures of the mind, thus making its victims suffer double affliction. The relief which is given by Hood's Sarsaparilla has caused thousands to be thankful for this great medicine. It dispels the causes of dyspepsia, and tones up the digestive organs. Try Hood's Sarsaparilla.

The Portsmouth Literary Club, numbering more than twenty ladies and gentlemen, took supper at the Pochahontas house Saturday evening, going down on the regular four o'clock trip of the steamer James Sampson, and returning by a special boat at nine o'clock. The Pochahontas proves an excellent point for trips of this kind, as the trip on the water is of just the right length for pleasure, and visitors to the house are most cordially greeted and hospitably entertained. A glance at the register shows that visitors from this city are numerous.—*Times.*

A New Programme.

The democrats are intending to use every means to obtain a majority in the United States senate. The plan is to employ men to act as prohibitionists, and to supply them with funds with which to obtain nominations and election to the legislature in certain states, with the bargain that they are to vote for the democratic candidate for senator, and in turn be rewarded with post-office or other appointments as may be agreed upon. If the liquor element finds itself voting for prohibition candidates it will understand the reason. The end will justify the means.

Another Big "Irregularity."

William Gray, Jr., treasurer of the Atlantic mills of Lawrence, Mass., on Saturday last handed to the directors of the corporation his resignation, which the had demanded on discovering gross irregularities in his accounts, said to amount to $250,000. He sailed from Hull late in the afternoon on Saturday, in his cutter yacht, the Huron, for a destination unknown.

Mr. Gray was also treasurer of the Indian Orchard mills of Springfield, Mass., and the Ocean mills of Newburyport, but no report was made on Saturday of any trouble in their affairs. The Ocean mills were last week sold to the Chicopee Falls & Newmarket Manufacturing Co.

Mr. Gray has long been prominent in business and social circles of Boston; he has a fine estate on Howard avenue, Mt. Pleasant, has been a prominent member of the Somerset club, and his cutter yacht Huron is one of the famous boats of the country. He married a Miss Simmons, a most estimable lady, by whom he has had twelve children, all of whom are living. He is a grandson of the famous "Billy" Gray, who was a leading merchant and shipowner of Boston early in the century.

Celestial Sports.

A grand cockroach tournament, conducted by Chinamen, has just closed at Chicago, Ill. Fifty trained fighting cockroaches, with their backers, visited Chicago from San Francisco, and won several thousand dollars from local Chinamen, the Chicago cockroaches being no kind of a match for the Pacific coasters. The San Francisco champions went on to New York to fight.

AFFAIRS IN KITTERY.

KITTERY, ME., Aug. 16th.

William M. Sanborn of South Berwick was in town Sunday. Mrs. Sanborn and children have been visiting the past week at her old home in North Kittery.

The examination of candidates for admission to the free high school will take place in the school room on Thursday, Aug. 19th, at two o'clock P. M. Examination of teachers at the same time.

The project of a teachers' institute is being agitated by several of our teachers, to be held some time in September, and continue two days.

The Rice public library is closed until September.

Mr. James D. Plaisted of North Kittery has received the contract to furnish forty tons of hay and ten tons of straw for use at the navy yard.

Miss Lolo Hersey of Montreal, Canada, is visiting at Mr. Albert H. Gerry's in North Kittery.

Mr. William L. Fernald of North Kittery, late principal of the North Conway high school, has been engaged to teach the fall and winter term of school in district No. 7, the Austin school.

The grove meeting held at four o'clock Sunday afternoon near Mrs. Eunice Young's at the Lower Foreside, was very largely attended. Rev. T. S. Scott, pastor of the 2d Presbyterian church of Knoxville, Tenn., and a Mrs. Cass of Chicago, were present and took prominent parts in the services.

Mr. H. S. Ives, a graduate of the Christian seminary at Stamfordville, N. Y., who has been supplying the 1st Christian church at Kittery Point several months past, was examined by a council of ministers on Thursday, the 12th inst., and will be ordained as pastor of the church on Thursday, Sept. 2d.

The children and teachers of the 2d Christian Sabbath school will picnic in Government grove on Wednesday, the 18th inst., going via the steamer Mystic.

The crop of barberries promises to be large on navy yard island this season, and we hear it rumored that as election is near a large force of men will soon be taken on to pick this indispensable fruit; but we opine that the average democrat is sour enough already, without eating barberries.

Miss Lulu Morse and Miss Mabel Wentworth are taking a short vacation at Old Orchard.

Carpenter Henry Philbrick, U. S. N., is visiting relatives at the Foreside.

Mrs. Fannie R. Kiernan of Alliston, Mass., is visiting her parents, Dr. Edward S. Appleton and wife of the Foreside.

Mr. Geo. Manent, the retiring W. C. T. of Whipple Lodge of Good Templars at the Foreside, was presented with an elegant easy chair by the members on Wednesday evening last. Lodge Deputy M. C. Fernald made the presentaton speech, which was responded to by Mr. Manent in his most pleasing strain.

Without question Bartholomew Gosnold landed at several points on the coast of Maine as early as 1606; and now it is claimed that, seeking shelter from a storm, and also owing in part to sickness among his crew, he once ran up Spruce creek as far as Lobster point. Smoke from Indian wigwams gladdened their hearts, and in a few hours a canoe load of natives were alongside, among them being a medicine man who gave them to understand that by following him they would find a sure remedy for scurvy. Gosnold and two of his officers followed the medicine man to his lodge, which was on the sightly eminence now occupied by No. 4 school house, where they found in abundance juniper berries, and took to the ship a large quantity,—enough for themselves, their uncles, their cousins and their aunts. Prominent parties are considering the feasibility of erecting a hotel in this locality, thinking this ancient tradition would be a strong attraction to draw visitors from all parts of the Union; and now the only barrier to success is the need of a road from Remick's corner via Lobster point, connecting with Jefferson T. Lewis' road. These parties need have no fears, for the generosity of the town has been fully exemplified the past year by voting to build a road where a much smaller number of our town people will be accommodated. Hotel Gosnold will give an impetus to business in that section that will raise them above the need of asking for a few solitary dollars to help educate their children; and possibly some enterprising person may buy the juniper grown lands of this region and build an iron bridge and present it to the town, then the children of the remote districts could take advantage of the Free High school. SUB ROSA.

By the upsetting of a boat on the lake at Chesterfield, N. H., on the 17th inst., Charles Bowers and Minnie Walker of Amherst, Mass., were drowned. Nine other persons in the boat were saved.

General Sedgwick, of New York, is to go to Mexico by request of Secretary Bayard, to secure more complete information about the Cutting case.

100 Doses

One Dollar. Hood's Sarsaparilla is the only medicine of which this can be truly said; and it is an unanswerable argument as to the strength and positive *economy* of this great medicine. Hood's Sarsaparilla is made of roots, herbs, barks, etc., long and favorably known for their power in purifying the blood; and in combination, proportion, and process, Hood's Sarsaparilla is *peculiar to itself.*

"For economy and comfort we use Hood's Sarsaparilla." MRS. C. BARWSTER, Buffalo.

"Hood's Sarsaparilla takes *less time and quantity* to show its effect than any other preparation I ever heard of. I would not be without it in the house." MRS. C. A. M. HUBBARD, North Chill, N. Y. 100 *Doses*

One Dollar

Hood's Sarsaparilla cures scrofula, salt rheum, all humors, boils, pimples, general debility, dyspepsia, biliousness, sick headache, catarrh, rheumatism, kidney and liver complaints, and all affections caused by impure blood or low condition of the system. Try it.

"I was severely afflicted with scrofula, and for over a year had two running sores on my neck. I took five bottles of Hood's Sarsaparilla, and consider myself entirely cured." C. E. LOVEJOY, Lowell, Mass.

"Hood's Sarsaparilla did me an immense amount of good. My whole system has been built up and strengthened, my digestion improved, and my head relieved of the bad feeling. I consider it the best medicine I have ever used, and should not know how to do without it." MARY L. PERLE, Salem, Mass.

AYER'S SUGAR CATHARTIC COATED PILLS

CURE

Headache, Nausea, Dizziness, and Drowsiness. They stimulate the Stomach, Liver, and Bowels, to healthy action, assist digestion, and increase the appetite. They combine cathartic, diuretic, and tonic properties of the greatest value, are a purely vegetable compound, and may be taken with perfect safety, either by children or adults. E. L. Thomas, Framingham, Mass., writes: "For a number of years I was subject to Violent Headaches, arising from an disordered condition of the stomach and bowels. About a year ago I commenced the use of Ayer's Pills, and have not had a headache since." W. P. Hannah, Gormley P. O., York Co., Ont., writes: "I have used Ayer's Pills for the last thirty years, and can safely say that I have never found their equals as a cathartic medicine. I am never without them in my house." C. D. Moore, Elgin, Ill., writes: "Indigestion, Headache, and Loss of Appetite, had so weakened and debilitated my system, that I was obliged to give up work. After being under the doctor's care for two weeks, without getting any relief, I began taking Ayer's Pills. My appetite and strength returned, and I was soon enabled to resume my work, in perfect health."

Ayer's Pills,

FINANCIAL.

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

JOHN LAIGHTON,
NO. 1 MARKET SQUARE.

Kansas City Investment Co.

An Examiner from our Western Office makes a personal examination of every piece of Real Estate on which our Loans are based. His Report accompanies the Loan. We thus know that all statements made in the applications are correct. Loans taken in this way are perfectly secure. We offer these Loans ranging from $200 to $10,000 with every assurance that they are as safe as anything in the market.

For fuller information enquire at our Eastern Office, over 1st National Bank, Portsmouth.

TO MEMBERS OF THE COMMITTEE.

PORTSMOUTH, N. H., Aug. 14th.

There will be a meeting of the Finance Committee, Soldiers' and Sailors' Monument, at the city rooms on Wednesday evening, August 18th, at 7:30 o'clock. You are urgently requested to attend and report full progress to date.

C. M. GIGNOUX, Chairman.

THE FEAST OF THE INCONSOLABLE.

In the dining hall of the Rockingham house is a spot known as the "Widowers' table." Here congregate for their daily food, husbands who, while their spouses are drinking in the invigorating mountain air, are compelled to remain at home during the heated term, and toil for the meat that perisheth. Nothing but the appetitive menu of the Rockingham could induce these mourning benedicts to partake of sufficient food to keep them in condition for their duties at home, so saddened are they at the absence of the loved ones. But most of these temporarily bereaved, manage to report at the usual hours of repast.

CHEAP EXCURSIONS.

The Boston & Maine railroad advertises an excursion to Old Orchard beach and return on Friday, Aug. 20th, by a special train leaving this city at 9:10 o'clock A. M., and starting on the return at 4:30 P. M., allowing a stop of about 5 1-2 hours at the beach. Round trip tickets from Hampton Falls, Hampton, North Hampton and Greenland, $1.50 each; from this city, Kittery and Eliot, $1.25 each.

A special train will be run from this city to North Berwick, Me., by way of Dover and Great Falls, next Wednesday, Aug. 25th, leaving the Portsmouth station at one o'clock P. M., to take all who wish to hear Hon. James G. Blaine of Maine and Hon. William Gibson of Ohio speak on the political issues of the day. The price of tickets, for the round trip from this city will be seventy-five cents.

POLICE COURT--BATCHELDER J.

TUESDAY, Aug. 17th.

Joseph Loedel, a Bavarian, was arraigned on a charge of threatening to kill a fellow countryman named Frank Knoedler, and was bound over on his personal recognizance in the sum of $200, to keep the peace for three months. Both the men are employed in the breweries, and the alleged threat was made during a quarrel at Wallis' sands, Rye beach, when it was said Loedel drew a pistol by way of persuader to the other man.

MARITIME NOTES.

Bar Harbor advices report the arrival at that place on Sunday, 15th inst., of Gen. S. C. Lawrence's steam yacht Ibis, with Hon. Frank Jones on board.

One of the light keepers at Boon island came in on Tuesday, and reported the wreck at Union Bluffs, York, that morning, of one of the fishing whaleboats, with all its gear and the fare of fish, the fisherman being barely able to save himself in a dory which was towing astern.

The whale-boats belonging to the Appledore house fleet, and used for taking out fishing and sailing parties of guests, had a spirited and interesting race on Monday, there being six entries, and six prizes, namely, one of $19, one of $15, and four of $10 each. The Foam took first prize, and the Wave the second. That's something like a race, where every boat gets a prize.

The British brigantine Olivia A. Carrigon, of Halifax, A. LeBlanc master, which arrived at this port on the 8th inst. from a Nova Scotia port with 6573 ties to the Boston & Maine railroad, and 1000 cedar posts to T. E. Call & Son, cleared on the 17th for a port in the provinces. During her stay here she had a new foreyard made by Warren Keen.

The schooner Eliza Ann, Jameson master, which arrived at this port on the 15th inst. from Hoboken, brought 250 tons of pig iron, half Swedish and half American, for the Swamscot Machine Co. of South Newmarket.

The accident by which Cadet O. S. Schley of Indianapolis lost his life during the passage of the practice ship Constellation from this naval station to Fortress Monroe, Va., was even more deplorable than at first reported. It appears that Mr. Schley fell overboard from the rigging, and a boat sent to the rescue was swamped, and three seamen, named Emil Olsen, A. Carsen and M. Doland, were also drowned.

HISTORY REPEATED.

"Juliet," the large brown, horned owl that has for years past been in captivity at Mrs. Pearson's greenhouse on Broad street, was sent last week to a lady in Readville, Mass., who has quite a collection of rare pets. Juliet was an uncommonly fine exemplar of her species, and has only one stain upon her character:—some months ago she killed "Romeo," the beautiful snowy owl that had for years been her companion in captivity. 'Twas thus, we believe, in the days of the Capulets.

AROUND HOME.

Wm. W. Carmen has resigned the office of superintendent of the Portsmouth Machine Co., and ceases his connection with the corporation at the close of this week.

The plays which will be performed in Music hall during the week commencing Aug. 23d by Atkinson & Cook's dramatic company will be as follows: Ingomar, Love and Money, the Lyons Mail, the Lady of Lyons, A Life for a Life, and Little Emily. The leading lady is to be Miss Maud Banks, daughter of Gen. N. P. Banks and the only American lady graduate of the Paris Conservatoire of Dramatic Art. Mr. E. P. Sullivan, Mr. John T. Craven and other favorites will be in the company, and Napier Lothian, Jr., will be stage manager. The prices will be popular—ten, twenty and thirty cents.

The sudden death of Mrs. Emma F. Gage at Rye Beach on the 16th inst., from typhoid fever, will be a great surprise and grief to her many friends in Boston and New York. Mrs. Gage was a sister-in-law of T. P. Lovell, Esq., of the well known Boston firm of John P. Lovell Sons.

Elder C. R. Crossett, late pastor of the Second Advent church in this city, has received a call from the Second Advent church in Lawrence, Mass., to succeed Elder John Couch, who has accepted a call to a church in Lowell.

In the window of Grace's drug store can be seen a speaking likeness of a codfish; that is, it speaks as plainly as any likeness we ever saw. It is not a fancy sketch, but a realistic portrait, painted by Mr. Wm. T. Robinson of Malden, Mass., of a genuine codfish caught at the mouth of Spruce creek.

While passing over Pleasant point a day or two since, I started a large hawk from the ground, and was much interested in a triangular fight that ensued. The party of the first part was a hawk, who bore in his talons the party of the second part, a big field mouse or mole; and the party of the third part was a little king-bird, who made several vigorous attacks upon his big enemy, but was unsuccessful in forcing him to drop his struggling prey. I moralized on the superiority of man over all other beasts of the field; I foolishly said "No man would run away from such a puny antagonist;"—just then I was stampeded and put to inglorious rout by a dozen or so small but healthy mosquitoes who had taken mean advantage of my ornithological pursuits to sap what little blood remains in the parchment upon my frame.

NAUT. FARMER.

James Harvey, formerly of Biddeford, but late of Old Orchard, where he recently purchased a farm, was walking on the Boston & Maine railroad track near Goose Fair brook in Saco on Saturday afternoon, as the through train from Portland to Boston was approaching, and was seen to step from between the rails to the space between the tracks, but just as the train reached him he stumbled, and fell on the rails close to the locomotive. The entire train passed over him, mangling him shockingly and killing him in an instant.

The Jellison house, so called, at Kennebunk Landing, with the barn attached, occupied by a Mr. Libby, were burned Sunday night, with all the contents of the barn, including two horses, and most of the furniture in the house. James W. Day's house and barn, near by, were also burned, but Mr. Day saved his furniture and his large stock of cows. The loss, which was heavy, would have been heavier had their been any wind, several other buildings in the neighborhood being much exposed.

Hiram Bowe keeps a restaurant at Old Orchard. Thursday night last he was standing in the rear of his place of business near a cask of beer, when one of the bottles exploded, throwing the fragments in every direction. A small piece of glass entered Mr. Bowe's right eye, cutting open the eye ball and inflicting a very painful wound. A physician was summoned at once, and the eye-ball removed.

HAMPTON JOTTINGS.

HAMPTON, Aug. 16th.

During the past week the hotels have filled up, and more life is seen at the beach than any time before this season. The best meals are found at the Sea View; hundreds admit that John Cutler cannot be excelled in the cuisine department.

Persons from this town enjoyed the recent excursion to Ocean Park to the number of 150, most of them never before having been in that vicinity; only a very few passengers boarded the train between this station and Portsmouth.

Mrs. W. W. Fay, wife of the pastor of the Congregational church, was able to attend divine service yesterday, after an illness which it was feared would prove fatal; they leave in two weeks for Saratoga. The praise meetings Sunday evening are well attended, the strangers among us taking an active part.

A new dwelling near the depot has just been completed, and last week the foundations were laid for two dwellings in the central part of the town. The retired villa of Miss May Batchelder, well known in this section, is being remodelled; she has ample means, and we trust she will out-do some in that vicinity.

Capt. John Somers, of the lighthouse steamer John Rodgers, was drowned off Black Rock, near Bridgeport, Conn., Aug. 12th. The body was recovered on the 16th. Suicide is supposed.

Attorney-General Garland has filed an answer to the bill of J. Harris Rogers, asking to have the Pan-Electric affairs wound up.

Hundreds of families in Portsmouth and vicinity attest the value of Preston's Elixir. It is certainly one of the most reliable and efficacious remedies for summer troubles ever known. Have you tried Preston's Jamaica Ginger?

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, Jamaica Rum, French Brandy, convenient, speedy and safe, is the quintessence of all that is preventive and curative in medicine. It is sure to check summer complaint, prevent indigestion, destroy disease germs in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

Beware of worthless "gingers" offensively urged by mercenary druggists on those who call for

EASTERN RAILROAD IN NEW HAMPSHIRE.

CLERK'S OFFICE,
PORTSMOUTH, Aug. 15th, 1888.

THE following described Certificates of Shares in the Eastern Railroad in New Hampshire, having been lost, to wit: Certificate No. 1654, dated Sept. 18, 1851, for five shares, and No. 1267, dated Aug. 31, 1850, for seven shares, belonging to the estate of Otis P. Lord, late of Salem, deceased, not found among his papers and supposed to have been lost, loaned or destroyed in some manner to the Executor of said Lord's will unknown. Also Certificate No. 2342, dated Oct. 6, 1864, for ten shares in said Corporation, which last named was issued to and was owned by E. Q. Sylvester, and was stolen on the 14th day of June, A. D. 1882, at Hanover, Mass., when his safe was robbed. Benjamin Kimball, Executor of the will of said Otis P. Lord, and said E. Q. Sylvester having severally applied to the Treasurer to have a Certificate issued in lieu of each of those lost or destroyed as before named: this is to give public notice of said loss as required by the By-Laws of the Corporation, and all persons are hereby called upon to show cause why a new Certificate should not be issued in lieu of each of these lost, the owners of said Stock being ready to comply with the requirements of the By-Laws in such case made and provided.

can tell you how to gain her affection.

"Dearest Aunt Sarah, if you will only help me to obtain this prize!"

"Leave off protesting," said Aunt Sarah, "and listen to me. Go away. There's your cousin Herbert Wyatt going to the Mediterranean in his steam yacht. There are the Folliott Friscoes just starting to look up the sources of the Nile. Or if you prefer tiger shooting in Bengal, or salmon fishing in Norway—"

"But, Aunt Sarah—"

"And then grow a heavy beard," added the old lady, imperiously; "wear broad brimmed *sombrero* hats; study up the matter of costume; read poetry and romance."

"But I always go to sleep over it, ma'am," said honest Jack.

"No matter for that," pronounced Aunt Sarah. "Wake up, and begin again. Never despair. Model yourself over again. Don't you see that this Jack Leonard doesn't satisfy our little queen of coquettes? Let's see if we can't rebuild him to suit her royal majesty."

Jack listened, comprehended, eagerly assented, and whether he went to Bengal, the sources of the Nile, the Bay of Naples, or the Norway Lakes, he disappeared without even bidding farewell to Silvia Gray.

"How very eccentric of him," thought Miss Gray. "But, after al', it's just like dear, funny old Jack."

And then she forgot all about him.

When Miss Sarah Leonard opened her little house in Regent's Park to society the second winter, she had several unusual attractions—Lady Rosetta Amyllard, of Amyllard Park, in Dorsetshire, who was writing a book about the South Sea Islanders; Sir Hardy Hardiland, of Australia, and Captain Giacopo Leonardi, of Venice—to introduce to the world. And as Miss Leonard held in her white, wrinkled little hand the golden key which unlocks the gates of society, the distinguished foreigners had a very pleasant time.

The captain was tall and dark, not unlike what poor Jack Leonard had been two years ago.

"Yes, I think it's very likely there is a resemblance," calmly observed Aunt Sarah, when Silvia Gray noticed it. "The Leonardis are distant relatives of ours. Poor Jack! I wish he was here to-day."

"Yes," said Silvia, slightly softening, "Jack was very nice,—very, only a little *outre!*"

So the brilliant winter days and evenings, full of music, charades, operas, and carpet dances, glided along, and Captain Leonardi became a constant attendant on Silvia Gray. A handsome couple they made, and people began to whisper at the possibilities of an early wedding.

"Now I wish," said Silvia, enthusiastically one day, "that you could have known my cousin Jack! Dear old Jack! You remind me of him Captain Leonardi."

"I shall be jealous of this Jack, if you rave about him any longer," said the captain, smiling.

"Poor Jack!" sighed Silvia; "I think he liked me."

"And did you like him?"

"Come," said Silvia, "that is scarcely a fair question. Of course, I liked him—a little."

"Miss Gray!"

"Yes, Captain Leonardi!"

"Suppose I were to say that I liked you a great deal—that I loved you—"

"Oh, Captain Leonardi!"

"Would you say the 'no' or 'yes?'"

"Yes," she whispered. "A score of times—yes!"

"Do you really love me, my darling?"

"You know that I love you, Giacopo," with soft reproachful eyes.

"If I were a poor beggar in the Via Marina, would you love me still?" he catechised her with tender earnestness.

"Yes," she answered steadfastly.

"For myself only?"

"Oh, Giacopo, how can you ask these cruel questions?"

"I like to be sure," said the captain, serenely. "Come here, little one, and kiss me, and let me slip this circlet of diamonds on your plump finger. Ah, here comes Miss Leonard!"

Silvia ran to her, with eyelashes wet, with sunshiny tears.

"Oh, Miss Leonard," she sobbed, "I am engaged!"

Aunt Sarah lifted her eyebrows.

"To—Jack?" said she.

"To Giacopo," corrected the beauty—"to Captain Leonardi."

"Well," said Aunt Sarah, "he's Jack."

Silvia turned round, with a face of pretty puzzlement.

"Jack!" she repeated—"Jack!—"

"Say it again, sweetheart," caressed Captain Leonardi, tenderly imprisoning her hand in his. "You don't know how sweet it sounds. And, Silvia—"

"Well?"

"If you would rather our marriage ended in an elopement than the regular church wedding—"

Silvia gave a little comprehending cry; the scarlet blood suffused her face; she clasped both hands over her eyes.

"Oh!" she cried, "I see it all now, Oh, Jack! Jack! how could I have been so blind—but how did I?"

But in vain she strove to draw her hand away. Captain Leonardi held it fast.

"You have promised me, my dear," he declared; "you have promised, and I shall not let you go."

"And I don't want you to," whispered Silvia. "I—I think I always loved you, Jack, even when you were a great awkward boy. But now—"

And her bright, shy eyes, timidly lifted to his told the rest of the tale.

Aunt Sarah smiled to herself as she crept away.

"My little plot has succeeded," said she, "as I thought it would!"

Mme. Astic de Valsayre, who fought a duel with another woman on the field of Waterloo, has aimed at notoriety in various ways. A Mail Fraud Punished at Milwaukee, Wis.

Everyone should remember that the presence of Gens. Beauregard and Early at the Drawings of The Louisiana State Lottery having entire charge, is a guarantee of absolute fairness and that the chances of all are equal, and that no human being can know beforehand what number will draw a prize; therefore, any party advertising to guarantee prizes in the drawings of The Louisiana State Lottery, or holding out other inducements impossible to carry out, is a swindler and a cheat. Money sent in answer to such advertisements is obtained with a view to deceive and defraud the unwary. To do the right thing address M. A. Dauphin, New Orleans, La. One of these swindlers, Robert Riley, alias W. Huber & Co., was sent to prison for ten months at Milwaukee last month, and it served him right.

Advice to Mothers.

Musical Queries

Occur to every musical person, whether professional or amateur, pupil or teacher. It is wise to have at hand standard books, like those of DITSON & CO., so that every question may be answered.

How shall I pronunce this Italian word?

Says the embarrassed pupil, who does not wish to appear verdant. Why, purchase *Ludden's Pronouncing Dictionary* of *Musical Terms*, ($1.00) in which the correct pronunciation of every term in common use in all civilized languages, is given.

Do you wish not to appear ignorant when any musical celebrity is mentioned?

The great *Moore's Encyclopedia* of *Music* ($5.00) contains *thousands* of musical biographies, and *Urbino's biographical Sketches* of *Eminent Musical Composers*, ($1.50) will post you as to the principal modern masters.

Do you wish to solve any musical problem?

Stainer's Dictionary of *Musical Terms* will solve it for you. Cloth, $5.00; Boards, $4.00.

Are you posted in Musical History?

If not, do not fail to purchase forthwith *Ritter's Students' History* of *Music*, ($2.50) and be no longer ignorant.

These books constitute a valuable reference library, and will speedily repay the price to those who wish to write or talk with accuracy on musical subjects.

BY USING

SCHLOTTERBECK'S

CORN, WART AND BUNION SOLVENT

A CURE IS GUARANTEED.

A Healthy Body and a Clear Head.

If indigestion, constipation and biliousness torment the body, the head cannot be clear. These disorders react upon the brain most hurtfully, and produce a cloudiness in the organ of thought not experienced by a healthy man. Happily these brain-oppressing maladies may be entirely dispelled by that peerless alterative, Hostetter's Stomach Bitters, which cheers, refreshes and invigorates the brain and nerves, while it regulates the organs of digestion, assimilation and bilious secretion. It expels the morbid humors which poison the system through the bowels and the urinary passages, and exerts a powerful invigorating influence as well. Its cathartic action is never irritating, violent or painful, but even, natural and progressive. As an appetizer and sleep promoter, the Bitters is unrivalled; it mitigates the infirmities of age, relives the ailments peculiar to the gentler sex, arrests premature decay, and builds up an enfeebled physique.

The Dr. C. C. Beers wanted in Boston for alleged complicity with Wm. Robinson, the Somerville Borgia, was sent to prison for burglary in Birmingham, Conn., twenty years ago. In prison he was made a nurse, and that is where he acquired what little he knew of medicine. After serving his term he went about the country peddling nostrums. He married a beautiful Birmingham girl, who obtained a divorce when he was imprisoned, but who remarried him after his release.

Constipation, the curse of our sedentary life, dyspepsia, our national disease, and rheumatism, which comes from acid stomach and from the sudden changes in our climate, are quickly cured by taking one or two Brandreth's Pills every night for a month. Persons are now living, enjoying most vigorous health, who have taken one of these Pills a night for over thirty years. Chronic diseases are cured by taking from one to four of Brandreth's Pills every night for a month. They purge away all old diseased body. This you replace with new and healthy flesh prepared by an invigorated digestion from simple, healthful food.

The Sportsmen's club of Worcester, Mass., closed a two-days shoot on the 17th inst. Mr. L. R. Hudson of Worcester, seventy-four years of age, won the individual clay pigeon badge.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker House, Boston.

The Boot & Shoe Manufacturers' Association of Brockton, Mass., on the 17th inst. furnished the press with a statement that no further proposition would be submitted by the association to the Lasters' Protective Union. The prospect of a settlement is very gloomy.

Young, old, and middle aged, all experience the wonderfully beneficial effects of Ayer's Sarsaparilla. Young children, suffering from sore eyes, sore ears, scald head, or with any scrofulous taint, become healthy and strong by the use of this medicine. Six bottles, $5.

The treasury department is perfecting arrangements for restoring to the former owners, or their heirs, various articles of jewelry, etc., captured during the war, and turned in to the treasury by the captors.

There are many forms of nervous debility in men which yield to the use of Carter's Iron Pills. Those who are troubled with nervous weakness, night sweats, etc., should try them.

A new indictment of twenty-two counts has been found against Flynn and Squire, to supersede the old one of sixteen counts.

Relief from sick headache, drowsiness, nausea, dizziness, pain in the side, &c., guaranteed to those using Carter's Little Liver Pills. These complaints are nearly always caused by torpid liver and constipated bowels. Restore these organs to their proper functions and the trouble ceases. Carter's Little Liver Pills will do this every time. One pill is a dose. Forty in a vial. Price 25 cents.

The Indian Orchard mill at Springfield, Mass., will shut down, the result of Treasurer Gray's defalcation.

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

Music.

To thee, sweet sharer of my joy and grief,
Sweet comforter and solace of my woe,
To thee I come. If happiness though brief
E'er come to me, to thee I fly, and low,
Mysterious sounds float on the air; they rise
And fall in measure slow, then wild and clear
Burst on my brain a song of joy; my eyes
Grow dim with tears; my heart beats fast; I hear
In that swift rushing melody the sound
Of wind among the pines—of beating rain—
Of roaring waters—thunder crashing sound;
And then, by magic touch, the sweet refrain
Of singing birds, the lowing kine; the air
Is fill'd with fragrance and the sun shines fair.

Thou speakest unto me of Life and Death—
Of love and her whom more than life I love—
Of things unseen, unheard—the perfum'd breath
From angel wings, and spirit forms above
My wearied head. Thou speakest unto me
Of all my cherish'd dreams, the sad sweet dreams
That I may never know—the face I see
Still mirror'd in my soul—the eyes whose beams
Are not for me—the form I shall not clasp—
The mem'ries of the past, the future dim—
Of that which in my life I cannot grasp;
Of misspent years; of blasted hopes, the grim
And ghastly skeleton of wasted life—
The long, deep sleep which ends all toil and strife.

—Eugene Field, in Washington Star.

A WIFE'S LESSON.

"George, we really must have new carpets this year. Look at Lizzie Moore's. Do you want your house to look worse than our neighbor's? Certainly you can afford the expense as well as Tom Moore can."

"For that matter, my dear, I think I can afford it better than Tom can; for he is in debt, and I am not."

"There! what did I tell you? I knew you could afford it. And now we'll have the carpets. Don't be mean. Don't for mercy's sake let our rooms be a fright to everybody any longer."

"Lydia, our rooms are, at this moment far better in every way—better furnished, more tastefully and better carpeted, and far more inviting, than were the rooms of our parents, which you and I, in our childhood, thought so grand. Carpets they had none. And further, those carpets are not worn to look badly at all. Not a worn spot is to be seen. In fact, they are as good and as serviceable as they were when first put down."

"Oh, all the color's faded from them. One thing you can depend upon: those things will come up, and—they won't go down again!" and the feminine foot came down with a stamp, and the feminine lips were shut with an emphatic tightness.

"Lydia, have you any idea what good Brussels carpets will cost?"

"I don't know, and I don't care. If we can't have 'em, we can go without carpets. I can stand it if you can."

"Lydia,"—still calmly and kindly, but with a mighty struggle for self-control;—"you know Brussels carpeting is not a yard wide. Between thirty and forty rounds will be the expense. You know that I do not squander money; I have no expensive habits beyond the absolute necessities of life. Every shilling I can save will go in the bank, there to remain and accumulate until a need not to be otherwise met shall demand its withdrawal. Really and truly, the money I would save is for my loved ones; that is the one thought that influences me when I look to the regulation of my expenses. So, my own dear wife, it is not I alone who must pay for all the luxuries of our home; it comes from the bank account of the family. Don't say any more now, please; think of it,—sleep upon it." And, thus speaking, he rose and left the room—and left the house.

The speakers were George and Lydia Darwell, husband and wife. The former was thirty years of age, holding a responsible position in one of the best and oldest city banks; the latter was two years his junior, and one of the very best and most skillful of housekeepers. They had been married seven years, and had three children—three bright-eyed, happy, healthful, laughter-loving children, the light and joy of the home.

There had been another occupant of the room and a listener—Lydia's aunt—George's aunt—and everybody's aunt who knew her. She was a widow; a sister of Lydia's mother; her snowy tresses and deepening furrows indicating a near approach to the late evening of life.

"Lydia, I am going to tell you a story that I have never yet told—something that only your mother and myself ever knew. And it seems to me as though Providence had directed that I should hear this conversation between you and George in order that I might tell you the story. Will you hear it?"

"Of course I'll hear it, aunty. I'm glad to hear anything that you have to tell, always."

Ordinarily Aunt Susan talked while her busy fingers plied the knitting needles; but now she laid her knitting aside, and folded her hands in her lap, as she spoke:—

"My dear child, oh, how well I remember the scene, a conversation between my father and mother, almost exactly like that which you and George have just held. With a difference in language, the spirit and meaning of the two conversations are the same. It was in the autumn instead of the spring, and my mother had set her heart upon a pony carriage, and a new set of silver-mounted harness. One of our neighbors, not so well off as father was, had got one, and from that moment mother was dissatisfied with her old waggonette that had served us ever since I could remember, and which was just as good then as it ever was. At any rate it was just as good for service. Your mother and I were then girls of twelve and fourteen; and we were present when mamma gave her final order, for an order it amounted to, just as a want expressed by you, and adhered to, is an order to your loving husband. Father tried all he knew to persuade her away from the idea. He gave

The pain and misery suffered by those who are afflicted with dyspepsia are indescribable. The distress of the body is equalled or surpassed by the confusion and tortures of the mind, thus making its victims suffer double affliction. The relief which is given by Hood's Sarsaparilla has caused thousands to be thankful for this great medicine. It dispels the causes of dyspepsia, and tones up the digestive organs. Try Hood's Sarsaparilla.

Crowds flocked to Charles Hurd's fish market during the early part of this forenoon, to see a shark that was on exhibition there. It was of the species known in the Gulf of Mexico as "man-eaters," and was a good deal of a curiosity from the fact that one rarely gets as far north as this. It was twelve feet long, weighed 385 pounds, and had a tail as sharp as a butcher's knife. This man-eater was captured about twelve miles outside Wood Island yesterday noon by the crew of a fishing vessel commanded by Capt. Trefethen, of Cape Ann. The vessel followed the shark two days, and came upon it yesterday asleep on top of the water, and killed it. It was brought up river and bought by Mr. Hurd, who has since sold it to the dime museum in Warren's block, where it is now being exhibited.—*Biddeford Journal, 11th.*

Boston's Latest Sensation.

The defalcation of William Gray, Jr., as treasurer of the Atlantic and Indian Orchard mills, it was on Wednesday morning, the 18th, announced would reach at least $600,000, and probably would greatly exceed that enormous sum.

Gray's whereabouts had not been discovered up to Wednesday morning. After sailing from Hull in his yacht, the Huron, Saturday, he arrived in Boston harbor early Monday morning, went to his residence, harnessed a horse into a buggy himself, and drove off, telling his sons he should be back at seven o'clock that evening. The team was found in Milton on Tuesday, tied to a tree in a somewhat lonely spot. The general belief was that Gray was trying to make his way to Canada; but some thought he had committed suicide, arguing that he was a very proud man and had occupied a high position in society, and had not carried off with him any money to speak of, his stealings having been squandered in high living, yacking and other sports, and speculations.

The Boston *Post*, in an editorial referring to this affair, says: "It would certainly be surprising to a stranger, unfamiliar with the conduct of manufacturing corporations here, to learn that this missing treasurer was by no means an expert, had never been practically familiar with the business, was more devoted apparently to sporting, club and society life than to his vocation, spent much less time at his desk than the average business man, and still the directors of two large corporations saw fit to pay him for such share of his time and attention as he saw fit to devote to each, as large a sum, or larger than would have enabled them each to secure the whole time and attention of any one of hundreds of more experienced and competent men, who had been trained to labor and whose modest habits of expenditure were a safeguard. * * There have not been wanting, from time to time, insinuations and even distinct statements, in the press and in business circles, that the management of numbers of manufacturing corporations in Massachusetts were confined within a narrow circle of families, and that these important positions were filled from the members or connections of these families, with more regard to social connection and influence than to fitness of capacity, age, technical or even general business experience. * * The reply has always been that these families largely owned the stock, that the property mainly belonged to themselves, and that they were in the right in selecting those whom they knew and trusted, on account of the enormous responsibility and opportunity for maladministration. Recent events should certainly give occasion for deep thought and profound and searching examination of systems, persons and methods."

The Defaulter a Suicide.

The body of William Gray, Jr., the wholesale defaulter, was found in the bushes near the top of Blue hill, Milton, Mass., in the forenoon on the 18th inst., about three-quarters of a mile from where his team was found hitched the previous day. The body was lying on the ground, with the coat and vest open, and a bullet-hole through the heart. The weapon with which the wretched man killed himself was a 32-caliber revolver which laid beside him with one chamber empty.

The Pope and the Knights of Labor.

Cardinal Taschereau of Quebec has sent to the bishops a letter of which the following is a translation:

Your Lordship: On the 13th of May last I represented to His Eminence the Cardinal Perfect of the Sacred Congregation of the Propaganda, the divergencies of opinion expressed by the newspapers of Canada and the United States on the subject of the Society of the Knights of Labor, condemned in September, 1884, as it was pretended the effect of this sentence stood suspended by an appeal affirmed to have been carried before the Holy See after modifications had been made in the constitution of this society. I begged His Eminence to make known with certainty the position of the Church in regard to it. A letter from His Eminence Cardinal Simeoni, dated the 12th of July, informs me that on the 27th of June last the Sacred Office, after a re-examination of the question, maintained its judgment of 1884, absolutely in the same terms which are reproduced in his letter, as follows:

"Considering the principles, organization and rules of the society of the Knights of Labor, as they are set forth, this society must be classed among those which have been condemned according to the instructions of this Supreme Congregation on the 10th of May, 1884; that the Bishops be enjoined to proceed as well against this society as against others of the same kind, and to employ the remedies ordered or devised in said instructions."

Your Lordship will recall that in my consultation of the 5th of October, 1883, I made no representation of my own upon the principles of the organization and the rules of the society, but purely and simply transmitted to the Holy See an authentic printed copy of its constitution with a prayer to examine it all the more carefully, because this society seemed to embrace all branches of work and workers which, moreover, its name clearly indicated. The pretended appeal to the Holy See has long been invoked to create the belief that pending the final decision persons could continue to enroll themselves or to remain in the society, provided always that they were sincerely disposed to obey the final decision upon the appeal. If that appeal had been really made it is impossible that the sacred office should not have been seized of it, because this matter belongs to its executive resort. Consequently the decision of the 27th of June, communicated to me by His Eminence Cardinal Simeoni, is in reply to it. The original sentence has been confirmed in its form and tenor, whereas in this last decision, as in the first, the holy office recommends the Bishops to proceed against this society in the manner prescribed in its instructions of the 10th of May, 1884. I cannot see that there can any longer be any doubt as to the rule to be followed by the Catholics of the whole world over whom the jurisdiction of that sacred congregation extends.

Having discharged my duty in conveying to Your Lordship this decision of the Holy See, I beg you to accept assurances of my devotion.

E. A. Cardinal TASCHEREAU.
Archbishop of Quebec.

A young woman attempted suicide by drowning at Nantasket on the 17th inst., and on being resuscitated said she was sorry they did not let her die, as she was poor, friendless, out of work, and despondent.

Says the Providence *Journal*: "Boston is about to have a statue of Rameses the Great. It is to be hoped that this will not produce an Egyptian cult in opposition to the orthodox worship of Buddha."

WE DO NOT KNOW.

Practical fishermen are perhaps too busy to answer, but a nautical farmer wishes to know if the fish on the two sides of the harbor are not of different schools? He says those on the east side are not so stocky as those on the west, and has proved it by fishing on both sides the same day, and by fishing on different sides on different days—always with the same result.

AYER'S SUGAR CATHARTIC COATED PILLS

CURE

Headache, Nausea, Dizziness, and Drowsiness. They stimulate the Stomach, Liver, and Bowels, to healthy action, assist digestion, and increase the appetite. They combine cathartic, diuretic, and tonic properties of the greatest value, are a purely vegetable compound, and may be taken with perfect safety, either by children or adults. E. L. Thomas, Framingham, Mass., writes: "For a number of years I was subject to violent Headaches, arising from a disordered condition of the stomach and bowels. About a year ago I commenced the use of Ayer's Pills, and have not had a headache since." W. P. Hannah, Gormley P. O., York Co., Ont., writes: "I have used Ayer's Pills for the last thirty years, and can safely say that I have never found their equal as a cathartic medicine. I am never without them in my house." C. D. Moore, Elgin, Ill., writes: "Indigestion, Headache, and Loss of Appetite, had so weakened and debilitated my system, that I was obliged to give up work. After being under the doctor's care for two weeks, without getting any relief, I began taking Ayer's Pills. My appetite and strength returned, and I was soon enabled to resume my work, in perfect health."

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

SOLDIERS' MONUMENT.

There was an enthusiastic meeting of the monument committee in the common council chamber on Wednesday evening, 18th, and it was announced that the amount already subscribed assures the erection of a monument that will be a credit to its promoters and the city. As it has been learned that in the distribution of subscription papers and envelopes many persons were overlooked, it was decided to make another distribution, leaving a paper and envelope at every house in the city, to be afterward called for by an authorized messenger; this will enable all to contribute their mite, for no sum, however small, will be refused.

MAUD BANKS' DEBUT.

It seems we are to have a sensation at the very opening of our amusement season—the debut of Miss Maud Banks, the talented daughter of Gen. N. P. Banks, in the leading female roles with Atkinson & Cook's company, which begins a week's engagement at Music hall on Monday evening, Aug. 23d. The names of the members of the company guarantee its strength—E. P. Sullivan, last season's favorite, John T. Craven, the well-known Boston Theatre comedian, Napier Lothian, Jr., late the Boston Theatre and Mary Anderson's stage manager, John H. Connor, Eugene Ormond, Esther Robbins and others; the plays are new and strong—The Lyons Mail, Life for Life, Ingomar, Little Em'ly, Lady of Lyons, Love and Money, etc.; the management promises new scenery and correct mounting, and the prices are to be those by which Atkinson & Cook succeeded in crowding music hall last year—ten, twenty and thirty cents. The sale of seats will begin at Goodrich's this (Thursday) morning.

NAVY YARD ITEMS.

Capt. Henry Erben has been detached as captain of the Portsmouth navy yard, and ordered as a member of the board of inspection of foreign steamers at New York.

The demand for increased facilities for constructing the batteries to be placed upon the new ships of war has made it necessary to re-assign the shops and buildings of the Washington navy yard. Secretary Whitney has directed that all the shops, machinery, tools and appliances assigned for the use of the bureaus of construction and repair, steam engineering, yards and docks, and equipment and recruiting shall be turned over to the control of the bureau of ordnance on October 1st. Such of the machinery, tools and appliances as may not be required by the bureau of ordnance will be transferred to stations where required by other bureaus, or otherwise disposed of as found best for the public interest.

MARITIME NOTES.

The Riverside base ball club have just purchased in Eliot a boat formerly belonging to a naval vessel; she pulls twelve oars, and challenges any boat of her size on the river. William Dow is coxswain.

Big fish are the rule at the Shoals. On Wednesday of this week Miss Melvin, a guest of the Oceanic, caught a fine cod weighing fifty-eight pounds. But the ladies don't have it all their own way, for on the same day Capt. "Bill" Berry, of the good boat Kelpie, brought in to the Appledore a halibut weighing 198 pounds.

PORTSMOUTH, Aug. 18th.

Mr. Editor: I see by this evening's *Penny Post* that "The Whalesback foghorn is being painted red—and such a red!" The nautical editor of that paper must have gone adrift, and somebody else be doing his items; the foghorn was never painted; it is brass; they are painting the *tower* red. Last night he announced a heavy sea running; it was very smooth outside, for I was there in a boat. He should try navigating the placid waters of the underground canal in Deer street for a while. Ex-KEEPER.

The Pearl street Freewill Baptist society and Sunday school picnicked at Wallis' sands on Wednesday.

The second game of base ball between the Portsmouth and Dover clubs will be played to-day at Dover point, at the great picnic of the C. T. A. Union.

Mr. Charles E. Senter will start to-day for Boston, to take passage by the schooner South Shore for Philadelphia. He expects to be gone about a month.

Mr. F. M. Nipgen, of Cincinnati, who is visiting Mr. Geo. A. Mudge at Salter's island, on Wednesday, the 18th inst., made his first trip on salt water in the Oceanic to Star island. He was well pleased with his initiation, as well he should be on such a perfect day.

The unusual clearness of the salt water at the mouth of the larger creeks tributary to our harbor, is a very strong evidence of the severity of the drouth—no sediment of any amount being carried seaward.

I. H. Luke, Esq., of Brooklyn, N. Y., is visiting our city, and the guest of Samuel Adams, Esq.

Miss Edith Wendell, accompanied by her younger sister, Miss Marion Wendell, started the first of this week for New York, intending to be absent about a week, Miss Wendell having agreed to sing once (Thursday evening) with Gilmore's famous orchestra at Manhattan beach. Mr. Gilmore was very desirous of securing her services as soloist for the remainder of the season, but apprehension of the effect upon her voice of singing in the open air deterred her from accepting the flattering terms offered.

Oliver Sleeper, formerly of Rye, who is believed to have been one of the victims of Mrs. Sarah J. Robinson of Somerville, Mass., has a brother and other relatives still living in Rye. He died in 1881, and willed several thousand dollars to the town of Rye under certain conditions for the founding of a public library in the town, but owing to some local dispute the town is now engaged in a lawsuit concerning it, instead of enjoying a free library. His death was sudden, and unexpected by his friends, but no suspicion of foul play was entertained at the time.

Mr. James R. Yeaton's grounds at Oak Hill, Richards avenue, were very handsomely illuminated on Wednesday evening, the 18th, by Chinese lanterns suspended from the trees, on the occasion of a picnic phrty. The effect was very pretty, as viewed from the avenue.

Contractor Shanahan on the 18th inst. notified the city authorities that the big sewer was completed, and ready for final inspection by them.

A fine young specimen of the night bittern (qua-bird) was last week sent from this city to the London Zoological Gardens by Mr. John Parkin, who is with Mr. William A. Plaisted, of Market street. Mr. Parkin has at different times sent several other American birds to the same place by steamer, and they have generally arrived safely and in good condition, as they are particularly looked out for by the agents of the institution.

Peter Strickland has at present seven experienced sailmakers at work in his sail-loft on Market street. A few days since he sent to Old Orchard beach an ensign forty feet in length, made to order.

The United States steam sloop-of-war Juniata sailed from New York on the 16th inst., for China. There were numerous applications from officers to be detailed upon her, as she is to show her flag in many ports where the United States vessels rarely touch. From New York she will go to the Western islands, then to the Madeiras, the Cape de Verdes, and from there across the Atlantic to Rio Janeiro. From the latter port her voyage will continue to and through the Straits of Magellan to Valparaiso, Callao, Panama, and to San Francisco. From San Francisco she will go to the Sandwich islands, and thence to Japan and China. Unless the present programme is modified she will continue on her way home around Cape Good Hope, touching at the Philippine islands, Batavia, Siam, Singapore, Ceylon, Bombay, Muscat, Aden, Zanzibar, the Comoro isles, Madagascar and Cape Town.

A section hand on the Maine Central railroad recently wheeled his hand-car on the main track near Portland, sat down on it and fell fast asleep. Afreight train running slowly came along, and by quick work the train stopped just before the obstruction was reached. The engineer sounded his whistle shrilly to wake the man, but he never budged an inch. Another railroad hand in a shed near by came out, and by hard work the sleeper was aroused.

They had a society catboat race at Newport, R. I., a day or two since. This was not a race of some kind of newfangled catboats called "society," nor of catboats owned by any special society; the contesting crafts were merely ordinary catboats, but each was sailed, for this occasion only, by two young men who are "in society." The English, you know, would term such a race a gentlemen's or amateur race; perhaps "snobs' catboat race" would be appropriate for the Newport affair.

Hoyt & Solomon's new comic opera, "The Maid and the Moonshiner," is roughly handled by the critics of the leading New York papers, who agree that the libretto is weak and dish-watery, and that Solomon's music is but little if any better than the libretto.

A fishing skipper of Halifax, N. S., indignantly asserts that the Canadian cruisers have with one or two exceptions kept far as possible out of the way of the Yankee fishing vessels, which he has seen fishing close in shore at various points, sometimes fifty or so in a fleet.

Mr. Flynn Resigns.

Maurice B. Flynn has resigned his position as chairman of the County Democracy in the fourteenth assembly district of New York city, and the resignation has been accepted. Immediately after the Squire scandal was made public, the city executive committee of the County Democracy expelled Flynn from its membership, and requested the district organization to take similar action. The district committee, however, determined to stand by their leader in his disgrace, and refused to recognize the action of the city committee. Flynn's resignation settles the dispute that thus arose, and probably also definitely ends his career in politics. That Flynn was mercilessly bleeding the city treasury was as well known during the commissionership of the late Hubert O. Thompson as it is now, the *Tribune* having repeatedly shown it by facts and figures. But, as in the case of the Tweed ring, there was no democratic denunciation of nor opposition to it until the falling out of the rascals among themselves.

The dead body of Miss Lou Mabbitt, who was abducted from her home near Young America, Ind., by a former lover named Amos Green, has been found in Wild Cat, four miles east of Lafayette, she having evidently been murdered by the ruffian, as he had threatened. The girl's mother is lying at the point of death with a broken heart. Green is still at large.

Hundreds of families in Portsmouth and vicinity attest the value of Preston's Elixir. It is certainly one of the most reliable and efficacious remedies for summer troubles ever known. Have you tried Preston's Jamaica Ginger?

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy and safe, is the quintessence of all that is preventive and curative in medicine.

It is sure to check summer complaint, prevent indigestion, destroy disease germs in all water drank, restore the circulation when retarded by a chill, and ward off malarial, contagious and epidemic influences.

[Concluded from 1st page]

exactly the reasons for his wish that George gave you; and I could see that he had to struggle hard to keep the tears from coming. But mother would not give in.

"Lydia, you know father was the first one called from our family circle. Our neighbors had supposed him not only fore-handed, but really wealthy; and he ought to have saved more than he did. He was not a careless man; he was by nature thrifty and stirring, and had he had help he might have saved a goodly sum. As it was, he left the farm free from mortgage, and there was ready money enough to pay every debt but not much more. After every bill was paid, we could command about one hundred pounds in cash—no more. The farm was one of the best, but small, and our buildings in good repair. The place was well-stocked, and the farming implements were all good.

"There were three of us—our mother, and we two girls. I was then just coming twenty, and your mother was eighteen. I will not tell you how we managed. At the end of the year we had run behind-hand. It was very evident that the farm would not support us in the style in which we had been used to live. Mother had no thought of reducing expense by curtailing her society enjoyments, and bidding farewell to the behests of fashion. Your mother and I made old dresses over into new ones, but we had not the heart to suggest such a thing to mother.

"I remember well I had started one day to take from our little strong-box twenty pounds for the purpose of paying a bill which was overdue. Mother asked me how much would be left if I took that away. I told her a little over ten pounds. Oh! not for the world would she let me take that money. Her dress-maker was coming on the morrow and she must purchase trimmings, and so on, for her new silk dress. And even then I did not attempt to thwart her; your mother and I saved eggs, and made extra butter, and finally paid the bill in that way. But other bills were growing. However, let them go, and let me come to the incident I wish to give you.

"One stormy, disagreeable day Nab and I—so we used to call your mamma in those days—were ransacking papa's old desk, and by-and-by we came across a small book that we had never before noticed. I found it, and upon opening it, this is what I read at the head of the first page, written in papa's fullest, roundest hand,—'Sums of money that I might have saved for my loved ones if only I could have had help.'

"Lydia, when I had looked at the end of that account, and had added it up, I was thunder-struck. At first I could not believe it; the amount was over six hundred pounds! But, mind you, mamma did not come in for all of it. No, no. Nab and I were down for our share. I had never dreamed what the grand parties had cost which we used to give, and which always fretted papa so much.

"But I won't dwell upon it. You can imagine whether my sister and I shed any tears or not, as we looked over that book, and thought what might have been! But it was too late. We gave the little book one last look; then kissed it, and then gave it to the flames; for we would not have had mamma see it for the world. And we never told her of its existence.

"Lydia, I thought of that when I heard you reading aloud to your husband that poem in which occur these lines—

'For of all sad words of tongue or pen,
The saddest are these: "It might have been!"'

"Not long after that I was married and within a year from that time the farm was sold, and mother came to live with me. That is all, my dear. Don't say anything now. Take my story to bed with you, and sleep over it."

Lydia's only response was an affectionate kiss, after which she went quietly about her work.

On the morning of the following day, after George had eaten his breakfast, and had come to take his parting kiss before going to the bank, Lydia threw her arms around his neck, and softly whispered,—

"George, I have slept and dreamed, and a new light has dawned upon me. We shall not want new carpets this year, nor shall I require very much in the way of dress. So, darling, you may make your banking account as big as you please."

"Lydia!"

"Hush! I mean what I say. I shall be happier so. I'll tell you all about it some time. There! One more kiss! Now, good-bye!"

And George went away to his daily task as happy as happy could be; and all day long he thought how he could best make his wife understand how truly and devotedly he loved her.

And so, too, Lydia.

And from that time she helped her husband to provide for the future; and when she knew that their savings in the bank were growing into thousands, she felt more than ever inclined to be prudent and economical. Never mean; never stingy; but never more an expenditure of her husband's hard-earned money without a return of substantial good and benefit.

A novel use is made of the stereoscope to detect forged bank notes. A note of 100 francs was recently submitted to the experts of the Bank of France as issued by a band of forgers, but the execution was so perfect that no defect could be discovered by the closest examination. A suggestion was then made to place the suspected note side by side with a genuine one in the objective of a stereoscope, the two images of which, as is well known, overlay each other and form a single picture. The result of the experiment was that the loop in a letter of the forged note did not exactly cover that of the genuine one, showing that they had not been printed from the same plate.

A Washington correspondent says that Senator Edmunds has a small dog to which he is much attached, and has had built for the sole convenience of his pet a tiny stairway leading from the lawn to the second story of his house, terminating in a little spring door, just big enough for the dog, and through which it goes and comes at its own sweet will.

DUFFY'S PURE MALT WHISKY.

What It Is.

It is a superior brand of pure whiskey, its chief merit being that it is distilled by a secret process discovered by us in 1860, whereby every trace of fusel oil and other injurious substances are eliminated. It is the only whiskey of the kind manufactured in the world and it is the only absolutely pure whiskey on the market. While as a whiskey and for every purpose to which a whiskey is put, either as a medicine or drink, it is unequalled by any other whiskey, it is, owing to its absolute purity especially fitted for medicinal purposes. Another peculiar feature of it is that it is the only whiskey that will stay on the stomach of invalids and debilitated persons, and combining, as it does, a food quality with that of a stimulant, it is the only whiskey that ought to be used in the treatment of the sick; and a still further feature that in whatever quantity it is consumed, there are no after effects from it such as are experienced from the use of other whiskies containing fusel oil and other poisons. Being a superior brand of pure whiskey distilled from the very best materials, it is of necessity an expensive one and the demand created for it as such among consumers, dealers are virtually compelled to handle it, although at a profit to them of about one-fourth of what is usually made on other whiskies, such as many of them have the reputation of keeping. For this reason we would impress upon our friends the importance of demanding Duffy's as being as good as any, and we warn them, in view of the hundreds of analyses this whiskey has received at the hands of the most eminent chemists this country and to which we openly submit at all times, that where any attempt is made by unscrupulous druggists to palm off an inferior and adulterated article as being as good as, as pure as ours, they are actuated solely by mercenary motives. We repeat that this is the only whiskey of the kind in the world. We are its discoverers and sole manufacturers and we challenge any one to produce a whiskey like it, either in purity or excellence. Another thing we would impress upon our friends is not to be deceived by other malt whiskies, as there are just as many grades of bad malt whiskies, equally as poisonous as other whiskies, and none of them are pure. It is under this guise that several unscrupulous manufacturers are trying to reap benefits from our name and prestige.

BENTON'S HAIR GROWER.

All who are BALD, all who are becoming BALD, all who do not want to be BALD, all who are troubled with DANDRUFF, or ITCHING of the scalp; should use Benton's Hair Grower. EIGHTY PER CENT of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of Hair on those who have been bald and glazed for years, we have fully substantiated the following facts:

We grow Hair in 80 cases out of 100, no matter how long bald.

Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a specific for falling hair, dandruff, and itching of the scalp.

The Hair Grower is a hair food, and its composition is almost exactly like the oil which supplies the hair with its vitality.

DOUBLE AND TRIPLE STRENGTH.

When the skin is very tough and hard, and the follicle is apparently obliterated closed, the single strength will sometimes fail to reach the papilla; in such cases the double or triple strength should be used in connection with the single, using them alternately.

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite somewhat poor and easily vexatious? Do you notice brick-dust at the bottom or a scum on the top of the fluids you pass? Are these fluids scanty at times and painful at others? Do you have headaches once in a while? If you have these feeling, **DO YOU KNOW WHAT THEY MEAN!** Your Kidneys are Diseased!!! It may be only the beginning, if it not taken in time, Bright's Disease, and death is no much horrible fact, will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

MR. A. W. BRUSH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

MR. ALEXANDER P. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathaniel Greene, was so near the grave her breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape awful suffering and possibly death itself. For Sale by all Dealers.

SCHLOTTERBECK'S

CORN, WART AND BUNION SOLVENT

A CURE IS GUARANTEED.

A Healthy Body and a Clear Head.

If indigestion, constipation and biliousness torment the body, the head cannot be clear. These disorders react upon the brain most hurtfully, and produce a cloudiness in the organ of thought not experienced by a healthy man. Happily these brain-oppressing maladies may be entirely dispelled by that peerless alterative, Hostetter's Stomach Bitters, which cheers, refreshes and invigorates the brain and nerves, while it regulates the organs of digestion, assimilation and bilious secretion. It expels the morbid humors which poison the system through the bowels and the urinary passages, and exerts a powerful invigorating influence as well. Its cathartic action is never irritating, violent or painful, but even, natural and progressive. As an appetizer and sleep promoter, the Bitters is unrivalled; it mitigates the infirmities of age, relives the ailments peculiar to the gentler sex, arrests premature decay, and builds up an enfeebled physique.

Station Agent John T. Davis was murdered and robbed at Huron, Ind., on Aug. 17th. The murderer was captured and hanged the same day by a mob.

Constipation, the curse of our sedentary life, dyspepsia, our national disease, and rheumatism, which comes from acid stomach and from the sudden changes in our climate, are quickly cured by taking one or two Brandreth's Pills every night for a month. Persons are now living, enjoying most vigorous health, who have taken one of these Pills a night for over thirty years. Chronic diseases are cured by taking from one to four of Brandreth's Pills every night for a month. They purge away all old diseased body. They yet replace with new and healthy flesh prepared by an invigorated digestion from simple, healthful food.

St. Paul Commandery of Knights Templar, of Dover, voted unanimously to accept the invitation of Mount Horeb Commandery of Concord to be its guests Sept. 8th and 9th on a trip through the White Mountains, with headquarters at Fabyan's. Hugh de Payens Commandery of Keene has also been invited.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker House, Boston.

Charles G. Conner, Esq., of Exeter, clerk of courts for Rockingham county, came in from the Oceanic on Tuesday of this week, and went home.

Young, old, and middle aged, all experience the wonderfully beneficial effects of Ayer's Sarsaparilla. Young children, suffering from sore eyes, sore ears, scald head, or with any scrofulous taint, become healthy and strong by the use of this medicine. Six bottles, $5.

At Providence, R. I., Aug. 18th, James Crosby, a well known business man of the city, had his throat cut with a razor by a barber named Patrick H. McCarron, while being shaved, and died in a few minutes. McCarron has always borne an excellent reputation, but has been subject to spells of mental trouble since having his skull fractured by a horse's kick eleven years ago. The brother and business partner of the deceased had just been shaved by McCarron, and noticed nothing particularly strange in his actions.

There are many forms of nervous debility in men which yield to the use of Carter's Iron Pills. Those who are troubled with nervous weakness, night sweats, etc., should try them.

Charles F. Hayden, of Gorham, brakeman on the Grand Trunk road, was fatally injured by a fall from his train recently, at Paris, Me., and lived only a few hours, dying before his wife reached him. He leaves a wife and two children, and had been in the employ of the road five or six years.

Relief from sick headache, drowsiness, nausea, dizziness, pain in the side, &c., guaranteed to those using Carter's Little Liver Pills. These complaints are nearly always caused by torpid liver and constipated bowels. Restore these organs to their proper functions and the trouble ceases. Carter's Little Liver Pills will do this every time. One pill is a dose. Forty in a vial. Price 25 cents.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

FARM NOTES.

The advice to put a cow before calving on short rations to prevent milk fever is bad. The food should be regular, not forced.

The use of Paris green on potatoes and other things kills many bees and insects that are useful, and also destroys many small birds.

The best bred stock costs the most money, but its produce brings a great deal more than the produce of that which is badly bred.

In feeding you want to notice that some animals are more dainty as to their choice than others. Their likes should be respected.

Irregularity in salting will not conduce to the laying on of flesh. Especially in dairying will irregularity in salting show in the milk.

Vigorous growth of plants is the best protection against insect enemies, and timely cultivation comes in a most effective auxiliary force.

Calves kept gaining vigorously through the first year are worth at the end twice as much as others that have been retarted in growth.

Trees in a cultivated field are troublesome, but where they are not numerous they add enough to the beauty of the landscape to compensate.

American pork now enters Germany through England, and thus evades the payment of duty. In England it is branded as English pork.

A Vermont farmer sets his hens on nests made in nail kegs half full of wet horse-manure covered with dry straw, and has great success in hatching.

An agricultural chemist says potatoes require the most potash, beans the most lime, corn the most phosphoric acid, and the cereals the most nitrogen.

It is said that pyrethrum, mixed with five times its bulk of plaster, and dusted into the center of the leaves with a pair of bellows, will destroy cabbage worms.

A soil but five inches deep cannot be worth as much as another that gives free scope to the roots of plants to whatever depth they may penetrate in search of nutriment.

It requires more time to spread manure over two acres than over one, and hence the aim should be to concentrate the labor on the smallest space that can be made profitable.

Roots of plants that go by choice ten or twelve inches in the soil fail to bring up full support when they are restricted to four or five inches by reason of impenetrable earth beneath.

For the best egg production in heavy fowls oats are as good feed as any. They give bulk, while the nutriment they contain is of the kind which goes to make eggs rather than fat.

Regarding the dehorning of cattle a western paper says that experience teaches that the growth of the horn can be stopped by applying a red-hot iron to the horn germs in calves.

Into a pound of soft soap dissolve one ounce of carbolic acid crystals, and it becomes an excellent remedy for lice on animals when they are washed in warm water with the aid of the soap.

An enterprising New Englander, Mr. Colcord, has invented a "governor" for the silo, which is claimed as a regulator of the temperature, fermentation, and quality of the ensilage stored.

Horses are not fully matured until six years of age, nor do they arrive at their full strength until eight years old. Immature animals are often overtaxed and their future usefulness injured.

Public water troughs, it is claimed, are places at which infectious diseases are spread; hence the water should always be flowing in them instead of turning it on only when wanted.

Australian fruit arrives in England in excellent condition. It is packed in cordust or sawdust and placed in a cold compartment where the temperature is kept as near 40 degrees as possible.

It is said that calves begin to form cuds and ruminate as soon as they are allowed on the pasture, but three months is soon enough to allow them to do so, or the result will be scours.

It is said that the best mode of using sulphur about plants, in order to destroy insects, is to sprinkle it on the ground during a warm day, when it will prove beneficial without injuring the plants.

Short hay crops mean cheap cattle in autumn. But the farmer who makes full provisions for keeping can buy and turn his fodder to good account not only in sales but in added value to the manure pile.

Time intelligently given to bees will pay equally well with that given to any other kind of farm work; and where too many are kept it may be done at such times as not to interfere with other important work.

It is claimed that the average height of race horses has increased an inch every twenty-eight years since 1700. The average height of horses then was thirteen hands two inches, and in 1870 it was fifteen hands two inches.

When a hoe becomes dull it retards work because of the increased tax it imposes on strength. Sharpen it by filing to a chisel edge. When sharp it works much more effectively, especially when there are weeds to be cut.

While planting the tree, do not try to rattle the dirt among the roots by shaking the tree up and down, for this draws the fine, hair-like roots out of place, but does not push them back; it folds them up and gets them out of shape.

One of the advantages from harrowing corn is that a man with a smart team will run over fifteen acres or more per day. The smoothing harrow takes

PROF. CHS. LUDWIG VON SEEGER,

Professor of Medicine at the Royal University; Knight of the Royal Austrian Order of the Iron Crown; Knight Commander of the Royal Spanish Order of Isabella; Knight of the Royal Prussian Order of the Red Eagle; Chevalier of the Legion of Honor, &c., &c., says:

"LIEBIG CO'S COCA BEEF TONIC should not be confounded with the horde of trashy sure alls. It is in no sense of the word a patent remedy. I am thoroughly conversant with its mode of preparation and know it to be not only a legitimate pharmaceutical product, but also worthy of the high commendations it has received in all parts of the world. It contains essence of Beef, Coca, Quinine, Iron and Calisaya, which are dissolved in pure genuine Spanish Imperial Crown Sherry."

Invaluable to all who are Run Down, Nervous, Dyspeptic, Bilious, Malarious or afflicted with weak kidneys. Beware of Imitations.

The pain and misery suffered by those who are afflicted with dyspepsia are indescribable. The distress of the body is equalled or surpassed by the confusion and tortures of the mind, thus making its victims suffer double affliction. The relief which is given by Hood's Sarsaparilla has caused thousands to be thankful for this great medicine. It dispels the causes of dyspepsia, and tones up the digestive organs. Try Hood's Sarsaparilla.

The Pennsylvania democrats have nominated Chauncy F. Blake as their candidate for governor.

One Quart

Of sifted flour is one pound—so is one pint of granulated sugar, so are ten eggs, so are two full cups of butter—a bottle of the G. O. Taylor Bourbon and Rye Whiskey, for purity and age, as an alcoholic stimulant, is worth its weight in gold, and gives strength, vitality and nerve, just what we all most need. Druggists and grocers sell it as a standard brand unequalled for medicinal qualities. It is bottled by G. R. Graves & Sons.

NEW YORK LETTER.

[FROM OUR REGULAR CORRESPONDENT.]

Two New Books—Was Tilden an Examplar?—The Bridge Extension—The Endurance of New York an Unknown Quantity—Squ're and Fl's Accusers—Ingersoll's Relief—A French Engineer Looks at the Bridge—"It Wasn't a Priscilla Day"—The Coming Debut of Miss Maud Banks.

NEW YORK, Aug. 18th.

Two recent books, noteworthy for their vigorous and clever handling, commend themselves to any who are ambitious, as the author of one writes, "in working soberly to definite ends, within the domain of sense and thought." Dr. Maudsley, with great thoughtfulness and research, writes under the title, "Natural Causes, and Supernatural Seemings." It will take an equal rank with his other works, now esteemed as the best of their class. The other—"The Life and Writings of Samuel Bowles," goes upon the list of Standard Books, and will stay there for many a generation. It is the well-told story of a man illustrious in the most illustrious of professions.

"An incorruptible Statesman," says a Boston faction of his party; "A great coward," says a Mobile club. Mr. Tilden was neither the one nor the other. The peculiar arithmetic that "counted in" John T. Hoffman a governor; the attempted purchase of Presidential Electoral Votes, and the transactions of the famous "Cipher Dispatch" are not the constituents of *statesmanship*; but are instead the wily methods of an astute politician, with large resources, and an overweening ambition. Nor was he a coward. He believed religiously in *himself*. He would have country, party and friends subserve *him*. The history of that campaign had not been written. It was not that he loved the Presidency less, but Tilden more. His intimates are rushing into the newspapers with their "reminiscences," and they all unconsciously disclose a complete corroboration of the clean-cut and correct estimate of the man, made by Mr. Blaine in his "Twenty Years," etc.

The Bridge Extension is getting on with a turtle-like tread. Private enterprise would have secured the needful legislation, and had it in use years since, and 70,000 people saved the daily annoyance of crossing the most crowded street thoroughfare of men and vehicles in the world. But New Yorkers are used to it—perhaps like it. The morning papers announce a gigantic official fraud, and we buy the evening papers to read of the next. We have the Flynn-Squire indictment before the Boodle Aldermen are tried. The talent of *accommodation* pervades everything. Horses that shook with fright at the elevated railroad, now heed it less than their harness. The street railway companies either excluded the negroes, or provided special cars for them—they are now welcomed as the best-behaved and most courteous of passengers. The belligerent Celt commences his generous patronage of Washee-Washee just where he left off his unmerciful mobbing of him. The Saturday half-holiday was confined last year, to but few establishments; it is now almost general; and, upon another year, Friday night will close the business week for three months of the twelve. The oil monopolists have filled creeks upon Long Island, opposite the city, with a vile refuse, breeding stenches for miles around, and are now, with a lawlessness that is devilish, tainting the entire waters of our bay and rivers. New York, with such a calamity so close to consummation, scarcely whimpers. "Ah, we are a good-natured people," says most of the city. It is *not* good nature, nor anything of the sort. It is simply an entire lack of a right public spirit and good citizenship. Given to a New Yorker an unobstructed road to the getting of money, and he will give to the winds all questions of good polity and honest government. We remember the last effort of private interference in Municipal affairs. Three gentlemen, eminent in wealth and probity, visited the Comptroller's office, and published to the community that their city was being managed with a scrupulous integrity and prudence. But sixty days subsequent, Bill Tweed and his companions were discovered to have been long on the way of stealing nearly every third house in the county. Gov. Tilden had the best client-age of his life when the republican party of the city stood solidly abreast with him in that righteous uprooting. The milk in the cocoanut of the recent spasmodic "Citizens' movements" is always either an ambitious or sorehead politician, and usually, the most to be feared.

It surprises none to find that the trial of Squire involves his accusers in crimes more flagrant that that for which he is indicted. Ingersoll says, "Squire will be in office when the Mayor is removed." Mr. Cleveland was elected with the whoop—"Turn the rascals out." In his seventeen months of service the only rascals found have been of his own appointing. Stop right here, Mr. President, on your return from the Adirondacks, and these great *reform* organizations so instrumental in your nomination, will furnish yourself and Mr. Hill with a big boom of rascals for whom a common justice and the State are desperately groaning.

Monsieur Louis Bette, a distinguished engineer *en route* from Paris to the city of Mexico, to prosecute the work that will prevent the periodical innundation of the latter city, made a very extended and critical examination of the Bridge during the past week, and pronounced it as exceeding any judgment he had before made of it, and as the most remarkable structure now standing. He bestowed great praise and admiration upon the genius of the builders, and upon the skill and vigilance of the present management. Woe is the day when this Bridge becomes another of the camping grounds for New York politicians.

New York is having this summer a very severe attack of Boston; and it is made the worse because of the failure of the preventives administered. To have expended so much of skill, time, money and boast upon the Atlantic and Priscilla, and to have them beaten in all the races—except the first *drift*-by the two Boston crafts, is hard to bear. I watch the eye of the New York yachtsman before I allude to the sailing season. They don't mind the Yanks outsailing the Genesta and Galatea, if they can't, and they will take the turkey's share of the glory; but in any reference to the previous racing for the choice of a contesting boat, be good enough to remember that "*it was not a Priscilla day.*"

I am looking with a large impatience, and with a very little trepidation, to the advent of Miss Maud Banks. If she inherits of the fine presence, the magnificent voice and the delightful manners of her father, there can be no question of her immediate success. It is not in good form, perhaps, to say to *you* that a New York *debut* is a trifle stronger than one made in a smaller city; but whether here or there, may she have, at the first and always, a constituency as large and as satisfied as constantly greeted her father through his entire public life. G.

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite sometimes poor and again voracious? Do you notice brick-dust at the bottom or a scum on the top of the fluids you pass? Are these fluids scant at times and plentiful at others? Do you have headaches once in a while? If you have these feeling, **DO YOU KNOW WHAT THEY MEAN!** Your Kidneys are Diseased!!! It may be only the beginning, but if not taken in time, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

Mr. JOHN W. FURBUSH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well to-day.

Mrs. ALEXANDER L. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathaniel Greene, was so near the grave her breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape awful suffering and possibly death itself. For Sale by all Dealers.

YOUR HAIR

should be your crowning glory. Ayer's Hair Vigor will restore the vitality and color of youth to hair that has become thin and faded; and, where the glands are not decayed or absorbed, will cause a new growth on bald heads.

MAY the youthful color and vigor of the hair be preserved to old age? Read the following, from Mrs. G. Norton, Somerville, Mass.: "I have used Ayer's Hair Vigor for the past 30 years; and, although I am upwards of 60, my hair is as abundant and glossy to-day as when I was 25."

BE assured, that a trial of Ayer's Hair Vigor will convince you of its powers. Mrs. M. E. Goff, Leadville, Col., writes: "Two years ago, my hair having almost entirely fallen out, I commenced the use of Ayer's Hair Vigor. To-day my hair is 29 inches long, fine, strong, and healthy."

RENEWED and strengthened by the use of Ayer's Hair Vigor, the hair regains its youthful color and vitality. Rev. H. P. Williamson, Davidson College, Mecklenburg Co., N. C., writes: "I have used Ayer's Hair Vigor for the last ten years. It is an excellent preservative."

BY the use of Ayer's Hair Vigor, Geo. A. Dadman, Waterloo, Mo., had his hair restored to its original healthy condition. He was nearly bald, and very gray. He writes: "Only four bottles of the Vigor were required to restore my hair to its youthful color and quantity."

USING Ayer's Hair Vigor cures diseases of the scalp. F. H. Foster, Princeton, Ind., writes: "I had been troubled for years with a disease of the scalp; my head was covered with dandruff, and the hair dry and harsh. Ayer's Hair Vigor gave me immediate relief, cleansed the scalp, and rendered the hair soft and pliable."

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

THE NEW SEWER.

The sewer committee of the city government were in session Thursday afternoon to listen to the report of Mr. Chas. A. Putnam, of Salem, Mass., the engineer in charge. Mr. Putnam reported that the sewer was built in a thorough and substantial manner, and with the exception of connecting two or three private drains, and restoring the bulkhead of the wharf at its outlet, entirely completed. He had made a careful examination throughout the entire length. There are but two claims for extra work, one for increased filling at the upper end, and the other for the building of eight more man-holes then the contract called for. The latter would cost about forty dollars apiece; the filling would be a small expense. Mr. Putnam spoke in high terms of the faithful manner in which Mr. Shanahan had performed the work, and said the sewer would, beyond doubt, do all that was expected of it.

LABOR'S HOLIDAY.

Monday, Sept. 6th, is "Labor's Holiday," by decree of the Knights of Labor. It will be remembered that petitions were sent to Congress by the Knights of Labor to make that date a national holiday, thus setting apart a distinctive day for the recreation and rest of the workingmen, but it failed to be acted upon. The 6th will, however, be observed as a holiday in many sections of the country. As there is now no holiday between the 4th of July and Thanksgiving day, which is always appointed to be observed during the latter half of November, there is a period of nearly five months with not a single break in it. "Labor's Holiday" should be set apart as asked for, and it undoubtedly will be at no distant date.

The public schools of the city will commence the fall term on Monday, Sept. 6th, instead of Monday, Aug. 30th, as was originally appointed.

It is reported that Capt. Robert F. Bradford, of this city, will succeed Capt. Henry Erben as captain of the Portsmouth navy yard.

Civil Engineer Henry S. Craven, U. S. N., was in town on Thursday. He is stopping at the Lawrence cottage at Kittery Point.

Miss Anne Eliza Shepard of Nashua, daughter of the late Rev. John W. Shepard, and sister of Col. E. O. Shepard of Boston, died at Hampton beach on Sunday, 15th inst. She was many years ago a teacher in the Nashua high school, and later taught school in the south.

There was a race at the Shoals on Wednesday, 18th inst., between four whaleboats of the fleet attached to the Oceanic hotel, the distance sailed being about five miles, and $100 being distributed in prizes, which were won as follows: White Cap, Capt. Hills, 1st; Dolphin, Capt. Brewster, 2d; Æolus, Capt. Haley, 3d; Neptune, Capt. Robinson, 4th. The White Cap beat the Dolphin by only one minute, and the Neptune was but fifteen seconds behind the Æolus.

Ezra Barker of Boston, who died in Stratham on Tuesday, was a son of the late Josiah Bartlett, M. D., of that town, and great-grandson of the Josiah Bartlett who signed the declaration of Independence. He followed the sea from his early youth, and when the war of the rebellion broke out was mate of the ship Express, of this port, a ship of 1073 tons built by Fernald & Pettigrew for Hon. Daniel Marcy and others, and which was burned by a confederate cruiser during the war. He left the Express, and enlisted as master's mate on the U. S. S. Kearsarge at this port in November, 1861, and while on board that vessel took part in the memorable action of the 19th of June, 1864, when she sank the Alabama. He was mentioned in the executive officer's report for his coolness and efficiency, received the thanks of the department, and was made an ensign. He was afterwards sailing master of the Paul Jones in the South Atlantic squadron. He resigned from the navy in the spring of 1866.

Emil Olsen, one of the three seamen of the U. S. S. Constellation who lost their lives when the ship was a day out from this port on her way to Fortress Monroe, in the futile attempt to save the life of Cadet Schley, was the man who, when on liberty in Dover, while the ship was lying at the navy yard here, was arrested after having for half an hour or so greatly amused a good-sized crowd by his persistent attempts to ride a bicycle which he found standing near the post-office, in the course of which he had innumerable mishaps, the bicycle being on top about half the time. Of course the poor fellow had previously been struggling with another antagonist, King Alcohol, who has overthrown so many men of his calling—and of all other callings and professions.

The schooner Jonathan Sawyer, the latest addition to the Dover Navigation Co.'s fleet, went up the river for the first time early this week as far as the "lightering place" in the Cocheco, she not being able to get up to the Cocheco Manfg. Co.'s dock with her full cargo of 600 tons of coal on board—the largest cargo that ever went up the Cocheco. The largest previous cargo ever landed in Dover was taken up in June, 1884, by the schooner Thomas B. Garland, another of the Dover Navigation Co.'s vessels. This is the Jonathan Sawyer's first visit to her hailing port, she having been built at Bath, Me., and never entered this river before.

The 27th Maine regiment survivors will hold a reunion at North Berwick on Friday, August 27th. The presence of the wives and daughters of the veterans will make the meeting a social one.

Mr. Frank W. Hidden on Monday night of this week had another boat adventure, which was neither so pleasant nor so successful as the one of two weeks previous, when he rowed a lady to the Shoals in his racing dory in a dense fog, and received $10 for the job. Leaving here at five o'clock Monday afternoon in his fishing wherry, with his clipper dory in tow, he had made about half way to the Shoals with a very light southwest breeze when the wind changed and freshened, soon blowing a heavy gale, making it impossible to reach the islands, and dangerous to attempt the return. His best chance was to keep his wherry to the wind, heading northerly and easterly, which he did, and was making pretty good weather until, when about three miles to the northward of Duck island, the wherry was struck by a floating timber or piece of drifting wreck and her broadside stove in, the boat going down so quickly that he had barely time to get into his dory and cast off the painter before she sank. From that time until half-past three o'clock Tuesday morning he was knocked about by the sea, the dory being many times nearly filled, when he managed to reach Cape Neddick harbor, where he beached his boat, he being then in a greatly exhausted condition. After some trouble he succeeded in rousing the occupants of a summer cottage, who kindly ministered to his necessities, and he arrived in this city Tuesday night, glad to be all in one piece.

Gray, the defaulter, was not all bad. After hitching his horse at the foot of Blue hill, before starting on his last lonely walk to the gloomy spot where he destroyed the life which had become an intolerable burden, he carefully blanketed the animal.

The schooner Chilion, Capt. Ira Whidden, on Monday night of this week when between Boon island and Cape Porpoise, bound from Hingham, Mass., to Damariscotta, Me., to load with quartz rock for the sand paper works at Malden, Mass., sprung her mainmast, and was forced to put in here, coming up to Commercial wharf. She has engagements to take two cargoes of lumber from a Maine port to Hingham.

The brickers Hattie Lewis, G. W. Raitt and D. K. Haun sailed for Boston on the 18th inst. The Mary Willey sailed the same day for Bangor, to load lumber for this port.

An alleged new figure in the wholesale poisoning case at Somerville, Mass., is Edward Cox, a real estate broker living in Somerville. Mr. Cox, it is claimed by the Cambridge police, was, previous to 1879, a poor cobbler on Main street, Cambridgeport. It is alleged that he had some business dealings at the time with the late Oliver Sleeper; and in 1879, two years before Mr. Sleeper's death, Cox suddenly came into affluence through some means. E. S. Jewett, who was an intimate friend of Mr. Sleeper, and who was in that way brought in contact with Mrs. Robinson, has stated that the latter accused Mr. Cox of putting Mr. Sleeper out of the way. She also said she remembered the day Mr. Sleeper got his money on a certain mortgage. He obtained it from some broker or banker in Boston. It amounted to nine thousand, three hundred and some odd dollars. She remembered seeing Mr. Sleeper count it, and said he wrapped the money in a newspaper after receiving it, and walked out to Cambridge with it. She was of the impression that it was given to Mr. Cox; at any rate there was something very mysterious about the disposition of it. Samuel D. Lane, Esq., of North Hampton, Mr. Sleeper's friend and the executor of his will, it is said has never been able to trace considerable sums which it was known that Mr. Sleeper possessed within a brief time previous to his death. From the manner in which new revelations are turning up in this horrible business, it would appear that there was a regular syndicate of poisoners engaged in it.

Warren Keen this week made a new spanker boom for the four-masted schooner Agnes Manning; the dimensions are, length fifty-four feet and four inches, diameter at the slings fifteen inches.

Every post-office in the United States will become a special delivery office for all mailable matter on and after October 1st. All matter bearing the special delivery stamp must be immediately delivered to any address within one mile of the post office. In every case regular postage must be paid, in addition to the delivery stamp. Postmasters are not required to deliver matter after their regular hour of closing, nor on Sundays. Eight cents is allowed the messenger for each letter delivered under this service.

Towns people in Minnesota are being swindled by young women, who sell clocks on the instalment plan and collect $2 at the time of delivery. A confederate follows and claims that the clock was stolen, giving its number in proof. The victim loses the clock and $2.

a width of eleven feet, and as only scratching the surface is desired no lapping is needed.

Corn and potatoes may often be topdressed to advantage after planting, providing fine manure is used. The cultivation of these crops during the season will mix the manure with the soil much more perfectly than it could be if plowed under.

A. G. Tuttle, of Baraboo, Wis., says he traps moths by placing shallow pans of vinegar among the branches of trees, which attract the moths and drown them. His method is contrary to the rule that sweet substances should be used for such purposes.

After cutting, orchard grass springs rapidly, and the aftergrowth is heavy. This should not be pastured during the summer or fall, but should be reserved for winter grazing. It should be treated as above directed in the case of the tall meadow-oat grass.

Professor E. M. Shelton, considers thirty loads of manure applied to one acre about equal to forty spread over twice as much surface, and bases the idea on reasons similar to those employed in proving large crops more profitable than small ones.

Mustard plants used to be the terror and disgust of the California wheat-grower. Now they are a source of profit. By ingenious mechanical harvesting both crops are gathered separately, and the mustard is worth more than the wheat on the same land.

Make good use of the smoothing harrow in the corn and other cultivated fields. No tool in use will kill so many weeds as this, if used at the right time. It will keep down the weeds and keep the surface pulverized, the two prime necessities in the culture of any crop.

When it is understood that if allowed to ripen to seed perfectly the grass loses all its rich juices, and becomes mere dry straw—woody fibres, a little silicate of potash, and a very trifling quantity of vegetable extractive matter—the importance of cutting it at the right time will be apparent.

Edmunds as a Joker.

"Who do you think is the greatest wag in the Senate?" asked a Senator this evening at Mr. Vance's reception to the North Carolina editors. After waiting for several guesses he continued: "You cannot name him unless you run through the entire list, and his name would be the very last one mentioned. The wittiest member of the Senate is Mr. Edmunds. He delights in a practical joke. Conkling and he used to travel together in his amusement line. They wore both fond of a good story. Why, do you know I once saw Edmunds bend a pin and put it on the chair that Conkling habitually occupied when he was resting in the cloak-room? It is a fact, and the serious part of the story is that Conkling actually did go in and sit down on the waiting pin. Mr. Edmunds isn't nearly so shy as he appears to be, for he couldn't control his feelings. He actually rolled on one of the sofas and laughed uproariously. After the first twinge of pain and surprise Conkling never budged. He told stories and kept his gayest humor until Edmunds left the room. Then he swore savagely. The pin was extracted from his flesh. He waited two years to get even, but he squared the account in the most complete fashion."

"How?" were asked.

"O, I'll tell you some other time," was the good-natured reply.—*Washington Letter.*

Bridge Disaster.

A bridge on the narrow gauge railroad near Brattleboro, Vt., broke down under the weight of a heavy mixed train on the night of the 15th inst., and fell to the river, sixty feet below. The engineer was buried under the engine in fifteen feet of water; the fireman escaped. J. J. Green, station master at New Fane, died in three hours after being rescued; E. M. Butler, station agent at Wardsboro, was badly hurt, and will probably die; E. B. Ashley, station agent at West Dummers, had his right leg smashed, and Michael O'Conners, a brakeman, a leg broken and his head cut. Mrs. Hildreth of Hinsdale, N. H., had two ribs broken, and her husband was cut about the head. Several other passengers escaped with slight hurts.

Don't fill the system with quinine, to prevent or cure fever and ague. Ayer's Ague Cure is the specific for this disease, and leaves no poisons to produce dizziness, deafness, headache or other disorders.

The funeral of William Gray, Jr., took place from his late home in Dorchester, Mass., Thursday, the body being taken to Forest Hill cemetery. Rev. James DeNormandie officiated.

Backache is almost immediately relieved by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Try one and be free from pain. Price 25 cents.

Patrick McDonald of Athol, Mass., about sixty years old, is under arrest for murdering his wife with an axe.

All housekeepers should use James Pyle's Pearline in their washing, and save time and labor. It may be used without injury to the finest fabric. As a cleanser it is unsurpassed. Beware of imitations.

Sarah J. Robinson and Thomas Smith were taken into the police court at Somerville, Mass., Aug. 18th, for examination on the charge of poisoning the woman's son, William J. Robinson. Mrs. Robinson is described as a stout, matronly-looking woman, of rather handsome appearance. Smith is a black-eyed handsome man of about sixty, with gray hair and beard, well built form, and general air of respectability. Neither of the prisoners showed anything vicious in appearance, and would never be suspected of the terrible acts charged against them.

Many mothers are unable to nurse their children. In such cases the best substitute to be found is Mellin's Food, prepared after Liebig's formula, which has proved to correspond physiologically with mothers' milk.

Everett Bercome, a farmer of Grafton, Mass., was driving into Worcester on the 18th inst. when he overtook a good-looking woman who was walking on the road, and invited her to ride. She accepted the kind offer, but soon dropped her handkerchief, and when Bercome gallantly alighted to pick it up she whipped up the horse, ran the wagon over Bercome, and drove off with the team. The bereaved farmer has no knowledge of who the woman is.

Dyspepsia in its worst forms will yield to the use of Carter's Little Nerve Pills aided by Carter's Little Liver Pills. They not only relieve present distress but strengthen the stomach and digestive apparatus.

C.B.Hibbard has formed a law partnership with his father, Hon. E. A. Hibbard, at Laconia.

Headache, costiveness and piles, are easily and thoroughly cured by a judicious use of Ayer's Pills.

Oliver Bragg of Plaistow recently caught a white woodchuck on his place. It is considered quite a curiosity, and has been stuffed and set up by a taxidermist.

Why suffer the tortures of biliousness when Hood's Sarsaparilla will give you sure relief? Sold by all druggists. 100 doses one dollar.

Samuel G. Snelling of Boston, late treasurer of the Lowell Bleachery Co., has been arrested for embezzling about $39,000 of the company's funds.

Do not rot or injure your clothes by using washing powders or compounds, but use Beach's Washing Soap. Will not injure the finest fabrics.

Never out of place: Hop Plasters for sudden pains, weaknesses and strains. Always sure. 25c.

HALE'S HONEY is the best Cough Cure, 25, 50c., $1. **GLENN'S SULPHUR SOAP** heals and beautifies, 25c. **GERMAN CORN REMOVER** kills Corns & Bunions, 25c. **HILL'S HAIR & WHISKER DYE**—Black & Brown, 50c. **PIKE'S TOOTHACHE DROPS** cure in 1 Minute, 25c. **DEAN'S RHEUMATIC PILLS** are a sure cure, 50c.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Musical Queries

Occur to every musical person, whether professional or amateur, pupil or teacher. It is wise to look at hand standard books, like those of DITSON & CO., so that every question may be answered.

How shall I pronunce this Italian word?

Says the embarrassed pupil, who does not wish to appear verdant. Why, purchase *Ludden's Pronouncing Dictionary of Musical Terms*, ($1.00) in which the correct pronunciation of every term in common use in all civilized languages, is given.

Do you wish not to appear ignorant when any musical celebrity is mentioned?

The great *Moore's Encyclopedia of Music* ($5.00) contains *thousands* of musical biographies, and *Urbino's Biographical Sketches of Eminent Musical Composers*, ($1.50) will post you as to the principal modern masters.

Do you wish to solve any musical problem?

Stainer's Dictionary of Musical Terms will solve it for you. Cloth, $5.00; Boards, $4.00.

Are you posted in Musical History?

If not, do not fail to purchase forthwith *Ritter's Students' History of Music*, ($2.50) and be no longer ignorant.

These books constitute a valuable reference library, and will speedily repay the price to those who wish to write or talk with accuracy on musical subjects.

A Healthy Body and a Clear Head.

If indigestion, constipation and biliousness torment the body, the head cannot be clear. These disorders react upon the brain most hurtfully, and produce a cloudiness in the organ of thought not experienced by a healthy man. Happily these brain-oppressing maladies may be entirely dispelled by that peerless alterative, Hostetter's Stomach Bitters, which cheers, refreshes and invigorates the brain and nerves, while it regulates the organs of digestion, assimilation and bilious secretion. It expels the morbid humors which poison the system through the bowels and the urinary passages, and exerts a powerful invigorating influence as well. Its cathartic action is never irritating, violent or painful, but even, natural and progressive. As an appetizer and sleep promoter, the Bitters is unrivalled; it mitigates the infirmities of age, relives the ailments peculiar to the gentler sex, arrests premature decay, and builds up an enfeebled physique.

Editor Burt of *Among the Clouds* on the 18th inst. attempted to dissolve the sheriff's attachment by assaulting the keeper in his establishment with an axe. He didn't succeed. He gave bonds and resumed business, and was then arrested for resisting an officer, and had to give more bonds.

Constipation, the curse of our sedentary life, dyspepsia, our national disease, and rheumatism, which comes from acid stomach and from the sudden changes in our climate, are quickly cured by taking one or two Brandreth's Pills every night for a month. Persons are now living, enjoying most vigorous health, who have taken one of these Pills a night for over thirty years. Chronic diseases are cured by taking from one to four of Brandreth's Pills every night for a month. They purge away all old diseased body. This you replace with new and healthy flesh prepared by an invigorated digestion from simple, healthful food.

The Phœnix Mutual Fire Insurance company was organized in Concord on the 18th inst., with Luther S. Morrill president, A. B. Thompson, vice president, Lyman Jackman secretary. This makes twenty-two companies formed in this state since the new insurance law went into effect.

I Was Disgusted

With the learned doctors after swallowing their costly medicine in vain for over a year for the relief of catarrh in my head, when I cured myself by using six bottles of Sulphur Bitters. My wife is now taking them for nervous debility.—Abiel Carter, Parker House, Boston.

A despatch from Hartford, Conn., says: "Dick Berrian, in jail at Greenwich, Conn., has been recognized as the man who stole James Morrell's daughter and starved her to death, and then stole Mr. Morrell's yacht for piratical purposes some years ago."

Young, old, and middle aged, all experience the wonderfully beneficial effects of Ayer's Sarsaparilla. Young children, suffering from sore eyes, sore ears, scald head, or with any scrofulous taint, become healthy and strong by the use of this medicine. Six bottles, $5.

Business in Brockton, Mass., is suffering a serious drawback on account of the labor situation. One store and a large boarding house have already closed, and many business men must leave the place unless some permanent settlement of the labor dispute is soon arrived at.

There are many forms of nervous debility in men which yield to the use of Carter's Iron Pills. Those who are troubled with nervous weakness, night sweats, etc., should try them.

The town of Port Stanley, Falkland islands, was half destroyed on the night of June 2d by a peat slide, which buried many houses and caused the loss of two lives.

Relief from sick headache, drowsiness, nausea, dizziness, pain in the side, &c., guaranteed to those using Carter's Little Liver Pills. These complaints are nearly always caused by torpid liver and constipated bowels. Restore these organs to their proper functions and the trouble ceases. Carter's Little Liver Pills will do this every time. One pill is a dose. Forty in a vial. Price 25 cents.

Hon. James G. Blaine had a narrow escape at Bar Harbor on the 19th inst., an arch erected in honor of a week's series of sports gotten up by the summer guests falling as he was driving under it, a heavy timber striking the carriage just in front of Mr. Blaine, between him and the horse.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites,
For Wasting Diseases of Children,

Where the digestive powers are feeble and the ordinary food does not seem to nourish the child, this acts both as food and medicine, giving strength and flesh at once, and is almost as palatable as milk. Take no other.

C. L. Tuttle, sent out by a New Haven, Conn., firm as agent, is wanted in that city on a charge of forgery.

PARSONS'

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

GOOD FORTUNE.

"It's pretty enough—pretty enough," said Mr. Mortimer, with a deprecating air, as he looked at the folds of rich wine-colored silk which were flung over the screen before him. "But this art-embroidery business is played out. Nobody wants to buy such things nowadays."

"My sister would be very glad to sell it," said the tall pale lad who had submitted it for inspection.

Mr. Mortimer whistled softly, regarded the drapery from between his half-closed eyelids, and felt reflectively of his chin.

"Well," said he, "you may leave it here for a day or two—say for a week. I don't suppose it will sell. But if it should go off, I shall charge twenty-five per cent commission. If it don't sell, I shall expect so much a day as rent."

"Very well, sir," the lad meekly responded.

But he sighed softly as he went away.

Elfleda Elwyn, sitting at work in the little top-floor room of the tenement-house, looked eagerly up as Karl came back.

She was a bright-eyed hectic-cheeked girl of eighteen, with abundant gold-brown hair; and even as she sat still, her fingers flew through meshes of rose and white split zephyr, making what the ladies call "fascinators" for some fancy-shop or other.

For Elfleda Elwyn belonged to the workers of the world, and the feeble paralyzed old mother who lay on her narrow bed in the corner was utterly dependent on these flying fingers for support.

"Well, Karl," she cried brightly; "I see you haven't brought it back. Did they accept it?"

"I left it, Fleda," said the boy gravely, "at Mortimer and Co.'s. I tried ever so many places first, and that was my last resort. But I didn't sell it. The man spoke very discouragingly, but I left it. If it meets with a sale he is to have twenty-five per cent commission. If it don't you are to pay for the time it remains there. Hard, isn't it?" as he saw the quick shadow come over Elfleda's face. "But it's the best I could do. Don't despair, sis. Perhaps there is good luck in store for us."

Elfleda brushed the dew of tears from her eyelashes, and went quietly on with her work.

The bright fabric of wine-red, broidered over with tangled reeds and radiant blossoms, had scarcely hung for two hours over the screen at Mortimer and Co.'s, when Mrs. St. Dominel came in, her scented shawl trailing over her shoulders, and a French hat tied picturesquely over her middle-aged curls.

She stopped short in front of the *portiere*, where the wild marsh-marigolds glowed so vividly.

"How lovely!" she cried. "What exquisite colors! What poetic treatment! What is the price of this thing, Mortimer?"

"Twenty pounds, madame."

"I'll take it," said Mrs. St. Dominel.

"And I want a set of alcove draperies done in the same pattern. By this day week, please!"

"Madame, it is impossible!" said Mortimer. "This exquisite gem is imported. I couldn't match it in alcove curtains short of one hundred pounds."

"Then I'll pay one hundred pounds," said Mrs. St. Dominel. "Only be sure that you have them ready for the 15th; it is my fete-day, and I expect hosts of people. That pattern is absolutely too sweet."

And the rich lady rustled herself out into a glistening carriage, and departed, leaving Mr. Mortimer to dispatch a hurried message to the address which Karl Elwyn had left.

The boy came running eagerly upstairs, two steps at a time, when he had received his commission, and scampered home.

"Only think, Elfleda," he exclaimed rapturously, "the curtain is sold—for ten pounds; and that, with the twenty-five per cent commission off, is seven pounds ten shillings."

Fleda's countenance brightened.

"I am so glad!" she exclaimed. "But—but I hoped it would bring a little more. The material cost five pounds, and I worked a whole week on it until twelve o'clock at night."

"Oh, but you haven't heard all," said Karl. "You are to do a pair of alcove draperies to match, and they are to be finished within ten days; and old Mortimer will pay you fifteen pounds for them if they suit exactly. He says you are to find the material, as you did before, for they must be a perfect match."

Fleda sat silently calculating matters and things in her mind.

"I am afraid I shall not make much profit out of it," she said. "But, of course, I will accept the commission; it may lead to better things."

And so she sat herself diligently to work, scarcely pausing long enough to eat or sleep, so anxious was she to complete the order, and receive the promised compensation.

"For," she reasoned with herself, "we owe the doctor so much already that I am ashamed to look him in the face; and he is so kind, so faithful in his visits. If I could pay him even a pound it would be a load off my mind."

The upshot of the business was that poor Elfleda finished the draperies, but fell ill with a nervous exhaustion and over-fatigue the very next day.

The doctor, a tall handsome young man, with dark Spanish eyes, and a profile like a cameo, shook his head, and said:

"You have overdone yourself, Miss Elwyn."

And then Elfleda made her confession, and told him of the herculean task she had just completed.

"I am to receive fifteen pounds for this," said she. "To be sure I owe eight for the material, but there will be seven pounds left; and we owe money

Tired, Languid, Dull,

Exactly expresses the condition of thousands of people at this season. The depressive effects of warm weather, and the weak condition of the body, can only be corrected by the use of a reliable tonic and blood purifier like Hood's Sarsaparilla. Why suffer longer when a remedy is so close at hand? Take Hood's Sarsaparilla now. It will give you untold wealth in health, strength, and energy.

The defalcation of Snelling, ex-treasurer of the Lowell Bleachery Co., is now said to be in the neighborhood of $200,000. He has not killed himself yet.

One Quart

Of sifted flour is one pound—so is one pint of granulated sugar, so are ten eggs, so are two full cups of butter—a bottle of the G. O. Taylor Bourbon and Rye Whiskey, for purity and age, as an alcoholic stimulant, is worth its weight in gold, and gives strength, vitality and nerve, just what we all most need. Druggists and grocers sell it as a standard brand unequalled for medicinal qualities. It is bottled by H. Graves & Sons.

For sale by the bottle or case by John Laighton.

The Anarchist Murderers Convicted.

At Chicago, Friday forenoon, the long trial of the Haymarket conspirators ended in a verdict of guilty, as follows:

We, the jury, find the defendants August Spies, Michael Schwab, Samuel Fielden, Albert R. Parsons, Adolph Fischer, George Gugel and Louis Lingg guilty of murder as charged in the indictment, and fix the penalty as death. We find the defendant, Oscar W. Neebe, guilty of murder in manner and form as charged in the indictment, and fix the penalty at imprisonment in the penitentiary for fifteen years.

The jury being polled, each answered firmly that the verdict was his. A motion for a new trial was entered, and continued.

The Irish National League.

At the national convention of the Irish National League of America, in Chicago on the 19th inst., John Fitzgerald of Lincoln, Neb., was elected president, and Hugh C. McCaffrey of Philadelphia vice president; Rev. Father O'Reilly of Detroit was re-elected treasurer, and Mr. Sutton secretary.

DON'T MISS THIS CHANCE.

A despatch of the 19th inst. from New London, Conn., is as follows:

The United States steamer Dispatch is here, flying the flag of the secretary of the navy. Secretary Whitney and other officers proceeded to the naval station and made a tour of inspection. More than a year ago the secretary promised the committee of the local board of trade that he would make a personal examination of the station, in order to intelligently consider the proposed removal of the naval training station from Coaster's Island harbor to New London. Citizens are confident that he will see the advantages in New London.

We hope our democratic contemporaries will not miss this chance to rebuke a democratic secretary of the navy for doing that which, when done by a republican secretary, caused their hair to stand on end and their voices to blend in one universal chorus of agony and despair. All they have got to do is to turn to their files of about the time of the Greely reception, when the North Atlantic squadron was gathered at this port, and Sec. Chandler had the Tallapoosa here as his flagship; cut out the lofty moral articles they then wrote about "Bill Chandler" and his gross misuse of the peoples' property, substitute "Whitney" wherever "Chandler" occurs, and "Dispatch" for "Tallapoosa," and they will have ready at hand such denunciations as] must make even the hightoned gentleman who is now "using a government ship as a pleasure yacht" feel uncomfortable.

A Yachtsman Adrift.

On Saturday, the 7th inst., Albert B. Wood, a Boston boat builder, left home for a trip down Boston harbor on the yacht Maud. His father owns the yacht, which was in charge of Capt. Hodgkins. There was a party of three men and three women on the yacht. Wood has disappeared, and has not been seen since Sunday, the 8th. The yacht turned up without him, with the report that he had gone to Boston from Nantasket on the Sunday mentioned. A Boston policeman says he saw Wood on the arrival of the Nantasket steamer in Boston that Sunday evening. He says Wood shook hands with him, and took a hardic, saying he was going to the south end. There are conflicting reports as to what was done on the yacht. Wood was dressed in a yachting suit.

The schooner Howard Holbrook, of Gloucester, Capt. Keene, passed through Fort Hawkesbury about three weeks ago, laden with mackerel from North bay, and landed one of her men with his effects, without reporting at the customs office. She returned to Port Hawkesbury on the 17th inst., and Collector Bourinot detained her for violating the customs laws, and reported the case to Ottawa. Advices were received by the collector, instructing him to release the vessel on the deposit of $400. This the captain paid.

The schooner Druid recently sailed from Gloucester with salt and barrels to supply American fishermen in North bay, and a telegram from Captain McQuin says the vessel was seized at Malpeque, P. E. I., and an armed force placed on board, by Capt. Lorway of the cruiser Houlett. The Druid is a large vessel and was built in Nova Scotia three years ago, but was run into by a United States war vessel and sold to parties in Gloucester, from whence she received an American register. Capt. McQuin reports that he sought shelter in Malpeque bay from a storm, being forced in by stress of weather, and was seized for not reporting at the customs office. This was the first capture Lorway has made during the three months he has been "protecting" the fisheries, although he started out with the boast of becoming a second Captain Semmes. The facts of the case were communicated to Admiral Scott, who, it is understood, ordered Lorway to release the Druid and send her outside the three-mile limit.

Turn about is fair play. News is brought by the steamer St. Paul, at San Francisco from Ounalaska, Alaska, of the seizure by the United States revenue cutter Corwin of the British schooners Thornton, Onward and Caroline, for violating the seal fishing laws in Behring sea.

The U. S. S. Dispatch, flying the flag of the secretary of the navy, arrived at Newport, R. I., on the evening of the 19th, from New London, Conn.

No Mistake at All.

Not long since the naval board of inspectors were directed by Secretrry Whitney to examine some of the American iron steamships in order to ascertain if they might be used for auxiliary cruisers if necessity should arise. The inspectors have examined and reported on two ships, the Louisiana of the Cromwell line, which was reported to be superior to many of the first-class foreign vessels for all the purposes of an auxiliary cruiser, and the Newport of the Pacific Mail line, which was also reported to be first-class in every respect. Commenting on these reports, the Boston *Journal* remarks that "There must be a mistake somewhere, since these vessels were built by John Roach!" There is no mistake at all, this board being charged merely with the duty of reporting the exact facts regarding the ships, and there being now no necessity for breaking down John Roach, that having been effectually accomplished some time ago by the Dolphin scheme.

Mrs. James Harvey of Biddeford, aged over sixty years, widow of the man who was killed by the cars in Saco on the 14th inst., was walking on Main street on the afternoon of the 16th inst., when the walk gave way under her, letting her fall into a deep hole caused by the washing out of the soft earth underneath, leaving a thin crust which broke when she stepped on it. She was considerably bruised about the body, had her ankles wrenched, and was injured internally.

A Great Victory

A Terrible Case of Scrofula Cured by

Hood's Sarsaparilla

"In the winter of 1879 I was attacked with Scrofula in one of the most aggravating forms. At one time I had no less than thirteen large abscesses over and around my neck and throat, continually exuding an offensive mass of bloody matter disgusting to behold, and almost intolerable to endure. It is impossible to fully describe my sufferings, as the case was complicated with Chronic Catarrh. After three years of misery, having been treated by three physicians, I was worse than ever. Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken twelve bottles, within the last twelve months, the scrofulous eruptions have entirely ceased, and the abscesses have all disappeared, except the unsightly scars, which are daily becoming smaller by degrees, and beautifully less." I do not know what it may have done for others, but I do know that in my case, Hood's Sarsaparilla has proved an effective specific indeed. As an evidence of my gratitude I send these facts unsolicited, and I am ready to verify the authenticity of this cure, by personal correspondence with any one who doubts it." CHARLES A. ROBERTS, East Wilson, N. Y.

This statement is confirmed by W. J. Huntley, druggist, of Lockport, N. Y., who calls the cure *a great victory* for Hood's Sarsaparilla. Send for book giving statements of many cures.

YOUR HAIR

should be your crowning glory. Ayer's Hair Vigor will restore the vitality and color of youth to hair that has become thin and faded; and, where the glands are not decayed or absorbed, will cause a new growth on bald heads.

MAY the youthful color and vigor of the hair be preserved to old age? Read the following, from Mrs. G. Norton, Somerville, Mass.: "I have used Ayer's Hair Vigor for the past 30 years; and, although I am upwards of 60, my hair is as abundant and glossy to-day as when I was 25."

BE assured, that a trial of Ayer's Hair Vigor will convince you of its powers. Mrs. M. E. Goff, Leadville, Col., writes: "Two years ago, my hair having almost entirely fallen out, I commenced the use of Ayer's Hair Vigor. To-day my hair is 29 inches long, fine, strong, and healthy."

RENEWED and strengthened by the use of Ayer's Hair Vigor, the hair regains its youthful color and vitality. Rev. H. P. Williamson, Davidson College, Mecklenburg Co., N. C., writes: "I have used Ayer's Hair Vigor for the last ten years. It is an excellent preservative."

BY the use of Ayer's Hair Vigor, Geo. A. Dadman, Waterloo, Mo., had his hair restored to its original healthy condition. He was nearly bald, and very gray. He writes: "Only four bottles of the Vigor were required to restore my hair to its youthful color and quantity."

USING Ayer's Hair Vigor cures diseases of the scalp. F. H. Foster, Princeton, Ind., writes: "I had been troubled for years with a disease of the scalp; my head was covered with dandruff, and the hair dry and harsh. Ayer's Hair Vigor gave me immediate relief, cleansed the scalp, and rendered the hair soft and pliable."

The second excursion to the Shoals for the benefit of the Cottage Hospital, netted the handsome sum of $105.60, which has been turned over to the treasurer of the institution by Mrs. R. C. Peirce, the manager of the excursion.

An entertainment in aid of the Congregational society of Newington, to assist in defraying the expenses of the new parsonage, will be given in Newington town hall on Tuesday evening, Aug. 24th, among the attractions on the programme being the reading by B. P. Shillaber, Esq., of a poem written by himself for the occasion, violin playing by Miss Fannie P. Hoyt, and vocal and instrumental music by young ladies residing in or visiting the town. Admission twenty-five cents, at which price the hall should be crowded on the merits of the entertainment offered, independent of the worthy object for which it is given.

A telegram was received in this city on Friday from Brooklyn, N. Y., announcing that Miss Edith Wendell's appearance in Gilmore's orchestra concert at Manhattan beach the previous evening was a great success, the applause with which she was greeted being tremendous and long continued, and Mr. Gilmore urging to the point of insistence that she should sing again Sunday evening.

Hon. Frank Jones arrived home on Friday afternoon, much benefitted by his yachting trip.

J. W. P. Wingate, Esq., of the Exeter *Gazette*, wife and family, are in a cottage at Newcastle for the season.

Messrs. A. Coburn Hoyt and C. Dwight Hanscom are making a tour of the Connecticut river valley, and will return by way of the New Hampshire mountain region. This is Mr. Hoyt's first vacation in three years.

Mr. Colby Lowd and wife, of Boston, are visiting Mr. Lowd's sister, Mrs. Sarah S. Baker of this city.

Mrs. Thomas H. Fortune and Miss Hattie Fortune started on Friday for Fort Collins, Colorado, where they will spend the fall and winter with Mrs. Fortune's daughter, Mrs. Edward H. Hall.

We acknowledge the receipt of a slice of wedding cake from Buenos Ayres, South America, accompanied by the cards of Mr. Parry L. Randall, formerly of this city, and Miss Georgianna E. Jones of Buenos Ayres, who were united in matrimony May 19th at Buenos Ayres.

The temporary electric light poles are being taken down. All the new and shapely poles are in position, and everything will soon be ready for lighting the city by the new system. The Sun Electric Co., of Woburn, Mass., are to supply a plant to the company in this city, and we hope that the light will equal that of the discarded system.

The excursion train to Old Orchard, Friday, had twelve passenger cars. About a hundred and twenty-five tickets were sold at the station in this city.

The mammoth excursion steamer Empire State made a trip from Boston to the Isles of Shoals on Thursday last, with 1,000 passengers.

It is rumored that the Association building on State street has been sold to Col. Chas. A. Sinclair, in the interest of the Portsmouth Shoe Co.

Early Sunday morning, the 15th inst., as a citizen of Eliot was returning to his home from Portsmouth, he was confronted by a large, rough looking man, who in the most approved highwayman style demanded his money, watch, etc. Our friend not wishing to dispose of his personal effects in such a summary manner, commenced to skirmish with his assailant, and after a brief struggle managed to elude him, when the bold robber made off.

Thursday afternoon Mr. John E. Roberts went for a drive in a team with his wife and children, accompanied by Mrs. Roberts' mother, Mrs. Akerman, and Mr. Charles E. Akerman of Boston. On the return from Rye in the evening, when near the house of Mr. Joseph R. Holmes on Sagamore road, one hinder wheel went all to pieces, letting the carriage capsize and throwing the occupants out. Mr. Roberts was considerably bruised, but held on to the reins and prevented the horses from running away; Mrs. Akerman was badly bruised in the face, and Mr. Akerman's face was so severely cut as to require surgical attendance. The others of the party escaped with slight hurts.

Mr. Supply F. Trefethen of Rye has added another story and a differently shaped roof to his residence on the road from this city to Rye Center, the old Trefethen homestead.

The fishing schooner Grace Choate, of this port, when fully twenty miles from land on her last trip, was boarded by a barn swallow, the little creature being so completely exhausted as to allow itself to be taken in the hands without making any attempt to escape. It was permitted to rest itself, given a free passage to the land, and then allowed to depart.

Two of the elder citizens of Eliot, Mr. Nathan Goodwin and Mr. Joseph Furbish, died on Sunday, the 8th inst. Mr. Goodwin was the last of his family, his wife and only daughter having died a few years ago. Mr. Furbish was eighty-one years and six months old, and left a wife, five sons and seven daughters, six of whom were near him when he passed away.

Messrs. Minot H. Beacham, Harry Hutchings, Frank C. Hoyt, Frank E. Mason, Clifton S. Humphreys and Lincoln Coleman, graduates from the Portsmouth high school in the class of '86, are reported as intending to enter Dartmouth college. Mr. Everett W. Trefethen, another graduate, it is said will study at a commercial college in Boston. Miss Mabel A. Manson, one of the young lady graduates of this year, will enter Wellesley college, where Miss Alice Brewster, a graduate of last year, is pursuing her studies.

At the Portland district camp meeting at Old Orchard this week, at the annual election the following officers were chosen for the ensuing year: President, Rev. W. S. Jones of Woodford's; secretary, Rev. S. F. Wetherbee of Kennebunk Depot; treasurer, Rev. T. P. Adams of Ferry Village; board of managers, Henry Nutter of Cape Elizabeth, C. A. Tilton of Ferry Village, and S. Moulton of Eliot.

[Concluded from 1st page]

to our landlord; and there is last month's bill at the grocery yet unpaid, and poor mamma needs a little wine, and——"

"I see," said the doctor shrewdly. "But I am afraid, Miss Elwyn, it will be a dear seven pounds for you."

As he sat at the table writing a prescription, the door opened, and Miss Pennie Stockton came in.

Pennie Stockton was a bright little damsel of twenty or so—one of the shopgirls at Messrs. Mortimer and Co.'s, and she was full of news.

"Did you hear, Fleda," she cried, without at first noticing the presence of the dark-eyed stranger in the corner, "your lovely embroidery has been sold for one hundred pounds? And your fortune is made!"

"All that I am to receive is fifteen pounds," said Elfleda, her cheeks flushing.

"Then," cried Pennie, "old Miser Mortimer has been at his old tricks again. I heard the bargain myself. It was Mrs. St. Dominel who bought the curtains—Mrs. Dominel, of Avenue-square, and——"

The doctor looked quickly up as Elfleda made her friend a sign to stop.

"It is my mother," he said quietly. "I am Dr. St. Dominel." So she has purchased the *portieres*, has she? Well, of one thing I am very certain—she has been no party to this miserable double-dealing."

"No, sir, certainly not," said Pennie, herself blushing a very becoming pink. "I heard the whole bargain. She supposed that Mr. Mortimer had wired to Paris for them, and he allowed her to believe so."

"The man must be a thorough-paced villain," said Dr. St. Dominel, compressing his lips. "My mother shall be informed of his base behavior."

But all that did but little immediate good to poor Elfleda Elwyn, who fell into a low fever, and lay at death's door for weeks; and when she recovered, Dr. St. Dominel took her hand in his.

"Elfleda," he said, "if you had died, all life's sunlight would have died, also, for me. I never knew, until you seemed to be drifting out into the other world, how very, very dear you were to me."

Mrs. St. Dominel came, too.

"My dear," she said, tenderly taking the sick girl's transparent hand in hers, "I am shocked to think how near my draperies came to bringing you your death. But I shall love them more dearly than ever, now. And you must make haste and get well enough to be married very soon indeed."

So Elfleda Elwyn became engaged, almost without any act of volition of her own. And little Karl and the sick mother were luxuriously provided for now, and life was all sunshine. Except to Mr. Mortimer, who lost Mrs. St. Dominel's custom for good and all.

"Things happened very awkwardly that time," said Mr. Mortimer, gnawing his lip. "I must be more cautious in the future."

But the young wife never could look at the red satin *portieres*, so richly wrought with reeds and wild marsh-marigolds, without a shudder, when she came to live in the big house in Avenue-square.

"They were so near costing me my life," said she.

BENTON'S HAIR GROWER.

All who are BALD, all who are becoming BALD, all who do not want to be BALD, all who are troubled with DANDRUFF, or ITCHING of the scalp; should use Benton's Hair Grower. EIGHTY PER CENT of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you can cure of a growth of hair. In hundreds of cases we have produced a good growth of Hair on those who have been bald and glazed for years, we have fully substantiated the following facts:

We grow Hair in 60 cases out of 100, no matter how long bald.

Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a specific for falling hair, dandruff, and itching of the scalp.

The Hair Grower is a hair food, and its composition is almost exactly like the oil which supplies the hair with its vitality.

Musical Queries

Occur to every musical person, whether professional or amateur, pupil or teacher. It is wise to have at hand standard books, like those of DITSON & CO., so that every question may be answered.

How shall I pronunce this Italian word?

Says the embarrassed pupil, who does not wish to appear verdant. Why, purchase *Luddem's Pronouncing Dictionary of Musical Terms*, ($1.00) in which the correct pronunciation of every term in common use in all civilized languages, is given.

Do you wish not to appear ignorant when any musical celebrity is mentioned?

The great *Moore's Encyclopedia of Music* ($5.00) contains *thousands* of musical biographies, and *Urbino's Biographical Sketches of Eminent Musical Composers* ($1.50) will post you as to the principal modern masters.

Do you wish to solve any musical problem?

Stainer's Dictionary of Musical Terms will solve it for you. Cloth, ($3.00); Boards, ($4.00).

Are you posted in Musical History?

If not, do not fail to purchase forthwith *Ritter's Students' History of Music*, ($2.00) and be no longer ignorant.

These books constitute a valuable reference library, and will speedily repay the price to those who wish to write or talk with accuracy on musical subjects.

The Housekeeper's Friend.

A friend in need is a friend indeed, and such a friend you will always find in Sulphur Bitters. They cured me of dyspepsia, when I had given up life in despair and was almost at death's door. They are a true friend of the sick.—Mrs. E. Crague, Hartford, Connecticut.

Masked men visited the house of John Wright at Barter Settlement, N. B., and at the muzzle of a revolver compelled him to deliver up his money, about $1,000 in English and American gold, the savings of his entire life.

All cases of weak or lame back, backache, rheumatism, &c., will find relief by wearing one of Carter's Smart Weed and Belladonna Backache Plasters. Price 25 cents.

Alberia Pacquet of Montreal, aged twenty-one, who was deceived by a mock marriage with a young man belonging to a prominent family, has ended her life with laudanum. He deserted her when her child was born. She was without money, and did not know where to find her relatives. She left a letter expressing forgiveness of the wretch, and did not expose his name.

Palpitation of the heart, nervousness, tremblings, nervous headache, cold hands and feet, pain in the back, and other forms of weakness are relieved by Carter's Iron Pills, made specially for the blood, nerves and complexion.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

New Hampshire Free Masons.

The annual returns of the Grand Royal Arch Chapter of Free Masons in this state have been received by the eminent grand secretary. The statistics are as follows: Number of chapters, 21; persons admitted to membership during the year, 125; restored to membership, 1; dismissed, 17; died 38; membership forfeited for non-payment of dues, 4; exalted, 115; present membership, 2517; increase, 67. The largest chapter is Mount Horeb of Manchester, 288 members. The financial report shows a gratifying increase in receipts. The following have been commissioned as representatives of the Grand Chapter: Henry M. Porter of Walla Walla, Washington territory, and Alexander D. MacGillivary of Sydney, Nova Scotia.

Official Crookedness in Canada.

J. N. Walters of Montreal has been arrested at the instance of Jules Brousseau. The charge is that on July 12th he endeavored to persuade Mr. Brousseau, a customs official, to deliver him certain books containing entries and references to the importation of certain goods into Canada by J. C. Ayer & Co. Brousseau alleges that he was offered $10,000 by Mr. Walters for the books, and $25,000 to give no evidence about the seizure of the goods. The customs officials say that on the 29th of last month Ayer & Co. were fined $147,380 by the customs department for undervaluation of goods, and that this fine had not been paid, so the firm wanted to get possession of the customs books, which are the only positive proofs against them. It is expected that if the case comes to court the evidence will be sensational, as Mr. Walters threatened to make some very damaging statements about the way the custom house in Montreal is managed.

The Apple Crop.

Returns from 1,500 correspondents to the *New England Homestead*, of Boston, show a poor prospect for the New England apple crop. It is the "even," or bearing year, for apples in New England, but though there is a large yield of fall fruit the reports indicate that the total crop of apples will be but about seventy per cent. of the usual "even" year yield in the six states, the yield of winter fruit being very poor as to quantity

In the best apple counties of Vermont, along Lake Champlain, not two-thirds of a full "even" year crop will be secured, while Maine reports a decrease of twenty per cent; but both of these states, and New Hampshire, will have a large surplus. Connecticut has but half a crop, and Massachusetts eighty per cent.

But the falling off in New England will be partly made up by the great crop in the apple sections of Nova Scotia, Annapolis and King counties, which last year exported only 40,000 barrels, but this season will have a surplus of 100,000 barrels.

Perhaps the most significant fact revealed in this important report is that the great apple counties of western New York announce "the lightest crop in twenty years, and the worst feature is that the quality promises to be comparatively poor."

Try Carter's Little Nerve Pills for any case of nervousness, sleeplessness, weak stomach, indigestion, dyspepsia, &c., relief is sure. The only nerve medicine for the price in market. In vials at 25 cents.

At Jefferson, Ga., Aug. 17th, by consent of the parents, William Thornton, aged fourteen, and Mattie Smith, aged fifteen, were married.

Give your laundress Pyle's Pearline and she will not ruin your clothes with soda, lime, etc., which many of them use to facilitate the washing.

A PETRIFIED FOREST.

Many will recall the blocks and logs from the petrified forest of Arizona which were placed on exhibition at New Orleans. These forests are not infrequent, even in regions that are now entirely destitute of trees, up and down the countries west of the Rocky Mountains. I have also seen remarkable specimens of petrified trees in the rich mineral district of North Carolina. The only precious stone that America has contributed to the gems of the earth, I mean the only new gem, of course, is found in a region celebrated for petrified woods.

This Calistoga country is surrounded by mines. In fact, Napa county contains nearly all the precious things that earth contains. So that it would seem that gold and precious stones are in the air, if not in the water. What I mean to say is, there seems to be something in the air or the water that converts wood to stone and creates gold and precious stones at the same time and place.

Years ago I wrote and published in a London magazine an article in which I undertook to prove that gold grows—grows the same as grain or potatoes or anything else. I reckon I did my work crudely, not knowing anything about chemistry or even the ordinary terms of expression about such matters; and so my earnest and entirely correct sketch was torn all to pieces and laughed to scorn.

Well, I have at last found positive proof of my general statement right here in these mountains by the Pacific sea. Briefly and simply, I have found a piece of petrified wood with a little vein or thread of gold in it. How did that gold get into this piece of wood? Was it placed there by the finger of God on the morning of creation, as men have claimed was the case with the gold found in the veins of the mountains? Nonsense!

Gold grows! Certain conditions of the air, or certain combinations of earth and air and water, and whatever chemicals may be required, and then a rock, a piece of quartz, or petrified tree, for the gold to grow in, and there is your gold crop! Of course, gold grows slowly. Centuries upon centuries, it may be, are required to make the least sign of growth. But it grows just as I asserted years ago; and here at last I hold in my hand such testimony as no man in this world will be rash enough to question; a portion of a petrified tree with a thread of gold in it.

My learned friend, Prof. Marsh, of Yale, spent a long time here in this Calistoga wonderland; and you can turn to his theory of the cause of these wondrous forests of stone with profit. But I must content myself with brief descriptions and leave the theories or reasons for this or for that to more learned folk than myself.

There is a little house here which is built entirely of petrified trees. Only to think of living in a long cabin that has turned to stone! What a splendid idea for possessing a specimen of the simple homes of our honest and hard-working ancestors!

Over yonder on the mountain, from which you can see the Pacific ocean, is perhaps the largest petrified forest in the known world. We drove there quite carefully, several ladies contributing to the pleasure of our party. But the road is rough. A corduroy road of stone trees is a hard road to travel.

I found some trees there of tremendous dimensions. One of the largest measured more than ten feet through. They are, of course, all prostrate. Many are almost entirely hidden in the loose, rich, ashen soil. This soil is made up of pumice-stone and other stuff which has been blown up out of the heart of the crater in the old volcano days.

These trees lie crosswise, on end, upside down, and in all degree and angles that you can think of. They lie like as if they might have been tumbled up and thrown in here by the sea. But Prof. Marsh says they probably grew here on this spot where they now lie tumbled together, and most likely were destroyed by the ashes and pumice-stone and scoria that still partly covers them.

One thing that confuses me is their kind, or rather the impossibility of finding out what kind of trees they are. You know that anyone who has made friends with the trees can go into any house and lay his hand on every specimen of wood there and tell you its name and kind. But not so here. This gray, ashen bark confounds me. The veins and circles and sap courses of these trees are all new to me. These ghostly and ashen old trees are of another kind and class. Sometimes I feel certain that I have a piece of pine in my house. Sometimes I find a perfect trunk of pine tree fifty feet long. But when I come to examine it more closely the hand is the hand of Esau, but the voice is the voice of Jacob. I have the tough bark of the hickory, but the body of my hickory tree is like that of the palm. And so all is confusion; all ideas of class and kind are tumbled about crosswise and upside down, just as the petrified trees are.—*Joaquin Miller's Letter to Chicago Times.*

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

The Young Bride's Purchases.

Yesterday I bought a little red receipt book of a pleasing young man who called at the door. His eyes were so deep and dark, and his voice so pleading, that I would have purchased the book if I had to borrow the money. The book is a very useful one and it is bound in the same color as my new dog.

It tells how to make custards, blanc manges and floating island. It also tells you in the back part how to cure heaves, glanders and bots. I can hardly wait till George gets the bots, so that I can bring out my little red volume and win him back to life and joy again. It also gives away other information. Anyone

Tired, Languid, Dull,

Exactly expresses the condition of thousands of people at this season. The depressive effects of warm weather, and the weak condition of the body, can only be corrected by the use of a reliable tonic and blood purifier like Hood's Sarsaparilla. Why suffer longer when a remedy is so close at hand? Take Hood's Sarsaparilla now. It will give you untold wealth in health, strength, and energy.

Joseph Allard, a French Canadian boarding with John A. Horn of South Berwick, left his work in the Salmon Falls mills one day last week, and told the boarding mistress that he was unwell and was going to his room to lie down. He soon afterward left the house, saying he was going for medicine, and shortly after his departure the lady of the house went up stairs and found that Allard had ransacked a trunk belonging to two girl boarders, and taken their pocket book, containing fifty-five dollars. The thief was immediately searched for, but had made good his escape.

Admirals

In U. S. navy get $13,000 salary—vice-admirals $9000, rear admirals $6000, commodores $5000, captains $4500, and they are worth it, for they unitedly add their endorsement to the G. O. Taylor Bourbon and Rye Whiskey as the purest alcoholic stimulant, so necessary to seafaring life, yet manufactured. It is bottled by C. H. Graves & Sons, Boston. Your grocer and druggist will endorse it with praise as a pure article.

Management of Corporation Finances.

The directors of the National City bank, of Boston, have passed resolutions recognizing the "financial judgment and business ability" of the late president, Mr. S. R. Payson. Mr. Payson was all that his late associates claim for him as to courtesy and kindness, but if the Boston notion of financial judgment, etc., is to be measured by the exercise of this quality in permitting a man of no especial fitness for the place, to spend in a treasurership large sums of a corporation's money in extravagant living, with a knowledge of the fact, and yet make no personal investigation of the stewardship, then it must be decidedly below the proper standard. Mr. Payson, an honest man himself, appears not to have troubled himself to ascertain if his treasurer was also a man of integrity.

In Massachusetts, corporations can become indebted in a sum equal to their capital stock. In New Hampshire their liabilities may be as much as one-half of the capital actually paid in and unimpaired, and other property and assets. The treasurers of manufacturing companies have not been very carefully overlooked in respect to the observance of this law. Again, a man who is treasurer of two corporations of this kind has a grand opportunity to play between the two. If directors have not time for overlooking the financial affairs of their corporations, it may be that in the interests of the small shareholders and the creditors of such institutions, the state will have to assume a supervision similar to that of railway and banking corporations.

Many corporations have by-laws or votes which prohibit the making of a corporate money obligation except with approval of two directors, but in spite of the fact that such approval is easily obtained, oft-times without special knowledge on the part of the directors, the custom is generally more honored in the breach than in the observance of the rule.

Of course after a disclosure like the Snelling or the Gray affair, many plans for improving the systems of management of these concerns will suggest themselves; but the safe guard will prove in the selection of competent and trustworthy men for these positions, and not electing those who are of the Barclay and Barnacle family, who must be in some such way provided for, and who may be able to maintain a long series of peculations which the "experts" either do not reveal or are unable to discover.

The Great Yacht Race.

The first of the trial races to decide which of the four big sloop yachts (the Puritan, Priscilla, Atlantic and Mayflower) is the best to defend the American cup in the races with the challenging British cutter yacht Galatea, was sailed on Saturday over the New York yacht club inside course, so called, from a point in the harbor to the end of Sandy Hook, then around the Sandy Hook light-ship, and back nearly to the starting point. As was considered very possible by the knowing ones, the Mayflower won the race; but contrary to expectation the much-derided "rule o' thumb" sloop Atlantic beat the Puritan, last year's champion, and the Priscilla brought up in the rear. There was a good breeze, and the changes did not favor any particular boat. The following table gives the starting time of the yachts, and the time allowed the Atlantic, Puritan and Priscilla by the Mayflower:

Name.	Allowance. h. m. s.	Start. h. m. s.
Atlantic	1 08	10 12 07
Puritan	9 28	10 12 50
Priscilla	1 23	10 13 39
Mayflower, allows		10 14 28

The following table gives the time of each yacht's crossing the winning line, the actual sailing time, and the correct time of each:

Name.	Finish. h. m. s.	Sailing time. h. m. s.	Corrected time. h. m. s.
Mayflower	3 51 10	5 36 44	5 36 44
Atlantic	4 00 42	5 48 35	5 47 33
Puritan	4 02 11	5 50 21	5 47 53
Priscilla	4 00 45	5 46 23	5 55 13

Thus, over a course of thirty-eight miles, the Mayflower beats the Atlantic 10 minutes 51 seconds, the Puritan 11 minutes 11 seconds, and the Priscilla 18 minutes 29 seconds, the Atlantic beats the Puritan for second place by 20 seconds, and the Priscilla 7 minutes 38 seconds; while the Puritan beats the Priscilla 7 minutes and 18 seconds.

Advice Gratis.

A despatch of the 20th from Newport, R. I., says:

To-day Secretary Whitney and party have been inspecting the torpedo station. One of Herreshoff's new launches came down from Bristol and took the party about the island to witness some excellent torpedo firing. The launch broke down, and the party had to be transferred to the War College launch.

We commend to the secretary the advice of the British poet—

"Stick close to your desk and never go to sea,
And you yet may be ruler of the grand Navee."

Still Another.

Dr. C. C. Beers of Boston and Mrs. Robinson of Somerville were on Saturday arraigned on a charge of poisoning Lizzie A. Robinson, daughter of Mrs. Robinson. The police say they have a strong case against both.

Great Storm.

A violent easterly gale prevailed at Galveston on the 20th inst., and the sea inundated the whole southern and southeastern portion of the city. Many families were driven from their houses. The water extended twelve miles inland, cutting off all railroad communications. Houses were floating through the streets near the beach. Several persons have been drowned.

At Victoria a passenger train at the depot was blown over. Masonic hall and freight depot wrecked, two church steeples blown down, two churches, high school building and jail unroofed, and two hundred houses destroyed. Indianola suffered terribly, and fifteen or twenty lives were lost.

Mr. Silas Braglion, a highly respected citizen of Wells, died of sun stroke the 13th inst. He was ill but a few hours.

Rheumatism

It is an established fact that Hood's Sarsaparilla has proven an invaluable remedy in many severe cases of rheumatism, effecting remarkable cures by its powerful action in correcting the acidity of the blood, which is the cause of the disease, and purifying and enriching the vital fluid.

It is certainly fair to assume that what Hood's Sarsaparilla has done for others it will do for you. Therefore, if you suffer the pains and aches of rheumatism, give this potent remedy a fair trial.

A Positive Cure.

"I was troubled very much with rheumatism in my hips, ankles, and wrists. I could hardly walk, and was confined to my bed a good deal of the time. Being recommended to try Hood's Sarsaparilla, I took four bottles and am perfectly well. I cheerfully recommend Hood's Sarsaparilla as one of the best blood purifiers in the world." W. F. WOOD, Bloomington, Ill.

For Twenty Years

I have been afflicted with rheumatism. Before 1883 I found no relief, but grew worse. I then began taking Hood's Sarsaparilla, and it did me more good than all the other medicine I ever had." H. T. BALCOM, Shirley, Mass.

"I suffered from what the doctors called muscular rheumatism. I took Hood's Sarsaparilla and am entirely cured." J. V. A. PROUDFOOT, letter carrier, Chicago, Ill.

We shall be glad to send, free of charge, to all who may desire, a book containing many additional statements of cures by

Formerly the New England manufacturers sought protection from the competition of their British cousins. Now they need protection from their sons-in-law, the treasurers of the corporations.

It is now stated at Washington that Secretary Bayard, in making his demand for the release of Cutting, acted upon misinformation, and that Consul Brigham withheld or perverted the facts. It is also stated that Cutting will soon be pardoned by the Mexican authorities. A little action by the secretary in behalf of the fishermen, whether such action was taken on information or misinformation, would be an agreeable change.

should be your crowning glory. Ayer's Hair Vigor will restore the vitality and color of youth to hair that has become thin and faded; and, where the glands are not decayed or absorbed, will cause a new growth on bald heads.

MAY the youthful color and vigor of the hair be preserved to old age? Read the following, from Mrs. G. Norton, Somerville, Mass.: "I have used Ayer's Hair Vigor for the past 30 years; and, although I am upwards of 60, my hair is as abundant and glossy to-day as when I was 25."

BE assured, that a trial of Ayer's Hair Vigor will convince you of its powers. Mrs. M. E. Goff, Leadville, Col., writes: "Two years ago, my hair having almost entirely fallen out, I commenced the use of Ayer's Hair Vigor. To-day my hair is 29 inches long, fine, strong, and healthy."

RENEWED and strengthened by the use of Ayer's Hair Vigor, the hair regains its youthful color and vitality. Rev. H. P. Williamson, Davidson College, Mecklenburg Co., N. C., writes: "I have used Ayer's Hair Vigor for the last ten years. It is an excellent preservative."

BY the use of Ayer's Hair Vigor, Geo. A. Dadman, Waterloo, Mo., had his hair restored to its original healthy condition. He was nearly bald, and very gray. He writes: "Only four bottles of the Vigor were required to restore my hair to its youthful color and quantity."

USING Ayer's Hair Vigor cures diseases of the scalp. F. H. Foster, Princeton, Ind., writes: "I had been troubled for years with a disease of the scalp; my head was covered with dandruff, and the hair dry and harsh. Ayer's Hair Vigor gave me immediate relief, cleansed the scalp, and rendered the hair soft and pliable."

PERSONAL

Charles H. Ropes, Esq., and wife, of New York, are at the Wentworth.

Mr. Thomas Scott and wife, of New York, are the guests of Mrs. J. W. Peirce on Middle street.

Col. James I. Christie, "of the Senate," dined appreciatingly at the Wentworth on Saturday.

Ex-Governor Hamilton of Maryland, and Mrs. Hamilton, are in town, the guests of Mrs. Richard Jenness.

Hon. John Wentworth of Chicago, who has been ill at the Rockingham for some time past, is nearly convalescent.

Mrs. Low, widow of Capt. Wm. W. Low of the navy, formerly of this city, is paying a visit to Miss Anne Peirce on Haymarket square.

Mrs. Harrington of California, accompanied by her daughter, who is a pupil in Miss Morgan's young ladies' school, passed through this city last week en route from Narragansett Pier to the Twin Mountain house.

Capt. John G. Moses arrived home on Saturday, having crossed the ocean from Europe in the Cunard steamship Pavonia, which left Liverpool on the 10th inst., and anchored below Boston late on Friday evening, the 20th.

Mr. Arthur Lovell, son of Mr. Daniel K. Lovell, arrived in this city last week on a visit to his father, whom he had not seen before for twenty wears. Though only about thirty years old, Mr. Lovell has had fifteen years experience at sea, his last voyage, just ended, having been to Australia and return as mate.

LED ASTRAY.

The New York papers due here on Friday reached the post-office on Saturday at ten o'clock A. M.

MUSIC HALL.

The scenery and accessories in Music hall have been repainted under the personal direction of Mr. David Richards, the well known scenic artist of Boston, and this evening the stage will present an improved and more inviting aspect. We are glad also to note that the stage carpets have been through Philbrick's renovator, and there will during the comedies, at least for the present, be no more "dust to dust." What is further needed in Music hall is a new drop scene, and this should be the next addition to this attractive place of entertainment.

Quite a number or summer guests will come from York beach this evening to witness the appearance of Miss Maud Banks in Music hall. A very large audience is assured.

On Saturday last we saw on the Parade a horse twenty years old, which had never been shod. His feet were in good condition—better than the average of horses of his age. His owner is a resident of one of our surburban towns.

The sea on Saturday was one of the heaviest during the summer, and the displays of surf at the outlying islands of our harbor were superb. The combers at Wallis' sands and Rye beach, and the dashing spray on the rocks at Dow's, were enjoyed by many visitors who went to see the sea on a little spree of its own. Three days of southerly wind raised a very strong swell.

We received on Saturday from Mr. Frank W. Hidden, whose exploits and adventures in boats have furnished several items lately, a note from the Union Bluff hotel, York beach, dated Aug. 20th and reading as follows: "I arrived here to-day by coach, and launched once more the noted clipper dory. Shall leave here for Marblehead to-morrow (Saturday) morning, with all flags set. I am giving all the little boys here a reception in the dory, and the proprietors and managers of the Union Bluff house are giving me a reception and a grand dinner at the hotel."

Gen. S. C. Lawrence's steam yacht Ibis was at anchor in Little harbor on Saturday.

Several men from Rye were examined on Saturday by Dr. A. W. Johnson of Kittery, surgeon of the marine hospital, as to their physical fitness to serve in the life-saving service at Rye beach.

At a convention of Knights of Labor of Rockingham and Strafford counties, held in Dover last Saturday to choose delegates to the national convention of the order to be held at Richmond, Va., Oct. 4th, Oliver H. Cook was elected delegate from the Portsmouth assembly, and James Quinn alternate.

An unusually brilliant illumination attracted very many persons on Saturday evening to halt before the residence of Dr. Edward S. Ryder on Congress street, where a night-blooming cereus, placed near a window and brightly lighted up by lamps, afforded to passers-by an opportunity to behold this beautiful and somewhat rare plant in bloom. From the prominent situation of the doctor's residence, in a street through which on a Saturday evening there is a constant throng of travellers, it is probable that more persons witnessed this beautiful display than had ever previously enjoyed the pleasure of beholding a similar exhibition in our city, though others in less frequented avenues have not infrequently been seen.

Lorenzo W. Carpenter of Nottingham was arrested on Saturday last by the sheriff on nine charges of selling liquor, and held to answer on each complaint. He subsequently settled with the solicitor of the county by paying $147, he promising to go out of the business.

The golden cross in the floral decoration at the Unitarian church on Sunday was much admired. It was made of marigolds.

Rev. Massena Goodrich supplied the Universalist pulpit Sunday morning, giving a very able discourse, highly acceptable to the congregation. Mr. Goodrich bears his years well, and while listening to him it was difficult to realize that so long a period had elapsed since he left this, his native city.

The Woman's Auxiliary Branch of the Diocese (Episcopal) of New Hampshire will meet in this city on Tuesday, Sept. 7th. Miss Emery of New York, president of the society, and the Bishop of China, are expected to be present.

The Vienna Pressed Yeast company have sent their energetic agent in this city, Mr. J. Wesley Young, a refrigerator for the proper preservation of his supply of bread rising. He can now keep on hand a large supply of their production, and have it always fresh.

The grandfather of William Gray, the defaulter and suicide, was in partnership with Theodore Chase of this city. The firm built many ships here between 1816 and 1826.

MOW THEM ALL.

The number of people from different parts of the country who visit the Point of Graves cemetery at this season of the year is surprisingly large. We have no doubt that a hundred persons might be counted daily. A very luxuriant crop of weeds is now growing in the yard, and we should like to suggest that the superintendent of burying grounds be empowered to use a scythe on the premises, and remove them. This is just the time to cut them before they go the seed.—*Times.*

Very good suggestion. And we make another, namely, that the superintendent or somebody else be empowered to employ a man with a bush-hook to cut paths through the brambles and underbush in the old north burying ground, where so many men eminent in the nation's history are lying, so that people from other parts of the country can visit that place as well as the Point of Graves. At present people from the large cities are afraid to go in there, for fear of not being able to find their way out; accomplished berry pickers might possibly make the venture, tempted by a desire to gather the crop of blackberries.

Naval Intelligence.

Comdr. Wm. M. Folger has been ordered to report at the ordnance bureau for duty as special inspector.

Passed Asst. Surgeon G. C. Lippincott is ordered to the naval academy.

Capt. Frederick V. McNair is detached from the Mare island navy yard, and placed on waiting orders.

Ensign Charles W. Jungen is ordered from the coast survey to the Ranger.

Commodore Bancroft Gherardi, governor of the naval asylum at Philadelphia, is to take command of the New York navy yard Oct. 1st, relieving Commodore Ralph Chandler, who will sail on the Essex some time in October to take command of the Asiatic squadron.

The U. S. S. Mohican sailed from Melbourne, Australia, Aug. 20th, for the Samoan islands, where she will remain during the sittings of the commission appointed to settle Samoan affairs.

Sailing orders for the Essex were issued last week. Her destination is the China seas.

Charles E. Bishop of Portland, Me., is said to be in New York watching for an opportunity to jump from the Brooklyn bridge. Why don't they let him jump, if he wants to? A few jumps would cure him.

The astounding statement is made that the expert accountant employed to make a semi-annual examination of the affairs of the Atlantic mills had long been aware of Gray's misappropriation of the corporation's funds, as had also the clerks under Gray, but he was able to convince the "expert" as well as the clerks that it was no part of their duty to know anything or say anything about the treasurer's doings.

The Japanese minister of marine has visited various navy yards to obtain information as to the manner in which this great country maintains its navy. He is just beginning to have it interpreted to him that the democratic party now is in power, and that Samuel J. Randall will not permit the party to vote any considerable sum for defences on land or at sea, and what navy we have is not at home when the minister calls.

The captains of the British sealing schooners recently captured by the revenue cutter Corwin in Behring's sea claim that they were fishing on the high seas; that their vessels were fitted out at Victoria, British Columbia, and carried British flags. On the other hand, it is said that they were killing seals several hundred miles within the limits of the Russian cession to the United States. The case will be referred to the British consulate in San Francisco for investigtion.

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it inhales of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon be needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, correctness, speedy and safe, is the quintessence of all that is preventive and curative in medicine.

It is sure to check summer complaint, prevent indigestion, destroy disease, arrest fever in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

[Concluded from 1st page]

with this book in the house can go to work and take a person right through a long siege of croup or yellow fever without a doctor, and there's a whole lot of law in it, so that George won't have to have a lawyer or a doctor, and we can save a great deal that way. Why will people fritter away their money on doctors and lawyers when they can get one of these books so cheap?

Yesterday our landlady gave me a slip of oleander, and I have planted it in a cute little pitcher in the window, where it is slowly growing as I write. It hardly seems possible that some day it will be a large tree with little yellow knobs on it.

All we need now is a home and some furniture, for I have already scoured the oleander.

I bought some rhubarb at the drug store this morning, and to-morrow I will make a couple of pies. George is passionately fond of rhubarb pies.—*Bill Nye in the Boston Globe.*

His Best Girl on a Strike.

"More trouble about capital," said the train boy, diving into his chest for a last summer's magazine to sell to a granger.

"What now?" asked the brakeman, putting back a daily paper, and lifting a kiln-dried orange.

"Best girl's on a strike," replied the news agent; "commands shorter hours, Saturday night, 8 to 10, with fifteen minutes intermission to take breath and listen for the old man at 9 o'clock, extra carmels for overtime, no new girls to be taken on without consent of the present force of employes, and a half day off for the matinee everytime a new dude comes to town."

"What's capital going to do about it?"

"Hard telling," said the news agent, with a weary smile; "I'm holding out just now and offer to take her and sign the old schedule and no questions asked, but there's a surveyor's party camped right outside of town, a 'Mikado' company makin' a flour nights' stay at the opera-house, and a Salvation Army storming the town, and the girl holds the key to the situation. Reckon I'll have to give in and sign the new scale."—*American Railroader.*

The bulk of Chinamen employed as servants in San Francisco sleep in what is known as Chinatown, leaving the house at nightfall and returning at daybreak. These men sleep in lodging houses or hotels. Under the wooden pavements of the streets are narrow passages with tiers of shelves on one side. These shelves are the beds on which the children of the Celestial Empire repose. It is these filthy, dark places which give the Chinaman such a bad name as a dirty fellow. The only light of these sous-paves comes from the entrance, close to which and side by side stands a fire. The sleepers often spend an hour or so smoking tobacco or opium, and so, what with the cooking apparatus, the dirt falling continually down through the pavement, the opium and tobacco smoke, the air is foul as it can be.

A FEW EARNEST WORDS.

Does any one who reads these lines feel tired or nervous? Have you despondent feelings? Is your appetite sometimes poor and again voracious? Do you notice brick-dust at the bottom of your urine? If you have these feelings, **DO YOU KNOW WHAT THEY MEAN!** Your Kidneys are Diseased!!! It may be only the beginning, but if not taken in time, Bright's Disease, and death in its most horrible form will be the end. **YOU CANNOT AFFORD TO TRIFLE WITH THEM.**

Mr. JOHN W. FURBUSH, an army veteran, of Wakefield, Mass., neglected these symptoms and was brought to Death's door. He took **HUNT'S REMEDY** and is well today.

Mrs. ALEXANDER L. NICHOLAS, of Phœnix, R. I., and a descendant of General Nathaniel Greene, was so near the grave her breath only came in gasps, but she was restored to health by using **HUNT'S REMEDY.**

The wife of Captain S. GREENWOOD, master of the well known Steamer Kanawha, had a large and painful swelling in the side, which was thought to be a tumor. It entirely disappeared after using **HUNT'S REMEDY.** Captain Greenwood himself was cured of terrible Catarrh of the Bladder by the same means.

These are only a few of many wonderful cases showing that **HUNT'S REMEDY** does cure the worst of all known diseases.

Do not, however, Delay. Observe the first symptoms and act promptly. You will certainly escape awful suffering and possibly death itself. For Sale by all Dealers.

THE OLDEST IN NEW ENGLAND

COR. BEER AND VAUGHAN STS

NEAR B. & R. R. DEPOT.

Having on hand the largest and best selected stock of

MONUMENTS, HEAD STONES, TABLETS, &C.,

this side of Boston, I would respectfully call your attention to the same, believing that in most cases it is better for persons about purchasing to see what they are buying than to buy of irresponsible agents who look from Photographs of Monumental work. Having a thorough knowledge of the business gained in the principal cities of the Union and still giving my personal attention, all will be satisfied who will give me a call, as to quality of work and prices.

Particular attention given to fencing cemetery lots with marble or granite posts or curbs.

"I regard Mr. Eddy as one of the *most capable and successful* practioners with whom I have had official intercourse."
CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent office."
EDMUND BURKE,
late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, ESQ.—Dear Sir: You procured for me, in 1849, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

NO. 18 CONGRESS STREET

"Babyhood," in its August issue, introduces a department of "Nursery Observations," consisting of short extracts from its large and varied correspondence describing special traits of children. It says: "Such a compilation of the observations of parents, representing as it will a great variety of circumstances and surroundings, should, we believe, be useful for the purpose of comparison, since comparison is the most helpful way of solving many questions, great and small, which arise in the minds of parents who are interested in knowing whether certain individualities are usual or peculiar. While making no pretensions to scientific achievement, such a record cannot fail in time to have a scientific value." The other departments of this number are unusually entertaining and instructive. One of the most important articles is "Diarrhœa from a Hygienic Standpoint," by Dr. H. D. Chapin. Other medical authorities discuss "The Baby in Its Carriage," "Sea Bathing for Children," and "Water Filters," Marion Harland writes on "Old Wives' Fables," and Mrs. Lucy White Palmer on "The Coming Guest." Fifteen cents a number; $1.50 a year; No. 5 Beekman street, New York.

Is He Your Friend?

Is the family doctor your friend? How many unnecessary visits does he make you? How many days does he keep you sick that you ought to be at your work, and so doing how many hard-earned dollars does he extort from you? Would it not be better for you to place your trust in Sulphur Bitters? Try them, they will be a true friend. Saving you a long sickness and a large bill, which you have hitherto paid to some avaricious doctor.—Editor State Journal.

The Salem and Peabody, Mass., leather manufacturers stand firmer than ever, and absolutely refuse to arbitrate the differences with their help.

Hay fever is a type of catarrh having peculiar symptoms. It is attended by an inflamed condition of the lining membrane of the nostrils, tear-ducts and throat, affecting the lungs. A acrid mucus is secreted, the discharge is accompanied with a burning sensation. There are severe spasms of sneezing, frequent attacks of headache, water and inflamed eyes. Ely's Cream Balm is a remedy that can be depended upon. 50 cents at druggists; by mail, registered, 60 cents. Ely Brothers, Druggists, Owego, N. Y.

A Russian passenger steamer was burned on the river Volga, Saturday, and 200 lives were lost.

For ten or twelve years I have been severely afflicted with Catarrh. Never before found such decided relief as from Ely's Cream Balm. I consider myself cured.—J. W. Buffington, Mechanicsville, N. Y. (Price 50 cents.)

At Hancock, Me., on the 19th inst., ice and hail fell in large quantities, breaking glass and destroying crops. At noon the next day bushels of ice or hail stones, some an inch or more thick, might have been shoveled up from the gutters, and at 7:30 in the evening pieces of fallen ice three-fourths of an inch in diameter remained unmelted.

We recommend Carter's Iron Pills to every woman who is weak, nervous and discouraged; particularly those who have thin, pale lips, cold hands and feet, and who are without strength or ambition. These are the cases for which Carter's Iron Pills are specially prepared, and this class cannot use them without benefit. Valuable for men also. In metal boxes, at 50 cents. Sold by druggists or sent by mail. See advertisement elsewhere.

Musical Queries

Occur to every musical person, whether professional or amateur, pupil or teacher. It is wise to have at hand standard books, like those of DITSON & CO., so that every question may be answered.

How shall I pronunce this Italian word?

Says the embarrassed pupil, who does not wish to appear verdant. Why, purchase *Luddem's Pronouncing Dictionary of Musical Terms*, ($1.00) in which the correct pronunciation of every term in common use in all civilized languages, is given.

Do you wish not to appear ignorant when any musical celebrity is mentioned?

The great *Moore's Encyclopedia of Music* ($5.00) contains *thousands* of musical biographies, and *Urbino's Biographical Sketches of Eminent Musical Composers*, ($1.50) will post you as to the principal modern masters.

Do you wish to solve any musical problem?

Stainer's Dictionary of Musical Terms will solve it for you. Cloth, $5.00; Boards, $4.00.

Are you posted in Musical History?

If not, do not fail to purchase forthwith *Ritter's Students' History of Music*, ($2.50) and be no longer ignorant.

These books constitute a valuable reference library, and will speedily repay the price to those who wish to write or talk with accuracy on musical subjects.

SCHLOTTERBECK'S

CORN, WART AND BUNION SOLVENT.

A CURE IS GUARANTEED.

A Healthy Body and a Clear Head.

If indigestion, constipation and biliousness torment the body, the head cannot be clear. These disorders react upon the brain most hurtfully, and produce a cloudiness in the organ of thought not experienced by a healthy man. Happily these brain-oppressing maladies may be entirely dispelled by that peerless alterative, Hostetter's Stomach Bitters, which cheers, refreshes and invigorates the brain and nerves, while it regulates the organs of digestion, assimilation and bilious secretion. It expels the morbid humors which poison the system through the bowels and the urinary passages, and exerts a powerful invigorating influence as well. Its cathartic action is never irritating, violent or painful, but even, natural and progressive. As an appetizer and sleep promoter, the Bitters is unrivalled; it mitigates the infirmities of age, relives the ailments peculiar to the gentler sex, arrests premature decay, and builds up an enfeebled physique.

Cure of a Sprain.

Macedon Centre, Wayne Co., N. Y., February 28th, 1885.

Some years ago I badly strained my stomach picking cherries, and have suffered greatly ever since. Nothing has been so beneficial as Allcock's Plasters. They entirely cured me of that trouble. I have also been afflicted with a lame ankle, but these Plasters soon enabled me to walk. I recommend them whenever I have an opportunity, as I have found them very useful for over ten years. Allcock's Plasters have always done me the greatest service, and I am every day more and more convinced that no household should be without them.

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

EDUCATIONAL.

The Question of Oral Spelling and its Many Advantages Fully Considered.

Public Opinion on Various Topics by Our Educational Teachers.

ORAL SPELLING.

Do I believe in oral spelling? Yes, most emphatically. Why? Because experience has taught me that I can't get good written spelling without it. I have tried it both ways.

I taught for several years under a superintendent who used to scowl up his forehead, strike his fist down upon the desk with a resounding blow, and inquire in thundering accents: "What is the use of oral spelling? What is there practical about it? When is it ever used, except in old-fashioned spelling-matches? Never! Then why will you waste your time upon it?"

This would happen about once a month, in teacher's meetings. I was younger then than I am now by a good many years. The repetition of this frightful demonstration caused me to bury oral spelling very deep in the past, and to be ashamed to mark its grave to show that I ever had an affection for it. I suppose I should have built it a huge monument out of despised spelling-books.

It stayed buried about three years, with its ghost haunting me all the time; no imaginary ghost either, as the horrible spelling on slates and paper would testify. I began to be discouraged,—no; by that time I was utterly discouraged.

I had become better acquainted with my superintendent, and knew that when he told us to work out our plans and follow our own individuality, that he meant it, and would wait patiently for the result. Still, I was always afraid of him, and am to this day. When he was down on a thing, he was very much down on it; and he was down on oral spelling,—(and *Colburn's Arithmetic*; my beloved Colburn's). So I didn't dare tell him I was resurrecting it; but I would manage to sly in an oral-spelling lesson of about ten minutes duration every day. I would have old-fashioned spelling-matches, side pitted against side, to further my plan.

It was dreary work at first; such slow, agonizing spelling would have driven you distracted; and I didn't wonder at it when they didn't know the names of the letters, and would call m an n, and *g, j*, and *y, p*. I am not talking about small scholars, but children who had been to school two years or more.

At first I couldn't begin to get around the class in the allotted ten minutes. Then I found it was of no use to try to begin with words that they ought to know,—words of six letters or more. But I made myself a list of three-letter words,—every word I could find in common use,—and began to drill on that. Soon they could spell those with some rapidity. Next, I made a list of four-letter words, and taught them to build from the three-letter. Those lists of words are in use in my schools now. Do you know how many four-letter words there are in common use? Over nine hundred, I believe. But not nearly as many of the three-letter.

In a few month's time the better spelling on slates and papers was very noticeable. When you have taught as long as I have, you will find that you cannot accomplish a remarkable improvement in *days*; it takes weeks and months to show the great change you wish.

Then when the superintendent,—we had a shorter name for him,—would come in and take up a slate, his countenance would fairly beam with delight. He would come almost daily with visitors to show them the children's work. Such a difference as there is in visitors! A teacher can tell it the minute they enter the room. Some of those gentlemen would come and be as pleased as the superintendent himself; while others would almost gnash their teeth in rage to think they couldn't find more fault. I remember them and know them now, although they have long ago forgotten me.

But in spite of the result I never dared mention the faithful service oral spelling did toward it. So much for experience. Now for actual practice.

When I take in a new class, I usually have an oral spelling lesson four days of the week, not over fifteen minutes long, sometimes not more than ten. But as the year's work begins to crowd, the children are all the while getting more proficient and I do not have them so often.

I never saw any one conduct a lesson as I do, so I will tell you my method. There is always one scholar in every school who is a natural speller, as you may say. Perhaps you may have noticed that he is correspondingly poor in number? It happens so many times. That first came under my observation as long ago as when I went to school. A girl in my class to whom it was almost impossible to teach anything in regard to number, once put the whole school to shame by spelling the word *eleemosynary*. She didn't know the meaning of the word any more than the rest of us, but by some unexplained gift she knew the spelling of it.

Station that child at the board, some part of it that is in view of every pupil in the room. When a word is misspelled have him write it upon the board correctly. Train him to pay as good attention as yourself, and to notice every error immediately. There, again, carry into practice the idea of having the error made but once. Instead of having half a dozen scholars stumble over the word until all have become so confused we hardly know the right way ourselves, the correct form is put before us at once. Don't let children see or hear any more *wrong* than you can help. Have I said that before? Never mind! I am afraid some one didn't notice it.

There are many things that can be done with the list of words. They can be spelled through at the conclusion of the lesson. They can be put into sentences for busy work. They can be copied on the slates. They can be written and spelled after school by the boy who saw fit to be inattentive during the lesson.

I must confess that oral spelling is about the least attractive lesson to the children of any during the day, and it requires all my invention to keep them interested. After spelling once through the class I have them change position, and notice how many words are failed; urge them to do as well or better the next time around.

One rarely gives more than twenty or twenty-five words for a written spelling lesson; while in spelling around three times in a room of of sixty children many times that number are given. My experience tells me that oral spelling still holds an honored place in to-day's education.—*Lizzie E. Morse, in Journal of Education.*

PUBLIC OPINION.

One object is to be continually kept in view in primary training, to have the child grasp and express the thought as quickly and rapidly as possible.—*A. P. Soule, Supt. of Schools, Hingham, Mass.*

Newspapers are the educators of teachers as they are of every other class. Reading newspapers will prevent that dogmatical assumption of superior knowledge which overtakes many teachers in middle age.—*American Journal of Education.*

In the higher grades, while great care is taken that the pupil shall acquire the sense of what he reads and be able to convey it correctly to others, the instruction takes a broader range. In these days, "what to read" is no less important than "how to read."—*A. P. Soule, Supt. of Schools, Hingham, Mass.*

It may even be found, when men and things shall be more justly weighed, that the quiet schoolmaster who thinks only of the task to which God seems to have appointed him, will be considered a factor quite as potent in all that tends to make a people great as the soldier who so dazzles the public eye, or the politician who manages to fill so much space in the periodicals of the day.—*J. P. Wickersham, LL.D.*

After all, the efficiency of the school system depends upon school superintendents. The duties assigned them by law are many; and those which devolve upon them in active administration of their offices cannot be *enumerated*. They are the life of the system; and it is their province either to make the school, a power for good in their jurisdictions or to render them obnoxious even to their best friends.—*R. R. Farr, Supt., Virginia.*

We are not permitted to know the future of our pupil, or what will be demanded of them when they enter upon the duties and assume the responsibilities of citizens; but it is safe to presume that they will need all the added strength which education can give to their natural endowment. In our instruction, therefore, we must have due regard to their entire being, and seek the cultivation and invigoration of each department of their three-fold nature,—body, mind, spirit; for any system of education is defective which ignores or neglects either of these.—*J. H. Davis, Somerville, Mass.*

In some localities, where vice and crime are the daily objective teaching the little ones receive, if the young are to be saved from the life and habits of their parents and neighbors, it must be done by throwing them in contact, for a portion of the time at least, with higher ideas of life and purer moral surroundings. Unless pupils of this class can be gotten into the schools when they are between the ages of three and nine, they can not be gotten in at all; for with them the struggle for bread begins at an early age.—*Henry A. Wise, Supt. Schools, Baltimore, Md.*

That system which makes the committee the power that appoints and dismisses teachers, says in what ways the money appropriated for schools shall be expended, and the supreme court of appeal in all cases of discipline and management; and the superintendent, the official head of the schools, to whom all matters of management and discipline must be referred, from whom all instructions must emanate, and by whom all differences must be settled, with right of appeal as above provided, is the system that places the responsibility where it belongs and secures the best results with the least expense of time and force.—*A. P. Marble, Supt. Schools, Worcester, Mass.*

As *character* is the end of all training, it is also the beginning of it; and the beginnings of a good character do not start from lessons learned in number, form, or language, but rather in the cultivation of the will, in the exercise of self-control, and the formation of correct habits of seeing, feeling, and acting. The purpose and spirit of the teacher are of more account than the matter taught. But as the intelligent mother deals gently and patiently with her child because she understands him, and instinctively studies his moods that she may understand him better, so the teacher possessing true insight will not only control wisely, but will adapt his teaching to that mind which he understands. Hence the true science of primary education is based on psychology; and in all our manipulations and methods we must take little for granted, and work inductively and slowly.—*S. S. Dutton, Supt. Schools, New Haven, Ct.*

Another Challenge.

Lieut. Henn, of the Galatea, challenges any American one-masted yacht to a race from Sandy Hook to and around Bermuda and back, for a cup not to exceed $500 in value, the race to take place ten days after the contest for the America's cup, the arrangements of the race to be in the hands of the New York yacht club, and the difference of tonnage for time allowance to be based upon the tonnage rule of the United States. In conveying this challenge the jovial Britisher says that, inasmuch as an English boat, to compete for the America's cup, must cross the Atlantic on her own bottom and thus indirectly prove to be seaworthy, he thinks the present time a favorable one to test the sea-going qualities of the English and American types of yachts. Commodore Geary of the New York yacht club answered Lieut. Henn's letter immediately, saying that he would lay it before the club at the earliest opportunity. Many of the American yachtsmen take kindly to Lieutenant Henn's idea, and the Bermuda race is among the probabilities.

The Sea Serpent Again.

The sea serpent was again seen off Gloucester, Mass., Sunday forenoon, by a sailing party consisting of George W. Scott, an old sailor; John H. McCormack, president of the Gloucester common council; Councilman Favor, Charles A. Brown of the Boston custom house, and Captain David Worth. The boat approached within 200 or 300 feet of the monster, which at first looked like a huge spar nearly 100 feet long lying upon the surface of the water. As the boat drew nearer a huge head was raised six feet above the water, and two glistening eyes could be plainly seen. It then quickly disappeared, but soon came again to the surface a long distance away. Another glimpse of it was seen, but the animal soon disappeared from view, and was not afterward visible.

YOUR HAIR

should be your crowning glory. Ayer's Hair Vigor will restore the vitality and color of youth to hair that has become thin and faded; and, where the glands are not decayed or absorbed, will cause a new growth on bald heads.

MAY the youthful color and vigor of the hair be preserved to old age? Read the following, from Mrs. G. Norton, Somerville, Mass.: "I have used Ayer's Hair Vigor for the past 30 years; and, although I am upwards of 60, my hair is as abundant and glossy to-day as when I was 25."

BE assured, that a trial of Ayer's Hair Vigor will convince you of its powers. Mrs. M. E. Goff, Leadville, Col., writes: "Two years ago, my hair having almost entirely fallen out, I commenced the use of Ayer's Hair Vigor. To-day my hair is 29 inches long, fine, strong, and healthy."

RENEWED and strengthened by the use of Ayer's Hair Vigor, the hair regains its youthful color and vitality. Rev. H. P. Williamson, Davidson College, Mecklenburg Co., N. C., writes: "I have used Ayer's Hair Vigor for the last ten years. It is an excellent preservative."

BY A. Dadman, Waterloo, Mo., had his hair restored to its original healthy condition. He was nearly bald, and very gray. He writes: "Only four bottles of the Vigor were required to restore my hair to its youthful color and quantity."

USING Ayer's Hair Vigor cures diseases of the scalp. F. H. Foster, Princeton, Ind., writes: "I had been troubled for years with a disease of the scalp; my head was covered with dandruff, and the hair dry and harsh. Ayer's Hair Vigor gave me immediate relief, cleansed the scalp, and rendered the hair soft and pliable."

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

JOHN LAIGHTON,

NO. 1 MARKET SQUARE.

Kansas City Investment Co.

An Examiner from our Western Office makes a personal examination of every piece of Real Estate on which our Loans are based. His Report accompanies the Loan. We thus know that all statements made in the applications are correct. Loans taken in this way are perfectly secure. We offer these Loans ranging from $200 to $10,000 with every assurance that they are as safe as anything in the market.

For fuller information enquire at our Eastern Office, over 1st National Bank, Portsmouth.

EASTERN RAILROAD IN NEW HAMPSHIRE

CLERK'S OFFICE,
PORTSMOUTH, Aug. 12th, 1886.

THE following described Certificates of Shares in the Eastern Railroad in New Hampshire having been lost, to wit: Certificate No. 1454, dated Sept. 18, 1851, for five shares, and No. 1936, dated Aug. 31, 1855, for seven shares, belonging to the estate of Otis P. Lord, late of Salem, deceased, not found among his papers and supposed to have been lost, loaned or destroyed in some manner to the Executor of said Lord's will unknown. Also, Certificate No. 3698, dated July 9, 1864, for ten shares in said Corporation, which last named was issued to and was owned by E. G. Sylvester, and was stolen on the 14th day of June, A. D. 1882, at Hanover, Mass., when his safe was robbed. Benjamin Kimball, Executor of the will of said Otis P. Lord, and said E. G. Sylvester having severally applied to the Treasurer to have a Certificate issued in lieu of each of those lost or destroyed as before named: this is to give public notice of said loss as required by the By-Laws of the Corporation, and all persons are hereby called upon to show cause why a new Certificate should not be issued in lieu of each of those lost, the owners of said Stock being ready to comply with the requirements of the By-Laws in such case made and provided.

ATKINSON & COOK'S DRAMATIC COMPANY.

A very large and fashionable audience gathered in Music hall on Monday evening to witness Miss Maud Banks' debut in the character of "Parthenia," in Ingomar the Barbarian. The young lady was warmly greeted on her first appearance, and was called before the curtain at the end of every act. She is tall, has a fine stage presence and expressive facial play, speaks very distinctly, and is perfectly self-possessed; but in many passages she spoke scarce loudly enough, which we judged was owing not to lack of power, but to lack of experience in speaking for large audiences, as occasional lines were given with all the volume of tone required, without apparent effort. The audience were greatly pleased with her efforts, and with the performance as a whole, the support being excellent.

This evening the new drama "Love and Money" will be produced. The sale of seats has been very large, and another full house is assured.

AN EXCITING TIME.

A man named Post, recently discharged from the marine force at the navy yard, on Monday night about ten o'clock rose from his bed in Mrs. Zambelli's lodging house near the foot of State street, went through the scuttle to the roof, passed over the next house of the three-tenement block to the roof of the house occupied by Mr. Daniel L. Randall, climbed to the top of the chimney, which is (or was) twelve feet above the roof, stood upright, with nothing on but a shirt, and yelled "Murder" in tones distinctly heard on Mason's hill.

A big crowd soon gathered, and all sorts of attempts were made to get the man down; but the bricks on top of the chimney were loose, the house is three stories high, and whenever the man saw a head too near to suit him he shied a liberal lot of bricks at it, and yelled "Murder" louder than ever. Under these circumstances he was allowed considerable room, and not crowded by the spectators.

About midnight there were on the roof, parleying with the maniac, three men—Police Officer Richard D. Smart; William Quinn, the fish dealer; and Peter O'Donnell, the coal heaver. Each knew that he could depend on the others in any emergency, but it was a mighty ticklish position to be in—on top of a three-story house, in company with a crazy man armed with all the bricks he could use, perched so far above them that he could not be reached by a rush, and who raised a brick threateningly every time he was approached too nearly. At length Mr. O'Donnell induced the man to shake hands with him, and as he reached down for that purpose "Pete's" grip closed on him, and a second later the two men were flat on the roof; the other two sprung to Mr. O'Donnell's aid, the maniac was overpowered and taken to the police station, and the two hour's excitement was over.

The three men who secured the crazy fellow are deserving of much credit for their humane courage; it was no child's play they were at, as it was impossible to tell at what moment any of them might get a smash in the face with a brick, and they were at a great disadvantage.

POLICE COURT--BATCHELDER J.

MONDAY, Aug. 23d.

Thomas Taylor, for drunkenness, was fined $8, costs $6.90; county farm in default of payment.

Albert Weeks, for drunkenness—a drunk of very large size, evidently—was fined $5, costs $6.90; county farm for him also.

Albert Jones was charged with the larceny of $20 from Franklin C. Hoyt. There was no denial of his taking the money, but he said he took it solely with the intent of keeping it for the owner, who was in no condition to take care of it himself; the latter also said he did not think the money was taken with any dishonest motive, and Jones was dismissed.

Many of the summer hotels and boarding houses in this vicinity have commenced to reduce the number of their help.

Capt. Edward F. Baker, formerly of the Shoals steamer Appledore, is now in command of the yacht Daisy, which was on Monday afternoon lying at Union wharf waiting the arrival of the owner, George F. Knight, who had gone to South Berwick for a company to sail for Bar Harbor.

The Rye coaches left this city on Monday evening with full complements of passengers bound for the beach hotels. The travel is going both ways now.

The steamer Oceanic brought in a large party from the Shoals on Saturday afternoon, most of them proceeding to the Farragut house, Rye, by Balch's teams. On her evening trip out she took a very large company from this city.

Twenty-five workmen of the Portsmouth Brewing Co. had a picnic near Wallis' sands, Rye, on Sunday last. They had an early breakfast, and a fish chowder for dinner, the affair passing off very pleasantly.

The little steamer Three Brothers, Capt. Upton, came to this port from Salem on Monday with an excursion party.

It is reported that Mrs. Ellen M. Brown, widow of the late Paymaster Z. T. Brown, U. S. N., will give up her residence on Islington street, and pass the coming winter in Washington.

The Riverside base ball club had a pull to Dover and back in their new boat on the 22d inst. The Athletic club's boat went to Chauncy's creek the same day with a big party; including persons who reached the spot by other means of conveyance, there were fifty-five on hand when the chowder was ready to be served.

Among the camping-out parties at Dow's woods, Rye beach, on Sunday, was one consisting of two young men from Farmington, Mass., who drove from that place to the beach in their own team, making easy stages, and pitching their tent by the roadside whenever they felt inclined to stop. They were enthusiastic over the attractions and conveniences of Dow's as a camping ground.

The schooner Winner, Frye master, with coal to E. F. Sise & Co., arrived at this port on Monday.

Col. J. Horace Kent and wife started on Monday morning for Manchester, to join Gov. Currier and party for a sojourn in the White mountains for the rest of the week.

The Boston & Maine railroad has sent notice to shippers of freight that, on account of the adoption of the weekly payment system, it will be necessary that charges on such shipments should hereafter be paid weekly.

Mr. Frank J. Culbert is canvassing Portsmouth for the sale of the Gem Water Filter. Although we have good water it is not entirely free from impurities, and to make it absolutely pure as it comes from the faucet, the Gem is away ahead of any filter ever invented. It is a simple contrivance, but does its work thoroughly; its structure has a sound scientific basis, and when the water has run through it no foreign substances are discoverable, even by the strongest instrument. The Gem can be readily fitted to any faucet. It comes cheap, and water drinkers will find it a desideratum. Orders addressed to Postoffice Box 191 will receive prompt attention.

Mr. William W. Carmen, superintendent of the Portsmouth Machine Co., retired from connection with the corporation on Saturday, as did also Mr. Edward P. Carmen, the foreman. The latter was presented with a handsome cathedral clock by the employes of the shop, as a mark of their respect and good will. The retiring superintendent was agreeably surprised on Monday by receiving a very handsome and valuable gold ring, presented by a large number of the men lately under his charge, the donors' names being exquisitely engraved on the inside.

It will the seen by our advertising columns that the favorite steamer Oceanic, Capt. Wm. Robinson, will take passengers on Tuesdays and Fridays of each week until the close of the season at half rates, affording the round trip at the reasonable sum of fifty cents. The attractions of the island are none the less by reason of a reduced cost of reaching them. The steamer leaves at 11:15 A. M.

A feeble old gentleman named Freeman, living on Hill street, while crossing Pleasant street Monday afternoon, near the postoffice, was knocked down by a team, and was taken to his home in a hack.

A boy about eleven years of age was picked up Saturday by the police at the old Raynes shipyard, drunk way through. Whoever aided in getting him in that condition, either by supplying him with liquor or countenancing such an act, should be made to feel the full force of the law, if possible, and the police would have the countenance of every decent person in the city in discovering the authors of the outrage.

Arthur Rand, a graduate of the Portsmouth high school, is announced as about to enter a commercial college in Boston.

The schooner Martie A. Holmes, from Newport News with 220 tons of coal, and the Annie A. Holton, from Elizabethport with 190 tons, both to J. Albert Walker, arrived at this port on Monday.

Daniel Littlefield, at No. 13 Green street, is in regular receipt as usual of that superior hickory and oak firewood, which as all who have used it are aware, cannot be excelled in this market. Mr. Littlefield claims that it cannot be equalled, and invites parties in want of wood to call and examine, and satisfy themselves on this point. His prices are as low as the state of the market will permit.

The steamer Mystic went to the Shoals on Sunday. She carried out eighty-three passengers and brought back seventy-nine. It was somewhat rough and a few of the passengers were sea-sick.

The Boston *Transcript* says: "Mr. E. C. Stedman has purchased, for a summer residence, part of John Albee's farm, near Portsmouth, N. H."

HARMLESS WITH SANFORD'S GINGER.

The colored brother laughs in anticipation at the feast before him. The melon is tickled beyond expression as it thinks of the kinks it will tie in the darky's stomach. The owl, wise bird, hovers near, knowing that SANFORD'S GINGER will soon needed.

SANFORD'S GINGER, compounded of Imported Ginger, Choice Aromatics, and French Brandy, convenient, speedy and safe, is the quintessence of all that is preventive and curative in medicine.

It is sure to check summer complaint, prevent indigestion, destroy disease germs in all water drank, restore the circulation when suspended by a chill, and ward off malarial, contagious and epidemic influences.

be interesting to have preserved a full record of such misapprehensions. The wish to add a trifle to such a record has led me to note some common superstitions concerning animals and plants, which have come under my own knowledge. Children have quick perceptions, and therefore are good observers or seers. The observations they make, however, regarding the animals and plants about them, while often in themselves quite accurate, lead to very incorrect conclusions. This is because children do not reason deeply. It takes a long time for them to learn that not once or twice, but a great many times, must one phenomenon follow certain other preceding phenomena to warrant the use of the logical terms *effect* and *cause*. Caution in forming deductions comes only with experience and education. Children have keen eyes for any strange peculiarities as well as for real or fancied resemblances, and are quick to appreciate the qualities of plants. An enthusiastic botanist and teacher, speaking of children said, "They bow as some fetich before poisonous plants." Monstrosities in Nature fascinate them. Double apples, strangely shaped knots from trees, grotesque roots, curious lichens adorn many "play-houses." Their readiness to get hold of the properties of plants explains how it is that children (boys particularly, because they are more in the out-door world) find so many things to eat in the woods and fields. A boy accustomed to tramp about will seldom go a hundred rods afield before he begins to nibble or chew something that he finds growing in his path. Can you not recall a dozen wild things of which you were fond in childhood which long ago passed from your list of edibles? Sassafras-bark, both of twig and root, spice-wood, "slippery-elm," the buds of the linden-tree, the tender shoots from the spruce and larch, all tickle the palate of the boy or girl. Men whose boyhood was passed anywhere in northern New England may recall how fond they once were of something which they called "silver," the cambium layer of the white pine. In certain places it is the fashion to chew the leaves of the Antennaria, "Indian tobacco"—in others, dandle-blossoms. Will ever honey taste as sweet as did the dainty droplets taken direct from some unfortunate bumble-bee captured and dismembered by the boy seeking what he may devour?—*Fanny D. Bergen, in Popular Science Monthly.*

The Seventeen-Year Locust.

The seventeen-year locust isn't a locust at all. This may seem a strange thing to say, but it is true, nevertheless. The locust looks very much like a grasshopper, while the seventeen-year cicada, which is the insect's proper name, looks a great deal more like a gigantic fly than anything else.

Last year spending the best part of your life prowling about in the darkness underground and then coming up into the sunlight with a gorgeous pair of wings, only to die in a short time!

That is what the seventeen-year cicada does. In the very first place, it is an egg which its mother deposits in a tiny hole in a twig. In a few weeks it makes its way out of the egg and drops to the ground, into which it burrows, and in which it remains for nearly seventeen years before it is prepared for life above ground.

When, at last, it is ready for the bright sunlight, it may be one foot from the surface or it may be ten feet deep in the ground. In either case it begins to dig upward until it finds its way out, when it climbs up the nearest tree and fastens itself by its sharp claws to a leaf or twig. There it waits until its back splits open, and behold! it immediately crawls out of itself, so to speak.

The new insect is a soft, dull fellow at first, but he grows as if he had been storing up energy for seventeen years for just that one purpose. Within an hour, two pairs of most beautiful wings have grown, and in a few hours more it has become quite active.

The female cicadas are quiet enough, but the males are as noisy as so many little boys with new drums. Indeed, they do have drums themselves. Just under their wings are drums made of shiny membrane as beautiful as white silk, and these are kept rattling almost all the time.

One cicada can make noise enough; but imagine the din of millions of them all going at the same time. It sounds as if all the frogs in the country had come together to try to drown the noise of a saw-mill. Now it is the saw-mill you hear, and now the frogs.

It sounds like a big story to say millions, but if you could go into the woods where they are, you might be willing to say billions. I have counted over a thousand cast-off shells on one small tree, and on one birch leaf I have seen twelve shells. And the earth in some places is like a sieve from the holes made by the cicadas.

But within a few weeks from the insects' first appearance their eggs have been laid and the cicadas have all died. A great many of them are eaten by the birds and chickens, but most of them simply can not live any longer.—*John R. Coryell, in "Jack-in-the-Pulpit" St. Nicholas for July.*

How to Tell the Time by Night.

(From the Buffalo, N. Y., "Times.")

Perhaps the most ingenious thing in the way of an advertising novelty that has come out for many years, is a unique contrivance issued by the Duffy Malt Whiskey Company, Baltimore, Md., proprietors of Duffy's pure malt whiskey. Unlike most things of the kind, with which the country has been deluged heretofore, this is a decided departure from the usual run, and aside from being one of the most attractive things we have ever seen, it involves a new discovery in science which is both interesting and instructive. So valuable was this discovery regarded it was awarded a first prize gold medal at the Brussel's International Exposition, and it seems almost like prostituting science to put it to advertising purposes as it is something that is invaluable to institutions of learning, and would readily command a good price if put on sale. However, the Duffy people, appreciating its importance, have gotten it out in the highest artistic style, such as will secure for it a permanent place in every house in the country.

The device is called Duffy's Ancient Mariner's Stellar Time-Piece, its object being to furnish a guide whereby the correct time may be ascertained at any hour of the night, by observance of the North Star and three other bright stars near it, the four stars forming a Cross or Crucifix, which revolves round the celestial pole like the hands of a clock. By the aid of the Duffy's device, which represents a miniature firmament and tabular dial, the time can be ascertained almost to the minute which is destined to render it invaluable to Mariners, Hunters, Fishermen and to the masses generally, as after a little practice, even a child will be able to tell the time at night.

Although the device is quite an expensive one, the proprietors intend distributing it free and in time every-body in the country will have one. Requests for same by mail, must be accompanied by six cents in postage stamps addressed to their Supply Department, as already they are flooded with applications.

The *Delaware Gazette*, now the weekly edition of the *Every Evening*, of Wilmington, is probably the oldest newspaper in the country, having become a regular weekly in 1784, although it was issued irregularly as far back as 1780.—*New York Tribune.*

Not so. The oldest weekly in the country is the *New Hampshire Gazette* of this city. Its first issue was on Oct. 7, 1756, by Daniel Fowle, who, with Samuel Hall, a printer of Boston, came to Portsmouth in that year and executed the first impressions in the state. Its publication has been continuous, though from May 25, 1776 to May 31, 1777, it was known as the *Freeman's Journal*. Fowle was connected with the paper as proprietor, from its inception to the day of his death in 1787. The motto of the paper was—"My country's good shall be my constant aim." No. 1, Vol. 49, was issued Dec. 30, 1800, and at that time the whole number was 2,351.—*Penny Post.*

A new overseer was recently appointed to take charge of the weaving rooms in the Newmarket cotton mills. Saturday noon some trouble arose from his discharge of two weavers, who it is said protested against his starting up the looms before the bell tolled, and before they got to their work. The rest of the weavers, 175 in number, stopped their looms, and asked that the discharged weavers be reinstated. The overseer refused, and the weavers at once quitted work in a body, causing the mills to shut down. Saturday night they held a secret meeting under the auspices of the local assembly of the Knights of Labor, and appointed a committee to wait on the agent of the mills and tell him they would only resume work when the discharged weavers were reinstated. The agent complied with the terms at once, and every loom started up again on Monday morning.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

DOMESTIC ECONOMY.

Management of the House—How to Make a Good Washing Fluid—Washing Easy.

Some Choice Recipes—Home-made Yeast—Chat About Oatmeal—Household Hints.

SOMETHING ABOUT WASHING.

A very good washing fluid may be made by bringing to a boil one pound saleoda, half a pound unslacked lime, a small lump of borax, and five quarts of water. When cool, pour off and bottle. Use one teacupful to a boiler of clothes. This will not injure the clothes. To wash blankets, put boiling hot suds into the washer with a tablespoonful of borax to each gallon of suds. Put in the blankets, one at a time, and wash each five minutes, adding more liquid soap (that is, soap dissolved in hot water) as is needed. Wring from the suds and put into a tub of scalding water. Rinse thoroughly in this, sousing the goods up and down with the clothes-stick. Pass through the wringer and hang upon the line. Quilts can be washed in the same way easily. The soap in which flannels are washed should contain no resin, as resin hardens the fiber. If this precaution is used and bluing put in the scalding rinse water, blankets may be washed a great many times, and still retain their original softness and whiteness. The nap on them may be raised, as it wears off, with a pair of fuller's cards. These are excellent to raise nap on the inside of woolen hose, thus adding greatly to their softness and warmth.

During hot summer days there is no need of boiling or scalding clothes in order to cleanse and whiten them. If washed in warm soapsuds and laid on the grass the sun will draw out the dirt; wetting them with clean suds occasionally will facilitate the process. Washing can as well—and much better on many accounts—be carried on out of doors under a tree, or on the shady side of the house, than in a hot, steaming kitchen. A bright little friend of mine does her ironing as well as her washing out of doors in summer time, and she insists that the birds and trees, grass and flowers minister to her in such a way that the work loses its monotony and becomes enjoyable. Of course she uses an oil stove.

CHOICE RECIPES.

Veal Salad.—Mix one-half teaspoonful of mustard with half a cupful of vinegar. Beat the yolks of two or three eggs, with a little salt, until they are quite thick and light, then, stirring briskly all the time, slowly add two or three tablespoonfuls of best salad oil, add four tablespoonfuls of rich, thick, sweet cream. Then add mustard, vinegar, salt and pepper to taste, and some very finely chopped parsley and tarragon. Pour this sauce over a heaping plateful of cold roasted veal, cut into pieces about an inch long and a quarter-inch thick, cover tightly, and let it stand in a cold place for an hour or two. Serve on a platter and garnish with sprigs of crisp parsley and slices of a hard-boiled egg.

Coffee Cream.—Beat one quart of rich, sweet cream to a stiff froth, like the white of eggs for icing; then mix with one-quarter pound of granulated sugar, and shortly before serving beat into it one cup of cold coffee extract, which has been made by slowly filtering two cups of boiling water through two ounces of finely ground coffee. Serve in a glass dish, with lady fingers or fresh sponge cake.

Whipped Cream Pie.—Make a moderately rich pie-paste and perforate it to prevent blistering, and bake. Sweeten with powdered sugar, one teacupful of very thick sweet cream made as cold as possible without freezing, and flavor it with any flavoring you like best; then whip it to a stiff froth, spread on the baked paste, and finish with a few bits of jelly laid lightly on the cream.

Delicious Rhubarb Pie.—May be made by taking enough nicely stewed rhubarb and flavored with grated rind and the juice of a lemon or an orange, and the yolks of two eggs. Bake in an under crust sprinkled with sugar and flour. When done, put the whites of the eggs, beaten, over the top, and brown lightly in the oven.

Chocolate Cake.—One cup of sugar and one egg stirred well together, a cup and a half of flour, a piece of butter half the size of an egg, two square inches of Baker's chocolate. Melt the butter and chocolate together, and add them last of all. Use half a cup of water stirred in gradually, a teaspoonful of cream of tartar and half a teaspoonful of soda, a teaspoonful of vanilla.

HOME-MADE YEAST.

For those who wish to make their own yeast I append three recipes, one self-working. In using them a cup of either will take the place of a yeast-cake dissolved in a cup of water. Therefore always use proportionately less liquid in making dough with liquid yeast.

Hop Yeast.—Boil a handful of hops in a bag in two quarts of water, with eight ounces of pared potatoes, until the latter break. Mash them with an ounce of flour, three of salt, and the same of brown sugar. Pour the boiling hop water on this and let it cool. When milk-warm add a cake of dried compressed yeast. Bottle when cold and keep cool.

Potato Yeast.—Mash a dozen large boiled potatoes with a teacupful of flour and a teaspoonful of salt. Dissolve a cake of compressed yeast in enough warm water to make the potatoes and flour into a batter. This must be kept very cool, and is best used quickly.

Self-Working Yeast to Keep.—Boil two ounces of hops in a muslin bag in a gallon of water one hour. When lukewarm take out the hops, add the liquor gradually to a pound of flour. Beat in a tablespoonful of salt, two of ground

PROF. CHS. LUDWIG VON SEEGER,

Professor of Medicine at the Royal University; Knight of the Royal Austrian Order of the Iron Crown; Knight Commander of the Royal Spanish Order of Isabella; Knight of the Royal Prussian Order of the Red Eagle; Chevalier of the Legion of Honor, &c., &c., says:

"LIEBIG CO'S COCA BEEF TONIC should not be confounded with the hordes of trashy cure alls. It is in no sense of the word a patent remedy. I am thoroughly conversant with its mode of preparation and know it to be not only a legitimate pharmaceutical product, but also worthy of the high commendations it has received in all parts of the world. It contains essence of Beef, Coca, Quinine, Iron and Calisaya, which are dissolved in pure genuine Spanish Imperial Crown Sherry."

The Voice of the People.

The people, as a whole, seldom make mistakes, and the unanimous voice of praise which comes from those who have used Hood's Sarsaparilla, fully justifies the claims of the proprietors of this great medicine. Indeed, these very claims are based entirely on what the people say Hood's Sarsaparilla has done for them. Read the abundant evidence of its curative powers, and give it a fair, honest trial.

A son of Thomas S. Laing of Enfield, Me., on the 22d inst. tied paper and straw to his dog's tail and set it on fire. The dog ran under the barn, and that and Mr. Laing's other new buildings, and the house of Eben Doans, were burned; loss $4,000, with no insurance.

Admirals

In U. S. navy get $13,000 salary—vice-admirals $9000, rear admirals $6000, commodores $5000, captains $4500, and they are worth it, for they unitedly add their endorsement to the G. O. Taylor Bourbon and Rye Whiskey as the purest alcoholic stimulants, so necessary to seafaring life, yet manufactured. It is bottled by C. H. Graves & Sons, Boston. Your grocer and druggist will endorse it with praise as a pure article.

To War About Cutting.

A despatch of Aug. 23d from El Paso, Texas, says: "Cutting was taken before Judge Castenadas' court again this morning, and official minutes of the Chihuahua supreme court, reciting the decree releasing him from further custody, was read. The court's decision is based entirely upon the fact that Medina has waived all right to a civil suit, the court holding that this ends the proceedings of the state. Cutting accepted his liberty, and requested a copy of the court's decree for his future use. This was promised him. It is said that the provision of the Mexican constitution prohibiting the residence of agitators and other dangerous characters in the republic, will be enforced against Cutting."

Harvest Excursions West.

Now is the "Merry Harvest Time" when the magnificent crops of wheat, corn, oats, barley, hops, fruit, vegetables and herds of fat cattle, horses, sheep and swine in Illinois, Iowa, Minnesota, Dakota, Missouri, Nebraska and Kansas can be seen to the best advantage. To facilitate the wishes of eastern friends who desire to acquaint themselves with the vast productive capacities of the west, the management of the Chicago, Rock Island & Pacific Railroad announces that tickets will be sold on September 8th and 22d, 1886, to principal points in Minnesota, Dakota, Missouri, Kansas and Nebraska at *greatly reduced rates*, and with stop-over privileges. For further information apply to your nearest ticket agent, or to E. A. Holbrook, General Ticket and Passenger Agent, C., R. I. & P. Ry., Chicago, Ill.

HAMPTON JOTTINGS.

HAMPTON, Aug. 23d.

An extensive business is being done by our expressman, Mr. W. Batchelder: since the beach season commenced he has averaged a ton of merchandise daily, which he delivers at the beach every night, and often an extra team is sent to Little Boar's head in North Hampton, with packages. Several of the proprietors of boarding houses in town send to Boston for their supplies. Having so much to deliver makes the expressmen's work hard and hours late; their freight bills are something like $140 per month.

The 19th was Exeter's day at the beach; also the day of the Grangers' meeting. Few were interested in the speaking compared with what has been the case in years past, yet all had a good time, as usually is the case where the voice of Hon. John D. Lyman is heard.

On Sunday, the 15th, Mr. John Cutler had 300 guests; several times this season he has had 180 to dinner. On the 22d extra help was sent for early in the morning.

MATTERS IN YORK.

YORK CORNER, ME., Aug. 23d.

Rev. John A. Goss, formerly of Portsmouth, preached at the Christian church yesterday. The day was fine and the congregation large. Mr. Goss is a very able and pleasing speaker.

The hotels are now filled to their greatest capacity, and the yeomanry are laying up for a rainy day. All trades are thriving; even to the sale of flowers, by the little girls. A new variety of pink, known as the "dew-cum pink," is now common among the many kinds, and is having a large sale.

As the fall terms of school have commenced, here is something worth reading by parents, pupils and teachers: "It is held, by good authority, that the teacher has absolute control over the scholar after he leaves his parent's door in the morning until he returns again at night; and also some restraint even in the parental domicile, when he is there present. Has the right, and is expected to watch over their conduct in the highway or any where else, and see that they use proper language and are polite and courteous to every one when about the school house, or wherever they may be." Again: "Parents are not aware how much the progress of their children depends upon regularity and punctuality. Many think that their children can be dismissed when they have recited their lessons; or be absent a day or a half day in a week, without serious detriment! but it is a sad mistake. If the public knew how much of the teacher's time had to be taken and devoted to irregular scholars, who are out of school on every frivolous pretext, there would be a universal demand for egislation upon the subject." P.

KITTERY, ME., Aug. 24th.

Miss Mabel I. Jenkins has accepted a position as teacher in the grammar department of a large school in Castine.

Miss Florence E. Sanderson has resigned the position of chorister of the 2d Methodist church, and has commenced taking lessons on the piano and in voice culture of Mr. E. A. Tilton of Portsmouth. SUB ROSA.

The republicans of Newcastle held their caucus on Saturday evening last. John Albee was chosen president, and Frederick Bell secretary, of the republican club; and delegates to the several conventions were elected as follows: State, George W. Towle, Albert H. White; congressional, Charles E. Campbell, John Albee; councillor, B. F. Curtis, Jesse O. White; senatorial, James H. Baker, William T. Meloon; county, John E. Yeaton, Charles A. Card.

The Portsmouth and Dover cricket clubs will play a game on the grounds of the Portsmouth clubs near Frenchman's lane next Saturday.

The dance hall at the Wentworth, Newcastle, was on Tuesday evening given up to the help, who had a "hop" and a grand time, guests being present from the hotels in this city, at Rye beach and other places in the vicinity.

The democrats of ward two will hold their caucus for the choice of delegates to the several conventions on Friday evening, at the court house.

Edwin R. Nute, a shoemaker of Haverhill, Mass., accompanied by his wife, started from that place for Ossipee on Monday morning to spend a two weeks vacation. After the train left Dover he went out on the platform, and fell off, striking on his head, and receiving injuries which it was feared would prove fatal. He was cared for by the Knights of Pythias, of which order he is a member.

Wm. Rhodes of Brentwood, a well-to-do farmer, was prosecuted Tuesday at Exeter before Judge Shute by T. E. O. Marvin, president of the N. H. S. P. C. A., for cruelty to a horse; he was found guilty, and mulcted in the sum of $19, fine and costs.

Three Peculiarities

Hood's Sarsaparilla, the great blood purifier and regulating medicine, is characterized by three peculiarities, namely:

1st: The combination of the various remedial agents used.

2d: The proportion in which the roots, herbs, barks, etc., are mixed.

3d: The process by which the active medicinal properties are secured.

The result is a medicine of unusual strength and curative power, which effects cures heretofore unequalled. These peculiarities belong exclusively to Hood's Sarsaparilla, and are

Unknown to Others

Hood's Sarsaparilla is prepared with the greatest skill and care, by pharmacists of education and long experience. Hence it is a medicine worthy of entire confidence. If you suffer from scrofula, salt rheum, or any disease of the blood, dyspepsia, biliousness, sick headache, or kidney and liver complaints, catarrh or rheumatism, do not fail to try

YOUR HAIR

should be your crowning glory. Ayer's Hair Vigor will restore the vitality and color of youth to hair that has become thin and faded; and, where the glands are not decayed or absorbed, will cause a new growth on bald heads.

MAY the youthful color and vigor of the hair be preserved to old age? Read the following, from Mrs. G. Norton, Somerville, Mass.: "I have used Ayer's Hair Vigor for the past 30 years; and, although I am upwards of 60, my hair is as abundant and glossy to-day as when I was 25."

BE assured, that a trial of Ayer's Hair Vigor will convince you of its powers. Mrs. M. E. Goff, Leadville, Col., writes: "Two years ago, my hair having almost entirely fallen out, I commenced the use of Ayer's Hair Vigor. To-day my hair is 29 inches long, fine, strong, and healthy."

RENEWED and strengthened by the use of Ayer's Hair Vigor, the hair regains its youthful color and vitality. Rev. H. P. Williamson, Davidson College, Mecklenburg Co., N. C., writes: "I have used Ayer's Hair Vigor for the last ten years. It is an excellent preservative."

BY the use of Ayer's Hair Vigor, Geo. A. Dadman, Waterloo, Mo., had his hair restored to its original healthy condition. He was nearly bald, and very gray. He writes: "Only four bottles of the Vigor were required to restore my hair to its youthful color and quantity."

USING Ayer's Hair Vigor cures diseases of the scalp. F. H. Foster, Princeton, Ind., writes: "I had been troubled for years with a disease of the scalp; my head was covered with dandruff, and the hair dry and harsh. Ayer's Hair Vigor gave me immediate relief, cleansed the scalp, and rendered the hair soft and pliable."

TO THE PATRONS OF THE PORTSMOUTH DAILY CHRONICLE AND NEW HAMPSHIRE GAZETTE.

On Monday, the 19th inst., the subscriber, having purchased of Washington Freeman, Esq., the PORTSMOUTH DAILY CHRONICLE and the NEW HAMPSHIRE GAZETTE, assumed their control. In making this announcement we desire to state that while we have many plans for the future conduct of these two well known papers, which will involve some changes and we hope improvements, and which will be developed as rapidly as possible, it will be our constant aim to maintain the high standard which they have attained under our predecessors, and we shall jealously guard their columns from anything that will tend to lower their tone or vitiate their influence.

It was our privilege to be on intimate terms with the late Frank W. Miller, the founder of the CHRONICLE, and we are pleased to recall at this time that we put in type a few lines of its first issue. Afterwards we were associated in business with Mr. Miller, under the firm name of Miller & Vaughan, in the job printing department of the CHRONICLE establishment.

We do not think it important to make an extended statement, at this time, of what we propose to do. We are not attempting to occupy a new field, but hope by dilligent labor to continue to fill the important place which has been so long and so well occupied, and shall earnestly strive by industry and enterprize to extend the influence of our papers in this community. To the local press who have spoken pleasant words, and to the friends who have encouraged us, we extend our heartfelt thanks.

D. J. VAUGHAN.

ATKINSON & COOK'S DRAMATIC COMPANY.

"Love and Money" was performed on Tuesday evening to a large and appreciative audience, though not so large as that of Monday evening, when Miss Banks made her first appearance. As the coal miner's daughter her performance was at least equal to that of the previous evening, and the support was so even and so good throughout as to fully justify the assertion that no stronger company has ever played here at popular prices.

This evening the celebrated French melodrama "The Lyons Mail" will by the attraction, with Miss Banks as Jeanne, the outcast.

POLICE COURT--HATCH ELDER J.

TUESDAY, Aug. 24th.

Michael Hurley, for malicious mischief, was fined $5, costs $6.90.

RAILROAD EXCURSION.

Every republican who can afford the time should avail himself of the opportunity of hearing James G. Blaine and Gen. Gibson at North Berwick to-day. It will be the largest mass meeting ever held in York county; probably 10,000 people will be present. Train leaves Portsmouth at 1:00 P. M., leaving North Berwick to return at 5:00 P. M. Fare for the round trip, 75cts.

MARITIME NOTES.

The steamer Three Brothers came down from Durham on Tuesday with a party of excursionists from that town, bound for a day at York beach. About 3:00 P. M. she was laying on the lower side of Sise's wharf, bow in, having lost the eagle from the top of her pilot house, and had her smoke stack carried away, by fouling a schooner at the Portsmouth Brewing Co.'s wharf. Some folks thought she was bound up the new sewer to the Creek breweries, and had lowered her smoke stack for the passage. Her passengers returned home by rail.

Charles S. Drowne's sail-loft on Water street has been fully occupied of late. He has just finished a mainsail for the fishing schooner Carrie E., of Salem, Mass., which had her old one blown away off Cape Neddick; he is making two topsails and a foresail for a three-master at Philadelphia; and has just contracted to make a full suit for the new schooner now on the stocks at Fernald's shipyard at Freeman's point.

The new schooner Jonathan Sawyer, of the Dover Navigation Co.'s fleet, was visited by fully 2,000 people in Dover on Sunday, as she lay at the Cocheco Manufg. Co.'s dock, ready to sail Monday morning for the Kennebec. On Monday she brought down the river a party of prominent ladies of Dover, who had breakfast on board on the way down, and disembarking at this city, took the noon train for home, much delighted with their sea-faring experience. Some of them think a good deal of bosh has been written about the hardships of a sailor's life.

The fish business at Commercial wharf during the warm term has been mostly conducted from Edw. Jameson's stores. Thomas Jameson has dealt quite largely in the finny commodity this season, at retail, and has found ready patronage in the many towns he has visited.

The Electric Boat Co.'s boats during the fine weather of late have been patronized by the best people resident here, as well as the first class of visitors who came to enjoy the pleasure of boating and fishing on the Piscataqua or outside the harbor.

There were thirty boats of all sorts and sizes, of the "mosquito fleet" of fishing boats and private sail boats, moored in the channel between Peirce's island and the main land on Sunday.

Capt. Charles W. Drown, of the schooner yacht Wm. H. Russell, arrived at his wharf at the foot of Mechanic street on Sunday, having been fishing near the Shoals with a family party, and caught ninety-nine good fish. The schooner has been well patronized this season by fishing and sailing parties.

PICNIC OF CHRISTIAN CHURCHES.

The third annual picnic of the Christian churches in the vicinity of York, Me., will be held at Norwood Grove, midway between York beach and York harbor, on Wednesday, Sept. 1st. A cordial invitation is extended to the members and friends of the Christian and Free Baptist churches of Portsmouth, Newcastle and Rye, as well as those in York Corner, to take part in the picnic, which the committee of arrangements hope to make the best yet held. There will be addresses by various clergymen, some of whom will touch upon the proposed union of the two churches.

The *Penny Post* of the 24th in its "Newcastle notes" says: "Card's stage and many private conveyances came to Portsmouth last night to witness 'Ingomar,' with which they were much pleased."

Colonel James S. Pierce, once landlord of the Rockinghom and now proprietor of Peirce's patent artificial stone, is in town. Col. Peirce comes from business triumphs in Minnesota and Florida, in which states he has built over half a hundred buildings and laid miles of sidewalks. He intends introducing his stone in Boston streets, and Portsmouth may be the manufacturing point. If so the number of men to whom employment will be given is practically unlimited.

The Franklin Associates of Dover, with invited guests from that place and this city to the number of about thirty in all, had a clambake on Sunday last at Rogers' point, Eliot, opposite the Dover point school house. The Dover contingent pulled down the river from that city, but got a tow back by the tug Ann, which was taking up to Dover two coal schooners and a whole fleet of rowboats, and passed Rogers' point just as the Association started for home.

The dock in the rear of C. O. Keefe's place of business on Market street, in pursuance of a vote of the board of aldermen has been placed in readiness by the driving of piles and other arrangements being made, under direction of Warren Keen, for being filled in with refuse from the streets; this work when completed will not only afford a good landing place for boats, but will obviate a nuisance of at least half a century's standing. There are other nuisances close by which also need effectual abatement.

The republicans of ward three will meet in the Spalding school house on Bartlett street, at the Creek, Thursday evening at 7:30 o'clock, to choose delegates to the several conventions.

Two young bicyclers from out of town were coming down Vaughan street from Deer street, Monday, running along handsomely side by side, and when near the Webster house a big Newfoundland dog blundered exactly in the way of one of them, who in sheering out to avoid the dog collided with his companion, the result being that both riders did the curve act in a graceful manner, the youth on the port side turning a somersault to starboard, and the starboard man somersaulting to port, the movement being executed with all the precision of the double-song-and-dance business which held the boards at minstrel shows a few years since. The bicycles piled up in the middle of the street in a manner to suit themselves, and the big dog ran hastily away when he saw the air full of bicycle riders. No great harm was done, and after expressing their opinion of the dog in plain terms the young fellows remounted and proceeded.

See advertisement of sale of real estate corner of State and Union streets at auction to-day.

Mr. Ira C. Seymour has arrived home to his business on Bow street from a visit of over two weeks at the camp ground of the Second Adventists at Alton Bay, much invigorated and refreshed by the rest and recreation.

FUNERAL NOTICE.

The members of Osgood Lodge, No. 48, I. O. O. F., are requested to meet at Odd Fellows' hall on Thursday, Aug. 26th, 1886, at one o'clock P. M., to attend the funeral of our late Bro. Wm. J. Miles. A full attendance is earnestly requested. Dark clothes, white gloves.

SOLDIERS' MONUMENT.

The envelopes for contribution to the Soldiers' and Sailors' Monument fund will be delived by Mr. M. E. Long, who is alone authorized to collect the same.

C. M. GIGNOUX, Treas. S. & S. M.

Mr. Frank J. Culbert is canvassing Portsmouth for the sale of the Gem Water Filter. Although we have good water it is not entirely free from impurities, and to make it absolutely pure as it comes from the faucet, the Gem is away ahead of any filter ever invented. It is a simple contrivance, but does its work thoroughly, its structure has a sound scientific basis, and when the water has run through it no foreign substances are discoverable, even by the strongest instrument. The Gem can be readily fitted to any faucet. It comes cheap, and water drinkers will find it a desideratum. Orders addressed to Postoffice Box 191 will receive prompt attention.

Musical Queries

Occur to every musical person, whether professional or amateur, pupil or teacher. It is wise to have at hand standard books, like those of DITSON & CO., so that every question may be answered.

How shall pronunce this Italian word?

Says the embarrassed pupil, who does not wish to appear verdant. Why, purchase *Ludden's Pronouncing Dictionary of Musical Terms,* ($1.00) in common use in all civilized languages, is given.

Do you wish not to appear igorant when any musical celebrity is mentioned?

The great *Moore's Encyclopedia* of *Music* ($5.00) contains *thousands of musical biographies,* and *Urbino's Biographical Sketches of Eminent Musical Composers,* ($1.50) will post you as to the principal modern masters.

Do you wish to solve any musical problem?

Stainer's Dictionary of *Musical Terms* will solve it for you. Cloth, $5.00; Boards, $4.00.

Are you posted in Musical History?

If not, do not fail to purchase forthwith *Ritter's Student's History* of *Music,* ($2.50) and be no longer ignorant. These books constitute a valuable library, and will appeal very strongly the price to those who wish to write or talk with accuracy on musical subjects.

ginger, and half a pound of sugar, set away in a bowl covered with a cloth for two days in a warm place. The third day add the hop liquor to six or eight potatoes, mashed. Let it stand a day longer in a warm spot; then put in jugs and cork well. It will keep months in a cool cellar. No work of this kind would be complete in these days without some thought were taken for the camping parties that are now so fashionable, and those other quite unfashionable camps where the bread is made by men who often handle flour for the first time.

A CHAT ABOUT OATMEAL.

No one can live long in a Scotch community without noticing the healthful look of the children, whose food consists largely of oatmeal, compared with those fed on fine grains, or even groats, which are the same, only without the husks. This chaff or husk, however, which is left in the meal, contains some points that act as a stimulant on the coats of the bowels to keep them active without medicine and render this food of great benefit to the dyspeptic. There is no method of cooking oatmeal equal to the making of porridge, and when properly prepared it is generally a favorite dish for breakfast. "What makes your oatmeal porridge so good?" is a frequent question in our house from strangers, and they think the meal must be of superior quality. But to prepare it properly the water must be *boiling*, necessary salt added, and the oatmeal then stirred in slowly, sifting it through the fingers. The process must not be hurried if lumps would be avoided. When it begins to boil up well stop stirring and close the pot tightly. Set at the back of the stove while you cook the rest of the breakfast. Lift the porridge without any more stirring, as it is this that breaks the grain and makes it waxy. The Scotch do not stir with a spoon, but a smooth, flattened stick called a "spurtle," that any one can make according to their own idea. This gives more evenness to the mixing, and if cooked in this way the porridge will be sweet, whole-grained, and wholesome.

HOUSEHOLD HINTS.

Cheese that is easy crumbled is digestible, and may be eaten without fear. It is the India-rubber article that gives one a fit of the blues.

A feather duster is a delusion and a snare—it is simply a "flirter."

A piece of lemon is excellent for cleaning the hands.

It is a mistake to put spoons in the holder handles down.

A very thin coat of what is known as French picture varnish will restore chromos and oil paintings to their original brightness.

Lazy people are abominations—dead weights to be carried upon some one's overburdened shoulders.

Buttermilk and lemon juice are harmless cosmetics for removing sunburn and freckles.

The *Scientific American* states that plush goods and all articles dyed with aniline that fades from exposure to light will look bright as ever after being sponged with chloroform. The commercial chloroform will answer the purpose well and is less expensive than the purified.

If applied immediately, powdered starch is said to take out many kinds of fruit stains on table linen. It must be left on the stained spot for a few hours until it absorbs the stain.

To stone raisins easily, pour boiling water over them and drain it off. This loosens them and they come out with ease.

For cartridges it is suggested that sheet aluminium bronze will prove to be unrivaled by any composition now known, for it is the only cheap metal not affected chemically by gunpowder, and that in turn does not deteriorate the gunpowder when stored for a period of years. Aluminium bronze is likewise most admirably adapted, on account of its enormous tenacity and stiffness and resistance to all forms of corrosion, for torpedo-boat cylinders and steam boilers, seamless tubes, stay bolts, and particularly rivets.

If you ask almost any saloonkeeper what bock-beer is, he will tell you without hesitation that he doesn't know, but that there is no extra charge for drinking it. Other saloon-men, however, affirm that all there is of it is that more malt and hops are used, and that one glass of bock will cause the deadly effect that two glasses of ordinary beer would—this being a clear saving of five cents every drink. Others again claim that the warm spring weather makes the beer become bock; and still others that the difference rests entirely with the colored lithographs in the windows representing a goat going it. Finally, it is claimed that bock-beer is brewed to celebrate the invention of beer, some time about the year 1. A man is permitted to drink the beer and believe anything he pleases about it as long as he plants a nickel on the counter.—*Detroit Free Press.*

PURE GOODS

But DOES possess the FULL VALUE of every Legitimate Washing Quality, which gives it every advantage over Soaps of doubtful character; practically recommended by other manufacturers in imitating it. None should be deceived, however, as the word WELCOME and the Clasped Hands are stamped on every bar.

THIS PAPER is on file in Philadelphia at the Newspaper Advertising Agency of Messrs. N. W. AYER & SON, our authorized agents.

If you desire to possess a beautiful complexion take Ayer's Sarsaparilla. It cleanses and purifies the blood, and removes blotches and pimples, making the skin smooth and clear, and giving it a bright and healthy appearance. Take it this month.

A fine two-years-old southdown ram was received in this city on Monday by Jackson's express, from Maine, for Mr. Charles C. Gerrish. His lack of horns led some unskilled in husbandry to trifle with his nose and ears, but the butt was all there, and the "lamb" (as they supposed him to be) took the end out of his crate in short metre.

Do not rot or injure your clothes by using washing powders or compounds, but use Beach's Washing Soap. Will not injure the finest fabrics.

One pound bar, seven cents.

Fifteen pound bars, $1.00.

The 1,100 employes of the Broadway and Seventh Avenue horse railroads in New York were paid off on Tuesday, and discharged. The Belt line employes also struck on Tuesday.

The best medical authorities acknowledge the value of Ayer's Pills, and prescribe them with the utmost confidence, as the most effectual remedy for diseases caused by derangements of the stomach, liver, and bowels.

A heavy sea did considerable damage to yachts in Bar Harbor, Sunday night.

We recommend Carter's Iron Pills to every woman who is weak, nervous and discouraged; particularly those who have thin, pale lips, cold hands and feet, and who are without strength or ambition. These are the cases for which Carter's Iron Pills are specially prepared, and this class cannot use them without benefit. Valuable for men also. In metal boxes, at 50 cents. Sold by druggists or sent by mail. See advertisement elsewhere.

There was a damaging frost in the Contoocook valley on the night of Aug. 22d.

Try Carter's Little Nerve Pills for any case of nervousness, sleeplessness, weak stomach, indigestion, dyspepsia, &c., relief is sure. The only nerve medicine for the price in market. In vials at 25 cents.

"Drummers' Yarns, or Fun on the Road," is the title of a collection of short humerous sketches well suited to while away an idle hour on the cars or elsewhere. In paper covers, seventy-five pages, ten cents. For sale by Moses Bros. and M. Goodrich.

Give your laundress Pyle's Pearline and she will not ruin your clothes with soda, lime, etc., which many of them use to facilitate the washing.

Naval Constructor Philip Hichborn's report, which was some time ago presented to the secretary of the navy, has since been ordered to printed by Congress, and was issued last week from the government printing office. It is devoted to descriptions of the national and private ship-building yards, the management of men in both, the vessels recently built or building, torpedo boats, ship fittings, iron and steel works, docks, and the system of education for naval architects in England and France. Much attention is devoted to the powerful vessels recently turned out for foreign navies; the accounts of which must interest not merely the professional naval architect, but also a large proportion of general readers.

For ten or twelve years I have been severely afflicted with Catarrh. Never before found such decided relief as from Ely's Cream Balm. I consider myself cured.—J. W. Buffington, Mechanicsville, N. Y. (Price 50 cents.)

—He was a Dutch barber on a coroner's jury and after sitting quietly for an hour during the inquest, arose, peered into the face of the corpse, and then, turning to the rest of the jury, said: "Mein Gott, dot man ish dead!"

The Housekeeper's Friend.

A friend in need is a friend indeed, and such a friend you will always find in Sulphur Bitters. They cured me of dyspepsia when I had given up life in despair and was almost at death's door. They are a true friend of the sick.—Mrs. R. Crague, Hartford, Connecticut.

BENTON'S HAIR GROWER.

All who are BALD, all who are becoming BALD, all who do not want to be BALD, all who are troubled with DANDRUFF, or ITCHING of the scalp; should use Benton's Hair Grower. EIGHTY PER CENT of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of Hair on those who have been bald and glazed for years, we have fully substantiated the following facts:

We grow Hair in 50 cases out of 100, no matter how long bald.

Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a specific for falling hair, dandruff, and itching of the scalp.

The Hair Grower is a hair food, and its composition is almost exactly like the oil which supplies the hair with its vitality.

DOUBLE AND TRIPLE STRENGTH.

When the skin is very tough and hard, and the follicle is apparently effectually closed, the single strength will sometimes fail to reach the papilla; in such cases the double or triple strength should be used in connection with the single, using them alternately.

Price, Single strength $1.00; Double strength $2.00; Triple strength $3.00. If your druggists have not got it we will send it prepaid on receipt of price. BENTON HAIR GROWER CO., Cleveland, O.

Is He Your Friend?

Is the family doctor your friend? How many unnecessary visits does he make you? How many days does he keep you sick that you ought to be at your work, and so doing how many hard-earned dollars does he extort from you? Would it be better for you to place your trust in Sulphur Bitters? Try them, they will be a true friend. Saving you a long sickness and a large bill, which you have hitherto paid to some avaricious doctor.—Editor State Journal.

Some years ago I badly strained my stomach picking cherries, and have suffered greatly ever since. Nothing has been so beneficial as Allcock's Plasters. They entirely cured me of that trouble. I have also been afflicted with a lame ankle, but these Plasters soon enabled me to walk. I recommend them whenever I have an opportunity, as I have found them very useful for over ten years. Allcock's Plasters have always done me the greatest service, and I am every day more and more convinced that no household should be without them.

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

Geronimo and his band of Apaches have been surrounded in Mexico, and it is probable will soon have to surrender. So the despatches say. The Providence *Journal* suggests that Mr. Blaine's views of Secretary Bayard's foreign policy are a good deal like what Mr. Bayard's views were of Secretary Blaine's foreign policy.

The industrial exposition at Minneapolis, Minn., was opened Aug. 23d. Mrs. Cleveland set the machinery in motion from the Prospect house in the Adirondacks, by pressing an electrical button.

The Tennessee, flagship, Yantic and Swatara, of the North Atlantic squadron, arrived at Boothbay, Me., Aug. 21st, from Portland. They were to proceed to sea on the 23d for a drill of ten days, then to proceed to Newport, R. I., but the Tennessee was still in port on the 24th; and the Yantic, which had gone out with the Swatara, returned that day.

On the 21st inst., in the British house of commons, Sir J. Ferguson, under foreign secretary, replying to a question, stated that England and Canada were negotiating with a view to the settlement of the fisheries question, but that it had been decided that no joint commission should be appointed.

The Theoretic Turtle.

The theoretic turtle started out to see the toad;
He came to a stop at a liberty-pole in the middle of the road.

"Now how, in the name of the spouting whale," the indignant turtle cried,
"Can I climb this perpendicular cliff, and get on the other side?

If I only could make a big balloon, I'd lightly over it fly;
Or a very long ladder might reach the top, though it does look fearfully high.

If a beaver were in my place, he'd gnaw a passage through with his teeth;
I can't do that, but I can dig a tunnel and pass beneath."

He was digging his tunnel, with might and main, when a dog looked down at the hole.
"The easiest way my friend," said he, "is to walk around the pole."

—A. R. Wells, in St. Nicholas.

FOR THE LADIES.

New Materials for Children and Misses for Summer Wear—New and Popular Colors.

Novelties in Fashions—Walking Costumes, Jewelry, Gold Ornaments, Fans, etc., etc.

FOR CHILDREN.

Among the newest materials for dresses intended for the summer wear are the "tufted batistes" and "tufted crepes," which have ground in representation of the fabrics whose name they bear, and they are respectively with the crinkled and smooth surface, with waste threads or tufts forming checks or stripes in various colors. Pekins, poplins, and lawns are also largely employed for children's dresses; also embroidered lawns, zephyrs, and batistes, with corded suitings, thistle ginghams, and Aliciennes seersuckers in the same colors and effects as those from India.

For little children Pekin and chequered washing material are employed, but the pattern must be small and the coloring delicate, and dresses for girls under 6 years of age are made with short, full skirts and long bodices, plain at the back, but full in front, and fastened down the left side under a band of colored embroidery or some other suitable trimming. This band is carried to the edge of the skirt and is crossed below the waist by a similar band covering the join between the bodice and the skirt. A pretty dress in corded suiting in cream, with variously colored threads, is made after this style and is trimmed with bands of colored embroidery.

The bodices worn by misses are generally long and many are tight fitting at the back, but open in front over a full plastron of surah, or else cut out in heart shape, showing a gathered or finely pleated chemisette, mounted on a straight collar band. Bodices are also adorned with yokes, revers, and collars of velvet or some other material differing from the dress fabric, with bows and epaulets of ribbon, with shoulder tabs and other ornaments.

The most striking novelty of the year in children's dresses is the new style of sleeve. This may be made of a different pattern or material from the bodice, or the upper portion, like the bodice, comes to the elbow, and the lower part, matching the trimmings, reaches the waist. An illustration of this style is a dress of boucle striped canvas of string color, with a full red satin vest and a red satin puff to the sleeves from the elbow.

Biscuit is a popular color for young people's dresses, and it is well that it is so, for that shade does not show dirt or soil. A stylish frock in this tone has fine horizontal cords like the old-fashioned striped corded muslins formerly used for petticoats. The yoke and full petticoat are of a material striped in the same tone with blue and brown.

Navy blue canvas is a good, useful stuff, light and capable of standing plenty of wear and tear. One costume in this fabric is made with a pleated skirt, showing underneath what appears to be a petticoat of the same, with red horizontal stripes. This has been applied to the vest and also to the front of a long jacket in plain blue material, the collars and revers being of red velvet and the sleeves of the stripe. Some most elegant little toilettes for summer are formed of Priestly's silk warp and wool filling fabrics in cream, the gypsy cloth and Clairette, in combination with pink, blue, or garnet surah.—*Philadelphia Times.*

PARIS FANCIES.

A new porte bonheur has made its appearance in Paris. It consists of a little crystal locket, in which is encased a four-leaf shamrock, which, as you know, bring good luck to all who wear it. This porte bonheur comes from Austria, where four-leaf shamrocks abound, it seems. What a pity we did not know this before! How lucky we might have been at a little expense! However, as "it is never too late to mend" our fortune, this new porte bonheur will no doubt be eagerly sought after.

Without being decidedly a novelty, I must not forget to mention Worth's new walking-costume, which, on account of its simplicity, he calls the "Beggar Maid's" dress. It has a full skirt of white and blue flannel serge, striped lengthwise, and a scarf tunic, with the ends turned up at the back, of blue silk twill serge. The bodice, of the same silk-serge, is open like a gentleman's evening coat in front, displaying an under-jersey bodice of the striped serge. No collar or ruffs of any description. This little "Beggar Maid's" costume costs only 700 francs!—a mere nothing, as you see.

The barbaric style of jewelry is considered the most beautiful just now, so silver mountings are replacing gold. Really the models should be in bronze, as the models copied belong chiefly to the bronze age, but no woman would fancy this ultra faithful reproduction.

Gold ornaments of fine filagree work are fashionable, especially as necklaces.

WATERING PLACE STYLES.

DAY AND EVENING DRESSES—WOOLS—GLIMPSES OF AUTUMN—TENNIS AND MOUNTAIN COSTUMES.

NEW YORK, Aug. 24th.

Surah and canvas dresses are well represented; the two materials combined in many ways, as for example, the waist of surah with canvas sleeves, plain or striped surah for waist and underskirt with bouffant drapery, and sleeves of canvas. Black surah with touches of white or some subdued color is a refuge for mature ladies of quiet taste, but young people seem to like this material, and touch it up with gathered white or light-colored silk vests, becoming to girlish figures, or they give piquant additions of bright-colored silk sashes, beadings, etc., or perhaps a sash of silk canvas with fringed ends. A complete costume of Bengaline silk in two shades of one color is very fashionable, but usually the dark shade prevails with the lighter in touches only, such as collar, cuffs, plastron, etc. Velvet is sometimes used for accessories in place of the light shade, and it is on these plain silk dresses that beadings find chief room for display. A favorite trimming on handsome dresses of many kinds are frills of black crepe lisse. They are effective and sought after because new. Striped brocade silks have a good position in dress and are variously united with Bengaline silk, velvet or satin. After all, however, there is nothing quite so much worn by young people as

WHITE WOOLS.

Degrees as to thickness and fineness are without number; they run from the thinnest of crape crankled or canvas to flannel of various thicknesses, but are all made more or less simply. Oftenest with kilt plaited skirts to which tucks may give finish; but again there are jaunty trimmings of ribbon bows, lace or velvet. For tennis especially, the cream colored flannels and serges are liked, and here the sailor blouse waist stands first, being really pretty because so suitable, while considerable adornment can be given by touches of characteristic embroidery on collar and cuffs. Sash ribbons intended exclusively for tennis, have racquets and balls portrayed upon them, and collar and cuffs can be made from a portion of the same. Skirts are always simple; gathered with tucks at the bottom or in plaits. Mountain dresses of dark flannel are made in the same way, but are sometimes touched up with striped flannel such as is in vogue for children or for ladies' wrappers. Jersey waists are a benediction where one does not have a regular tennis dress, and though rather cool for mountain excursions, can be added to by a light jacket. Light colored flannels make stylish tennis dresses, and do not soil so easily as white; mixed goods are also worn, and dark flannel where style is not the first object. Hats, the straw sailor or soft felt with simple trimming to correspond, or best of all, perhaps, a spray of flowers painted on one side. Thanks to the courtesy of Lord & Taylor, we have some

GLIMPSES OF AUTUMN.

Stripes will certainly be very fashionable, white gros grain silks to be worn in the fall being striped with black moire; black silks are striped in gold or white, but usually the stripe differs not only in color but in effect from the body of the goods, as moire on gros grain, vice versa, or where fraise or velvet are alternated. Gros grain silk will be more prominent than satin, although the latter has still a good position. Plush will be worn as parts of costumes or is combined in the same piece; but of all, perhaps, velvet will lead, as it is to be brought forward in every way. Silk and wool will also be much combined, as the first samples show. Silken plush gives variety to some rough woolens; velvet touches illumine others, and there are indications that canvas wools and silks as well, will find at least some representation during the coming season. Cloths in large squares and graduating down so small checks will be stylish for the wool costumes preferable for street wear. Yellowish brown is conspicuous, but is combined with some proportion of blue and red, the latter however, being to greater extent in the mixed stripes that will be largely seen next winter. Borders of simulated braid alternating with beads will form a stylish finish around draperies or the edge of skirts.

LUCY CARTER.

The Yacht Race.

The second of the trial races of the big yachts took place on Wednesday, the 25th inst., the course being fifteen miles to leeward and return. The yachts crossed the line as follows:

Atlantic,	12:06:40;
Puritan,	12:07:30;
Priscilla,	12:09:00;
Mayflower,	12:11:20.

There was a light wind and considerable swell, and slow time was made to the stakeboat, which the yachts turned in the following order:

Atlantic,	2:20:30;
Mayflower,	2:22:00;
Puritan	2:23:00;
Priscilla,	2:24:00.

At 2:50 the Mayflower was leading, followed closely by the Puritan, the Atlantic and Priscilla well to leeward; and the race ended a few minutes before five o'clock, the sloops crossing the line in the following order: Mayflower, Puritan, Priscilla, Atlantic,—the Mayflower, which was last to cross the starting line, being four minutes and a half ahead of the Puritan at the finish, and the Atlantic, the first to start, bringing up the rear.

Still Another Victim.

Dr. C. T. Bean, of Chelsea, Mass., it is said has told a reporter that Joseph Field, who boarded with Mrs. Sarah J. Robinson, the Somerville poisoner, in 1873, and who died July 13th of that year, was almost certainly poisoned.

The Irish National League's New Officers.

John Fitzgerald, of Nebraska, the newly-elected president of the Irish National League, was suggested by Mr. Egan, who positively declined re-election. He is the richest man in the league. He is said to be worth $5,000,000, is the president of three national banks and the largest railroad contractor in the west. He is not so polished in manner as many of the famed leaders of the league, but he is regarded as a business man of ability far above the average.

Hugh McCaffrey, the newly elected vice president, was born in County Down, Ireland, June 17th, 1843. He received a good, practical, business education. He came to Philadelphia, Pa., in 1860. He took no part in the Fenian movement, but has been indentified with the Irish National League ever since it became evident the movement would be carried on by legitimate and honorable means. He is a heavily built man, rather above the medium height, and of dark complexion. He is credited with being an able executive officer, and is an excellent public speaker.

The provisional government of Bulgaria has been overthrown by the populace and soldiery, and three of the ministers imprisoned. The country was enraged on learning that Prince Alexander did not abdicate voluntarily, and he has been entreated to return.

The New York newspapers are going through the regular farce of suggesting various reputable citizens as candidates for mayor, all of whom decline to have their names used, and not one of whom could be elected under any circumstances.

NOTICE TO MARINERS.

Notice is given that on or about Sept. 1st, 1886, a whistling buoy, painted red, with P. H. B. in white letters, will be moored in eleven fathoms of water, about one mile from land and one-half mile outside of Peaked Hill outer bar, Cape Cod, Mass. Magnetic bearing and distance as follows: Cape Cod lighthouse, S. E. by S., distance about 4 5-8 nautical miles. The buoy will be sounded by the action of the sea, and give from twenty to thirty blasts per minute.

YOUR HAIR

should be your crowning glory. Ayer's Hair Vigor will restore the vitality and color of youth to hair that has become thin and faded; and, where the glands are not decayed or absorbed, will cause a new growth on bald heads.

MAY the youthful color and vigor of the hair be preserved to old age? Read the following, from Mrs. G. Norton, Somerville, Mass.: "I have used Ayer's Hair Vigor for the past 30 years; and, although I am upwards of 60, my hair is as abundant and glossy to-day as when I was 25."

BE assured, that a trial of Ayer's Hair Vigor will convince you of its powers. Mrs. M. E. Goff, Leadville, Col., writes: "Two years ago, my hair having almost entirely fallen out, I commenced the use of Ayer's Hair Vigor. To-day my hair is 29 inches long, fine, strong, and healthy."

RENEWED and strengthened by the use of Ayer's Hair Vigor, the hair regains its youthful color and vitality. Rev. H. P. Williamson, Davidson College, Mecklenburg Co., N.,C., writes: "I have used Ayer's Hair Vigor for the last ten years. It is an excellent preservative."

BY the use of Ayer's Hair Vigor, Geo. A. Dadman, Waterloo, Mo., had his hair restored to its original healthy condition. He was nearly bald, and very gray. He writes: "Only four bottles of the Vigor were required to restore my hair to its youthful color and quantity."

USING Ayer's Hair Vigor cures diseases of the scalp. F. H. Foster, Princeton, Ind., writes: "I had been troubled for years with a disease of the scalp; my head was covered with dandruff, and the hair dry and harsh. Ayer's Hair Vigor gave me immediate relief, cleansed the scalp, and rendered the hair soft and pliable."

ATKINSON & COOK'S DRAMATIC COMPANY.

There was another large and highly pleased audience at Music hall on Wednesday evening, when "The Lyons Mail" was performed. Miss Maud Banks evidently grows in favor with her every appearance, and it is a matter of curiosity how so good a show can be given at such low prices.

This evening the charming comedy "Lady of Lyons" will be given, with Miss Banks as Pauline and Mr. Sullivan as Claude Melnotte.

A GOOD TIME.

The "hop" of the help at the hotel Wentworth, Newcastle, Tuesday evening, Aug. 24th, was an entirely successful affair, a very large number of persons from the other summer resorts in this vicinity, and from this city, being present, the large dance hall being wholly given up for their use. During the evening the chief steward, C. V. Carter, was presented with a heavy silver service; Assistant Steward Chapin, with a gold ring; the head waiter, Alfred McCourt, with a very handsome gold watch chain and charm; and the first assistant waiter, C. P. Garvin, with a pearl and gold opera glass. Mr. Henry L. Harlow, the musical director, was also very handsomely remembered; and all the beneficiaries responded felicitously.

THE NEW "GENERAL GRANT" POSTAGE STAMP.

The postmaster general is introducing for sale at the principal post offices "the United States Letter Sheet Envelope," a unique device for correspondence through the mails. It is a combination in one of a letter sheet, envelope and postage stamp of the denomination of two cents, bearing the military portrait of General Grant. They will be sold at the rate of twenty-three dollars per thousand, in any desired quantities, separately or in packages or pads of twenty-five, fifty or 100 each, or folded in encased packages of twenty-five each, especially adapted for use when travelling.

POLICE COURT--HATCHELDER J.

WEDNESDAY, Aug. 25th.

John Lynch, Jr., for drunkenness, was fined $3, costs $6.90.

THE CHIMNEY MAN.

City Physician Berry and Dr. J. W. Parsons on Wednesday, the 25th inst., examined the ex-marine, Post, who held the chimney top in such style on the previous Monday night; his case is not considered a very serious one, a few days' care being all that is required. How he managed to get to the top of the chimney is a puzzle, but it is certain he did get there. One of the means made use of in the attempt to get him down was smoke; a grand smudge was made in a fireplace of the house, in hope to drive him from his roost; but he had knocked so many bricks down the chimney that the flue was choked, and the only result of this experiment was to smoke the family out of the house.

The directors' car of the Cincinnati, Indianapolis, St. Louis & Chicago railroad passed through this city on Wednesday morning, 25th inst., en route to Bar Harbor.

The Banker's Daughter will be presented in Music hall on Wednesday evening of next week, by Crossen's Banker's Daughter Co., the only company having a full right to its production on the road.

About 100 persons went to North Berwick from this city on the excursion rates, Wednesday afternoon, 25th inst., to hear Hon. James G. Blaine and Gen. Wm. Gibson speak on the political issues of the day. The number would have been much larger had the weather been less threatening and raw.

The two-story dwelling on the corner of State and Union streets, with the lot on which it stands, was sold at auction on the 25th inst. by Mr. H. F. Wendell for $1950, Mr. Henry A. Yeaton being the purchaser.

The steamer Three Brothers had the eagle on top of her pilot house, and her smokestack, in place again on Wednesday.

Capt. David R. Grogan, keeper of White Island light station, came in on Wednesday forenoon of this week, and reported considerable of a sea running.

It is alleged that the congregation at the Christian church, York beach, on Sunday, Aug. 22d, "represented thirty-eight states of the Union." There were not a great many left without representation.

That gospel carriage which went through this city to Old Orchard beach from Boston some time ago, passed through Dover on the afternoon of Aug. 24th, bound from the beach to Boston, and the *Democrat* has the following notice of it: "It was hauled by a pair of horses which were in charge of a very sanctimonious driver. A young man and a middle aged lady occupied the wagon. The young man blew a cornet at a powerful but discordant rate. The lady was busy throwing out tracts along the route."

The semi-annual dividend due the stockholders of the Wolfeborough railroad will be paid at the office of Hon. Frank Jones, Market street, on Thursday, Sept. 2d, from ten o'clock A. M. to twelve.

Hon. A. W. Tenney will address public meetings at Kittery, South Berwick and Kennebunk next week, speaking on the political issues of the day and presenting the republican view, the dates being as follows: Kittery, Wednesday, Sept. 1st; South Berwick, Sept. 2d; Kennebunk, Sept. 3d.

The letter thief at Salem, Mass., it now appears has been working the business for a year or two, but so shrewdly that no clue to his identity has been discovered. Mr. Joshua B. Marston of this city is one of the sufferers by his operations, having lost several assessments sent to Salem to the treasurer of an organization of which Mr. Marston is a member; and several other Portsmouth men are reported to have lost small sums sent by mail, in letters to that city. Merriam & Tyler, of Middleton, Mass., have lost this year three letters mailed for Salem, containing checks and drafts amounting to about $1,000, and have lost in all papers representing $3,800; no benefit resulted to the thief, however, but it required several months of correspondence and annoyance to get some of the checks and drafts righted. Valuable papers mailed at Danvers, Mass., for Salem, have also been lost within a year or so.

Joseph A. Lawrence, of this city, has filed an application for letters patent for an improvement in nozzles for steam fire engine and hydraulic mining hose.

The schooners Lillie, Gold Hunter, J. Chester Wood, D. K. Ham and Satellite, from this port with bricks, arrived at Boston on Tuesday, Aug. 24th. There were six brickers lying at the draw pier of Portsmouth bridge Wednesday morning.

Judge Devens of Massachusetts and Paymaster Joseph Foster of the navy, were in town on Wednesday.

A meeting of the creditors of Frank Broggi, late a fruit dealer in this city, was held in Exeter on Tuesday, 24th inst., and adjourned to Sept. 8th at the same place.

Dr. Robert Treadwell, formerly of this city, is now professor of Arabic and other eastern languages in the university of Bologna, Italy.

Mr. J. Clifford Simpson, of Dartmouth college class of '87, and one of the editors of the new college magazine, is in Dover as the guest of Wilder D. Quint.

Mary P. Thompson, whom our readers may remember as the author of a rejoinder to Ballard Smith's article in *Harper's* on the Bunker Hill Powder from fort William & Mary, which rejoinder we published, has just issued for private circulation a memoir of her grandfather, Judge Ebenezer Thompson of Durham. Judge Thompson was a conspicuous figure in Revolutionary times.

Pollock fish have appeared off this coast in unusual numbers, and the fishermen are readily catching them. These fish do not appear in the fresh-fish markets; and yet, when dressed soon after being taken from the water, there is no better pan fish or chowder material caught, and a pollock scrod laughs the nicest cod to scorn. Everybody knows what the pollock is when salted and dried, as a "stripping" fish.

Lavina Armstrong, sixteen years old, employed in one of the mills of the York Manufg. Co., left her home in Saco on Monday, August 16th, giving no notice to her mother of her intention, and the mother's anxiety was great until on the evening of the 24th, when she received a letter from the girl, dated at Boston, and announcing her intention of returning next day. In the letter she stated that she met an elderly gentleman from Old Orchard at the Boston & Maine station in Saco on the day of her disappearance; and that after some conversation he had become quite interested in her. She represented herself without a home, and he offered to help her, and directed her to a certain house in Boston where she would readily be adopted and her health and comfort carefully looked after. She found the place on School street in Boston, and says it was all that he represented. But it was not like home after all, and she longed to be in Saco again.

HE "TUMBLED."

"There's no water where *that* fish is," quoth the Ancient Mariner, as he calmly drew a fine cod from sixteen fathoms down in the bosom of the broad Atlantic. "*No water!*" says the disgusted nautical farmer, who is picking his fingers in the futile attempt to unhook a big sculpin; "I find too much water for *me*." "You don't tumble to it," says the A. M., (whose degree was conferred by no agricultural college,) "that fish is as much entitled to his displacement as this boat, and while in his native element no water can be where he is." But the N. F. *did* "tumble to it," for, as he stood an a thwart to deliver an eloquent peroration on the fate of all who indulged in such frivolous quibbling, the dory heeled to port and the farmer took the floor very near the stern sheets.

The London *Times* publishes a letter, to which it gives a prominent place in its columns, suggesting the prosecution for treason of the Canadians and other British subjects who were delegates to the Chicago convention, on their return to their homes.

FUNERAL NOTICE.

The members of Osgood Lodge, No. 48, I. O. O. F., are requested to meet at Odd Fellows' hall on Thursday, Aug. 26th, 1886, at one o'clock P. M., to attend the funeral of our late Bro. Wm. J. Miles. A full attendance is earnestly requested. Dark clothes, white gloves.

Per order of the N. G.

C. H. CLOUGH, Secretary.

Mr. Frank J. Culbert is canvassing Portsmouth for the sale of the Gem Water Filter. Although we have good water it is not entirely free from impurities, and to make it absolutely pure as it comes from the faucet, the Gem is away ahead of any filter ever invented. It is a simple contrivance, but does its work thoroughly, its structure has a sound scientific basis, and when the water has run through it no foreign substances are discoverable, even by the strongest instrument. The Gem can be readily fitted to any faucet. It comes cheap, and water drinkers will find it a desideratum. Orders addressed to Postoffice Box 191 will receive prompt attention.

EASTERN RAILROAD IN NEW HAMPSHIRE

CLERK'S OFFICE,
PORTSMOUTH, Aug. 12th, 1886.

THE following described Certificates of Shares in the Eastern Railroad in New Hampshire having been lost, to wit: Certificate No. 1854, dated Sept. 18, 1881, for five shares, and No. 1908, dated Aug. 31, 1882, for seven shares, belonging to the estate of Otis P. Lord, late of Salem, deceased, not found among his papers and supposed to have been lost, loaned or destroyed in some manner to the Executor of said Lord's will unknown. Also Certificate No. 3398, dated July 9, 1884, for ten shares in said Corporation, which last named was issued to and was owned by E. Q. Sylvester, and was stolen on the 4th day of June, A. D. 1882, at Hanover, Mass., when his safe was robbed. Benjamin Kimball, Executor of the will of said Otis P. Lord, and said E. Q. Sylvester having severally applied to the Treasurer to have a Certificate issued in lieu of each of those lost or destroyed as before named; this is to give public notice of said loss as required by the By-Laws of the Corporation, and all persons are hereby called upon to show cause why a new Certificate should not be issued in lieu of each of those lost, the owners of said Stock being ready to comply with the requirements of the By-Laws in such case made and provided.

OLIVER DITSON & CO., BOSTON.

As bracelets they are found too delicate, as the fine gold wire is soon pulled out of place and the beauty of the design is injured.

The new fans of crepe, powdered with shining spangles, having all the colors of the rainbow, are very effective in the evening. It looks as if the powder of crushed jewels had been sifted over them. A fan of black gauze is apparently sprangled with diamond dust, in the center is the monogram of the owner in imitation diamonds. The effect is superb. It is the latest note of elegance, and all monondaines are having their monograms and coronets thus worked in their gauze fans.

A revived and very becoming fashion is a large butterfly bow beneath the chin, in white or bright colored tulle; coral, salmon-pink, and yellow of every known and unknown shade. So that you see these fluffy bows of tulle at the neck of all sorts of wraps and even added above the now again popular fichu. Colored tulle just now is the rage with our elegantes, being especially becoming for all complexions.—*Godey for July.*

A Fiddler on the Bench.

One of the Justices of the Maine Supreme Court occasionally amuses himself when he is alone by taking down an old fiddle and playing on it. The Judge used to be an expert performer of jigs on the fiddle, but since his boyhood has not devoted much time to the violin. He was born and raised in poverty, and the story of his life is almost a romance. His father was the fiddler of the village, a nomadic and jovial soul. Said an old neighbor the other day: "When I went to muster sixty years ago I used to see the Judge and his father playing the fiddle for dances at sixpence per tune. That was the regular price in those days. None of the dancers ever supposed that their little fiddler would become a Judge of the Supreme Court."—*Lewiston (Me.) Journal.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relating to all principal lines East and West, at initial and terminal points of the most magnificent and transcontinental link in that system of through transportation which invites and facilitates travel and trade between cities of the Atlantic and Pacific Coasts. It is also the favorite and direct route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Great Rock Island Route

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted roadbed, smooth tracks of stalwart steel rail, substantially built culverts and bridges, rolling stock as near perfection as human skill can make it, the safety appliances of patent buffers, platforms and air-brakes, and that exacting discipline which governs the practical operation of all its trains. Other specialities of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and Peoria, Council Bluffs, Kansas City, Leavenworth and Atchison are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars in which meals are served a la carte. It is the safest and most comfortable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Chicago, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul intermediate points.

For detailed information see Maps and Folders, obtainable of any agent, or address Jno. Sebastian, Gen'l Ticket Agent, Chicago, Ill.

The Fast Albert Lea Route

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route Fast Express Trains are run to the northern lakes, Minnesota resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Chicago, Indianapolis and Lafayette, and Council Bluffs, Kansas City, Minneapolis and St. Paul intermediate points.

The September "Eclectic" comes again to delight those interested in the best foreign literature. The articles selected for the current issue are valuable, suggestive, and entertaining. Leopold Katscher's monograph on Taine is a brilliant study of the French historian, and opens the number. Two other fascinating literary papers are Palgrave's "Poetry Compared with the Other Fine Arts," and "Novelists and their Patrons," by Alex. Innes Shand. Augustine Birrell's review of the life and times of Edmund Burke will be read with much interest, and another powerful paper is that on "The Growth of the English Novel," from the "Quarterly Veview." Students of architecture will find room for cogitation in Mr. F. H. Baker's paper on "The Evolution of Architecture;" and those who have studied the evolution of types and ideals in art will turn quickly to Charles Newton Scott's "Child-God in Art." Other important and suggestive papers are "The Drama of the Day," by Herman Merivale, and Mr. Jordan's article on "China." There are several poems and minor articles of a high standard, and the contents of the number as a whole will be certain to gratify readers of intellectual tastes, a class to which the readers of this magazine distinctly belong. Published by E. R. Pelton, 25 Bond street, New York. Terms, $5 per year; single numbers, forty-five cents; trial subscription for three months, $1. Eclectic and any $4 magazine, $8.

FARM TOPICS.

Allowing Horses to Remain Barefooted for Ordinary Farm Work—Is Bee Farming Profitable?

Fruit-Growing as an Adjunct to Farm Profits—Converting Corn Into Pork—Clover-sick Land.

WORKING HORSES UNSHOD.

One of the most constant sources of surprise, says the San Francisco *Chronicle*, to those accustomed to use horses in the city, as well as to newcomers in the state used to seeing the greatest care bestowed among eastern farmers in the matter of shoeing their horses, is in the almost universal prevalence in California of the practice of allowing horses to remain barefooted for all ordinary farm work. It is the exception and not the rule in the rural districts here to see a farm team kept shod. The absence of cold weather, with its attendant frozen earth and ice, is of course in a large measure responsible for this practice. There are many reasons, however, why the custom is a good one, and should be more generally adopted where climate conditions permit.

The first consideration among settlers of limited means is, of course, that a very large item of expense is thereby saved, and much time otherwise lost is gained. Nine-tenths of the injuries to which horses are subject are caused by improper shoeing. It is the exception and not the rule to find a blacksmith who thoroughly understands his business, and who does not burn and pare the hoofs of the horses left to his tender mercies until they are irreparably injured. Hundreds of valuable horses are ruined every year from being shod by some cross-road blacksmith who barely knows how to drive a shoe-nail. On this account, then, whenever it is practicable, the horses may just as well be left unshod. Their hoofs will require a little trimming or rasping every month or six weeks, but otherwise they will keep themselves in good condition.

Where the animals are to be used on ordinary roads and at ordinary farm work no shoes are necessary. Of course, if they are to be ridden or driven over rocky mountain trails and roads it will be necessary to protect their feet, but otherwise it will be found sufficient simply to shoe the fore feet, where most of the strain comes.

Where horses are raised, as they are largely in this state in hilly and mountainous regions, their hoofs at an early date become toughened and hard, and can stand much more without being shod than the horses raised on the soft ground of the valley. A distinction should always be made then, when the question of shoeing arises, between horses raised on soft ground and those brought up on gravelly or rocky soil. A good example is afforded by the Indian horses. They are never shod, and yet will travel distances over the roughest sort of country at high speed that would completely break down a "civilized" horse, no matter how carefully shod. Even upon the ground round it may be that for ordinary purposes it will be found that no shoeing is needed. This, of course, is not susceptible of demonstration here. What is claimed in California is that for all farm work, except for continual travel over rocky roads, it is not necessary, but, on the contrary, is a positive benefit not to shoe the horses. Many instances might be cited of horses that have been worked until they died of old age who had never worn a shoe, and probably would not have done half so well or lived nearly so long if they had been given them. Another consideration not without some weight is that when a horse kicks, as kick they will sometimes, it does not hurt half as badly to receive a blow from an unshod as from a shod hoof. Actual experience prompts the offering of this suggestion.

PROFITS OF BEE-KEEPING.

In proportion to the population the number of persons who keep bees is very small, yet there is no branch of farming (for it should be connected with farming) more profitable at certain seasons than the keeping of bees. A good, strong colony, in the midst of the busy season, will collect and store four or five pounds of honey daily; but the amount of work done by the bees depends upon the forage and the strength of the colony. As soon as a colony becomes weak and incapable of defense it will be attacked by the stronger ones and robbed. Hence, in order to keep each hive up to its fullest capacity, the beekeeper must provide plenty of comb foundation in order to lessen the work to be performed, and sow such crops as will afford honey later in the season, when the flowers have finished blossoming.

The swarming process is nothing more than the departure of the old queen and her working bees, in order to abandon the hive to the younger queen and bees. By being on the alert and hiving the swarms as they alight, the number of colonies may be largely increased, but the weak colonies seldom swarm. The moth usually attacks the weak colonies, and only the stronger ones are able to pass safely through the winter.

The common bees may be gradually replaced with the Italian or Cyprian bees by removing the old queen and substituting a new fertilized queen of either kind preferred. If she is carefully guarded in a small cage for a few days the bees will soon recognize her, and in the course of a few months the old bees will all be dead and the new ones will be of the desired kind. The queen is compelled to lay large numbers of eggs daily in order to supply the great loss constantly occurring by the destruction from birds, storms and other difficulties. They should be left plenty of honey for a winter supply, and the hives should be well protected from the storms.

What the beekeeper should aim to do is to sow such crops as will enable the bees to lay in a large supply of honey

The Mayflower Elected.

The following table gives in the first column the official time of the finish of the four big sloops; in the second column, the actual time occupied in sailing over the course; and in the third column, the corrected time:

	h. m. s.	h. m. s.	h. m. s.
Mayflower	4 50 05	4 41 05	4 31 45
Atlantic	4 58 58	4 52 20	4 31 32
Priscilla	4 59 47	4 50 47	4 33 03
Puritan	4 55 55	4 47 29	4 35 36

The America's cup committee, fully satisfied that the Mayflower is the best of the four sloops, on the evening after the race made the following announcement:

The committee has decided to dispense with further trial races; to designate the Mayflower as the yacht selected to compete with the Galatea in the ensuing races for the America's cup, barring accidents meanwhile.

Charles C. Perkins Killed.

At Windsor, Vt., on the evening of Aug. 25th, Senator Evarts, Charles C. Perkins, the widely-known art critic, of Boston, and Miss Jeanie Matthews, a daughter of Judge Stanley Matthews of Cincinnati, were out riding when the horses ran away and all were thrown out, Mr. Perkins being instantly killed by striking a stone wall. Mr. Evarts received a slight scalp wound, and Miss Matthews was somewhat bruised, but no bones were broken. Mr. Perkins was on a visit to his son, Mr. E. C. Perkins, who married Senator Evarts' daughter. From the route taken by the horses it is miraculous that all were not killed. At ten o'clock that evening Mr. Evarts was very comfortable, and no danger was apprehended.

The Church and the Knights.

Monseignor O'Brien, the papal ablegate, now at Toronto, Canada, says, regarding the Knights of Labor, that the Vatican's pronunciamento is absolute and must be obeyed in all parts of the world. At the same time he could hardly say whether the Knights of Labor is really a secret society, as there was a great difference of opinion as to its character among the members themselves. He hopes that the difficulty between the Knights and the church will be amicably adjusted, and the constitution of the order so altered as to satisfy the Roman Catholic authorities.

AROUND HOME.

"Sparkling Eyes," from the far east, an aborigine of the gentler sex, was given the privilege of a free ride, yesterday afternoon, from the vicinity of Water street to the police station, under escort of two gallant officials. She was "paralyzed."

Mr. John A. Broderick, assisted by a ladder and a small boy, on Thursday evening took from the roof of an unoccupied house on Hanover street, opposite Jones' stable, a cat that had been seen there since the Saturday afternoon previous, and had for a couple of nights before its rescue been making things very pleasant for the neighbors, by singing.

The police were called by telephone, Thursday evening, to the Akerman place on Spinney's road, where a free fight was said to be in progress. They returned with Mr. Joseph Akerman and his sister, and had quite a circus in doing it.

The train from Boston for Portland, passing through this city about three o'clock, was on Thursday drawn by the Washington, one of the Boston & Maine's new locomotives which has been running on the road for about a week. The new machine is a very handsome one.

Mr. Freeman of Hill street, the old gentleman who was knocked down by a team while crossing Pleasant street near the post-office on Tuesday afternoon of this week, was very ill, and suffering a good deal from the effects of the fall and shock, on Wednesday; and from his feeble state his friends had grave fears of the most serious consequences. On Thursday morning, however, he seemed much better, and was able to be dressed and move about in the house.

Music hall has been supplied during the summer vacation with three entirely new sets of scenery, and all the old scenery was retouched and repaired. A new parlor scene, used this week by the Atkinson & Cook Dramatic Co., is a very fine piece of work.

Capt. J. Albert Sanborn starts this morning for New York, to sail for Cayenne, South America, under engagement to start at work on the American system a gold mine owned by a large French company. After completing his contract with this company, he has a similar engagement with another in the same region.

Mr. Thomas O. Marvin of Tufts college will preach in the Universalist church next Sunday forenoon. Mr. Marvin occupied the pulpit of this church one Sunday a few weeks since, with great acceptability to the congregation, his discourse being marked with a depth of thought which many much older preachers do not always display, while his language was well chosen and his delivery pleasing. Mr. Marvin is a son of Col. Thomas E. O. Marvin of this city.

John P. Bartlett of Manchester, George Young, formerly of Young's hotel, Boston, and James Scammon, Esq., of Kansas City, went to the Shoals on Thursday.

Circumstances make different impressions upon different people. The *Times* gives the number of people at the republican rally in North Berwick as "about 1500," and the *Penny Post* as "nearly ten thousand"—a seeming discrepancy; the editors of both papers were present at the meeting, we are informed. The Portland *Press* says "there were fully 3500 people in the grove."

The streamer Mystic went on the ways at Kittery on Tuesday, the 24th inst., to have some trifling defect in the stern bearing of her shaft remedied. She had been running well enough, but Capt. Trefethen was not quite satisfied, and as he doesn't mean there shall be any "out" about the boat in any point, out of water she came. She was taken off the ways on Wednesday evening, and commenced her regular trips across the river on Thursday morning.

Persons intending to take advantage of the cheap transportation to and from the Shoals by the steamer Oceanic, on Tuesdays and Fridays from now to the end of the season, are reminded that they must procure round-trip tickets of Capt. Robinson on the wharf, and not wait until the steamer is under weigh.

LADIES AND GENTLEMEN.

Prepares students for the "Institute of Technology, Boston University, or for admission to any College

The Business Course is intended to meet the special wants of those who wish in the shortest time to prepare themselves for the duties of the Store, the Counting Room, or any of the Mechanic Arts.

The success of the school is attested by hundreds who have enjoyed its advantages during the thirteen years of its existence, and who now in every part of the world are prospering in almost every honorable occupation. The Principal hopes by attention to the educational progress of the times to offer superior advantages to the patrons of the school.

While pupils are admitted at any time, it is very desirable that attendance commence at the beginning of the term.

For further information apply to the Principal, LEWIS E. SMITH.

Portsmouth, Aug., 1881

The survivors of the 27th Maine Reg't have a reunion at North Berwick to-day.

Hon. Increase S. Kimball of Sanford, eighty-seven years old, and the most aged member of the York county bar, attended the republican mass meeting at North Berwick on the 25th inst., and listened with interest all through the speeches of Mr. Reed, Mr. Blaine and Gen. Gibson.

James T. Furber, general manager of the B. & M. R. R., and Hon. Addison Mandell of Detroit, were in town on Thursday.

The *Times* says that "One of the badges worn at the 20th annual encampment of the Grand Army of the Republic at San Francisco, arrived in this city Tuesday night, Aug. 24th. The badge was worn by Mr. Harrison Moran, a son of Mr. John H. Moran of this city, on the big day of the encampment. Mr. Harrison Moran has been a citizen of San Francisco for many years, and is now a member of the police force of that city. He marched in the procession at the head of the New Hampshire division, having been assigned that position because he was a New Hampshire boy. The wearer of the badge, after the close of the encampment, sent it to his sister, Miss Lizzie Moran, in this city."

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S
Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, August 26th, Mayor Eldredge in the chair:

Present the full board, except Alderman Sinclair.

Records of the late meeting were read and approved.

John Conlon was granted leave to encumber Charles street for building purposes.

Petition of Daniel P. Pendexter and others, for sewer on street running from No. 74 Middle street, was referred to the committee on drains, to report.

Petition of Maud D. Mendum and others, for two electric lights on Middle street, between Cass street and residence of Chas. E. Walker, was referred to the committee on street lights, to report. Also the petition of Nathan Jones and others, for an electric light on Islington street.

The location of the landing ordered to be provided at the foot of Mechanic street, was changed to the foot of Gates street.

Committee on claims reported on the claim against heirs of Mary Connors, recommending that they be allowed to settle with the city for $20.

Bills amounting to $2840.72 were ordered to be paid.

Declination of Francis E. Langdon to serve on the school board was accepted.

Bonds of city marshal, assistant marshals, police officers and constables, and city treasurer, were approved.

An electric light was granted petitioners, at the corner of Cass and Middle streets.

Mayor reported the south millbridge in a dangerous condition; referred to committee on streets, with power.

The mayor reported that the occupant of the house whose chimney was partly demolished by an insane man, thought the city might assist in repairing the same; the city solicitor's opinion was asked as to liability, and he thought none rested on the city.

Thomas P. Watkins, John O'Donnell, Timothy O. Sullivan, John S. Wendell, Cornelius Reagan, Daniel C. Rich, John Smart, Cornelius Quinn, George Hoyt, Joseph Hutton, Warren O. Lear, Michael Gregg and William H. Kenniston, were appointed supernumerary police.

John S. Wendell was appointed superintendent of the cemetery on Pleasant street.

The chairman of the board of health was authorized to procure three suitable badges for the use of the health officers.

Condition of the landing near Brooks' store at the north end, was referred to the committee on streets, to report.

In answer to a question, the mayor stated that Judge Foster said the city need have no uneasiness in regard to the Knibbs valve matter; he would have the city clerk write to Judge Foster, for more definite information.

Adjourned for one week.

ATKINSON & COOK'S DRAMATIC COMPANY.

There were few seats to spare in Music hall on Thursday evening, when the "Lady of Lyons" was performed by the Atkinson & Cook Dramatic Co., with Miss Maude Banks as "Pauline," and Mr. E. P. Sullivan as "Claude Melnotte." This play of Bulwer Lytton's is one of the standard comedies, which everybody has seen time and time over, and is willing to see again whenever it is well presented. The performance on Thursday evening was highly satisfactory to the audience, judging from the indications so generously given, and Miss Banks won renewed favor by her rendering of the part of "Pauline," for which she seems especially adapted.

This evening the melodrama "Life for Life," adapted from the French by Napier Lothian, Jr., will be the attraction; it has never been performed here.

To-morrow (Saturday) afternoon a matinee will be given; and Saturday evening the week's successful engagement will close with the performance of "Little E'mly," a dramatic version of Dickens' great story. David Copperfield. Tickets at Goodrich's.

The "Lady of Lyons" will be presented at the matinee to-morrow afternoon.

THE RALLY AT NORTH BERWICK.

The republican rally at North Berwick, Me., on the 25th inst., was a great success, there being between 3,000 and 4,000 people present, including a goodly number from New Hampshire towns near the border of York county. Judge Hobbs of North Berwick was chosen president of the meeting; Sylvester Bartlett, Dr. C. E. Hussey, Dr. M. F. Wentworth and Zachariah Donnell were among the vice presidents. Hon. Thomas B. Reed was the first speaker, and held the close attention of the throng for about one hour, when he gave way to Hon. James G. Blaine, who discussed the temperance question in relation to politics, the tariff and protection to American labor, the fishery dispute and its treatment by the administration, and other living topics, in his own terse and vigorous manner. Gen. Gibson of Ohio was the last speaker, and though Reed and Blaine are two "very hard men to follow" on the platform, he kept the audience in good humor and their seats to the close of his remarks, when the meeting broke up with three hearty cheers.

MATRIMONIAL.

From the *American Sentinel*, of Bath, Me., of date Aug. 26th, we take the following, which we find under the head of Brunswick:

This morning at ten o'clock, at the residence of the bride's father, Judge C. C. Humphreys on Federal street, occurred the wedding of Miss Fannie M. Humphreys and Mr. Charles A. Davis of Portsmouth, N. H. Only the relatives and a few near friends of the couple were present at the ceremony, which was performed by Prof. H. L. Chapman. The couple left on the noon train for their future home in Hyde Park, Ill., a short distance outside of Chicago, where Mr. Davis, who is a graduate of Bowdoin college, class of '86, has secured an excellent position as instructor in the Hyde Park high school. Their many friends wish them abundant success.

Mr. Davis is son of Lewis G. Davis, Esq., of this city; he was an earnest student, and highly popular with his young associates; and with his energy and correct habits, it would seem must succeed in life.

POLICE COURT--BATCHELDER J.

THURSDAY, Aug. 26th.

Franklin C. Hoyt, for drunkenness, was fined $3, costs $5.76, which he paid.

Michael Brennan and John Murphy were each assessed $9.90, fine and costs, for drunkenness; neither could pay up, so Brennan was committed to jail and Murphy to Brentwood.

OUR SUMMER VISITORS.

As the month of September draws near the throng of pleasure seekers who have passed their summer outing at the numerous delightful resorts in the vicinity of Portsmouth are taking, or soon will take, their leave and preparing to return to their homes. The season has been an unusually prosperous one, and from Hampton to York, the hotels, boarding houses and cottages, have been full of those who in the pursuit of happiness or health have spent their vacation at the seashore. We shall miss the gay equipages which have enlivened our streets, and the revenues of our merchants will doubtless suffer some reduction. May they return another year in augmented numbers. A sojourn of a few weeks anywhere in this vicinity must add greatly to the health and strength required for the duties of the rest of the year.

THE BANKER'S DAUGHTER.

When Bronson Howard wrote "The Banker's Daughter," he produced the best society play that graces the boards of the theatre to-day, a comedy that has been played throughout the length and breadth of the country and met with one universal verdict, viz.: Splendid. The story is familiar to play-goers and readers. The sacrifice of a daughter to save her father; her marriage with a man she does not love, but who is the soul of honor and pure devotion; his discovery of his wife's indifference to him, after having lived with her for a period of years, offering daily his devotion at a shrine which with the blindness of love he could not see was veiled to him; their separation, and in the end the husband's recall by the wife, who during his absence has learned to know how well she loved him—all this is related with a wealth of incidents that engages and retains the closest attention, and a depth of pathos that appeals to the innermost sensibilities of the spectator. The intrinsic merit of this really excellent work is not lessened by the fact that it is entirely devoid of the tendency to cater to a morbid appetite that comprises a rock of offence in so many "society" plays. "The Banker's Daughter" is certainly a very powerful and absorbing play. The story is full of interest, there is an abundance of comedy element to brighten it up, and, above all, the characters are made to talk and act like men and women.

At Music hall Wednesday evening Sept. 1st. See advertisement.

MANUFACTURED STONE.

Col. James S. Pierce, formerly of this city, now a manufacturer of patent stone in Minneapolis, Minn., and Jacksonville, Florida, has arrived home in this city for a short stay. He brings with him samples of the stone made in Florida, which he is to exhibit in this city for a few days. He has laid many miles of sidewalk in Minneapolis and St. Paul, and the walls of numerous buildings in those cities have been constructed from it. All contractors who have seen it are much pleased with it, and recommend it. Mr. Pierce has had some talk with Boston real estate owners, showing them his samples, and will, he thinks, make contracts with them. In case he does close bagains for his stone in that city, he will manufacture in this city. To carry on an extensive business, a large area of land and a big force of men is required. We hope he will meet with success. We have seen the samples in this city, in two colors. It would make a handsome sidewalk, or a beautiful building front, as it can be moulded in any conceivable shape, from sand in any part of the world; and equally lasting, the weather either hot or cold having no effect upon it.—*Times.*

BASE BALL.

The Riverside base ball club of this city went to Dover on Wednesday of this week, and played a game with the Great Falls club, on the grounds of the Dover base ball club. The game was for a purse of $10, and was won by the Riversides, the score being 11 to 0 in their favor. The battery of the Riversides, Mahoney and Schreiter, did splendid work for their side, Mahoney striking out sixteen men.

The Portsmouth base ball club will play a game at Rye beach Saturday afternoon with a picked nine of summer boarders.

NAVY YARD ITEMS.

A number of men were "taken on" in the boat-shop at the navy yard, Thursday morning. It is reported that orders have been received to build nine of the large boats required for the new cruisers authorized by Congress at the late session; also that the dry dock is to be recalked. If the latter report is not true it ought to be, for the dock badly needs recalking.

Major C. D. Hebb, U. S. M. C., commanding marines at the navy yard, left for New York on Thursday, 26th, to report as member of a court martial to assemble at the Brooklyn navy yard on the 27th inst., for the trial of an officer of the marine corps.

EASTERN RAILROAD IN NEW HAMPSHIRE

CLERK'S OFFICE,
PORTSMOUTH, Aug. 12th, 1886.

THE following described Certificates of Shares in the Eastern Railroad in New Hampshire having been lost, to wit: Certificate No. 1464, dated Sept. 18, 1851, for five shares, and No. 1968, dated Aug. 31, 1855, for seven shares, belonging to the estate of Otis P. Lord, late of Salem, deceased, not found among his papers and supposed to have been lost, loaned or destroyed in some manner to the Executor of said Lord's will unknown. Also Certificate No. 3366, dated July 3, 1864, for ten shares in said Corporation, which last named was issued to and was owned by E. Q. Sylvester, and was stolen on the 14th day of June, A. D. 1882, at Hanover, Mass., when his safe was robbed, Benjamin Kimball, Executor of the will of said Otis P. Lord, and said E. Q. Sylvester having severally applied to the Treasurer to have a Certificate issued in lieu of each of those lost or destroyed as before mentioned: this is to give public notice of said loss as required by the By-Laws of the Corporation, and all persons are hereby called upon to show cause why a new Certificate should not be issued in lieu of each of those lost, the owners of said Stock being ready to comply with the requirements of the By-Laws in such case made and provided.

Musical Queries

Occur to every musical person, whether professional or amateur, pupil or teacher. It is wise to have at hand standard books, like those of DITSON & CO., so that every question may be answered.

How shall I pronunce this Italian word?

Says the embarrassed pupil, who does not wish to appear verdant. Why, purchase *Ludden's Pronouncing Dictionary of Musical Terms*, ($1.50); in common use in all civilized languages, is given.

Do you wish not to appear ignorant when any musical celebrity is mentioned?

The great *Moore's Encyclopedia of Music* ($5.00) contains thousands of biographies, dates, and *Ditson's Biographical Sketches of Eminent Musical Composers*, ($1.50) will pose you as to the principal modern masters.

Do you wish to solve any musical problem?

Steiner's Dictionary of Musical Terms will solve it for you. Cloth, $3.50; Boards, $2.50.

Are you posted in Musical History?

If not, do not fail to purchase forthwith *Ritter's Student's History of Music*, ($1.50) and be no longer ignorant. These books constitute a valuable library, and will specific topics the price to those who wish to write or talk with accuracy on musical subjects.

OLIVER DITSON & CO., BOSTON.

and be can well afford to do so if he has a number of hives. At this season the bees find plenty to do in working on the flowers, but later the crop of buckwheat affords ample forage while it is in blossom. Enterprising beekeepers combine beekeeping and poultry raising, finding that a small piece of ground may in that manner return large profit. How to manage cannot well be explained in a single article. All who are interested should first make themselves familiar with the details before beginning by consulting authorities on the subject. That beekeeping is a profitable occupation, however, has been demonstrated satisfactorily to all so engaged.

GOOD FRUIT PAYS.

The value of a crop of fruit depends more upon its quality than its quantity. No matter how large the general fruit crop may be, nor how heavily the market may be "glutted," good fruit will always sell readily, and at fair prices. Nor can there be a surplus grown. If not sold immediately the crops may be dried, evaporated or canned, for there will arrive a time when such will be in demand. Too much fruit has not yet been produced during any season. When the blackberry was made a cultivated crop it was predicted that, as the fence corners and abandoned locations had always afforded a supply, the introduction of large quantities of the cultivated kinds would render prices too low to realize profits; but as the crops were increased the berries were improved, and a demand was created that grew with the supply, the consequence being that although car-loads are shipped to our large cities during the fruit season, the prices have been higher than at any previous time. The same rule applies to other fruit crops. As the supply increases, fruit-growers endeavor to advance prices by improving the size and quality of the fruit. In venturing upon fruit-growing, the varieties selected should be those best adapted to the climate in which they are to be grown, the prolificacy, hardiness and quality being the chief consideration. And it must not be overlooked that some varieties require special cultivation, while the character of the soil is an important factor also. In marketing fruit something depends upon the mode of shipment, while the manner of harvesting, and the proper time for so doing, largely affects the keeping qualities. Like every other pursuit, labor is necessary. Preventing insect depredations and pruning at the right moment, call for good judgment and careful attention.—*Tribune and Farmer.*

CONVERTING CORN INTO PORK.

Pork and corn seem to be inseparable articles. But unless the corn is properly fed the pork will be expensive. Corn and pork only go together when it is desirable to fatten the hogs. If corn is used in any other manner, or for a different purpose, the pork becomes a very expensive product. We do not advocate feeding corn in the summer to any class of stock, and experience shows that while it is invaluable to the pork raiser, and the most convenient article he can use, pork can be produced more cheaply when the corn is fed in a judicious manner. Many farmers, though aged, do not know that clover hay can be fed with advantage to hogs, and yet such is the fact. We have long separated the hog from all other classes of stock, and denied him the privileges of being fed on grass, cut hay, ground oats and other food that is more acceptable to him during his growing period than corn, and the consequence is that he fails under the long continued diet of corn, and becomes susceptible to diseases that were before unknown. To keep the steer stuffed with dry corn, which is a concentrated food, and deprive it of bulky provender of pure water, would cause it to succumb in a short time, yet this is just the treatment the hog is compelled to undergo, simply because "corn is king" and supposed to be cheap, when the fact is that when fed under such circumstances it is very costly. What the hog requires is variety, including bulky food, and corn will then perform an important service.—*Farm, Field and Stockman.*

CLOVER-SICK LAND.

Sir John Lawes ascribes what is called "clover-sickness" to the plant not having accumulated a sufficient store of food in its roots during the first year of its growth. This, he explains, may happen from a variety of causes—such as the roots of previous crops taking some years to decay, and the want of sufficient alkaline salts in the subsoil. He lays a particular stress on the fact that all our agricultural operations tend to accumulate the food of plants close to the surface of the soil, while it is only such soluble salts as chlorides and nitrates of soda and lime which pass quickly into the subsoil and are carried away in the drainage water. He also points out the fact that the deep-rooting plant like clover, feeding on lime, has little chance against a creeping-rooted plant, like couch-grass, which feeds on silica, a far more abundant product in most soils. It is to be remembered, however, that there are many forms of "clover sickness," and probably as many different causes. One form of it is due to a fungus, and "clover fungus" is more common than is generally supposed. Some German observers hold that clover-sickness is due to parasites in the soil, but they have adduced no positive evidence of this. As, however, "beet-sickness" has, in certain instances, been traced to parasites in the soil, it is quite within the range of possibility that the failure of clover may sometimes result from a similar cause.—*Farmers' Magazine.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

A New Tonic for Women.

One of the largest concerns of this country, which has made its prosperity and fame upon a common-sense view of the sanitary needs of the people, is the Duffy Malt Whiskey Co., Baltimore, Md., the discoverers of the Duffy pure malt whiskey, the only absolutely pure whiskey manufactured, the medicinal virtues of which have proved it to be in a very brief period, not only the most popular, but an unfailing specific for the worst diseases which afflict mankind. So great has been their success in this line, they have consented, upon a general demand from persons acquainted with and using the whiskey, to make further application of the medicinal virtues and purity of their great discovery in the treatment of diseases of a peculiar and delicate nature common to women, and upon the prescription of a learned physician have prepared an article for this purpose. This new remedy, known as Duffy's Tower Mint Cure, is an invaluable tonic, the principal ingredients of which are Duffy's pure malt whiskey and mint, combining the best recognized curative agencies for the relief of pain and distress in the performance of the menstrual functions, and as an aid to nursing mothers in the discharge of maternal duties without fatigue. In like manner it ensures safety in the change of life and alleviates and cures faintness, melancholy, morning sickness and the troubles of pregnancy, while it assimilates with the blood and strengthens every organ. The purity of the ingredients and their health-giving qualities, compounded in accordance with the best medical law, renders this preparation strictly reliable, and it is only upon such a basis of confidence that it is issued by the above firm. It has already been extensively introduced through the medium of the company's publications, and there is quite a demand for it.

All inquiries concerning the use of this new remedy, in its application to the relief of the complaints referred to, will be answered by the Medical Department connected with this concern, upon receipt of a statement of each case, accompanied by a two-cent postage stamp.

Some years ago I badly strained my stomach picking cherries, and have suffered greatly ever since. Nothing has been so beneficial as Allcock's Plasters. They entirely cured me of that trouble. I have also been afflicted with a lame ankle, but these Plasters soon enabled me to walk. I recommend them whenever I have an opportunity, as I have found them very useful for over ten years. Allcock's Plasters have always done me the greatest service, and I am every day more and more convinced that no household should be without them.

MRS. SUSIE A. BILLS.

Two tramps walking on the Fort Wayne railroad track near Allegheny, Penn., saw a little child playing on the track, and at the same moment saw a train approaching. One of them, August Gottlieb, ran for the child, reached it just in time to throw it from the track, and then was ground to death under the wheels of the locomotive.

The dedication of a big town hall at Provincetown, Mass., Aug. 25th, was the occasion of a big celebration. Governor Robinson and other distinguished gentlemen were present.

The second annual gathering of the Billings family will be held at Chapel Hall in Tremont Temple, Boston, Friday, September 10th, at ten o'clock A. M. Everybody bearing the name of Billings, whether by birth or marriage, and all others descended from a Billings or Billing, nearly or remotely, are invited to attend the meeting. Dinner will be provided by Tufts, Boston's favorite caterer, in rooms adjoining the hall. The postprandial exercises will consist of a series of short speeches and papers presented by members representing the different branches of the family, interspersed with music, including singing.

The French transport Orne sailed from Toulon on Aug. 22d for Martinique, loaded with convicts. She returned on the 23d, and reported that the convicts had revolted and tried to gain possession of the ship. Two cannons loaded with grape were fired at the mutineers, and many of them were killed.

J. W. Springfield, proprietor of a woollen mill in South Wolfeboro, learning that a former objectionable employe was organizing a Knights of Labor lodge among his employes, notified the help that if they should join he would be compelled to shut down the works. This is the only industrial establishment in the town.

Hon. William M. Evarts and Miss Matthews are recovering rapidly from the effects of their accident.

PARSONS' PILLS

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of diseases. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. One pill a dose. Parsons' Pills contain nothing harmful, are easy to take, and cause no inconvenience. One box will do more to purify the blood and cure chronic ill health than $5 worth of any other remedy yet discovered. If people could be made to realize the marvelous power of these pills, they would walk 100 miles to get a box if they could not be had without. Sent by mail for 25 cents in stamps. Illustrated pamphlet free, postpaid. Send for it; the information is very valuable. I. S. JOHNSON & CO., 22 Custom House Street, BOSTON, MASS.

CATTLE RAISING IN FLORIDA.

Cattle of the Everglades—Life of the Cowboys—A Round-Up in the Wilderness.

There are cowboys and cattle ranches in Florida the same as in the wild west. The cattle of Florida are principally of Spanish breed. From the earliest times the cowboys or crackers, who are hardy and adventurous woodsmen, have served as explorers, and have been the guardians and guides of the frontier. They have labored from Georgia to the everglades and from the Atlantic to the gulf. Every inch of this territory has been hotly disputed by the hostile Seminole Indians. The Indian rifle, tomahawk, and scalping-knife, and the blood-curdling war-whoop have been common barriers to be met and overcome by the first pioneers and cattlemen of the state. Wherever the half wild herds were wont to roam, there the cowboys, mounted upon their fleet and toughened ponies, were to be found pursuing their pathless courses, through the swamps and jungles of the interior.

During the civil war Florida beeves contributed largely in supplying both Federal and Confederate armies. Regular details were made from the contending forces, composed of experts in cattle-herding, to collect beef cattle and supply the demand for meat. Since the war many thousands of Florida beeves have been transported across the gulf of Mexico to the Cuban markets. There are nearly 500,000 head of cattle in the state.

The manner of managing the half-wild cattle in Florida is a matter of astonishment to those unacquainted with the business. The task requires stout, athletic, determined young men, thoroughly inured to the hardships and privations of out-door life, trained to the saddle, thorough woodsmen and experts in everything pertaining to the business. Parties of cowboys usually number from ten to fifteen men organized under the careful skill of a supervisor, who assumes all the responsibility of management. They are accompanied by a wagon and team, containing all the camp equipages and supplies for a long and tedious service. The teamster must be a thorough woodsman, who follows his pathless course from ranch to ranch and acts in the double capacity of teamster and cook for the entire party. Strong and substantial cattle pens are erected at convenient localities where there is rich grass and plenty of water and shade.

The "round up" is peculiar. Early in the morning the cowboys mount their ponies, disencumbered of everything except their long fifteen feet cow whips or "drage" and lunch for dinner. Of course, their broad-brimmed hats and heavy spurs are indispensable appendages. Thus equipped, receiving orders from the "boss," they start out through the cattle range rounding up everything, congregating usually about noon at some designated point. After a few hours' rest the "boss" sounds the signal to move by giving one crack of his long whip, and every cowboy springs into his saddle and the herd is moved gently forward to the ranch or penning place, forming a column of cattle sometimes more than a mile in length. During dry weather clouds of dust rise high, and may be seen for miles in the distance. The cattle are fresh and lively, hundreds galloping ahead trying to escape, while a heavy mass of cows with young calves lag heavily in the rear. The herd marches slowly toward the pen, sometimes through difficult swamps and jungles. The crossing places of creeks and morasses must be struck squarely, as a few abrupt turns with a large drove destroys the march of more than half a day.

Late in the afternoon, near night fall, a herdsman is seen to dash ahead, and the log fence gapway of the cow pen is thrown open for the reception of the herd. The head of the column reaches the gapway, often refusing to enter, and turns back upon the rear, forming a circle which is sometimes hard to break. The drovers hold them in check, gradually drawing in upon them, until some older and tamer animal takes the lead and enters the gateway, when all gradually follow and are inclosed with strong bars for the night. Here the cowboys come in close contact, probably for the first time since sunrise in the morning. All with common consent turn toward the camp near by. Their weary ponies, covered with sweat and dust, are quickly unsaddled and turned loose to roll and wallow upon the green sod and refresh themselves. Then supper is announced. After supper the solacing pipes are filled and the whole party set themselves upon the lap of Mother Earth to rest their weary bodies.—Will M. Clemens in Detroit Free Press.

Peculiarities of the Savoyard Twins.

In the beginning of June the Vienna press announced a second edition of the Siamese twins, in the conjunct persons of John and Jacob Tocci. The boys were born a few miles from Turin, in the duchy of Savoy, and for years the parents managed to keep the secret of their existence, but were finally persuaded to exhibit them to a committee of physicians, with the usual result, an enterpresario and a European round-trip. The conjunction begins some eight inches below the shoulder and becomes complete in the region of the hips. The digestive functions are effected by one set of organs. The arrangement of the diaphragm is doubtful, but each boy has a heart of his own, a separate pair of lungs and arms, and a separate head. The strange agglomeration is supported by two feeble legs, rather inadequate to the purpose of locomotion.

Considered as a unit, the marvel is a

Why is It

That the sale of Hood's Sarsaparilla continues at such a rapidly increasing rate? It is,—1st: Because of the positive curative value of Hood's Sarsaparilla itself. 2d: Because of the conclusive evidence of remarkable cures effected by it, unsurpassed and seldom equalled by any other medicine. Send to C. I. Hood & Co., Lowell, Mass., for book containing many statements of cures.

It was to Harry O'Reilley, who has just died, that a New Jersey railroad, forty years ago, refused permission to erect posts and build a line of telegraph along its road between Philadelphia and New York. The frank and absurd reason given was that "the telegraph would interfere with travel, by enabling persons to transact business by its means instead of using the railroad."

Naval Intelligence.

The acting secretary of the navy has ordered the trial of First Lieutenant O. C. Berryman, of the marine corps, by court-martial, on a charge of drunkenness. The court consists of Captain Charles S. Norton, Captain T. F. Kane, Lieutenant-Colonel John L. Broome, marine corps, Lieutenant-Colonel Hebb, marine corps, Commander F. W. Dickins, Lieutenent-Commander J. F. Green, Captain R. W. Huntington, marine corps, and Lieutenant C. H. Arnold, with Lieutenant S. C. Lemly as judge advocate.

Capt. Charles S. Norton has been ordered to duty as a member of the naval board of inspection and survey.

Lieut. Henry H. Barroll has been ordered to duty at the branch hydrographic office at Philadelphia.

Lieut. A. B. Wychoff is ordered from the branch hydrographic office at Philadelphia to the Lancaster.

Passed Asst. Engr. William A. Windsor is detached from the Tennessee, and placed on waiting orders.

Passed Asst. Engr. E. A. Magee is ordered from the Minnesota to the Tennessee.

Passed Asst. Engr. James Entwistle is ordered from temporary duty on the Atlanta to the Minnesota.

AROUND HOME.

William Paul and wife, of New York, are visiting at Major Urch's in this city.

Mr. Michael Crowley, of the Sons of Veterans camp in this city, and lieutenant colonel of the New Hampshire division, will visit Buffalo, N. Y., next week, as a delegate from New Hampshire to the national grand encampment of the order.

A good flagstaff and flag on Fort point would be a great convenience to boatmen using the main channel of our harbor. It is futile to tell the best skippers of the great variance to be found in the flags along shore at the same moment.

The picnic of the Christian churches announced to be held in Norwood grove, York, Wednesday, Sept. 1st, will be held in Francis Plaisted's grove, near Mount Agamenticus, instead. A. H. MORRILL.

Mr. Daniel P. Marcy and wife, of New Orleans, are visiting Hon. Daniel Marcy of this city.

Civil Engineer Henry S. Craven, U. S. N., the last civil engineer attached to this navy yard, and now stopping in the Lawrence cottage at Kittery Point, was a few months ago consulting engineer of the new aqueduct in New York, and his resignation was demanded because he resisted and denounced the corruption of Flynn and his tool, Commissioner Squire, and their pals. Flatly refusing to either resign or retract, he was kindly furnished with a walking ticket, as of course was to be expected. Mr. Craven's sorrow over the bouncing of Squire and the exposure of Flynn is not overpowering, the justice of his charge against them having been conclusively proved by the recent events.

Rev. A. H. Quint, D. D., of Dover, called on Hon. John Wentworth at the Rockingham house on Friday.

Mrs. Abby L. Burbank of this city, widow of Surgeon Charles H. Burbank, U. S. N., and Mrs. Florence Murray, widow of Rear Admiral Alexander Murray, were granted pensions by private acts passed by Congress at its late session, and which became laws.

Early Wednesday morning of this week a three-masted schooner, deep laden with coal and bound for Dover, sailed up through the narrows. Her captain had never been in this harbor before, and had no pilot on board; and after passing through the narrow passage between Peirce's and Seavey's islands, when he saw the stone beacon, evidently marking a formidable danger, right ahead, he thought he had got far enough, and brought the schooner up with both anchors between Peirce's island and the southerly edge of the beacon shoal, where she remained all that day and night and until after noon on Thursday, when the tug Ann hooked on to her and started up river with her on the way to Dover. An old river man who was at work in sight of her all day Wednesday informed us that "She was the biggest vessel I ever saw anchored anywhere about there, and was mighty uneasy all day, heaving in on one crain and paying out on the other ten or a dozen times; there wasn't much water under her heel sometimes, when she was tailing just right for the rocks. Next time that skipper comes here he'll anchor below, or take a pilot."

William T. Betton is organizing a fife and drum corps of twenty-four pieces. Mr. Betton has organized a number of such corps at different times and places—in Newcastle, at Salem, Mass., North Berwick, Me., and in this city.

Mr. George B. Chadwick is acting as foreman of the Portsmouth Machine Shop, the position recently vacated by Mr. Edward P. Carmen.

A very large size rat was seen by a Payne street cat yesteraoon near the Mahoney block. Pussie made a charge at the rodent, but unexpectedly the rat got the better of the cat. A desperate struggle ensued, and only for the aid of two other cats who came on the scene the rat would have succeeded in killing the cat. As it is the cat will die. It is owned by Miss Casey of Payne street. It was badly bitten all over the body by the rat.—*Dover Democrat.*

Capt. William Mitchell, widely known as station agent at Portland for the Eastern and Maine Central railroads, died this week.

There is a fascinating old-time flavor about Colonel Higginson's article in the September *Harper*. "Old Salem Sea-Captains" are suggestive subjects, and their chronicler and descendant has done full justice to them. One curious fact which he has pointed out is the extreme youth of these mariners when they ruled their ships. They were often captains at nineteen, twenty and twenty-one, and often retired with fortunes before they were thirty.

The Newburyport *Herald* reports that early Monday morning of this week the sea serpent was seen hovering about Eastern point, Cape Ann, by Capt. J. B. Dillingham, A. A. Nagle, Frank Howard and R. B. Jackson of the yacht Julia of Chelsea. Capt. Dillingham saw the serpent about daylight, four different times. It was very long and had four fins or horns, and was going very rapidly through the water, he thought about twenty miles an hour. He has seen many curious things in marine life, but nothing like this; he thinks it must have been the sea serpent. It raised itself up and down, and then disappeared.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

FINANCIAL.

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

JOHN LAIGHTON,

NO. 1 MARKET SQUARE.

Kansas City Investment Co.

An Examiner from our Western Office makes a personal examination of every piece of Real Estate on which our Loans are based. His Report accompanies the Loan. We thus know that all statements made in the applications are correct. Loans taken in this way are perfectly secure. We offer these Loans ranging from $200 to $10,000 with every assurance that they are as safe as anything in the market.

For fuller information enquire at our Eastern Office, over 1st National Bank, Portsmouth.

ATKINSON & COOK'S DRAMATIC COMPANY.

This company closes its week's successful engagement at Music hall to-day, with two performances—Lady of Lyons this afternoon, and Little Em'ly this evening.

POLICE COURT--HATCHELDER J.

FRIDAY, Aug. 27th.

Walter S. Crafts and Charles E. Mitchell were before the court on a charge of brawl and tumult. Michell was discharged; Crafts was fined $2, with costs taxed at $8.04, which was paid.

Hannah Akerman, of Spinney road, for drunkenness was fined $3, costs $6.90; and for not paying was committed to Brentwood.

Madeline Dennis, an Indian woman who came down from Newmarket on Thursday to sell baskets, and after getting here turned her attention to drinking beer instead, was fined $3, costs $6.90, for being drunk by force and arms against the peace of the state, etc. She goes to Brentwood, where she spends a good part of every winter.

Arthur Hurley, a boy, charged with stealing a watch from Ella Forsaith, had his case continued to Saturday forenoon at ten o'clock, and was allowed to go on his own recognizance.

DEMOCRATIC DELEGATES.

The democratic caucuses for the choice of delegates to the councillor, senatorial and county conventions were held in the several wards on Friday evening, with the following result:

WARD ONE.

Councillor—Henry R. Stoddard, Joseph W. Bell, Daniel Mason, Daniel Casey, William Ward, William Conn;

Senatorial—Nathaniel E. Winn, Ira C. Seymour, Michael Crowley, George Lane, Charles M. Newton, Daniel J. Hurley;

County—Samuel R. Gardner, Michael Crowley, Edward Watkins, Daniel J. Hurley, Charles H. Foote, John J. Grogan.

WARD TWO.

Councillor—Richard T. Call, Samuel W. Emery, B. Stowe Laskey, Benjamin M. Parker, John L. Frisbee, James Broughton, Jr.;

Senatorial—Thomas J. Sheehan, Jefferson C. Rowe, Edward J. Moulton, John Conlon, True W. Priest, John H. Wells;

County—Walter H. Page, Willie B. Newton, O. J. Griffin, William Quinn, Daniel P. Pendexter, Michael J. Ryan.

WARD THREE.

Senatorial—Josiah H. Morrison, Edward D. Coffin;

County—Daniel J. Ayers, Timothy Cronin.

WARD FOUR.

Councillor—Horace W. Gray, Augustus Walden;

Senatorial—James Janvrin, James Sanborn;

County—Howell C. Russell, Richard D. Smart.

The delegates to the senatorial convention were instructed to vote for a candidate who would pledge himself to work for the adoption of a law reducing the hours of labor in manufactories from 11 1-2 hours to ten hours a day.

The dates and places for holding the conventions were appointed by the state committee as follows: Councillor, first district, at Manchester on Wednesday, Sept. 1st; 24th district, senatorial, (wards one, two and four, Portsmouth,) at Portsmouth Sept. 2d; 22d dist. senatorial, (including ward three, Portsmouth,) at Newmarket Sept. 9th; Rockingham county, at Portsmouth Sept. 8th.

REPUBLICAN DELEGATES.

At a caucus of the republicans of ward three, held Aug. 26th, the following delegates to the various convention were chosen:

State, Thomas Campbell, Ira Brown;

Congressional, Joseph J. Wain, Richard Davidson;

Councillor, Henry B. Drew, William Sladen;

Senatorial, James Stearns, George H. Holland;

County, John Hallum, Joseph Wain.

SOLAR ECLIPSE.

There will be an eclipse of the sun, Sunday morning, which though total in the equatorial regions of the Atlantic ocean and near the northern portion of South America, will be a very small affair in this latitude, beginning at 6:17 and ending at 6:38. Nobody except the milkman and brown bread distributor would be likely to see even a good eclipse appointed for such at hour as that on a Sunday morning, anyway.

HEAVY RAILROAD BUSINESS.

The travel over the Eastern division of the Boston & Maine road continues to increase, until it is now beyond anything ever known in the history of the line. The through trains have begun to take back from the seashore and the mountains their thousands of passengers. The Bar Harbor express and the Flying Yankee seem to be carrying as many people as ever. The Flying Yankee outward from Boston at 9:00 A. M. has been running in two sections nearly all summer. It is said that there were 1,700 pieces of baggage at the two Hampton stations, Thursday of this week. Of course, no passenger trains could carry such loads in their baggage cars, but it was put into Boston just the same.

The Boston & Maine is laying a second track from the Western division track at Newburyport into the depot of the Eastern division, and will run all trains into and start them from this depot on both divisions. This will admit of the abolition of the "know-nothing" stop at that point.

SAD ACCIDENT.

Thomas Sullivan of Suncook, about thirty years old, visiting friends in this city, was on Friday night about twelve o'clock struck when on the round-house track by an engine backing in to take water, and had both feet cut off at the ankles. He was taken to the police station and Doctors Berry and Whittier summoned, and they at once deciding that amputation of both legs was necessary, he was removed to the Cottage Hospital.

Rear Admiral James E. Jouett, U. S. N., is at the Rockingham. Admiral Jouett makes an official visit to the navy yard this morning as president of the board of inspection.

Chief Engineer Philip Inch, U. S. N., is at the Rockingham.

Paymaster Joseph Foster, U. S. N., will be detached from duty at the naval asylum at Philadelphia, and will return to this city Oct. 1st.

Medical Inspector John H. Clark, U. S. N., is ordered to duty relieving Passed Assistant Surgeon Arthur C. Heffenger in charge of the naval quarantine hospital at Widow's island, Me., and for treatment of naval officers resident in this city.

Mr. Wm. W. Hyde, formerly clerk of the Portsmouth Shoe Co., is in town after an absence of several years.

Oliver Adams will caulk, and Capt. Joseph C. Muchmore will rig, the new schooner now advancing toward completion at Fernald's shipyard, Freeman's point.

Rufus M. Adams and William H. Smart have contracted to build the floating stage for the boat landing at the foot of Gates street.

The brick schooners J. Chester Wood, Triton, Hattie Lewis and Lillie arrived from Boston on Friday, and proceeded up river to load.

There was a lively runaway down Pleasant street, Water street and Newcastle avenue last Thursday evening, by a pair of horses attached to a party wagon. On arriving at the toll-gate, which was closed, they stopped, but not until the gate was somewhat damaged and the pole of the wagon broken by a collision.

Comrade Heman Case of Storer Post, G. A. R., was buried Friday afternoon, a delegation of the post attending the funeral.

Hon. William L. Foster of Concord was in town on Friday, and called upon the mayor relative to the Knibbs patent suit.

The Portsmouth *Penny Post* is one of the most newsy of our exchanges. Since Prof. Albee of Newcastle took charge, the improvement has been wonderful.—*Dover Democrat.*

The *Times* announces that "James Coff, an employee at the Eldredge brewery of Portsmouth, claims to be the champion heavy weight thrower of this vicinity, and challenges any man in the state to throw a hundred pound weight for $100 a side. John Regan, also a resident at the Creek, wants to throw a fifty pound weight with any man in the state for any sum of money."

A train which passed through this city Thursday evening, bound west, comprised twelve passenger coaches, loaded to their full capacity with "summer resorters" on their way home.

A meeting of the subscribers to the Soldiers' and Sailors' Monument fund will soon be called to appoint a committee to select a site for the monument.

It was reported on Friday that the schooner Albert Woodbury, of this port, Downs master, went into Boston on the morning of that day with 100 barrels of large mackerel.

There are many fine cows of improved stock kept in Hampton, the milk of which is largely bought by Mr. Charles Cook, as agent of the Lynn Milk Co. Teams loaded with milk cans are to be seen travelling through the whole town.

The New York *Sunday World* has a sketch of Capt. Albert A. Folsom, for thirty-two years connected with the Boston & Providence railroad, having begun at twenty his railroad career with this road. Mr. Folsom was born in Exeter. He is a man of broad ideas, with large social relations. He has been superintendent of the Boston & Providence road (having previously passed through several grades of service) since March, 1869. He is a past commander of the Ancient and Honorable Artillery Co., and has been an enthusiastic member of the corps for seventeen years. He was one of the representatives of this time-honored organization at the dedication of the Webster statue in Concord in June last.

Musical Queries

Occur to every musical person, whether professional or amateur, pupil or teacher. It is wise to have at hand standard books, like those of DITSON & CO., so that every question may be answered.

How shall I pronounce this Italian word?

Says the embarrassed pupil, who does not wish to appear verdant. Why, purchase *Baldwin's Pronouncing Dictionary of Musical Terms*, ($1.50); in common use in all civilized languages, is given.

Do you wish not to appear ignorant when any musical celebrity is mentioned?

The great *Moore's Encyclopedia of Music* ($5.00) includes *thousands* of musical biographies, and *Upton's Biographical Sketches of Eminent Musical Composers*, ($1.50) will post you as to the principal modern masters.

Do you wish to solve any musical problem?

Stainer's Dictionary of Musical Terms will solve it for you. Cloth, $5.00; Boards, $4.00.

Are you posted in Musical History?

If not, do not fail to purchase forthwith *Ritter's Student's History of Music*, ($2.50) and be no longer ignorant. These books constitute a valuable library, and will speedily repay the price to those who wish to write or talk with accuracy on musical subjects.

OLIVER DITSON & CO., BOSTON.

...ing entry, for the boys can drag themselves along the floor by a cooperative effort of their four hands, trailing their legs as a walrus would its double tail. On the biped plan of progression they can only totter along. The left leg belongs to Juan, the right one to Jacopo, and the anatomical arrangements of the hip-joint and its system of nerves seems a puzzle, for, while the heads of the boys face in opposite directions, the toes of their one pair of feet point both the same way, Jacopo thus being obliged to walk backward unless his brother should consent to walk heels foremost. It might thus almost seem that both Juan and Jacopo walk on Juan's legs, but only Jacopo feels the pinching of the right-side shoe or a fall on the right-side knee. All the nerves on that side of the lower extremities lead to his head, those on the other side to his brother's. The little fellows chat quite pleasantly, and never quarrel about their rations, but now and then convulse the audience by a pretended fit of jealousy. Professor Virchow has published a monograph of the phenomenon, and sees no reason why the twins should not live to a good old age.—Dr. Felix L. Oswald.

The World's Production of Sugar.

The statistics of the world's production of sugar show that there is a steady and large annual increase. The amount of cane sugar produced in the season of 1885-6 was 2,905,000 tons, an increase of 733,000 tons over that of 1884-5, and 1,078,583 tons over that of 1875-6. Cuba led the list with 600,000 tons this season, which was a falling off of 37,000 tons from the year before and 61,058 tons less than in 1875-6. There was also a decrease in the product of Java, the next greatest source of supply, of 60,000 tons from the yield of 1884-5. But in the production of almost all other cane-growing countries there has been, as shown by the totals, a marked advance. The yield of beet-root sugar (2,014,000 tons this season) has fallen off 501,000 tons from the last annual report, but comparison with the statistics of 1875-6 shows a growth of 702,689 tons in ten years.

These reports do not recognize glucose and grape sugar, or sorghum sugar or maple sugar, and are evidently made up from the basis of commercial statistics concerning the sugar that has entered the market. Beyond this there are vast quantities of cane sugar produced for domestic use in all tropical countries and consumed by the producers and their immediate neighbors, which do not enter into the computation. The most notable increase in any country is in the beet-root sugar yield of Russia, which has grown from 222,000 tons in the season of 1875-6 and 386,000 tons in 1884-5 up to 525,000 tons in 1885-6.

The original meaning of the word Halifax is red hair, of Colfax black hair, of Fairfax blonde hair.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

A Tried Remedy for Billiousness.

Those who suffer from disorder or inaction of the liver will never get the upper hand of the unruly organ so long as they use such irrational remedies as blue pill, calomel and podophyllin. But from the tried and popular medicine, Hostetter's Stomach Bitters, they may expect relief with a certainty of obtaining it. The influence of the Bitters upon the great biliary gland is direct, powerful and speedily felt. The relief afforded is not spasmodic, but complete and permanent. The sallowness of the skin, furred appearance of the tongue, indigestion, costiveness, headache, nausea, pains through the right side and shoulder, in fact every accompaniment of the obstinate complaint are entirely and promptly removed by a course of this inestimable medicine, in behalf of which testimony is constantly emanating from every quarter, and from all classes of society.

The locked-out tanners at Peabody and Salem, Mass., it is said are growing uneasy over the small amounts of money they receive from the Knights of Labor.

A C. C. Cranston, floor-walker for Stern Brothers, 32 West Twenty-third street, New York, together with his wife, was troubled with malaria for upwards of two years. They were both entirely cured by taking one or two Brandreth's Pills every night for three months, without interfering with their labor or household duties.

Michigan republicans nominated Cyrus G. Luce for governor.

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

Books, Magazines, &c.

Major Ben: Perley Poor, in his "Reminiscences," tells the following: "Whist was regularly played at many of the 'Congressional messes,' and at private parties a room was always devoted to whist-playing. Once when the wife of Henry Clay was chaperoning a young lady from Boston, at a party given by one of his associates in the cabinet, they passed through the card-room, where Mr. Clay and other gentlemen were playing whist. The young lady, in her Puritan simplicity, inquired: 'Is card-playing a common practice here?' 'Yes,' replied Mrs. Clay, 'the gentlemen always play when they get together.' 'Don't it distress you,' said the Boston maiden, 'to have Mr. Clay gamble?' 'Oh! dear, no!' composedly replied the statesman's wife, 'he most always wins.'"

Florence Knitting Silk.

WHY IS IT SO POPULAR?

Because it is the most durable of any textile known. Because full weights and measures are always given. Because it is pure silk. Because no poisonous dyes are used for the purpose of obtaining an artificial lustre. Because it is "Soft Finish" and easy to knit. Because it is uniform in size and correctly numbered. Because it is positively the only silk suitable for knitting which will bear washing without injury to color or texture!

THE FUR SEWERS OF NEW YORK.

Girls Who Work Hard for a Small Amount of Money—Poison in the Furs.

Of all the skilled labor that women do, probably the worst and most unhealthy is that of the fur sewers, and few live to work at it more than five or six years. They go into a consumptive decline, lose their sight or become victims to arsenical poison. The busy season with fur sewers is during the summer and early fall, as the garments that are to be sold the following winter are made then, and as that also is the season when moths are flying, it is necessary to keep the work-room closed as far as is possible, to prevent any of those dreaded insects from entering. In consequence, the air is filled with minute particles of fur, which keep up a constant irritation of the lungs and a desire to cough which frequently develops into pulmonary consumption in those predisposed that way. The flying hairs also get into the eyes, and there are few of the girls who work at that trade long that do not have red or sore eyes, though some of them attribute that trouble to the presence of the arsenic which has been used to cure the skins. The fur dealers will tell you that there is no danger to the health in that business, and that there are no poisons used in the preparation of the pelts, but one glance at the girls will disprove that, for nine out of ten will show unmistakable evidence of poisoning in their pale faces and puffed out eyelids. Every pelt has to be cured with more or less arsenic, and no amount of subsequent shaking or dyeing will remove it all. The girls receive it into their system with every prick of the needle and every particle of dust they inhale. The very air is scented with its pungent, coppery odor.

Fur sewing is in itself no harder than any other kind of sewing. The workers are generally seated in low chairs and have the work in their laps and thus bend directly over it. The stitch is an over and over one and is sewn with linen thread, and then the seams are flattened out by means of a bone instrument, the wrong side being first dampened. The work is tedious, as it is composed of hundreds of small bits of fur matched and sewn together, to piece out lengths or alter shapes. The sewing up of a garment is the easiest part of it.

Some of the girls who work at the fur trade are set to making buttons for the sealskin sacques, and as this work is comparatively easy it is very poorly paid. They earn by steady work about $4 a week if expert. In some cases a whole family of girls will be found working together. It takes about a year for a girl to learn fur sewing, though those who finish off garments must of necessity understand it better still. The pay is fair for experts, for they can earn up to $10 a week, but the work is not steady, and in the winter and spring there are many idle months, so that the average is at once reduced to $5. When learning, girls usually get $1 a week for the first year, and it is very rare that one receives over $5 a week inside of three years, and this then is reduced nearly one-half by the dull months.—New York Mail and Express.

Death from Malignant Pustule.

A patient suffering from this disease died recently at Guy's hospital, London. He was employed on a wharf, in the handling of foreign hides, and undoubtedly contracted the disease from the hide of an animal which had been affected with the disease known by the French as charbon, by the Germans milzbrand, but by English speaking people as anthrax. The patient noticed a pimple on the back of his neck, which in twenty-four hours became greatly enlarged, and the glands of the neck were swollen. The surgeons removed the enlarged pimple at once, but without avail, the man dying in about four days from the time he first noticed the pimple. This disease may also be contracted by the bite of an insect, a fly for instance, which has been feeding upon the carcass of an infected animal. The microbe of the disease is a bacillus (Bacillus anthracis), and was observed in the blood of cattle as long ago as 1849 by Pollender, although its importance was first recognized by Davaine in 1850.—Scientific American.

Reduction of the Fusing Temperature.

Among the other valuable properties of aluminum the reduction of the fusing temperature of its alloys is notable. A very small proportion, about 5-100 of 1 per cent. of aluminum, in the form of 7 or 8 per cent. alluminum alloy of cast iron, is added to the charge (about sixty pounds) of wrought iron in the crucible the moment this has been melted. The fusing point is at once lowered some 500 degrees, and the charge, now an alloy of iron and aluminum, becomes extremely fluid and can be cast in the finest molds, while the great difference between its temperature and its fusing point gives all the time necessary for manipulating it without danger of it solidifying. The extreme fluidity of the charge allows the ready escape of the gases, which otherwise would make a porous casting, and the result is a remarkably fine, solid, and tough casting of what appears to possess the properties of wrought iron.—Chicago News.

Argentina's Frontier Discipline.

The Argentine Republic employs a corps of frontier guards, largely recruited from the roving tribes of the pampas, but controlled by Spanish-American officers, who seem to enforce subordination by rather peculiar methods. Two or three representative warriors of each tribe are kept under the

My Back Aches!

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but, fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold by druggists everywhere, or sent by mail.

Professor of Medicine at the Royal University; Knight of the Royal Austrian Order of the Iron Crown; Knight Commander of the Royal Spanish Order of Isabella; Knight of the Royal Prussian Order of the Red Eagle; Chevalier of the Legion of Honor, &c., &c., says:

"LIEBIG CO'S COCA BEEF TONIC should not be confounded with the horde of trashy cure alls. It is in no sense of the word a patent remedy. I am thoroughly conversant with its mode of preparation and know it to be not only a legitimate pharmaceutical product, but also worthy of the high commendations it has received in all parts of the world. It contains essence of Beef, Coca, Quinine, Iron and Calisaya, which are dissolved in pure genuine Spanish Imperial Crown Sherry."

Invaluable to all who are Run Down, Nervous, Dyspeptic, Bilious, Malarious or afflicted with weak kidneys. Beware of Imitations.

That Terrible Drain

Which scrofula has upon the system must be arrested, and the blood must be purified, or serious consequences will ensue. For purifying and vitalizing effects, Hood's Sarsaparilla has been found superior to any other preparation. It expels every trace of impurity from the blood, and bestows new life and vigor upon every function of the body, enabling it to entirely overcome disease.

The Labor Troubles in Massachusetts.

The lasters' strike at Brockton has been amicably settled through the renewed intervention of the peace committee. It was agreed that the factories should start up at once on the following basis: "Prices to remain in force and be properly applied to the grades of work for which they were compiled, until April 1st, 1887. Any disagreement to be settled by committees of the manufacturers and of the lasters' union. If the committees cannot concur on the question at issue it shall be referred to a board for final arbitration; such board is to be appointed by the said committees within four days of the disagreement. No union laster is to be discharged on account of his connection with the union."

A Salem despatch of Aug. 27th says: "That the manufacturers of leather in Salem and Peabody are in no hurry to reopen their tanneries and shops is evinced by the fact that several who are known to have been offered the services of a dozen or more non-union men have declined to start up at present. At the same time it is equally evident that they do not intend to abandon their business, as at nearly every yard improvements are in progress. In reply to an inquiry, one of the largest manufacturers said to-day: "We are making money every day by this shutdown. We had been doing business without making any profit, as hides were high and leather low, but this shutdown just reverses this state of affairs, and hides are falling, while leather is rising. The association was never so strong as it is to-day; when we get ready we can get all the help we want at the old terms and can make some money.' The strikers have given up all hopes of accomplishing anything by intimidating non-union men, and now seek to buy off new arrivals, but many of the Knights are about discouraged at the outlook for the success of the strike. Harrington & Co. had seven more non-union men arrive this afternoon."

NAVY YARD ITEMS.

The naval board of inspection and survey, consisting of Rear Admiral James E. Jouett, president, Capt. Robert F. Bradford, Commander Henry C. Taylor, Chief Engineer Philip Inch and Naval Constructor Philip Hichborn, on Saturday forenoon paid an official visit to this navy yard, embarking on the commandants launch from the navy landing at the foot of Daniel street, and being received at the yard with the customary salute and other formalities.

Naval Constructor Mintonye, attached to the Portsmouth navy yard, arrived in this city from Washington by the ten o'clock train Saturday forenoon, and proceeded to the yard by the Emerald on her eleven o'clock trip.

If the sum of $100,000 were laid out on the dry dock at this naval station it would be no more than is needed to put it in proper repair; and an additional $30,000 is needed for the relaying of the upper four courses of stone work of the dock basin. Both these expenditures should be made, for the dock is a valuable piece of property, and under some circumstances might be invaluable to the country.

AROUND HOME.

The Appledore and Oceanic hotels will close on Friday, Sept. 10th, and the Shoals steamer will cease running on that date.

Edward C. Stimson, Esq., of Aspen City, Colorado, who with his wife has been visiting his parents in this city, started for home on Saturday.

It is said that an electric light is to be placed at the turn of the Vaughan street extension, just below the Mason mill; one at the junction of Vaughan and Elm streets, near the residence of Capt. John G. Moses; and one near Cox's store on Christian Shore.

Nearly all the naval officers resident in the city, and a number of prominent citizens and ladies, called at the residence of Capt. R. F. Bradford on Court street, Saturday afternoon, to pay their respects to Rear Admiral Jouett.

Mr. Richard H. Paine, manager of the wholesale manufactory of overalls in the Association building on State street, is on a business visit to Aurora, Ill.

On Saturday forenoon Mr. Henry Hammond, while at work on the new coal pocket on Noble's island, cut a formidable gash on the inside of one thigh. He was taken to the depot on an engine, and from there to Dr. Parsons' office in a hack; but after the wound was dressed he walked home, the tool with which he was cut having fortunately missed all large arteries and veins, though coming dangerously near some of them.

Miss Annie E. Smart returned home on Saturday, much improved in health. Percy O. Smart has been visiting his sister, Mrs. A. A. Adams at Cambridgeport, Mass.; he also has returned home.

Mr. Thomas O. Marvin, of Tuft's college, preached in the Universalist church on Sunday morning. Mr. Marvin, although young in years and still a student, gave a very mature and finely written and delivered address. He has been spending his vacation in this city and vicinity, and returns to his studies to-day.

One hundred and fifty-seven veterans of the 27th regiment of Maine war volunteers attended the reunion of the survivors at North Berwick on Friday, Aug. 27th, including fourteen from Kittery, one of whom was Capt. "Rashe" Trefethen of the steamer Mystic. Speeches were made by Nathaniel Hobbs, Esq., of North Berwick, and Gen. Samuel Hall of Waldoboro; and a lady from Biddeford gave some highly enjoyable recitations. The next reunion of the regiment will be held at Buxton Centre on Saturday, Aug. 27th, 1887.

Arnold Heap, Esq., of Chicago, and Mrs. Heap, (formerly Miss Annie Baker,) who have been visiting Mrs. Heap's mother, Mrs. Sarah S. Baker, start for their home to-day.

Miss Laura Hodgdon, daughter of the late John Hodgdon of this city, is visiting at the home of Mrs. James Pinder on Little Harbor road. Miss Hodgdon has for several years been making her home with an uncle residing in Mississippi.

Thomas Sullivan, the unfortunate man who was run over by an engine near the round-house on Friday night, had one of his legs amputated a short distance below the knee, and the other just above the ankle. He was comfortable Sunday afternoon, at the Cottage Hospital, but it was too soon to predict with confidence the final result of the accident.

Though a brisk breeze from the northward and eastward was blowing on Sunday, the air was thick all day with smoke, probably from extensive forest fires on the coast of Maine, and a long distance away.

George A. Langmaid, for some years past foreman of the stitching room at the Portsmouth Shoe Factory, was on Saturday afternoon presented with a ring (onyx and gold) and a scarf pin, by the girls of the room, his connection with the establishment closing with the end of August.

Mr. Edward S. Warburton, son of the late J. W. Warburton of this city, a young man recently graduated from the Bijou Dramatic school of Boston, has made an engagement with John Murray, under the management of Mr. Murray, Jr., and leaves town to-day to join the company at Norwich, Conn.

A Great Victory

A Terrible Case of Scrofula Cured by

Hood's Sarsaparilla

"In the winter of 1879 I was attacked with Scrofula in one of the most aggravating forms. At one time I had no less than thirteen large abscesses over and around my neck and throat, continually exuding an offensive mass of bloody matter disgusting to behold, and almost intolerable to endure. It is impossible to fully describe my sufferings, as the case was complicated with Chronic Catarrh. After three years of misery, having been treated by three physicians, I was worse than ever. Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken twelve bottles, within the last twelve months, the scrofulous eruptions have entirely ceased, and the abscesses have all disappeared, except the unsightly scars, which are daily becoming smaller by degrees, and beautifully less." I do not know what it may have done for others, but I do know that in my case, Hood's Sarsaparilla has proved an effective specific indeed. As an evidence of my gratitude I send these facts unsolicited, and I am ready to verify the authenticity of this cure, by personal correspondence with any one who doubts it." CHARLES A. ROBERTS, East Wilson, N. Y.

This statement is confirmed by W. J. Huntley, druggist, of Lockport, N. Y., who calls the cure *a great victory* for Hood's Sarsaparilla. Send for book giving statements of many cures.

The *Times*, organ (if so weakly a thing can be called an organ) of the great democratic brewers of this city, is expatiating upon the evils of intemperance. We are led to exclaim in the language of Gen. Gibson: "What queer things democrats are!" We shall expect hereafter to find teeth growing on the under jaws of cattle.—*Penny Post.*

That expectation should easily be realized. If the agricultural editor of our penny contemporary can only find incisors growing on the upper jaws of cattle, he will have a phenomenon indeed to announce to the world.

Mr. Porter B. Emery of Kittery Point, well known to the down river rangers of five or six years ago as manager of the Burnham farm on Gerrish's island, now owned by Mr. Jennison and including the site of the Hotel Pocahontas, was on Wednesday of last week, after ten years of wedded life, presented by Mrs. Emery with a fine daughter.

It is asserted that the woman arrested at the Joseph Akerman place on Spinney road, Thursday night, fighting and howling drunk, and sent to Brentwood on Friday, is not Akerman's wife, who is a hard-working and temperate woman, but his sister, Hannah Smith, who is no better than she ought to be.

The big excursion steamer Empire State made a trip from Boston to the Isles of Shoals on Friday last, with over 1,200 passengers.

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years, when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight st., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterpock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S

Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."

FINANCIAL.

INVESTMENTS.

I am prepared to furnish the most desirable investments in County Bonds and Guaranteed Farm Mortgages, paying 6 and 7 per cent semi-annually. On Farm Mortgages, only from 25 to 33 per cent of the actual cash value of the property is loaned, and the title, location, quality of land and future prospects of the property are personally looked up. Farm Loans are, when negotiated by experienced and responsible parties, the most profitable security offered, especially for those having small sums to invest from time to time. The Loans I offer are First-Class in every respect. Principal and interest when due, paid here without expense to the holder.

I have these Loans in sums from $300 to $5,000.

JOHN LAICHTON,

THE STURDY YEOMANRY CUT BUSHES.

Farmer Hiram Chase, of Creek road, had a bush-cutting festival on Friday last in what the other farmers of the locality call "Peyser's old pasture," which Mr. Chase has had cleared of trees, and proposes to put under cultivation. About thirty of the neighbors, including Farmer Treat, mustered with bush scythes, and the havoc created among the barberry, juniper and wild rose bushes, etc., was excelled only by the utter extinction visited upon the abundant chowder (and other necessaries) provided for the occasion. Farmer Treat was down town Saturday showing a lot of big blisters on both hands, and causing great speculation among his friends and acquaintances as to what in the world could have induced him to work so hard when the mercury was indicating ninety-eight in the shade.

POLICE COURT--HATCHELDER J.

SATURDAY, Aug. 25th.

Arthur Hurley, larceny of watch from Ellen Forsaith, case continued from previous day, was again continued to Sept. 4th.

MUSIC HALL.

Atkinson & Cook's Dramatic company on Saturday finished a highly successful week's business at Music hall, with two performances. The matinee was attended by an audience that filled the hall, the Lady of Lyons being the attraction; the Pauline of Miss Maud Banks was a decided improvement over her presentation of the part on the Thursday evening previous, and the performance as a whole, in the smoothness of its running, showed a noticeable advance on the part of the entire company. The evening performance was attended by such a throng as must have made the management feel very good natured, empty seats not being visible; Little Emily, Charles H. Thayer's dramatic version of Dickens' great story, David Copperfield, was presented with special scenery and elaborate stage effects, and the entertainment was considered by many to be the best of the week.

The Banker's Daughter was given last evening at the Academy of Music by Crossen's company before a large and well-pleased audience. The company presenting the play is an admirably well-balanced one; it fact, everybody in the cast was fully up to the requirements assigned them. The piece was very effectively set, the most notable scenes being the vestibule and stairway of the house of the American minister at Paris, and the ruins of the chateau, near Paris, where the duel takes place in the fourth act.—*Norfolk Virginian.*

At Music hall Wednesday evening; tickets at Goodrich's.

W. M. Babbitt, general agent of Pat Rooney's Comedy Co., was in town on Saturday last, making arrangements for the appearance of the company in Music hall next Saturday evening.

LADY AND GENTLEMAN PILFERERS.

Shortly after twelve o'clock, Saturday night, a party of ladies and gentlemen were making night hideous on the north millbridge; and either they or others, between midnight and morning, carried off the last-remaining set of steps of the four sets which formerly led into the mill, ripped up and removed some of the platform, and did other slight damage. It is to be hoped the next party of marauders will carry the mill off bodily,—that is, unless the city will put it to some use. W.

HEAVY DAMAGES ASKED.

Michael Kelly and Dennis Kelly were arrested on Saturday by Sheriff Kent on a capias writ. It is charged by James Farrell that he was violently assaulted a few days since by the Kellys. Farrell claims $2,000 damages. The Kellys gave bail. Farrell is in jail in default of $5,000 bail, having been arrested on a charge of libel upon complaint of Ellen Scott. He has also been sued for damages in $10,000 on two other suits.

CRICKET.

The Dover cricket club played a game with the Portsmouth club on the grounds of the latter near Frenchman's lane, Saturday, the Portsmouth club winning by the following score:

DEATH OF GEORGE HERBERT.

Mr. George Herbert, restaurant keeper, of Water street, died on Saturday last, after a gradual but constant decline in health extending over several years, and due to a bite on one hand received from a drunken man who entered his place of business and commenced creating a disturbance. In the endeavor to eject the man without hurting him, Mr. Herbert was bitten by him; blood poisoning resulted, and for several days his life was in danger; and though a partial recovery was soon effected he never fully regained his former vigorous health. Mr. Herbert before this had at times dealt quite largely in fresh fish for the metropolitan markets, and to some extent did so afterward; but though his cheerful disposition and good temper remained, he was never again the same energetic business man he had been. We are not aware that he left any enemies.

FUNERAL OF CAPT. WM. MITCHELL.

The funeral of Capt. Wm. Mitchell, general agent of the Boston & Maine railroad at Portland, which took place at his home at Deering on Sunday, was one of the most numerously attended by railroad men of prominence ever held in the state of Maine. The services were most effectively conducted by Rev. Mr. Bicknell, who will be remembered as one of the popular pastors of the Universalist church in this city. Among those present were General Manager Payson Tucker of the Maine Central; D. W. Sanborn, superintendent of Eastern Division B. & M.; Wm. Merritt, superintendent of Western Division B. & M.; Levi Lincoln, formerly superintendent Maine Central; Conductors Winn, Silsbee, Ferguson, Kennard and Bennett, and Engineer Green of this city. Extra trains were run to accommodate the three hundred or more railroad men who wished to pay their last tribute of respect to Capt. Mitchell, and all were deeply impressed by the eloquent eulogy paid their departed friend by the officiating clergyman.

NARROW ESCAPE FROM DROWNING.

While Dr. F. J. Bonney and Mr. Louis Schwarz were rowing on the river Sunday afternoon, when near Marvin's island their boat was suddenly capsized. Mr. Charles Humphreys witnessed the accident, and promptly went to their relief. Mr. Schwarz clung to the boat until rescued, but Dr. Bonney was not so fortunate. He, however, did not lose his presence of mind, and kept his hands down. When rescued he was nearly exhausted.

BASE BALL.

A very interesting game of base ball was played at Noble's island on Friday last, between the Kittery club and the Bound-to-Wins of this city, the score at the end being eleven to five in favor of the Kitterys. The features of the game were were the pitching and catching of the Kittery battery, and the base running of G. Hector and H. Quinn of the Bound-to-Wins.

The game of base ball at Rye beach, Saturday afternoon, between the Portsmouth club and a picked nine of Rye players and summer boarders, was won by the Portsmouth club, by a score of thirteen to six.

MARITIME NOTES.

The big schooner yacht Gitana, ninety-three tons register, Sherlock sailing-master, of and from Boston, arrived in the lower harbor Friday night, and laid at her anchor all day Saturday, awaiting a favorable wind for the homeward trip.

Quite a large party of excursionists took advantage of the half rates to the Shoals by the steamer Oceanic on Friday last. The same rates will be obtainable each Tuesday and Friday as long as the boat runs.

The steamer Mystic made what will probably be her last Sunday trip to the Shoals this season, with the mails, papers and supplies, on the 29th inst.; the wind was strong from the east-northeast, and quite cool, but about fifty passengers went out in her notwithstanding.

The waters over and around York ledge were on Saturday alive with tinker mackerel, with a few large ones mixed in; but seining them was out of the question, owing to the shoal water and ragged bottom, and they would not take the hook.

Lawn Party.

Miss Mary I. Evans and some of her young lady friends are to have a lawn party, sale of ice cream, cake, confectionery, and bric a brac, at the late residence of Rev. James DeNormandie, on State street, for the benefit of the New Hampshire Society for the Prevention of Cruelty to Animals, next Tuesday afternoon. Many beautiful articles have been contributed by friends of the cause, in this state and also by its patrons in Boston. The young ladies who are to do the honors of the occasion gave a similar party last year and charmed all of their guests by graceful courtesy and genuine hospitality. Admittance ten cents.

Another strike is threatened on the Lake Shore railroad.

FALL TERM COMMENCES
SEPTEMBER 6th. 1886,
—FOR—
LADIES AND GENTLEMEN.

Prepares students for the "Institute of Technology, Boston University, or for admission to any College

The Business Course is intended to meet the special wants of those who wish in the shortest time to prepare themselves for the duties of the Store, the Counting Room, or any of the Mechanic Arts.

The success of the school is attested by hundreds who have enjoyed its advantages during the thirteen years of its existence, and who now in every part of the world are prospering in almost every honorable occupation. The Principal hopes by attention to the educational progress of the times to offer superior advantages to the patrons of the school.

While pupils are admitted at any time, it is very desirable that attendance commence at the beginning of the term.

For further information apply to the Principal, LEWIS E. SMITH.

Musical Queries

Occur to every musical person, whether professional or amateur, pupil or teacher. It is wise to have at hand standard books, like those of DITSON & CO., so that every question may be answered.

How shall I pronounce this Italian word?

Says the embarrassed pupil, who does not wish to appear verdant. Why, purchase *Ludwig's Pronouncing Dictionary of Musical Terms,* ($1.50) in common use in all civilized languages, is given.

Do you wish not to appear ignorant when any musical celebrity is mentioned?

The great *Moore's Encyclopedia of Music* ($5.00) contains *thousands* of musical biographies, and *Pelitzer's Biographical Sketches of Emin of Musical Camp news,* ($1.50) will point you as to the principal modern masters.

Do you wish to solve any musical problem?

Stainer's Dictionary of Musical Terms will solve it for you. Cloth, $2.50; Boards, $1.50.

Are you posted in Musical History?

If not, do not fail to purchase forthwith *Ritter's Musical's History of Music,* ($2.50) and be no longer ignorant. These books constitute a valuable library, and will speedily repay the price to those who wish to write or talk with accuracy on musical subjects.

Surveyance of a squad of thirsty veterans, and at the first symptom of mutiny these hostages are cornered and watched at the muzzle of a cocked revolver, while the officer negotiates with the malcontents. Convicted mutineers, however, are no longer flogged, a disgrace which their kinsmen would avenge at all risks, but either shot outright or ordered to run for their lives, followed after a quarter of a minute by a long-range volley of musket-balls.—Dr. Felix L. Oswald.

Difference Between Sunstroke and Inebriety.

Sunstroke is a very badly chosen term, seeing that a large number of persons who are thus overcome by the heat are in the shade, or under cover at the time. Bakers in ill-ventilated rooms often exhibit precisely similar symptoms; only this week I had a sunstroke patient brought in at midnight from a cellar. The fact is, if a man gets overheated beyond a certain point he either perspires very freely or gives way. There is a peculiar smell about a sunstroke man that seldom deceives, but sometimes it is difficult to be certain whether he was more than drunk. When I was in the city hospital I had, during the summer of 1873, thirty or forty cases every day, and the never-failing test was to dip the patient into an ice-cold bath. If he was sunstruck, he would show signs of relief, and be quiet, but if he was drunk, he would sober up in an instant, and quote Scripture and recite poetry with an emphasis which was astounding.—Dr. Priest in Globe-Democrat.

Young Carp in the Black Hills.

George Wells was at Morse's Big Springs ranch and witnessed the work of draining Morse's carp pond. He tells us that the pond literally swarmed with young carp, varying in length from one to three inches. A great many patent pailfuls of the young fish were taken out and transferred to a new place prepared for them. Of the thirteen carp originally introduced in the pond three years ago, eleven were found in good condition and averaging something over four pounds in weight each. When these fish were introduced they were the same size of the young fry now in the pond. Mr. Wells purchased 100 of the young fish, paying for them 25 cents each. He offered Morse $25 for one of the old fish, but Morse refused the offer. The increase has been wonderful, and when it is taken into consideration that these fish grow to weigh from forty to sixty pounds it may be understood that there will be no lack of good, fresh fish in the Black hills in a few years.—Black Hills Journal.
